THE following Report of the Select Committee appointed to consider amendments referred to them in the Bill to amend the law relating to Embankments and Water-courses, together with the Bill as amended by the Committee, is, by order of the President, published for general information:—

We, the undersigned, the Members of the select committee of the Council of the Lieutenant-Governor of Bengal for the purpose of making laws and regulations, to which the Bill to amend the law relating to embankments and water-courses was referred for the purpose of considering the amendments proposed by the Hon'ble V. H. Schalch in the Bill as amended by the former committee and submitted with their report of the 5th August 1872, have the honor to report that we have considered the said proposed amendments; that we have adopted some of them as proposed; and that we have introduced some others with certain alterations.

We have provided for the payment of a portion of the expenses by a first or second class municipality which is benefited by the work executed.

We have preserved the system, which has existed for many years, for recovering the cost of maintaining the Gunduk embankments in the Sarun district.

We have provided for the assignment to a certain estate or tenure of lakhiraj lands which are not included within the local limits of any estate or tenure.

We have given power to the Magistrate to remove an embankment or obstruction illegally constructed, if the person who constructed it fails to remove it within a fixed time.

We have provided for the extension by Government of the Hooghly and Burdwan Drainage Act to any scheme proposed for similar objects of which the Lieutenant-Governor may approve.

We have confined our attention to the amendments which were laid before the Council by the Hon'ble V. H. Schalch, and report upon them alone.

If he differ from the Collector, the case shall be referred to the Commissioner of Revenue, who shall pass such orders thereon as he may deem fit.

PART IV.

Procedure in cases of imminent danger to life or property.

Proceedings in emergencies.

23. Whenever the Engineer shall be of opinion that the proceedings commenced by notice under Part III of this Act would cause delay in the exercise of any of the powers by Sections 5, 6, and 7 conferred upon him, likely to be attended with grave and imminent danger to life or property, he may forthwith commence to exercise such powers without reference to the Collector. Provided that he shall forthwith inform the Collector thereof and of the nature of the danger, and give notice of his intention to continue to exercise such powers. The Collector, in any case where he shall see fit, may direct the Engineer to suspend further action until after the completion of such proceedings and enquiries. Provided that he shall, so soon thereafter as he conveniently may, give notice thereof to the Collector.

Power to restore embankments, &c.

27. Whenever, upon an enquiry had under the provisions of this Part, it has been determined in the final and conclusive order to be passed on such enquiry that anything done by the Engineer was unnecessary, the land or the embankments or drainage shall, so far as any alteration thereof shall appear to be unnecessary, be at the expense of the Government restored as nearly as possible to the state in which they were when the Engineer commenced to act under the provisions of this Part; and any person who shall have sustained loss, damage, or injury by the execution of such works, shall receive compensation from the Government to be assessed and imposed according to the provisions contained in Part V of this Act.

PART V.

Acquisition of lands.

Acquisition of land.

28. Whenever in the course of proceedings under this Act, save in those cases in which the Engineer has proceeded under the provisions of Part IV, it appears that land is required for any of the purposes thereof, such purpose shall be deemed to be a public purpose within the meaning of The Land Acquisition Act, 1870, and such proceedings shall be forthwith taken as are directed by the said Act or by any other law for the time being governing the acquisition of lands for public purposes.

When land taken, notice to be published.

29. Whenever any land shall have been taken or used under the provisions of Part IV, the Collector shall, unless he shall direct the Engineer to suspend further action, cause public notice in form in Schedule (D) to be given at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all incumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.

Contents of notice.

30. Such notice shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days, after the date of publication of the notice), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.

Further notice to be served on certain parties.

31. The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.

Proceedings after notice.

32. After service of such notices proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, and all the provisions contained in Sections 10 to 15, 18 to 34, 36, 37, 38, 42, 51, 55, 58 (as amended by Act IX of 1871), and 59 of the Land Acquisition Act, 1870, shall be applicable to such proceedings.

Compensation for consequential damage.

33. Whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by the due exercise of the powers or provisions of this Act, the person in whom such right is vested may prefer a claim by petition to the Collector for compensation.

Application to be made within a year.

34. No claim shall be entertained which shall be made later than one year next after the completion of the work by which such right is injuriously affected.

Procedure for such compensation.

35. Subject to the provisions of the next preceding section, the Collector shall proceed to enquire into each claim made, and to determine the amount of compensation, if any, which should be made, and the person to whom the same should be payable, and the Collector, on the receipt of such claim, shall fix a time and place for hearing such claim, and Sections 9 to 15, 18 to 23, 26 to 34, 36, 37, 38, 51, 54, 55, 58 (as amended by Act IX of 1871), and 59 of the said Land Acquisition Act, 1870, shall apply to enquiries into such rights as aforesaid, or the exercise of such rights as aforesaid, and to the awards of compensation for injuries to such rights as though they were rights in and awards of compensation for land needed for a public purpose.

Matters to be considered in determining compensation.

36. In determining the amount of compensation to be awarded in such cases, the Judge and Assessors shall take into consideration—

First, the market value of the property injuriously affected at the time of acquiring the land;

Secondly, the damage sustained by the claimant by reason of such acquisition injuriously affecting the property;

Thirdly, the consequent diminution of the market value of the property injuriously affected at the time of acquiring the land.

Matters not to be considered in determining compensation.

But the Judge or Assessors shall not take into consideration—

First, the degree of urgency which has led to the acquisition;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

Appeal from Judge's decision as to compensation.

37. If the Judge differs from both the Assessors as to the amount of compensation under the provisions contained in Section 32 or Section 35, he shall pronounce his decision, and the Collector or the person interested (as the case may be) may appeal therefrom to the Court of the District Judge.

Determination of proportions.

38. When the amount of compensation has been settled by the Court, under the provisions contained in Section 32 or Section 35, and there is any dispute as to the apportionment thereof, or when a reference to the Court has been made, the Judge sitting alone shall decide the proportions in which the persons interested are entitled to share in such amount.

Every appeal under the two last preceding sections shall be presented within the time and in manner provided by the Code of Civil Procedure for regular appeals in suits.

Payment of compensation to whom made.

39. Payment of the compensation shall be made by the Collector according to the award to the persons named therein, or in the case of an appeal according to the decision on such appeal. Provided that nothing herein contained shall affect the liability of any person who may receive the whole or any part of any compensation awarded under this Act, to pay the same to the person lawfully entitled thereto.

Land, &c., taken possession of to vest in Secretary of State.

40. All land, earth, pathways, sluices, gates, hermes, hedges, belonging to or forming part of any embankment or watercourse, of which charge has been or may hereafter be taken by the officers of Government, shall vest in the Secretary of State for India, and shall be held by him on behalf of the Government in respect of the embankments mentioned in Schedule E annexed to this Act, and in respect of other works on behalf of the persons interested in the lands to be protected or benefited by such embankment or watercourse, subject to the provisions of Section 69; and all monies received on account of such lands shall be payable to the Engineer and credited to the cost of the construction and maintenance of such works respectively.

PART VI.

COST OF WORKS, PROCEEDINGS, &c.

1. *Ascertainment thereof.*

Embankments in schedule E

41. The provisions in this Part contained shall not apply to any of the embankments mentioned in Schedule (E) to this Act annexed, save so far as any works or repairs are executed therein or in relation thereto under the provisions of Sections 10 and 13 of this Act respectively. All sums payable in respect of any works or repairs executed therein or in relation thereto, except under the provisions of the said sections respectively, shall be paid by the local Government. If at any time after the passing of this Act the Collector, on enquiry made by him as far as possible in accordance with the provisions of Part III of this Act, shall find that it is unnecessary for the public interests to retain any embankment mentioned in Schedule (E), the Lieutenant-Governor may direct that the same shall be no longer included in the said schedule. Provided that the same shall be restored to the said schedule if on any subsequent enquiry similarly conducted it shall be found necessary so to do.

Alteration of schedule.

Estimate and specifications to be prepared.

42. Specifications of any works or repairs to be executed under the provisions of this Act, and estimates of the expenses to be incurred therein or relating thereto, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer as soon after the month of October in each year as may be practicable. And whenever it appears that the actual expenses to be incurred will exceed the amount mentioned in the said estimates by one-tenth, the Engineer shall forthwith prepare further estimates, and, if necessary, further specifications. Copies of all specifications and estimates shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs. Notice of the receipt of specifications and estimates shall be served for all estates chargeable for or likely to be affected by the said works or repairs; and should any objection in regard to the amount of such expenses be preferred by any such person within a period of one month from the date of such notice, the Collector shall communicate the objection, with his own opinion thereupon, to the Engineer, who shall pass such orders as may appear to him reasonable and proper. Such order shall be subject in any case to an appeal by the person making such objection, and to a reference by the Collector, to the Commissioner whose decision shall be final.

Preparation and settlement of accounts.

43. The accounts of the actual expense incurred in executing any works or repairs shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the true amount of all such expenses and the names of the estates chargeable for and of the estates and villages affected by the said works and repairs. Copies of the said accounts and certificates shall be forwarded to the office of the Collector, and may be there examined by any person interested. Notice of the receipt thereof shall be served for the said estates and villages and such others as in the opinion of the Collector are liable to contribute to the payment of the said amount; and if, within thirty days from the service of such notice, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates, the Collector shall enquire into such objection, and may pass any order thereon subject in any case to an appeal by the objector or to a reference

by the Engineer to the Commissioner of division whose decision shall be final.

Total sum payable.

44. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of compensation, costs and expenses under and incidental to any proceedings taken or directed to be taken under Parts III and V of this Act, including costs of all surveys and plans. He shall thereupon make an order specifying the total sum found payable, and in respect of works done under Sections 9, 12, and 13, the persons by whom, or in respect of other works the estates in respect of which, the same is payable to him. Provided that the Collector may, if he thinks fit, order that a portion of the total sum payable shall be paid by any municipality of the first or second class which is in his opinion benefited or protected by the works or repairs executed. If the order is made in respect of work done under Sections 9, 12, or 13, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next chapter contained. Interest may be charged upon any sum paid as compensation from the date of payment thereof at such rate, not exceeding 5 per cent. per annum, as the Lieutenant-Governor may direct.

Parties liable to pay.

45. The said total sum, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed. Provided that where any specific sum has hitherto been annually demanded in respect of any embankment not included in Schedule E, and when the said embankment is at the time of this Act coming into operation being maintained by Government, then such special payments shall, after the passing of this Act, thenceforth cease and determine.

Every zemindar, who is liable under this rule for the payment of the whole or a portion of such total sum, shall be entitled to recover from the proprietor of every tenure which is declared to be a part of his estate, the sum apportioned to such tenure by the Collector, under the provisions of Section 50. And similarly, every proprietor shall be entitled to recover from the proprietor of any subordinate tenure, which is declared to be a part of his tenure, the sum apportioned to such subordinate tenure by the Collector, under the said provisions.

---

2. *Apportionment thereof.*

Notice to be given before apportionment.

46. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause a notice to be served for every one of the said estates and villages mentioned in Section 43. Every such notice shall specify the estates and villages aforesaid, and that an enquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and proprietors the said total sum, with interest and the costs of apportionment.

Whenever it has been ordered by the Collector that a municipality is liable for a portion of the said total sum, the notice shall contain a statement to that effect, and shall be served on the Chairman of the municipality.

Mode of enquiry as to the proportion chargeable to each estate.

47. On the day fixed in the said notice, which shall not be less than thirty days later than the date of any service of such notice, the Collector shall proceed to make the said enquiry. In making this enquiry he shall receive such evidence as may be tendered by, or on behalf of, the said zemindars and proprietors, and by, or on behalf of, any other persons who may claim to be interested therein.

Names of proprietors.

48. In any such enquiry the Collector shall take down in writing the names of all persons who may claim, or who may be alleged by any party interested, to be proprietors of tenures within any of the estates mentioned in such notice. In default of appearance of any such person, the Collector shall issue and serve a notice calling on him to appear at a date and place therein mentioned, and to show cause against being included in the order of apportionment to be made therein, and shall adjourn the enquiry till such date.

Apportionment amongst zemindars.

49. At such or any subsequently adjourned enquiry, the Collector, if there be only one estate liable, shall charge the zemindar thereof with the total amount payable; and if there be two or more estates, he shall apportion the same amongst the zemindars thereof, rateably in the proportion of the respective benefits derived by such estates from such works or repairs; or in proportion of the areas of the lands benefited or protected thereby, and comprised within such estates respectively; or with the sanction of the local Government in proportion to the amount of revenue respectively payable for such estates, if, before the passing of this Act such proportion has been usually adopted.

Provided that the said total amount payable in respect of the embankments on the right bank of the river Gunduk shall be chargeable, in accordance with the custom in force for such estates, to the zemindars of all the estates situated in the district of Sarun, in proportion to the amount of revenue respectively payable for such estates.

Amongst proprietors.

50. The Collector shall, in like manner, apportion, except in respect of the said Gunduk embankments, the amount payable in respect of each estate amongst all the tenures therein, rateably in the proportion of benefit so received or area so benefited or protected, first deducting therefrom such sum as on the like principle of proportion is payable in respect of such portion of the estate as is not included within any tenure.

51. The Collector shall likewise determine the amount payable in respect of any municipality rateably in proportion to the benefit derived by it from the work or repair executed, and the remaining sum shall be apportioned as directed in the two last preceding sections. Provided that no rate-payer in such municipality shall be required to pay any portion of such remaining sum in respect of any tenure which is situated within the limits of such municipality.

52. All lands held without payment of rent, not being estates entered in the register of revenue-free tenures, shall, for the purposes of this Act, be deemed to form a part of the tenure within the local boundaries of which they are included; and, if they are not included within the local boundaries of any tenure, then to be a part of the estate within the local boundaries of which they are included; and if they are not included within the local boundaries of any estate, then to be a part of such conterminous estate as the Collector, in whose district such conterminous estate is situated, shall by an order under his seal and signature, declare.

Payable by instalments.

53. The amount apportioned to any estate, tenure, or municipality shall be payable in equal instalments on such days as the Lieutenant-Governor shall direct, provided that no instalment shall exceed four annas for every acre of land in respect of which the same is payable, and that not more than four instalments shall be payable in any one year. And provided also in the case of a municipality that the instalment payable in any one year shall not exceed ten rupees per centum of the total income of such municipality during the year last preceding.

Interest.

Interest shall be charged on the unpaid portion of the said amount from the date of the same becoming due until payment thereof at such rate, not exceeding five per cent. per annum, as the Lieutenant-Governor shall from time to time determine.

Final order of apportionment

54. On the completion of the apportionment the Collector shall make an order specifying the estates and tenures, and the several sums payable in respect thereof, the instalments of such sums and the dates on which the same are payable.

3. *Recovery thereof.*

Orders for payment

55. The Collector shall, within thirty days from the final order of apportionment, make and serve for every estate therein mentioned an order, stating the amount with interest due in respect thereof and that the same is payable to him, and the date or dates at which such amount or instalments thereof shall become payable to him.

Recovery from zemindars

56. If such sum or any instalment thereof be not, pursuant to the said order, paid, the same with interest shall be recoverable as arrears of a demand under the provisions of Bengal Act VII of 1868 (*to make further provision for the recovery of arrears of land revenue and public demands recoverable as arrears of land revenue*).

From proprietors.

57. Every zemindar or proprietor to whom any sum or instalment thereof is payable under the said order, may recover the same with interest as aforesaid in the manner provided for the recovery of arrears of rent in respect of putnee tenures by the provisions of clauses 2 and 3 of Section 8, Section 9, 10, 14, 15, and clauses 1, 2, and 3 of Section 17, of Regulation VIII of 1819, as amended by Bengal Act VIII of 1865; provided that the right or interest of any person holding from the proprietor of such tenure shall not be affected by any sale held under these provisions. A copy of the said order, certified under the name and seal of the Collector, shall be received in any suit for the recovery of the same as conclusive evidence that the amount was apportioned as therein mentioned, but shall not be evidence as to the existence of, or as to any right in the tenure to which the said amount has been apportioned.

It shall be lawful for the Commissioners of any municipality to pay to the Collector, on the dates fixed by the order passed under Section 54, the sum which is declared in such order to be payable in respect of such municipality; and for the purpose of realizing the amount so disbursed to increase the rate of any tax leviable therein.

60. If the medical inspector shall certify that any emigrant so examined is in such a state of health that his journey to any labor district would be dangerous to himself or to others, or that he is unfit for labor in a labor district, the superintendent may order the contractor, or the garden-sirdar, if such emigrant has been brought to the depôt by a garden-sirdar, to pay to such emigrant such sum as shall to the superintendent seem necessary to enable him to return to the place at which he was registered. Provided that any such emigrant, who from his state of health is, in the opinion of the medical inspector, unfit to undertake the journey back to the place where he was registered, shall, in addition to his being conveyed back at the expense of the contractor or garden-sirdar, be entitled to be fed, clothed, lodged, and attended to by and at the expense of such contractor, or of the employer of such garden-sirdar, until he is reported by the medical inspector fit to undertake such journey. Emigrant ill-treated during journey may obtain compensation.

61. If, upon the arrival of any emigrant at a depôt, it shall appear to the superintendent of emigration, after personal communication with such emigrant, that such emigrant has suffered any serious ill-treatment, or that the recruiter has failed to provide such emigrant with proper and sufficient food and lodging, during transit, the superintendent may cause him to be removed from the depôt, and may order the contractor or garden-sirdar, for or by whom such emigrant shall have been taken to such depôt, to pay him such sum of money as to the superintendent shall seem reasonable by way of compensation, or such sum as to the superintendent shall seem necessary in order to enable such native inhabitant to return to the place where he was registered. In the latter case the native inhabitant shall not be bound to enter into a contract.

62. Every emigrant, who is passed by the medical inspector as in a fit state of health and able to journey to and labor in a labor district, shall be required to execute a contract before he is forwarded from the depôt. The contract shall be executed in duplicate in the presence of the superintendent of emigration by the emigrant and by the employer to whom he is engaged or his agent, and shall be attested by the superintendent, and one copy thereof shall be given to the emigrant, and the other copy thereof to the employer or his agent. A certificate signed by the superintendent, that reasonable cause for refusing to execute the contract has not been shown, shall be admissible as *primâ facie* evidence in any proceeding taken under this section. Every fine levied under the provisions of this section shall be paid to the contractor or garden-sirdar by whom or on whose behalf the person from whom such fine shall have been levied was originally registered.

65. If within thirty days after the arrival of any emigrant at a depôt, the contractor, by whom or on whose behalf such emigrant shall have been registered, does not tender to him for execution such contract as under the provisions of the preceding sections, he would be bound to execute, or if such contractor or the employer of the garden-sirdar, without the consent of the superintendent, refuses to be bound by the agreement made by the recruiter or garden-sirdar with the emigrant, the superintendent may order the contractor or garden-sirdar to pay to such emigrant such sum of money as to the superintendent shall seem necessary to enable such emigrant to return to the place where he was registered, and in such case such emigrant shall not be bound to execute any contract.

67. If any contractor or garden-sirdar who may be ordered, under the provisions of sections 60, 61, and 65, to pay any sum of money, shall for twenty-four hours omit to comply with such order, it shall be lawful for the superintendent to advance the amount so ordered to be paid to the person named in such order, and to recover from such contractor or garden-sirdar or his employer the sum so advanced, with interest at the rate of twelve per cent. per annum from the date of such advance; and no further proof shall be required by any court in any suit for the recovery of money so advanced than that the superintendent made such order as aforesaid and advanced the money as aforesaid.

108. Every inspector of laborers shall, once within each of such periods as may be fixed for such purpose by the Lieutenant-Governor, visit all lands within the limits of his authority on which there shall be employed any laborers, and inspect every hospital, tent, camp, or building in any way used by any such laborers, and investigate the condition of the laborers employed; and for such purpose the inspector may require that any laborer shall be produced before him with his contract, and may make such inquiries as may to him seem proper.

Books to be kept by inspector.

Every such inspector shall keep books, in which, from time to time, shall be entered the number of laborers then under contract with each employer, the number who shall then be sick or missing, or who shall have complained of ill-treatment, the particulars of such complaints, and such other particulars regarding the laborers as the Lieutenant-Governor shall from time to time direct.

Chapter 10.—*Regulation of Labor.*

110. Every employer shall from time to time, with the sanction of the inspector previously obtained, fix the daily tasks to be executed by the laborers employed by such employer, and shall frame a schedule of such daily tasks, and publish the same by posting a copy thereof in the Bengali language upon the door of each place of payment of the laborers employed by such employer, and by sending a copy thereof in the English language to the inspector.

The inspector shall at any time on the application of an employer summon a committee for the purpose of considering such schedule of daily tasks, if he declines to sanction such modification thereof as the employer desires. The committee shall consist of the inspector, of some employer to be nominated by him, and of some person to be nominated by the employer on whose application the committee is summoned. Such committee or the majority in number thereof shall have power to make any modification of the schedule which it may deem proper, and the schedule so modified shall be published in manner aforesaid, and every schedule published as aforesaid shall have effect as between the employer and laborers in substitution for any former schedule.

Chapter 11.—*Incapacity for Labor.*

Allowance payable to laborers temporarily incapacitated.

112. Any laborer, who is temporarily incapacitated for work by sickness not wilfully caused by himself or by pregnancy or other sufficient cause, shall be entitled to receive wages for the days during which he is so incapacitated at the rate of two-thirds of the rate of wages stipulated in his contract.

If such incapacity extends over 15 days.

If such incapacity extends over a period of fifteen days, the inspector of laborers, on the application of the employer, may determine the rate at which the wages of such laborer shall be paid, and may declare that the days during which such incapacity continues shall not be accounted as part of the period of the contract. Any order to that effect shall be endorsed on the contract.

Proof required in action for arrear of wages.

An authenticated copy of the order of the inspector under this section shall be accepted by any court as full evidence of the rate of wages to be paid to the laborer for the days to which such order relates.

In action for arrear of wages damages may be awarded.

113. In any action brought by a laborer against his employer for arrears of wages, if it appears to the magistrate that the defendant has refused to pay the wages of the complainant at the rate stipulated in the contract on the ground of incapacity for work, except under the rule contained in this section or in accordance with any condition of the contract, the magistrate may award to the complainant in addition to the amount decreed as arrears of wages such damages as he may consider just.

114. If it shall be found that any laborer has been compelled to perform any species of labor for which he was at the time unfit, the employer by whom he was so employed shall be liable to fine.

The inspector shall make a return of all such cases of determination of contract in his report under section 108. Every laborer whose contract shall have been determined as aforesaid, shall be entitled to receive from his employer such sum, not exceeding three months' wages, as the inspector may award, and such sum shall be recoverable before a magistrate in the manner hereinafter provided for the recovery of wages.

He shall also be bound to provide good rice, or such other food as the Lieutenant-Governor may direct, which the laborer will be entitled to purchase at fixed rates.

Sufficient house accommodation, water-supply, and sanitary arrangements to be provided.

117. Every employer shall be bound to provide for his laborers such sufficient hospital accommodation, and such medicines of such quality and description, and according to such scale, as shall from time to time be fixed by the Lieutenant-Governor; and if three hundred or more laborers shall be employed by any employer, it shall be the duty of such employer to place in medical charge of such laborers a medical officer holding a medical diploma as licentiate in medicine from some Indian or European collegiate institution authorized to grant diplomas, or an officer for the time being licensed by the local Government to act in such medical charge of laborers. Such medical officer shall ordinarily reside within ten miles from the lands on which the laborers are employed.

Hospital, medicines, &c., to be provided.

118. If from information or complaint or otherwise an inspector or assistant inspector has reason to suspect that any employer has omitted to provide properly and sufficiently for his laborers in accordance with the rules prescribed by the Lieutenant-Governor, he may proceed to investigate the facts and circumstances of the case at any place within his jurisdiction not more than ten miles from the lands of such employer; and, if he is vested with any of the powers of a magistrate, may take cognizance of the offence and dispose of the case without any complaint. If he is not vested with any of the powers of a magistrate, he may prefer a complaint to any competent magistrate. All such cases shall be investigated and tried in accordance with the provisions of the Code of Criminal Procedure.

Any employer who voluntarily or negligently omits to provide properly and sufficiently for his laborers in accordance with the rules prescribed under sections 116 and 117, shall be punished by fine which may extend to five hundred rupees, and by an additional fine of one hundred rupees for every day during which such omission is continued.

Penalty for such failure.

Chapter 13.—*Localities unfit for the Residence of Laborers.*

120. If an inspector of laborers shall at any time have reason to believe that any estate or portion of an estate situated within the limits of his jurisdiction is in a condition so insalubrious, or in such a situation as to be unfit for the residence of laborers, he shall report his opinion in writing to the magistrate of the district. On the receipt of such information from the inspector of laborers, or from any other source which he may deem reliable, the magistrate shall forthwith summon a committee to inquire whether such estate or portion of estate is unfit for the residence of laborers. Such committee shall consist of the magistrate, the inspector of laborers, the medical officer of the district, and one or more employers of imported laborers, when such persons are available. If the magistrate is unable to procure the service on such committee of any employer of imported laborers, he may, with the sanction of the commissioner of the division, appoint one or more persons whom he may deem qualified.

Inspector to report.

Magistrate to summon committee.

Such committee shall proceed, with as little delay as possible, to enquire into the condition of the estate or portion of estate to which the order appointing the committee has reference, and shall hear such evidence on the subject as the owner of the estate or portion of estate or the employer or inspector may desire to place before it; and if such committee, or the major part in number thereof, is of opinion that such estate or portion of estate is in a condition so insalubrious, or in such a situation as to be unfit for the residence of laborers, it shall record a finding to that effect; and the contract of every laborer who shall have contracted to serve on such estate shall thereupon be void as regards such estate or portion of estate as may be found unfit for the evidence of laborers.

with the same effect.

122. Every employer who shall cause or permit any laborer to reside upon any such estate or portion of an estate as under the provisions of one of the two last preceding sections may have been found to be unfit for human habitation, shall be liable to fine. Provided always that in case it shall appear to the inspector that any such estate, or portion of an estate, or any part of such portion, has become fit for human habitation, he shall, with the sanction of the magistrate of the district, give under his hand a certificate of such fitness, and no employer shall be liable to fine by reason of his causing or permitting laborers to reside in any place respecting which such certificate of fitness shall have been given.

Penalty on employer permitting laborer to reside in locality declared to be unfit.

Chapter 14.—*Offences committed by Laborers.*

123. Any laborer, who voluntarily and without reasonable cause absents himself from his labor or neglects or refuses to labor as required by his employer, the labor so required being reasonable and proper, may, on conviction, be sentenced to lose all claim to wages or allowances during the period of such absence, and also to forfeit to his employer a sum not exceeding four anas for each day during which such absence shall have continued; and in case such absence shall have exceeded seven days, or in case such laborer shall have been already convicted of the same offence within a period of three months, such laborer may be furthermore sentenced, at the request of the employer, to rigorous imprisonment for fourteen days.

Absenting himself, or neglecting, or refusing to labor.

Provided that ill-treatment of such laborer by his employer, or the neglect of the employer to fulfil any condition of the contract, may be deemed a reasonable cause for such absence or such neglect or refusal to labor.

Proviso in case of ill-treatment or breach of contract.

124. If any laborer deserts or attempts to desert from his employer's service, such employer or any other person acting in his behalf may, without first procuring a warrant, and without the assistance of any police officer (who, nevertheless, shall be bound to give such assistance if called upon to do so), apprehend such laborer wherever he may be found. Provided, nevertheless, that if such laborer be found in the service of another employer, he shall not be arrested without a warrant. Provided also that such employer or other person shall, within a reasonable time from the time of such apprehension, give the said laborer in charge at the nearest police station, and there enter the charge upon which he shall have apprehended such laborer.

Deserting may be apprehended without warrant

Any laborer so given in charge shall be conveyed, without delay, to the nearest magistrate; and, if the place from which such laborer is charged with having deserted be within the jurisdiction of such magistrate, he shall himself adjudicate upon the charge; but if not, he shall forward the said laborer, under custody, to the magistrate within whose jurisdiction such place may be situated, who shall adjudicate upon such charge.

To be taken to nearest magistrate.

125. Every laborer who deserts from his employer's service shall be liable, upon conviction, to rigorous imprisonment, which may extend to one month, and every laborer, who, after having been convicted of desertion, shall again desert from his employer's service, shall be liable to rigorous imprisonment for a period which may extend to two months; and every laborer who, after having been twice convicted of desertion, shall again desert, shall be liable to imprisonment which may extend to three months. Such punishment may be imposed in addition to the forfeiture to which such laborer is liable under section 123.

Punishment.

126. On the expiry of any sentence of imprisonment for any offence under this Act, save as is provided in section 126, it shall be the duty of the magistrate to make over such laborer to any person appointed on the part of his employer to receive charge of him; and no conviction under this Act, or imprisonment under such conviction, shall, save as aforesaid, be held to operate as a release to any laborer from the terms of his contract. Provided, nevertheless, that the period of imprisonment shall in no case be prolonged by reason of there being no person present on the part of the employer to take charge of the laborer at the expiry of his sentence; but such laborer shall, in that case, be sent to the principal place of business of such employer, and the expense of such conveyance shall be levied from the employer in the manner provided in section 102.

Conviction not to operate as a release.

127. Whenever any laborer shall have actually suffered imprisonment amounting in the whole to six months for desertion from his employer's service, it shall be lawful for the inspector, and he is hereby required, at the written request of the employer, but not otherwise, to cancel the contract of such laborer; and every such cancellation shall be by the inspector certified on the back of the contract, and such laborer shall then be at liberty either to enter into a fresh contract with any employer or to return to the district from which he was recruited.

Contract may be cancelled for repeated desertion on the written request of the employer

128. The employer, or any person authorized to act for the employer, of any laborer imprisoned for any offence under this Act, may apply to the magistrate, at any time previous to the expiry of such sentence, that such laborer be made over to him for the purpose of completing his contract; and the magistrate may, if he see good cause, make over or forward such laborer to his employer, and in that case the magistrate shall cancel the remainder of the sentence passed on him, and shall endorse on

129. Every employer who obtains an order for the deportation of any laborer who has deserted, shall pay the expense incurred in such deportation, and shall, before the order is issued, deposit with the magistrate such sum as such magistrate may in his discretion deem to be sufficient for defraying the expense of such deportation.

Time of unlawful absence or imprisonment to be excluded from contract period.

130. The duration of every unlawful absence from labor, of which any laborer may be convicted, and every sentence of imprisonment for any offence under this Act, shall be endorsed on the contract, at the time of its being passed, by the officer passing it; and no such period of imprisonment or unlawful absence so endorsed shall be reckoned as part of the term for which the laborer is bound to serve, but such term shall extend to such further period as shall be equivalent to the aggregate amount of the imprisonment and unlawful absence so endorsed.

Other person enticing away, harbouring, or employing laborer under contract.

131. Any person who knowingly entices away, harbours, or employs, or attempts to entice from his employment, any laborer, before such laborer shall have been lawfully released from his contract, shall be liable to a fine, the whole or any portion of which may be awarded to the employer of such laborer.

Chapter 15.—*Complaints made by Laborers.*

Employer to give notice to inspector if laborer wishes to complain of personal ill-usage or breach of contract.

132. If any laborer states to his employer, or to any person acting for such employer, that he desires to make a complaint to the inspector of laborers of personal ill-usage or breach of any provision of this Act on the part of such employer or other person, the person to whom such statement is made shall, within forty-eight hours, send notice thereof in writing to the inspector, and in default of so doing, such person shall be liable to fine.

Inspector how to proceed on receipt of notice, or if complaint is made to him,

133. Whenever any inspector of laborers receives such notice in writing as aforesaid, or whenever any complaint of personal ill-usage or breach of any provision of this Act as aforesaid, is made to him by any laborer against his employer or any person acting for such employer, or whenever the inspector has other reasonable grounds for believing that any such personal ill-usage or breach of any provision of this Act as aforesaid has been suffered by a laborer, such inspector shall forthwith, if the place in which such offence has been committed is not situated within the limits of his own authority, give notice thereof in writing to the inspector within the limits of whose authority such place is situated; and if such place be situated within the limits of his own authority, then such inspector shall, so soon as conveniently may be, proceed to some place not more than ten miles in a direct line from the principal place of business of such employer, and make full enquiry into the matter complained of.

or if he has reason to believe that there is ground for a complaint.

Procedure.

Penalty for obstructing service of, or disobedience to, summons.

For the purposes of such enquiry the inspector may summon such laborer and any witnesses. If any employer, or other person acting for or under such employer, in any way wilfully obstructs the service of, or obedience to, such summons; or if the laborer or any witness summoned neglects to attend as required in such summons; he shall be punished as provided in chapter 10 of the Indian Penal Code.

If complaint is untrue or frivolous.

134. If, upon such enquiry made on the complaint of a laborer, the inspector is of opinion that the complaint is untrue or frivolous, he shall enter in his book the particulars of such complaint, and a short statement of the grounds of his opinion respecting it, and shall dismiss the complaint, and in such case shall endorse on the employer's copy of the contract of such complainant the number of days during which such complainant has been absent from work in consequence of such enquiry, and such number of days shall be added to the period of the contract of such complainant; and every such endorsement shall be conclusive evidence that such laborer has absented himself from his labor without sufficient cause during the number of days which shall be so endorsed.

If complaint is well founded.

135. If, upon enquiry as aforesaid, the inspector is of opinion that the complaint is well founded, he shall, if a magistrate, dispose of the case according to due course of law. If the inspector shall not be a magistrate, he shall without delay send the complainant and his witnesses to the nearest magistrate, and such magistrate shall thereupon dispose of the case in due course of law.

Recovery of arrears of wages.

136. If, upon the complaint of any laborer, it is proved to the satisfaction of the magistrate that the wages of such laborer are in arrear to an amount exceeding the rate of such laborer's wages for one month, such magistrate shall award to such laborer the amount which shall appear to be then due to him; and if it is proved that the wages of such laborer are in arrear to an amount exceeding the total of such laborer's wages for two months, the magistrate shall award also, by way of compensation, such further sum, not exceeding that amount, as shall appear to the magistrate to be just; and in case of default, the magistrate shall levy the entire sum by distress and sale of the movable property belonging to or under the charge of the employer.

Compensation may be given if arrear is for two months.

Contract may be declared cancelled, if employer is convicted of maltreatment by Session Court, or twice by magistrate;

or if gross ill-usage is proved.

Chapter 16.—*Determination of Contract.*

138. Every laborer who has completed the term of his contract shall be forthwith entitled to appear before the inspector in order that the completion of his contract may be registered. If an employer detains such laborer after the completion of his contract, or fails to give notice of such completion to the inspector within one month after the date of such completion, such employer shall be liable to fine.

Laborer may appear before the inspector to register completion of contract.

Penalty if employer detains, or omits to report.

139. If any laborer is able and desirous to redeem the unexpired term of his contract of service by payment of a sum equivalent to the value thereof, such laborer may demand to be taken or allowed to go before the inspector of laborers within the local limits of whose authority he may be employed, and on his depositing such sum in the hands of such inspector, such inspector shall give notice to the employer that such laborer requires him within one week to show cause why the contract of such laborer should not be released; and, in case no sufficient cause should be shown, such inspector shall require the production of the contract of such laborer and endorse thereon a certificate of release by purchase, and shall hold the sum in deposit on account of the employer of such laborer. Magistrate of E.

STATEMENT OF OBJECTS AND REASONS.

Experience has shown certain defects in the existing law which regulates the emigration of laborers to the tea-producing districts, Bengal Act II of 1870. The recruiters are not brought under sufficient control; the intention of the law is evaded by the removal of emigrants from the districts in which they are recruited without registration, and without the execution of any contract; the position of the time-expired laborer is obscurely defined; there is no provision which enables the Government to remove imported laborers from gardens in which the rate of mortality is very high; and the labor transport fund is unable to pay the cost of the establishment which is maintained for the supervision of emigration and the protection of imported laborers.

The rules affecting garden sirdars are inconveniently mixed up in the Act with those which relate to contractors' recruiters; and the arrangement of it in Parts and Chapters will materially aid all persons concerned in the application of its provisions. Neither Act II of 1870 nor any other enactment provides a general law for the regulation of contracts of labor and service. The object of the Bill is to remedy these defects. In other respects it does not propose to make any material alteration in the present law.

Bombay Regulation XIX of 1827.	A Regulation for the Presidency, prescribing Rules for the Assessment and Collection of the Land Revenue, and for collecting Taxes on Shops and Stalls, on beating the Battakee or making Proclamation by the Crier, on Country Music, on Wedding Sheds and Places of Public Amusement, on Houses, on Carriages, and on Horses; for causing Individuals who may sell or transfer Houses or Tenements subject to quit or ground rents to give Notice of the same to the Collector; and also for levying Fees in the Court of Petty Sessions and Police Offices.	Section one, clause two; and in section six from the words "and shall" down to the end. Appendix A.
Bombay Regulation XVIII of 1830.	A Regulation providing for the appointment of a Joint Judge within the Zillah of Poona.	Section two.

* Printed at p. 246 of Clarke's edition of the Bombay Regulations, London, 1851.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is two-fold—to consolidate the law relating to judicial oaths and affirmations, and to repeal the laws requiring declarations to be made by Judges, Magistrates, &c., before entering on their official duties. The Bill, if it become law, will replace twenty-seven enactments.

The Bill does not apply to proceedings before Courts-Martial, or to oaths prescribed by laws which the Governor-General in Council has not the power to repeal.

Incidentally, the Bill will remove the doubt which has been raised as to the power of the Courts in certain parts of India to administer oaths and affirmations.

RULES RELATING TO EMIGRATION FROM THE PORT OF CALCUTTA UNDER THE PROVISIONS OF ACT VII OF 1871.

I.—OF PRELIMINARY ARRANGEMENTS IN PORT.

Rules for the Guidance of the Protector of Emigrants.

1. The attention of the Protector of Emigrants is directed to those sections of the Act which define his position and duties, the position and duties of others who are engaged under the Act, and to the following rules.

2. Besides the usual reports [under section 8 of the Act] on return emigrants, the treatment they have experienced on boardship and in the colony, the Protector will submit for the information of Government the under-noted periodical reports and returns :—

(*a*.) *Monthly*.—A return showing the number and description of emigrants who have embarked for the colonies during the month immediately preceding that on which the return is due.

(*b*.) *Annually*.—A report on the emigration of the preceding official year, giving particulars on any points of importance, and embracing detailed information on (*a*) the number and description of emigrants embarked for and returned from the several colonies; (*b*) the amount of savings brought back by return emigrants; (*c*) the detention of coolies in the depôts and their mortality in depôts; (*d*) the length of the voyages and the mortality during those voyages; and (*e*) the prevalence of cholera on board of emigrant ships for the period under review.

3. Fees under section 31 of the Indian Emigration Act must be levied on each emigrant as defined in section 3 of the Act.

4. In the event of any emigrant who is already registered for one colony desiring to emigrate to another, such emigrant may be re-registered for the colony elected; and the same fee authorized for the first registration must be paid for re-registration by the Agent or recruiter of the colony to which the emigrant is going.

5. A certificate signed by the Emigration Agent and countersigned by the Protector of Emigrants, to the effect that any emigrant has deserted prior to embarkation, shall be accepted as sufficient proof [under section 31 of the Act] on which the fee paid in respect of such emigrant may be refunded to the Agent or recruiter by whom it was paid.

6. Copies and translations of the Indian Emigration Act, and of the rules framed under its provisions, may be procured, at the authorized prices, from the office of the Protector of Emigrants, who will submit annual returns to Government of the number of copies of each which have been disposed of.

Rules for the Guidance of the Medical Inspector of Emigrants.

7. The attention of the Medical Inspector is directed to sections 11, 12, 13, 14, 15, 34, 42 and 49 of the Act, and to the following rules.

8. The Medical Inspector shall exercise a careful supervision over the sanitary state of the emigration depôts; and, when necessary, he should suggest to the Agent or officer in charge of the depôt any alteration which, in a sanitary point of view, may seem to him likely to benefit the coolies; and, so far as circumstances render it expedient, he should endeavour to introduce uniformity by assimilating the approved practices and arrangements in the several depôts each one to the other.

9. He is jointly responsible with the Protector of Emigrants for the eligibility, for emigration purposes, of vessels which take emigrants from this port, and is expected to be present with the Protector of Emigrants at the primary and final surveys of ships chartered for the conveyance of emigrants, of their ventilation, fittings, provisions, medical stores, and hospital arrangements. He shall also be present at the embarkation of emigrants, and shall see that everything is done to lessen the likelihood of disease and increase the comfort of the coolies.

10. No emigrant must be permitted to embark who is considered by the Medical Inspector to be physically unfit for the voyage, or who cannot do so without danger to his or her health or to that of others. It will not be for the Inspector to decide upon the fitness or otherwise of the coolies for labor in the colony to which they are bound; that is a question for the consideration of the Agent, who is guided in his selection of fit laborers by the advice of medical officers,* who are specially appointed to this duty by the colony to which the emigrants are going.

* (*a*) The Surgeon of the depôt and (*b*) the Surgeon of the ship in which the coolies are about to be conveyed.

Rules for the Guidance of Emigration Agents.

11. Their attention is directed to those sections of the Act that define their duties, and to the following rules.

12. Correspondence with the local Government in connection with colonial emigration should be conducted through the Protector of Emigrants.

13. Ordinarily, the Agent will be guided by the Medical Inspector of Emigrants and the Surgeon of the depôt in all sanitary measures adopted in depôts, but the following points, briefly indicated below, should always be kept in view, viz.—

(*a*.) Cleanliness and ventilation, as affecting the persons of the coolies, their clothing, sleeping sheds, hospitals, depôt, compound, and privies.

(*b.*) The purity of the drinking water-supply [*which must be distinct from that used for washing and bathing*] and the efficiency of the means for preserving its purity.

(*c.*) *Food.*—That it is of good quality, sufficient in quantity, and well cooked. Where rations are issued in lieu of diet money, the Government dietary scale (No. 1, Schedule E) should be used as a guide.

(*d.*) *Clothing.*—A sufficient supply at all seasons, and of blankets during the cold months especially. Clothing which coolies bring into the depôt with them may be retained by them, provided that the articles are in good condition, are not suspected of infection [in which case they must be burnt], and are properly washed, especially on admission and previous to embarkation.

(*e.*) The immediate isolation of all cases of communicable disease (*e.g.*, cholera, small-pox), and the prompt and careful disposal of all excreta, particularly in cholera cases, the destruction by fire of all infected or suspected clothing or other articles, the vaccination of all emigrants admitted into depôt previous to embarkation, and the free use of disinfectants in sleeping sheds, hospitals, and privies.

(*f.*) Employment and recreation should be encouraged. Coolies should be engaged, as far as possible, in maintaining the good order and cleanliness of the depôt compound, garden, &c., for which service they ought to be fairly remunerated, and games or other amusements should be encouraged.

14. Whenever cholera makes its appearance, the matter should be immediately reported to the Protector of Emigrants, who will in severe outbreaks report for the information of Government.

15. There should always be two hospitals in every depôt,—one for ordinary cases, and the other for communicable disease (*e.g.*, cholera, &c.); and a resident native or other doctor, subject to the approval of the Medical Inspector, shall be appointed to have charge of, and to live near the hospital and within the depôt compound.

16. The weekly hospital report, in such form as may be desired by the Medical Inspector, shall be furnished regularly.

17. Coolies should not be detained too long in depôt. Every effort should be made to despatch the coolies, if possible, within a month from the date of their arrival in depôt, so that the average detention in depôt may not, as a general rule, exceed one month. A return in Form No. 2 should be submitted for the information of Government at the close of each official year, with an explanation if the detention in depôt has been unusually long.

18. A qualified European or Native medical officer (who has a fair knowledge of English) shall, subject to the approval of the Protector of Emigrants, be appointed by the Emigration Agent to every ship engaged.

19. In cases in which the medical officer selected by the Agent has no diploma, he should not be employed without the approval of the Inspector-General of the Medical Department.

A compounder or qualified native doctor shall also be appointed to attend on the emigrants during the voyage.

20. The medical officer selected must be directed to the Protector's office for the purpose of having his testimonials examined and registered, and the Protector may, if he see reason for so doing, take the opinion of the Inspector-General of the Medical Department as to the efficiency of such medical officer.

21. The Emigration Agent will be informed, by the Master of the vessel chartered by him, of the dates fixed for the official surveys, in order that the Agent may have an opportunity of being present. Any opinions or suggestions which the Agent may wish to express respecting the vessel, her stores, fittings, &c., on those occasions should be communicated there and then to the Protector and Medical Inspector of Emigrants. Unless of a trivial nature and disposed of at the time, the Agent should convey his views also in writing officially to the Protector, and without delay, before the vessel is passed as fit for the conveyance or reception of emigrants.

22. Government having directed that a second medical officer shall accompany each ship to the Sandheads when epidemic disease is prevalent in Calcutta, any Agent not providing such an assistant will be required to obtain from the Surgeon of the depôt, on the day of the embarkation of the emigrants, a certificate to the effect that they have been generally healthy in depôt, and that no epidemic is prevalent among the coolies there. A copy of this certificate must be forwarded to the Protector's office.

23. Of the total number to be embarked, the proportion of adult females shall be 40 to every 100 adult males.

24. The Emigration Agent concerned should furnish the Master of the vessel chartered by him, when applying for a license, with a certified memorandum of the number and description of the emigrants likely to be embarked.

25. In a case of emergency, when the proportion of females cannot be completed, an application should accompany the memorandum, reporting the deficiency for the information of Government, and submitting for approval the manner in which it is intended to be made good in subsequent shipments.

26. As a general rule, females in an advanced state of pregnancy, and infants who are too young to take ordinary food, and whose mothers cannot supply nourishment for them, should not be embarked

27. It shall be the duty of Emigration Agents to deliver to the Protector of Emigrants all property, wills, or other documents which may come into their possession, belonging to coolies who have died in depôt, on shipboard, or in the colonies, together with such descriptive

particulars of the deceased and their heirs as they may be in a position to furnish, in order that their relatives may be traced or identified and the property correctly disposed of.

28. The Emigration Agent shall, with as little delay as possible, inform the Protector of Emigrants, in writing, of any changes he may be authorized to make in the terms offered to intending emigrants, in order that the alteration may be communicated to Government as soon as possible.

29. The Emigration Agent should appoint a compounder (and an interpreter if necessary), and the sirdars, cooks, and (*unless found by the ship*) the topasses, specified in Schedule E, scale No. 11. He should instruct them to be present at the time of embarkation, in order that they may assist the emigrants when embarking.

Topasses for emigrant ships bound for places west of the Cape (West Indies, &c.), by whomsoever engaged, should be found by the ship, and placed on the articles under conditions to be prescribed by Government; but in all cases, whether engaged by Emigration Agents or ships, topasses who are natives of India engaged for service on board emigrant ships, *must be ensured return passages*, and this condition shall be specified in their agreements.

30. Copies of all agreements entered into with medical subordinates, interpreters, and others, being natives of India, engaged to proceed with coolies to the West Indies or other colonies, should be forwarded to the Protector of Emigrants for submission to Government; and before the departure of each ship, a memorandum showing all natives of India (*other than emigrants and crew*) who may be engaged by the Emigration Agents for service on board of emigrant ships, should be furnished to the Protector of Emigrants. It will be the duty of the Protector to satisfy himself that advances of wages endorsed on such agreements have been actually paid to, and received by, the persons named in such agreements.

31. Between the first day of March and the fifteenth day of September, every emigrant proceeding to the west of the Cape shall be provided with an extra double blanket for use outside the tropics, in addition to the usual supply of clothing and blankets prescribed in scale No. 5 for the rest of the season.

32. In sufficient time previous to the day fixed for embarkation, the coolies should be arranged (relatives being kept together) in the numerical order in which their names will occur in the passes and the general register compiled from the passes, both of which must therefore correspond and be numbered accordingly.

33. Each emigrant must be provided with his pass, and may also be supplied with a tin ticket (to hang conveniently from the neck or arm where it may be easily seen), bearing the number, stamped in raised figures, corresponding with that affixed to his or her name in the pass and general register of emigrants about to be embarked.

34. When mustering the coolies on any occasion, and especially for inspection, prior to embarkation, they should be arranged and maintained in the order of their numbers to avoid confusion and ensure a correct muster.

35. Emigration Agents should furnish the documents noted below, viz —

To Masters.

(*a.*) A certified memorandum of the number and description of emigrants likely to be embarked, the proportion of adult females, and any explanation that the circumstances of the case may require.

(*b.*) Certificate under section 14 of the Act. (*See* Form No. 20.)

(*c*) Two copies of the Indian Emigration Act and of all rules under section 56, and two copies of a translation of the Act and of such rules in such languages as the local Government may direct.

(*d.*) Passes or certificates to the emigrants under section 38 of the Act.

(*e*) Four copies of the general register of emigrants compiled from their passes. (Form No. 23.) All four shall be signed by the Master; the Master shall then deliver two copies to the Emigration Agent, who after signing them shall retain one and return the other to the Master for the use of the emigration authorities at the port of debarkation. The Master shall also deliver two other copies to the Protector, who after signing them will retain one and return the other, in order that it may be duly filled up (as required by rule 104) and forwarded to the Government officer at the port of debarkation, who will ultimately return it with the Surgeon's medical records to the Protector of Emigrants at Calcutta.

(*f.*) A copy of instructions for guidance in the care and management of emigrants.

To Surgeons.

(*g.*) A blank form for recording daily issue of stores for emigrants. (Form No. 24 or 25.)

(*j*) Register of births and deaths (blank). (Form No. 28.)

37. Every vessel for which a license is required shall be surveyed under instructions from the Protector of Emigrants, through whom written application for the license must be made by the Master in Form No. 3.

38. On receipt of the application for license, the Protector shall, in communication with the Master Attendant, cause the vessel to be surveyed by an officer of the Master Attendant's Department, with a view to ascertain her sea-worthiness, the extent and nature of her accommodation,* &c. (under the terms of section 41 of the Act), the state of her tackle, boats, &c., as prescribed in Schedule A, together with such other additional requisites as may be considered necessary by the Marine Surveyor to render the vessel in every respect sea-worthy and fit for the conveyance of emigrants.

39. The Marine Surveyor shall report the results of his survey and measurements to the Protector of Emigrants, first in Form No. 4, and subsequently, when everything is provided to his satisfaction, in Form No. 16

40. After the Marine Surveyor's report in Form No. 4 has been forwarded to the Protector's office, the Master should arrange with the Protector of Emigrants for an inspection of the vessel in order to decide on her eligibility in other respects, her ventilation and fittings as specified in Schedule B. The Master must at once inform the Emigration Agent of the day and hour fixed for this survey.

41. The Protector, if satisfied in all respects, will then grant a certificate (Form No. 6) to the Master, and will require the Master to execute in duplicate the bond (Schedule D) in consideration of his receiving a license.

42. Prior to taking in the stores enumerated in the list of provisions and miscellaneous articles (Form No. 8 or 9), the Master shall send for the examination of the Protector samples of each article enumerated in the dietary scales. If they are approved, the *instructions* in Form No. 7 will be forwarded for the guidance of the Commander, who must carefully attend to them, and see that the officer in charge of the stores, &c., abides by them also.

43. The prescribed quantity of water must be taken directly from the municipal hydrant (and not by means of tank boats) into the ship's tanks, which must be thoroughly cleaned and whitewashed; and if the vessel is beyond the point to which the hydrants extend, she must come within a convenient distance of the nearest hydrant for this purpose. All the water for the emigrants must be stored in clean iron tanks, and *not in casks*. In ships carrying an approved distilling apparatus, a reduction of one-third the prescribed quantity of water is allowed, and Masters should lose no time in getting the machine examined by the Government surveyor of distilling machines.

44. The provisions, miscellaneous articles, medicines, instruments, disinfectants, &c, (Form No. 8 or 9 and scale No 4 or 9), and the *extra clothing, blankets*, &c. (scale No. 5 or 10), must be on board at least one day before that fixed for the final survey, in order that the Surgeon of the ship (with whom the Master must communicate) may have an opportunity of examining those stores properly *on board the ship* prior to the final survey, which will be held after the Surgeon is satisfied and certifies to their correctness under scale No. 4 or 9 and in Form No. 13.

The medical stores and extra clothing, &c., should then be locked up safely pending their inspection by the Medical Inspector and Protector of Emigrants at the final survey.

45. It is the duty of the Master to ascertain that all the fittings, stores and water are of the best quality and amply provided according to scale. If he is unable to attend to this duty himself, he must on his own responsibility depute an officer specially to this work. The examinations of the Protector and Medical Inspector do not in any degree lessen the responsibility of the Master, who, when everything is ready for final survey, should forward the certificate and application for final survey (Form No. 14) to the Protector's office. When the time for the final survey has been fixed by the Protector, the Master must at once inform the Emigration Agent of it, in order that he may be afforded an opportunity of being present also.

46. Emigrants will not be allowed to embark on any vessel on board of which there is not a third officer, whose duty it shall be to have charge of the emigrant stores, to issue the rations, water, &c, for the emigrants, and to assist the Surgeon generally in the care and management of the emigrants on board.

47. No gunpowder, inflammable oils, spirits, jute, hides, nor any commodity likely by reason of its quantity or quality to be detrimental to the safety or health of the emigrants, shall be taken as cargo or part of the cargo; nor shall any vicious dogs or wild animals be allowed on board of an emigrant ship

48. Responsible officers must be appointed to have charge of the fire-engine and other precautionary measures against the risk of fire

49 In ships for the West Indies, the Master must see that the full number of *topsails* (prescribed in scale No. 11) are provided. It must be distinctly understood that they are engaged solely on account of the emigrants, that they are to be entirely under the orders and control of the Surgeon, and must be placed on the articles under conditions to be prescribed by Government (*See* Rule 29.)

50. Besides the bond (under section 40 of the Act, Schedule D, Appendix, required from the Master, and which, duly stamped, must be executed in duplicate at the office of the Protector of Emigrants), the Master shall forward to the Protector's office, *at least one clear day before the day appointed for the final survey*, the under-noted certificates duly filled up, dated and signed according to the forms prescribed in the Appendix, viz.—

(*a*) A certificate to the effect that the conditions of Rules 46 and 47 have been complied with.—Form No. 12.

(*b*) Two copies of the provision list duly filled up and signed,—Form No. or the Surgeon's certificates to scale No. 4 or 9, and Form No. 13.

(*c*) A certificate of the total quantity of water, its source, &c.—Form No. 10.

(*d.*) A certificate from the Master stating that an officer has been appointed to the special charge of the emigrants, stores, &c., and that the fittings, stores, are ready for survey —Form No 14

N.B.—The following certificates should be forwarded to the Protector's office at least one day prior to that of embarkation :—

(*e.*) A certificate from the Government surveyor of distilling machines to the effect that the requirements of Schedule C are fully complied with.—Form No. 11.

(*f.*) A certificate from the Master Attendant's office to the effect that the requirements of Schedule A and of the Marine Surveyor have been fully complied with.—Form No. 16.

(*g*) A certificate from the Shipping Master's office to the effect that the proper number and description of crew (and in ships for the West Indies of *topasses*) as per Schedule A (*and scale No.* 11) have been duly shipped.—Form No. 17.

(*h*) A certificate from the owner or managing agents of the ship to the effect that a competent first class steam-tug has been engaged to tow the vessel to sea within twenty-four hours after embarkation of the coolies, and that there is seven days' supply of coal on board.

N.B—In case a first class tug is not available, the steamer which it is proposed to engage in lieu of a first class tug-shall be subject to the approval of the Master Attendant, who will signify his consent by countersiguing the certificate —Form No. 18.

(*i.*) Commanders are also required to furnish crew and passenger lists in Form No. 19; and, excepting emigrants and European or Native cabin passengers and their servants, who must be duly entered in the form above referred to, no other Native passengers shall be received on board an emigrant ship.

51. The date of embarkation may be decided on after, *but not before*, the ship has passed her final survey of fittings and stores, and the Master is cautioned against positively fixing the date for the steam-tug prior to this.

52. In appointing the time of embarkation, a sufficient interval must be ensured for the ship to reach her moorings, for the emigrants' stores to be properly stowed away, and for the vessel to be in every respect clean, in good order, and thoroughly prepared for the reception of her emigrants.

53. When everything is completed to the satisfaction of the Protector and Medical Inspector of Emigrants, and the ship is ready for sea, the clearance certificate in Form No. 20 under section 44 of the Act will be granted by the Protector of Emigrants to the Master, who will also obtain from the Emigration Agent a similar certificate.

54. Moorings are especially laid down abreast of the coolie embarkation wharf at Garden Reach, where Masters are required to moor their vessels securely before the emigrants embark; but no emigrant vessel shall leave her moorings for the coolie embarkation wharf until the final survey is over, unless the permission of the Protector of Emigrants has been obtained, and there is no objection to it.

Rules for the Guidance of Surgeons of Emigrant Ships.

55. The Surgeon shall call at the office of the Protector of Emigrants as soon as possible after his nomination, in order that his qualifications, &c., may be registered. He will leave his address at the office, and should intimate any change of residence as soon as it is conveniently possible, in order that communications from the office may be correctly addressed to him.

56. When the medical officer has no diploma, he shall not be employed without the approval of the Inspector-General of the Medical Department, and native medical officers must have a fair knowledge of English.

57. The Surgeon is required to attend frequently at the depôt before embarkation, in order that he may become thoroughly acquainted with the health and physical condition of the coolies of whom he is about to receive charge, and he should see that they are all properly vaccinated.

58. He must take an early opportunity before embarkation of comparing the coolies in depôt with their passes (under section 38 of the Act), and when satisfied of their correctness he will countersign them

59. The Surgeon, if in Calcutta at the time, shall be present with the Protector and Medical Inspector of Emigrants at the *first* official inspection for deciding on the eligibility, fittings, ventilation, &c., of the ship tendered for the conveyance of the emigrants of whom he is going in medical charge. He should visit the ship occasionally in the interval between the first and final survey, to satisfy himself in good time that there is nothing to which he would object, and should arrange with the Protector to see the samples of stores intended for the coolies before the samples are approved of. He must be present with the Protector and Medical Inspector at the *final survey* of ship's fittings and stores. Any suggestions or objections he may desire to make at either or both of the surveys should be stated there and then to the Protector and Medical Inspector, who, if the representation is of a trivial character, may deal with it at once, but if of a more serious or difficult nature, the Surgeon must without delay forward a written statement of his views officially to the Protector of Emigrants, who will give it careful attention. Should the Surgeon have no objections to urge on either of those occasions, he shall furnish the Protector of Emigrants with a certificate in Form No. 5 after the *first* inspection, and with a certificate in Form No. 15 after the *final survey*.

60. Prior to the time fixed for the final survey of stores, &c., the Surgeon, in communication with the Master, must appoint a convenient time for the careful examination, *on board the ship*, of the provisions, miscellaneous articles, medicines, instruments, disinfectants, extra clothing, and blankets supplied for the emigrants. If satisfied of their good quality and

correctness according to scale, the Surgeon shall receive charge of the medical stores and have them put into a safe place pending their examination at the final official survey. When satisfied he shall sign duplicate copies of the certified scales No. 4 or 9 (at foot of scale of medicines) and certificate Form No. 13. A copy of each must be furnished by him to the Protector of Emigrants, and a duplicate copy of each to the Emigration Agent.

61. Before the time of embarkation the Surgeon should also satisfy himself that the ordinary clothing and blankets supplied at the depôt to the coolies for their use on the voyage are of good quality, clean and sufficient according to scale, and that the compounder, sirdars, cooks, topasses, &c, have been duly appointed.

62. The Surgeon must obtain the following documents from the office of the Protector of Emigrants:—

(*a.*) Blank forms of scale No 4 or 9, and also certificate Forms Nos. 5, 13, 15, and 22.

(*b.*) Instructions to Surgeons regarding contagious fever on board of emigrant ships.

(*c.*) A copy duly signed by the Master of the scale and list of provisions, &c. (Form No. 8 or 9), taken on board at Calcutta.

(*d.*) A memorandum of the quantity and description of fresh provisions and water to be taken in by the Master either at the Cape or at St. Helena.

N.B.—For a list of documents to be obtained from the Emigration Agent, see Rule 35.

II.—THE EMBARKATION.

Rules for the Guidance of Emigration Agents.

63. The emigrants, with their clothing, baggage, &c., should be at the wharf in sufficient time to be correctly arranged for medical inspection and muster, according to their numerical order in the general register, No. 1 being placed nearest the embarkation jetty.

64. Before leaving the depôt, the coolies should be supplied with good drinking water in their tin mugs or other vessels, and they should be particularly cautioned against drinking the river water at the time of embarkation.

65. When once numerically arranged for inspection and embarkation, they should not be permitted to leave their places; it should be impressed on the sirdars to attend to this, and the writers or other servants present should also see that no confusion results.

66. The compounder and establishment of cooks, topasses, &c., must be present punctually to help the coolies with their bundles, and to assist the Surgeon in berthing the coolies when on board.

Rules for the Guidance of Masters.

67. Before the time fixed for embarkation, the 'tween decks should be thoroughly cleaned and cleared for the reception of the emigrants The lanterns, trimmed all ready for lighting, should be hung in their places, and unless wet weather prevents it, all the ventilation of the 'tween decks must be opened up.

68. When the weather is wet, or rain is expected, the tarpaulins for spreading tent fashion over the hatches must be put up, and awnings must be spread so as to shelter the coolies as they embark, and keep the 'tween decks as dry as possible.

69. The scuttle butts should be filled with drinking water, and the wash deck-tubs, filled with water, placed near the water-closets for the convenience of the coolies.

70. The landing stage, with ladder and hand rails, must be securely and conveniently fastened.

71. *All the crew must be on board previous to embarkation*, and should be mustered and examined by the Surgeon in the presence of the Protector of Emigrants and Emigration Agent, in order to ascertain their efficiency; and the Master should at the same time make sure that there are no stowaways on board by directing the chief officer (who will be assisted by the officer of customs) to search the vessel.

72. The Master must be present at the embarkation to satisfy himself, by comparing the passes with the names of the emigrants as they are called one by one in their numerical order in the general register, that all is correct; and two of the ship's crew, one to *count*, and the other to *note*, shall keep a careful tally of the total number of souls received on board.

73. No packages or traffic can be allowed on the embarkation stage at the time of embarkation.

74. After embarkation it is often necessary to issue a supply of biscuits and sugar to the coolies, and milk for the children if the Surgeon orders it. These articles should therefore be kept ready at hand.

75. Immediately after embarkation, coolies are very apt to carry fire for smoking into the 'tween decks if they can procure it; this should be guarded against.

76. After embarkation the Master and Surgeon will receive charge of the documents relating to the coolies, which will be furnished to them by the Emigration Agent.

77. In addition to the copies of the Act and Rules, and the emigrant's certificates or passes, the Emigration Agent will supply the Master of every vessel with four copies of the general register of emigrants (Form No. 23), all of which the Master is required to sign. He shall then deliver two of them to the Agent, who after signing them will return one to the Master for the use of the emigration authorities at the port of debarkation. The Master will also deliver two other copies of the register to the Protector of Emigrants, who after signing them will return one copy to the Master, in order that it may be duly filled up (as required by Rule 104) and forwarded to the Protector of Immigrants at the port of debarkation for ultimate transmission (with the medical records) to the Protector of Emigrants at Calcutta.

78. The heavy baggage (if any) of the coolies should be put down the hold.

79. The vessel must get under weigh and proceed down the river under steam within 24 hours from the time of embarkation.

Rules for the Guidance of the Ship's Surgeon.

80. He should be at the embarkation wharf at least half an hour before the time appointed for the embarkation.

81. Prior to embarkation he shall examine the crew in the presence of the Protector of Emigrants and Emigration Agent, and if satisfied that they are in good health and fit for duty, he shall give a certificate in Form No. 22 to the Protector of Emigrants.

82. He shall, in conjunction with the Medical Inspector of Emigrants, examine the emigrants for the last time previous to their going on board, and reject any one considered unfit to go.

83. In berthing the coolies, the unmarried women should be placed furthest aft, the married couples next, and the single men forward.

84. The Surgeon should see that the compounder, sirdars, cooks, and topasses are on board.

85. For every 100 adults four sirdars are appointed to act as head-men. The coolies must be divided into lots, and each sirdar should take charge of a company and also of a division of the lower deck, for the good order and cleanliness of which he is to be held responsible.

86. The Surgeon should instruct the sirdars and topasses to see that no smoking or fire is allowed in the 'tween decks, and that the coolies do not drink the river water, but that which is supplied for them in the scuttle butts on deck. These points will require the Surgeon's personal attention.

III.—THE VOYAGE.

Rules for the Guidance of the Commander.

87. After embarkation pilots and preventive officers are required to see that none but those entered in the list of passengers and crew (Form No. 19) remain on board, and that no other persons are received on board subsequently.

88. Commanders are required to afford to the pilots and preventive officers every assistance in their power in carrying out the separate instructions with which they are charged.

89. As the Surgeon will have the principal charge of the emigrants, every requisition made by him to the Commander, consistent with good order and discipline, (without interfering with the routine duties of the ship, for which the Commander himself is always the responsible person,) must be promptly complied with, and the officers and crew are bound to render any reasonable assistance in their power when it is necessary for them to do so.

90. During the voyage Commanders should see that the 'tween decks are cleared three times every day, disinfected and *dry holystoned* daily by the coolies, and that, weather permitting, they are whitewashed throughout every alternate Saturday. No naked lights, loose hay or straw, shall be allowed between decks or in the hold at any time, nor on any account. At least six safety lanterns shall burn from dusk to daylight throughout the voyage for the use of the emigrants.

91. Wooden ships that do not make so much water as to require pumping out once a week, must twice a week have a sufficient quantity of water poured into their hold, and pumped out again for the purpose of keeping the bilges sweet.

92. The officers and crew of the ship must not be permitted to have any intercourse, or to interfere, with the emigrants; and no female emigrant is to be a servant to the Captain, Surgeon, cabin passengers, or officers of the ship.

93. The daily issue by the officer in charge of the rations and water for the coolies is to be carried out under instructions from the Surgeon before 6 A.M. every day, so that the first meal may be properly cooked and served out by 9 A.M., and the second by 3 P.M.; the issuing officer in charge of the stores must keep a correct account of the expenditure in Form No. 24 or 25, and have it initialed daily, as indicated therein. Medical stores and comforts shall be issued on the requisition of the Surgeon.

94. It must be clearly understood that the dietary scale is merely intended as *a guide, and not a hard and fast rule.* The provisions supplied according to that scale may be issued in such variety as to quantities and proportions as the Surgeon may consider necessary for the benefit of the coolies.

95. Meals must be taken on deck when practicable.

96. While proceeding down the river, the emigrants must be strictly prohibited from drinking the river water from alongside; but they should not be put on the allowance till they are at sea, when the prescribed quantity should be issued twice daily, and must be pumped up through the flexible hose to the upper deck.

97. The wash deck-tubs should be filled regularly, and for the last time at 8 P.M., for the use of the coolies during the night. The tubs should be securely lashed near each block of water-closets.

98. Constant attention should be paid to the windsails and other sources of fresh air for the 'tween decks, but those which it would be dangerous to leave open must be closed in bad weather—side scuttles for example.

99. Awnings must be spread over the quarter and main decks when the weather permits, and coolies should be encouraged to keep as much in the open air as possible.

100. Tarpaulins for spreading "tent-fashion" over the hatchways when necessary to be kept at hand.

101. The 'tween decks must be kept perfectly free, clean, and as dry as possible, by means of hot sand and stoves, if necessary; and the upper deck is also to be kept clear of all unnecessary lumber.

102. The accommodation or space of the coolies must on no account be encroached upon; the main quarter and poop decks must be given up to the coolies, at least to such extent as shall not interfere with the working of the ship

103. The fire-buckets and life-buoys must be kept at all times in readiness, the regulations of the Board of Trade respecting lights and fog-signals shall be strictly observed throughout the voyage, and the times of hoisting and hauling down the lights shall be noted daily in the ship's log.

104. The Commander should retain in his possession the certificates and effects of those emigrants who die during the voyage, and should deliver them with an inventory of the articles to the Protector of Immigrants, or other proper authority, at the port of debarkation, together with the counterpart list and general register given to him by the Emigration Agent Great care must be taken not to deface the lists or certificates. (*See* Rules 127 and 128.)

105. On arrival at the port of debarkation the state in which each emigrant is landed, and the deaths, should be entered in the column of remarks of the general register (signed by the Protector of Emigrants at Calcutta), which should be countersigned by the Master and Surgeon, and then forwarded to the proper Government authority at the port of debarkation for transmission to the Protector of Emigrants at Calcutta.

Rules for the Guidance of the Surgeon.

106. As the health of those on board depends so materially on a strictly careful attention to all sanitary precautions and the early detection of disease, the Surgeon is specially charged with the duty of maintaining throughout the voyage a constant watchfulness over everything that may influence the health of those in his charge.

107. The Surgeon should, as far as possible, guard the coolies from harsh treatment; he should see that the space allotted to them on the upper and lower decks is not encroached upon, that there is no improper intercourse or interference on the part of the officers and crew with the emigrants, and if necessary he should report any infringements of this rule to the Master, who is bound to inquire into the matter and to adopt such measures as the case may require. No punishment shall be inflicted on any emigrant except with the consent of the Surgeon and Master of the ship, and the particulars of such cases must be duly entered in the ship's log.

108. It is the duty of the third officer (appointed for the purpose), and also of the sirdars, to assist the Surgeon in maintaining discipline, to see that his orders and daily instructions are carried out, to report any irregularities or cases of sudden sickness, to assist in distributing the rations, &c., and to superintend the cleanliness of the coolies, their accommodation, food and water.

109. The topasses must keep every part of the deck and hospital occupied by coolies constantly swept and clean, and must attend regularly to the thorough cleanliness of the water-closets by means of constant washing and the use of disinfectants

110. They must also see that the tubs near the privies are securely fastened and kept regularly filled with water for the use of the coolies.

111. The cooks, assisted by the sirdars, will receive and cook the daily rations under the instructions of the Surgeon, and they must also take care of the galley fires and see that they are extinguished at 7 P. M. unless otherwise directed.

112. The coolies must be kept as much as possible in the open air; they should take their meals on deck whenever this is practicable, and at least one-half of their number should *always be on deck* when the weather permits it

113. Ventilation, and the means for promoting or modifying it, should be constantly attended to, and those openings which it would be dangerous to keep open, promptly closed on the approach of bad weather.

114. When possible, the coolies should bathe daily, a sail-screen being put up for the women; and they should wash their clothes at least twice a week. The decks should be *dry holystoned* by the male emigrants daily, when practicable, and disinfecting powder must be freely used where the decks have been soiled in any way.

115. The water-closets must be constantly inspected throughout the voyage.

116. The coolies' clothing and blankets should be aired thoroughly at least thrice a week. In damp weather the hanging stoves and hot sand may be cautiously used with advantage to hasten the drying of any parts of the deck, &c., that have been accidentally wetted.

117. At the outset of the voyage the Surgeon should take an account of, and hold in reserve, all the warm clothing in the possession of the emigrants, in order that they may be preserved and used as soon as a change of temperature renders it necessary. Each emigrant should be made responsible for the care of his or her own suit There should be a general muster of all clothing and blankets once a week.

118. The provisions issued daily must be divided into two portions, so that they may be cooked for two meals; the first at 9 A. M., and the other at 3 P.M. The issues shall be recorded daily by the officer in charge, and attested by the initials of the Surgeon and officer. (*See* Form No. 24 or 25.)

119. It must be distinctly understood that the diet scale is merely intended as a fair *guide*, ensuring for the voyage a sufficient supply of provisions in those proportions which a consideration of their nutritive values renders necessary. The elements of a nutritious dietary are placed at the Surgeon's disposal, and it is intentionally left to his discretion

to use and combine them to the best advantage for the emigrant's benefit under the varying circumstances of a long voyage. *All waste and excess must be strictly avoided.*

120. When cooking is prevented by bad weather, the *dry provisions* should be issued in lieu of cooked food.

121. Meals when ready must be reported to the Surgeon, who will see that the food is *well cooked* and fairly served out. The decks must be swept after each meal and dry holystoned or scraped after breakfast; the spaces under the platforms should be specially looked after, and all dirt thrown overboard.

122. Cooking utensils must be kept clean and inspected daily, and the boiling of rice or other articles in brackish water must be prohibited.

123. Coolies must not be allowed to retain or secrete in their clothes, &c., any food which they were unable to finish; the eating of stale food must be prevented. No smoking shall be allowed between decks.

124 Food for the sick, their medicines, &c, should be methodically arranged, so that they shall receive the prescribed quantities regularly every four hours, or at such other intervals as the Surgeon may decide on. The *night-nursing and feeding of the sick should be most particularly provided for.* It is between midnight and morning that the want of sufficient support is so severely felt, and is so likely to be neglected by a careless assistant.

125. Coolies must be encouraged to amuse themselves by harmless diversions, and should be allowed to play on their drums, &c., till eight bells.

126. It is the duty of the Surgeon to recommend to the Master such arrangements or expedients as may appear to the Surgeon likely to promote the health and comfort of the emigrants It is the Surgeon's duty to keep a watchful eye over the health of the coolies; he should muster and inspect them twice daily, and by being constantly among them, he should be always in a position to detect the earliest symptoms of disease, such as scurvy, &c; communicable diseases (small-pox, cholera, &c) must be isolated *at once;* the place vacated must be thoroughly cleaned and disinfected; and any suspected or infected articles should be completely destroyed or thrown overboard.

127. In case of an epidemic the nearest port must be made for and the emigrants disembarked. Unless the cause of death be a contagious or infectious disease, the corpse of no emigrant shall be thrown into the sea until six hours after death; but when a quicker burial is necessary under any circumstances, it may be allowed after the death has been ascertained and certified to in the ship's log by the medical officer, commander, and chief officer.

128. Both the Surgeon and the Master must send from the first port touched at to the Protector of Emigrants at Calcutta a report of all unusual occurrences affecting the health or welfare of the emigrants on board. The Surgeon and Master are mutually responsible for the care of the emigrants, and all the rules for the voyage (conveniently separated for the guidance of each) must be followed by both—each co-operating with the other for the good and safety of the emigrants entrusted to their care.

129. The Surgeon should make over the property of those emigrants who die on board, with a list of their effects, to the Master of the ship, who shall give him a receipt for them.

130. The Surgeon is required to keep the following records during the voyage, viz.—

(*a.*) A record of the patients admitted and discharged, in Form No. 26.

(*b.*) A medical case-book, in which *every* case must be entered, and not only those considered important, in Form No. 27.

(*c.*) A medical history of the voyage, in Form No. 29.

(*d.*) A register of births and deaths, in Form No. 28.

131. The above-named records, carefully kept and duly signed by the Surgeon, must be given in by him to the proper Government authority at the port of debarkation for transmission to the Protector of Emigrants at Calcutta, and to ensure correctness and regularity in these returns, no payment of any description is to be made to the Surgeon until the general and mortality registers have been examined and their correctness certified to by the Health Officer and Protector of Immigrants, or other proper Government authority at the port of debarkation.

OF RETURNED EMIGRANTS.

132 Early notice of the arrival off the cooly moorings at Garden Reach of any ship with return emigrants should be sent to the Protector of Emigrants in order that the vessel and her emigrants may be inspected by him, to whom a nominal roll of the emigrants, and any other documents or necessary information relating to them, together with the wills and property of emigrants who have died on board, should be made over as soon as it is conveniently possible.

133. Return emigrants, immediately on their landing, shall be properly lodged and provided for by the agent of the colony whence the coolies have returned, and they should not be detained in Calcutta longer than is necessary to arrange everything for their return. The sick should be sent to hospital at once, and all who are paupers returned to their homes at the expense of the colony. In all cases care must be taken that those who are blind, lame, or otherwise helpless, are sufficiently provided with such additional assistance for the journey home as their condition of circumstances may render necessary.

134. Return emigrants should be cautioned against carrying loose cash on their persons, and assisted, if they desire it, to obtain money orders on the local treasuries of the districts to which they are going.

135. Emigrants should be landed only during daylight and not after dark.

SCHEDULE (B.)

Specification of Ventilation and Fittings to be provided for Ships chartered to convey East Indian Emigrants from Calcutta.

1. *Ventilation of the between-decks.*—Besides hatches (and if any stern ports or side scuttles the latter to be glazed, well fitted, about 14 feet apart, and as close to the upper deck as possible), there must be air shafts and cowlheaded funnels or tubes, with such other additional means for affording light and ventilation to the space intended for the accommodation of the emigrants as the Protector and Medical Inspector of Emigrants may consider necessary.

2. All cowlhead funnels must be well made, of stout sheet iron (1-12th of an inch thick), each tube averaging at least a foot in diameter with well expanded movable and revolving cowls. The upper lip of the cowl must be sufficiently well projected to keep out rain. The cowls must be thoroughly secure in their hold on the funnels to which they belong; and the funnels or tubes, properly flanged at the deck end, must be well fitted and very securely bolted to the deck.

3. Every cowlheaded deck opening shall be provided with a suitable plug for use in bad weather.

4. The air-shafts and combings round the deck openings must be strongly put together, properly caulked, and of such form and size as may be decided on by the Protector and Medical Inspector of Emigrants. They must be well sheltered above against wind and wet weather with properly constructed lids, covered with tarred canvas, glazed if necessary, and whitewashed inside.

5. The lower apertures of all cowlheaded tubes or air-shafts opening into the between-decks may be fitted, under instructions from the Protector, with means for fastening horizontal screens a few inches from the mouth of each aperture so as to diffuse the down draft of cold air.

6. One windsail for every hatchway, and two extra for air-shafts.

7. *Ventilation of the hold.*—Except in vessels fitted with ventilating masts, in which case a proportionate reduction may be allowed, there should be 5 steam pipes solidly and strongly put together, of stout metal or wood and air-tight, each at least 9 inches in diameter, fitted with cowlheads, and leading from the hold to the open air on the upper deck. They should be conveniently placed and so arranged as to carry off the steam from the cargo quite clear of the 'tween-decks, the air of which must be kept as pure and free from sources of contamination as possible.

8. Prior to taking in cargo or stores the ship's limbers and bilges if foul should be thoroughly cleaned, and the latter purified if necessary by the free use of some disinfectant, such as carbolic acid, &c.

9. All air-holes in the between-decks must be securely stopped.

10. *Fittings of the between-decks.*—Platforms between 3 and 4 feet high, very strongly built and supported by stout stanchions and cross-pieces, must be put up on each side of the deck opposite the hatchways. They may be 24 feet long by 6 wide, or half that width, and extended continuously all round the sides of the ship at the option of the Surgeon appointed to the vessel.

11. The after-third of the deck space, as the space or compartment more especially allotted for the accommodation of women, should be indicated by erecting a couple of equi-distant stout stanchions on a beam line between the after-third and forward two-thirds of the vessel. This will sufficiently divide off the space set apart for this purpose without interfering with ventilation.

12. If necessary, bright sheet tin reflectors, 2 to 4 feet square, may be fitted conveniently and at such an angle as to reflect light from above into the 'tween-decks below. It is sufficient to arrange them at the vessel's stem or stern when they are unusually dark.

13. All exposed or dangerous places where children or others are likely to injure themselves should be properly protected or closed.

14 The space to be occupied by the emigrants must be cleared of every obstruction, thoroughly cleaned, dried, and whitewashed throughout, and nothing must be slung up or stowed away between the beams.

15. Previous to embarkation and after the decks are cleared, bamboos, ropes, or stout rails must be securely fastened fore and aft to the amidship stanchions, so that the coolies may have something on which to hang their clothes and bundles, and to depend for support when the ship rolls.

16 The lower deck hatches must be closed and covered with tarpaulins properly battened down, or secured with iron bars locked; and in ships for the West Indies canvas screens (of No. 6 canvas) shall be fitted to each upper deck hatchway, so that they may roll up when not in use.

17. Hooks for hanging the required number of lanterns must be fixed at convenient distances apart, and where necessary.

18. *Fittings of the upper deck.*—Water-closets must be firmly fitted inside the vessel in two blocks, divided into compartments, the forward one (usually opposite the fore-hatch) for the men, and the after block, as far aft as it is conveniently possible, for the women and children. The number of compartments and seats, according to scale in the Protector's office, will depend upon the number of statute adults to be conveyed. The closets must be well built, securely covered on their tops with tarred or painted canvas, and every compartment must be fitted with strongly hinged doors capable of being fastened on both sides; each compartment should not exceed 22 inches in breadth, nor should the seats in them be more than 22 inches square, though the *length* of the *compartment* should exceed its breadth by a few inches in front of each seat for convenience in entering the closet. The foot-boards on either side for the seats must be about 7 inches wide and 8 inches apart, so as to leave a central space of that size to communicate with the closet floor and shoot, which (lined with sheet iron) should be as far as possible free from all angles or projections likely to obstruct. The shoots must carry the soil well clear of the ship's side. If considered dangerously large for young children, the ports or scuttles through which the shoots lead must be guarded with horizontal iron or hard wood bars to prevent accidents A strong short hand-rail must be fitted inside the closet, and in a convenient position to hold on by. Those parts of the wood-work and shoots exposed to any source of contamination must be thoroughly and continuously lined with stout sheet iron, to prevent the wood from absorbing impurities, otherwise the floor and shoots must be constructed entirely of sheet iron or zinc of sufficient thickness. If the water-closets are unavoidably high, convenient steps must be provided

19. As represented by the model at the office of the Protector of Emigrants the closets should be fitted with a simple recess for the reception of a well-secured safety lantern, so that one light shall illuminate many compartments at the same time.

20. Cabooses or cooking-ranges must be placed so as to afford shelter to the cooks, and whenever it is practicable, *athwart* ships and inside the deck-house. The cooking-range should be securely placed on a platform of fire-bricks firmly laid in mortar, and as a precaution against fire, a space of a few inches must intervene all round it and between the bottom of the range and the fire-bricks below. All exposed wood-work unavoidably near the cooking-range or caboose must be well protected with sheet lead or iron against sparks and hot cinders.

The vents for smoke must be sheltered against rain, &c., by cowl or ridge ventilators. The size of the caboose or cooking-range will depend on the number of boilers likely to be in use at one time; but there should always be accommodation for 6 boilers abreast and of the usual sizes.

21. The iron *chapatee* plates must be adapted to the size of the fire-places.

22. The hospital shall invariably be on the upper deck, and must be fitted either in the poop or deck-house When one has to be built, it must be as strong and secure as any deck-house with a raised floor on strong movable platforms 4 inches high. The roof shall be caulked and covered with painted canvas It shall be sufficiently large for 6 bunks, and must be well lighted and ventilated to the satisfaction of the Surgeon in charge, and subject to the approval of the Medical Inspector.

23. A dispensary or dispenser's room for the accommodation of the compounder and medical stores must be provided in a suitable place (*e.g.*, one of the forward poop cabins), and it should be fitted up with shelves, bottle-rack, folding-table, and other conveniences, according to the requirements of the Surgeon in charge, subject to the approval of the Medical Inspector.

24. The hatchways in all ships for the West Indies must be fitted with storm or booby hatches of the form illustrated on the model in the Protector's office. They must be very strongly built, dove-tailed, and strengthened at their covers with stout angle irons or clamps. Their lids or leaves that lift up must be very strongly hinged and lined with 1-inch planking, and if inconveniently large, the lids must be constructed so as to fold back twice. They must be well covered with painted or tarred canvas so as to be thoroughly water-tight, and glazed, if necessary, with thick glass properly protected.

25. The ordinary hatches belonging to the hatchways must be secured where they may be readily available when wanted.

26. Strong ladders shall be provided for every hatchway; there shall be a pair for the main hatch. They should be fitted with stout hand-rails, one on either side; and the sides of the ladder must be firmly held together by means of iron rods secured with nuts at the ends) passing under the last step at the bottom and top of the ladder respectively.

27. As additional means for women and children to hold on by, when using the ladders in rough weather, a knotted hand-rope, fastened to the side of the hatch, should hang conveniently near each of the ladders.

28. Every vessel must be provided with good tarpaulins for spreading "tent-fashion" over each hatchway; it should be large enough to spread well over on all sides of the hatch so as to exclude rain, &c., but admit air.

29. Platforms, if necessary, for the accommodation of the emigrants or their stores may be ordered at the discretion of the Protector, not only over the long boat, but between the skids supporting the other boats of the ship or elsewhere.

30. At least two sheep pens (one for the ship's sheep and the other for the emigrants' sheep) must be fitted as far forward as possible, and not on the quarter or poop deck. They shall afford sufficient accommodation for the prescribed number of the sheep, and shall be built so as to be easily cleaned and well ventilated. Their bottoms or floor may be lined with sheet iron.

31. Two scuttle butts (= 120 gallons each) properly charred inside, clean, and provided with locks and keys must be secured for drinking water in convenient positions on deck; and a wash deck-tub shall be placed near each block of water-closets for the convenience of the coolies.

32. Every vessel, unless especially exempted by the Protector, must be fitted with a distilling machine, and be prepared to comply with the conditions specified in Schedule C, subject to the approval of the Government surveyor of distilling machines.

33. Every vessel must be provided with a hold pump and flexible hose for issuing the fresh water from the tanks below on the upper deck.

34. Excepting ship's fittings, which must be properly secured, no lumber of any kind can be allowed on deck, which shall be as clear as possible for the accommodation of the emigrants.

35. Life-buoys (6) must be slung so as to be readily available when wanted.

36. The fire-engine, flexible hose, fire buckets, and all other appliances needful in case of fire, should have a proper place, and must be kept in good order, *all ready for use on the shortest notice.* (*See* Schedule A.)

37. Strong suitable *screws* and *not nails* must be used throughout in fastening the fittings at those points where they are subject to any strain likely to drag their parts asunder. The Master's special attention is drawn to this, as all the fittings must be well put together, and all hinges, bolts, clamps, sheet iron pipings or coverings, cowlheads, and every other description of fittings in which metal is used, must be thoroughly strong, well made, and well fastened.

SCHEDULE (C.)

A suitable hose and connection must also be provided.

That at the time of survey it will be necessary to have the condenser at work, the condensed water to be delivered into a tub placed where most convenient, and large enough to contain at least the quantity furnished by the condenser during the space of half an hour. This quantity will be accurately measured by a stamped imperial gallon measure, to be furnished by the ship, and no allowance will be made for any waste occurring from defective arrangements, that is to say, once the time has been taken as commencing the experiment, the work done in the next half hour will determine the efficiency of the machine.

Dated

SIR,

I BEG to inform you that I have examined and passed the samples of provisions, &c., for the use of the cooly emigrants about to proceed to in the ship under your command. In receiving the stores and arranging for their survey, I have to request your careful attention to the following :—

Instructions.

1. The bulk of the provisions will be examined, and may, if necessary, be compared with the samples ; therefore the whole must be kept above hatches until the survey is over.

2. All stores received on board for emigrants must be carefully weighed, and the number of packages correctly counted and noted. Excepting the vegetables, which must be carefully slung up under shelter, but not out of sight, *all the stores must be arranged between decks according to the order in which they stand in the provision list, three copies of which are herewith supplied.*

3. Each package must be distinctly marked with its net contents, and to facilitate calculation, the bags, casks, tins, cases, &c., in which each separate kind of article is packed, must be of *uniform size, at least for that article.*

4. The weighing, &c , of these stores is the duty of the officer specially appointed to have charge of them. He must keep a correct account in his copy of the provision list of the quantity and number of stores shipped. *This is important, and must be carefully done.*

5. In weighing rice, dhall, ohoorah, gram, flour, sugar, lime, &c., the average weight of a few bags may be taken as a guide ; but fish, hay, and all the vegetables, must be weighed carefully throughout, as the weight of the bags, baskets, &c., is not sufficiently uniform to give a correct average.

6. All articles of a kind should be kept together, in order that they may be easily examined and counted.

7. Preserved meats, soups, and milk in tins, candles, brandy, port wine, &c., if in *original cases*, may be exposed in their cases, but if *not in original cases*, they must be sorted in tens on the platforms ; and bags of rice, &c., must be arranged in tiers, five deep, so that all may be easily counted.

8. Iron cooking pots and wash-deck tubs must be kept filled with water to ascertain whether they leak, and arranged on deck for inspection

9. You should ascertain that the water tanks, *properly cleaned and white-washed inside*, as prescribed in Rule 13, continue in good order, and that none leak.

10. The blanks in the accompanying three copies of the provision list will have to be correctly and neatly filled up with the quantities according to scale ; after which, when you are satisfied that the proper quantities and qualities of stores, including the sheep, &c., have all been carefully weighed, counted, and in good order on board, and that the fittings, ventilation, hospital arrangements, medical stores, &c., are thoroughly complete, and all ready for survey, two copies of the enclosed list, duly filled up, dated and signed by you and the officer in charge of the stores, must be returned to this office with your application for final survey, and such application, with the lists, must be forwarded *at least one day previous to that on which the survey is desired.*

11. During the final survey no other work is to be carried on in the between-decks, and the officer who weighed the stores, assisted by the carpenter, sail-maker, and one or two of the crew, should be in attendance, so that cases and bags may be opened, examined, and closed, in order that the survey may be methodically and speedily conducted.

12. In conclusion the most serious disorder, loss of time, and inconvenience, are occasioned when the officers of the Emigration Department are called upon to hold surveys on imperfect fittings, or insufficient or inferior stores. I desire therefore to draw your particular attention to this point, and to request that you will be so good as to see that everything is really as it should be, thoroughly ready for survey at the appointed time.

I have the honor to be,

SIR,

Your obedient servant,

Protector of Emigrants, Calcutta.

THE attention of the Court has been called to the circumstance that the applications of candidates for admission to the Pleadership Examination are sometimes rejected by District Judges without the causes of such rejection being definitely stated, so that it is neither possible for the High Court in case of complaint, where the Judge has left the district, to ascertain whether good ground for rejecting the candidate existed, nor is there anything to guide the Judge's successor in case of subsequent application by the same party.

2. The Court direct accordingly that a brief but exact statement of the cause of rejection be appended in future to all orders rejecting such applications.

BENGAL CIVIL FUND.

At a Half-yearly General Meeting of Subscribers to the Bengal Civil Fund, held at the Town Hall, Calcutta, on Wednesday, the 29th January 1873—

PRESENT:—S. Wauchope, Esq., C. B.; The Hon'ble V. H. Schalch; A. Money, Esq., C. B.; C. T. Buckland, Esq.; H. D. Sandeman, Esq.; H. L. Dampier, Esq.; The Hon'ble R. E. Egerton; R. B. Chapman, Esq.; H. A. Cockeroll, Esq.; W. S. Halsey, Esq.; C. U. Aitchison, Esq.; F. R. Hogg, Esq.; James Monro, Esq.; J. Geoghegan, Esq.; C. A. Kelly, Esq.; A. Mackenzie, Esq.; T. W. Gribble, Esq.; D. M. Barbour, Esq.; W. M. Souttar, Esq.; C. F. Magrath, Esq.; W. H. Verner, Esq.; H. Luttman Johnson, Esq.; T. J. C. Plowden, Esq.; and C. E. Buckland, Esq.

C. T. Buckland, Esq., in the Chair.

Read the following report submitted by the Managers:—

"The Managers submit their Proceedings for the past half-year for the consideration and sanction of the Meeting."

I. "Subject to the approval of the Subscribers, they have admitted to the benefits of the Fund the widow and two daughters of the late Mr. H. C. Hamilton (an annuitant of 1865), who died on the 26th October last."

Mrs. Hamilton	... £ 300
Two daughters	... „ 200

II. "The Managers beg to submit, for the consideration of the Meeting, the application of Mr. Walker, asking remission of the fine of Rs. 50 incurred under Article V of the Rules of the Fund. Mr. Walker reported on the 30th June last to the Agents of the Fund, Messrs. Coutts & Co., the birth of his daughter on the 22nd May 1872, and was informed that a fine of Rs. 50 had been incurred under Article V of the Rules, as the event had not been reported within a month of the occurrence. Mr. Walker states that the delay was due to serious illness and consequent inability to attend to business of any sort."

III. "The Managers also submit to this Meeting the following statement in connection with the application of Mrs. Offord, formerly Mrs. Neave, for admission to Fund benefits."

"Mr. Neave was a Subscriber to the Fund under the Old Rules, and at the time of his decease (24th December 1848) had subscribed the sum of Rs. 15,924. He possessed considerable property over which he had full control, and he was bound under Article XXVI of the Old Rules to make a proper testamentary provision for his family. That article contains the following provisions:"—

"In case it shall be proved to the conviction of a General Meeting of Subscribers that a deceased member of this Fund has, during his life-time, whether in immediate anticipation of his death or otherwise, made such a disposition of any part of his property, real or personal, as but for this rule would throw the entire or partial support of his widow or offspring upon the Fund, who would not have been so supported by the Fund had such part of his property not been so disposed of, with the intention thereby of benefiting any party at the expense of the Fund, then the widow or offspring of such a member or both shall forfeit all right to any part of the support which would have been claimable if no such disposition had been made.

"It is hereby declared that a General Meeting of the latter, (*i. e.*, Subscribers), duly held according to the rules of the institution, shall have full power to reject the application for aid from the Fund in any instance in which it may appear that a Subscriber having property at his death, and having the power to dispose of it, has made no due provision for his family."

"The Managers, when acting under these provisions, have invariably decided that the whole of the private income left by the deceased Subscriber, whether from real or other property, must be taken in reduction of Fund Allowances."

"Mr. Neave not only omitted to make any will which would have secured his widow's maintenance, but by an indenture, executed with a view to destroy and entail some years before his death, expressly barred her from dower. This indenture was not examined till the year 1867, and thus Mrs. Neave drew from 1848 to 1867 dower from the estate, and no application for admission to Fund benefits was made on her behalf. In 1867, when her son put up the family property for sale, a careful examination of the title-deeds became necessary, and this showed that Mrs. Neave had all along been drawing dower illegally. Her son, Mr. Spencer Neave, however settled upon her £200 a year from the estate. He has since lost all his remaining property in unfortunate speculations, and Mrs. Offord now finds that only this sum of £200 a year is left to herself and her son out of the entire estate of the late Mr. Neave."

"Mrs. Offord has now applied for a pension from the Fund on the ground that, had it been known at the time of Mr. Neave's death that she was not entitled to dower, she would have received an annuity. But the Managers consider that, had this claim been made on the death of Mr. Robert Neave in 1848, it would have been rejected under the provisions of Rule 26 above quoted, and they are of opinion that the original fault is in no degree removed by the subsequent events. The Managers have therefore disallowed Mrs. Offord's claim, and they now submit the case for the decision of the General Meeting under the following provision of Article XX of the Old Rules:"—

"The Managers, after calling for any further information or evidence which may appear to them requisite, are to submit the application with the whole of the papers received by them, and the decision they may have come to thereupon, for the determination of the Subscribers at the next General Meeting."

IV. "The Managers have before them a note recorded in the Financial Department on the examination of the Bengal Civil Fund, which discusses and determines many questions of great importance. Mr. Monteath in a letter to the Managers has drawn special attention to one of its most prominent features, namely, the necessity, in view of the constantly increasing surplus, of either decreasing the rates of subscription or increasing benefits. The Managers have asked Mr. Monteath for an expression of his views on this question, and, on receipt thereof, the Managers will circulate them to the Service along with their proposals on this and other important points raised in the note of the Financial Department."

V. "The Managers have had before them letter No. 12, dated the 4th January 1873, from the Officiating Secretary to the Government of India, Home Department, on the subject of the eligibility of three newly appointed Native Members of the Civil Service to subscribe to the Bengal Civil Fund. The Government of India considers that, as the clause providing for subscriptions to the Fund was not struck out of those gentlemen's covenants, the privilege of becoming Subscribers cannot be refused to them, and they request the Managers"—

"1*st*, to draw up a rule placing, as far as possible, the benefits of the Fund as regards the widow and children of a Native Member of the Civil Service* on the same footing as the benefits secured by it to any other Member;"

* *i. e.*, one who has been admitted as a Subscriber to the Fund.

"2*nd*, to convey an expression of their opinion as to the rule to be adopted as to the future admission of Native Members of the Bengal Civil Service to subscribe to the Fund."

"The Managers are thus required to frame rules to meet the cases of those Native Civilians who have already been admitted as Subscribers to the Fund; and to give their opinion as to the *future* admission of Native Members of the Civil Service as Subscribers to the Fund."

"As regards the first of these points the Managers have drafted the following rules:"—

I.—That in the case of a Native Member of the Civil Service, who has but one wife at one time, the ordinary rules of the Fund shall apply.

II.—That in the case of a polygamous marriage where there are two or more wives living, only the one first married and her children can be on the Fund.

III.—That in any such marriage, in the event of the death of the wife first married, the wife married next in order of time may be brought upon the Fund from the date of the death of the first wife. Provided that it shall be incumbent on the husband to give special notice on or after the decease of his first wife of his wish to bring such second wife upon the Fund. On receipt of this notice, the case will, for the purposes of the Fund, be treated, as regards fines and all other matters, as if the husband had contracted a second marriage on the day of his first wife's decease.

IV.—Provided that in the event of a second wife married during the life of the first coming upon the Fund, her children shall be admitted to the benefits of the Fund, only if born not less than one year after the death of the first wife.

"As regards the second point, namely, the question of the future admission of Native Covenanted Civilians as Subscribers to the Fund, the Managers have informed the Government of India that in their opinion Native Civilians may in future be admitted under the rules given above, or such others as may from time to time be framed to meet the circumstances."

"The Managers have at the same time informed the Government of India that they can in no way pledge the Service to the opinions or the rules above noted, and also that they do not relinquish the right to make any such future rules, with reference to the conditions under which Native Members of the Civil Service are to subscribe to the Fund, as may be required, either by the changed constitution of the Service, or for actuarial or other reasons."

"The accounts of the past year (1871-72) are submitted."

W. H. VERNER,

Offg. Secretary and Accountant.

Proposed by *Mr. Geoghegan*, seconded by *Mr. Plowden*, that the proceedings of the Managers in admitting to the benefits of the Fund, to the extent reported, the family of the late Mr. H. C. Hamilton, be confirmed. Carried unanimously.

Proposed by *Mr. Mackenzie*, seconded by *Mr. Money*, that Mr. Walker be informed that the rule as to fine for failure to report birth being absolute, the fine imposed upon him cannot be remitted. Carried unanimously.

Proposed by *Mr. Barbour*, seconded by *Mr. C. E. Buckland*, that the Managers' proceedings in the case of Mrs. Offord be confirmed. Carried unanimously.

The Officiating Secretary drew attention to the part of the Managers' Report regarding the examination of the position of the Civil Fund by the Financial Department, and congratulated the meeting on the satisfactory conclusion there drawn as to the solvency of the Fund. It appeared that, after all adjustments which could be demanded by the Government had been made, there would still be a surplus of assets amounting to 18 lakhs of rupees. Mr. Monteath had not yet found time to favor the Managers with his promised memorandum on the best mode of utilising this surplus, but the matter was under consideration.

Mr. Mackenzie said there was one very important point brought out in the Financial note, viz. the necessity of revising the tables by which subscriptions were at present valued. This matter had pressed itself on the attention of those interested in the Fund very much of late years. Average salaries were decreasing and likely to decrease, and the Managers should make sure of their ground before they calculated on a surplus of this amount. No change should be made save under the best professional advice.

Mr. Barbour remarked that the question raised by Mr. Mackenzie was of very great importance. There was no doubt that salaries had decreased very considerably of late years, especially in the lower ranks of the service. In valuing the assets of the Fund, the amount of probable future subscriptions was a most important item. The actuary had founded his tables on the average income drawn by the members of the Service at the different ages from 20 upwards. The valuation of future subscriptions by these tables involved therefore the assumption that the average salaries for the future would be as high for the same ages as they had been in 1863. It was hardly necessary to point out that this assumption was not correct. Average salaries in the lower ranks of the Service had decreased every year since 1863, and there was no probability of matters returning to their normal state for 15 or 16 years from the present time. He had calculated for the year 1872 the average amount, for one year, of ordinary subscription of married members from age 21 to age 39. The actuary in constructing his tables had taken salaries as they stood on 1st April 1863, and his (Mr. Barbour's) calculation was founded on salaries as they stood on 1st April 1872, 9 years after :—

Married Members.

Age.	Annual Average Subscription being 2½ per cent. on Salary.		Age.	Annual Average Subscription being 2½ per cent. on Salary.	
	1872.	1863.		1872.	1863.
21 ...	120	90	31 ...	277	421
22 ...	135	86	32 ...	267	327
23 ...	145	94	33 ...	318	394
24 ...	170	185	34 ...	447	451
25 ...	171	203	35 ...	456	508
26 ...	169	235	36 ...	385	424
27 ...	205	285	37 ...	441	512
28 ...	203	288	38 ...	510	569
29 ...	257	275	39 ...	633	722
30 ...	287	311			

The decrease was very considerable and, although there might be other circumstances tending to lessen the loss to the Fund arising from diminution of salaries, still the figures he had given were sufficient to show the necessity for having the tables re-calculated and the assets and liabilities of the Fund very carefully valued before they sanctioned any increase of benefits or diminution of subscription.

It was then proposed by *Mr. Egerton* and seconded by *Mr. Aitchison*, "that the proposals of the Managers in regard to the Native gentlemen who have already been admitted to the Service and whose covenants contain a stipulation that they shall subscribe to the Civil Fund should be adopted."

Mr. Mackenzie rose to move an amendment. He said this question of admitting Native subscribers was one surrounded by practical difficulties. It was a question which he was sure would be met and discussed without any feelings of race prejudice, but it was one that affected very closely the interests of the Fund. He regretted much that it had been thought necessary to raise the issue in all its broadness at the present time. True, there were now three Native gentlemen in the Service in whose covenants there had been inserted, through an error in the India Office, a stipulation that they would become subscribers to the Civil Fund. These Native gentlemen were desirous of availing themselves of that stipulation, and he for one was ready to admit them to the Fund upon conditions. He would first, however, read to the meeting the distinct pledge given by the Secretary of State in 1864 when the first Native Civilian

was appointed to Bombay, as contained in Sir C. Wood's letter 103, dated 30th November 1864, to the Governor in Council, Bombay. "I have considered in Council your public letter dated "the 23rd July last, No. 24, which forwarded a letter from the Secretary of the Bombay Civil "(Provident) Fund, submitting certain questions with a view to the determination of the "position of Native gentlemen entering the Civil Service in relation to the Service Funds.

2. "So far as relates to subscriptions to the Civil Service Annuity Fund, there does not "appear to Her Majesty's Government to be any ground for making a distinction between "different members of the Covenanted Civil Service whether Europeans or Natives.

3. "With reference to the Provident Fund, Her Majesty's Government are of opinion "that, both as respects their domestic institutions and their personal requirements during "absence on leave, Natives of India differ so materially from Europeans that the Civil Fund "is not adapted to them: and it *does not appear to me that such alterations could be made in "the rules as would render that Fund a suitable institution for making provision for their widows "and families.*

4. "Arrangements will therefore be made for cancelling so far as relate to Natives of "India the rule, which requires that all persons entering the Covenanted Service shall subscribe "to the Widows' or Orphans' Funds."

Satyendra Nath Tagore, the Bombay Civilian, was therefore to have the option of withdrawing from the Fund, or of being bound by any rules that could be devised to meet his special case. He put an end to all difficulty however by voluntarily accepting monogamy as his rule of life. In the covenants of the Native gentlemen who had lately come to Bengal, the condition of subscription was unfortunately by oversight included. But the present Secretary of State had again reiterated Sir C. Wood's pledge in the following words:—

"A separate form of covenant will be prepared for future Native members of the Civil "Service, so that the mistake which has been committed may not occur again.

"I desire that Your Excellency in Council will make such arrangements as you may "deem right on the question of subscription to the Widows' and Orphans' Fund, with respect "to the three gentlemen who have already joined the Bengal Civil Service."

It would be clear to the meeting therefore that the very radical change proposed by the Managers in the rules and constitution of the Fund had its origin in India and not in Westminster. He believed that there would be so many practical difficulties in the way of admitting Natives generally to the Fund, that he would advise the meeting to fall back absolutely upon the Secretary of State's pledges, after dealing with the particular cases now before them. He did not think the rules proposed by the Managers met the point. Many positions might be imagined which those rules did not cover, and the only condition which he thought could be accepted as qualifying for the privileges of the Fund, was the acceptance by the Bengali Civilians of the rules of monogamy. They must put themselves on the same footing as the other subscribers as far as that was possible. *The three gentlemen in question had voluntarily offered to give pledges of the kind required* and had agreed to accept monogamy as their rule of life. His amendment therefore precisely met their case without any change in the rules or constitution of the Fund. The amendment would run as follows:—

"That the Native gentlemen now in the Civil Service in whose covenants the condition of subscribing to the Fund has been inserted be admitted as subscribers on condition of their adopting monogamy as their rule of life, and giving similar pledges to those given by Mr. S. N. Tagore to the Bombay Fund, and provided that they and their families shall forfeit all interest in the Fund and in their subscriptions thereto if they marry a second wife in the life-time of the first."

Mr. Verner observed that the case of Satyendra Nath Tagore, on which the mover of the amendment relied, would not serve as a precedent in the sense intended by Mr. Mackenzie, for Mr. Tagore had not accepted monogamy as his rule of life. The Proceedings of the Bombay Fund showed that he abandoned the right to marry a second wife during the life-time of the first, only so far as the Fund was concerned, and the despatch of the Secretary of State No. 73, dated the 22nd September 1865, made this still more explicit, for it stated that Mr. Tagore had renounced not polygamy but all claim to any advantages which might accrue through an infringement of the rule of monogamy, and that it was on this understanding that he had been allowed to subscribe to the Fund.

Mr. Monro in seconding the amendment referred to the many cases which might arise in which the rules of the Fund would fail to cover the conditions of Native life. The Fund was a social institution intended for men bound by the same social rules. It must be remembered too that, when the time came for applying the rules, we should not have to deal with the educated Native Civilians themselves, but with their relatives and families living under Hindoo or Mahomedan law. We should infallibly get involved in perplexing litigation sooner or later.

A discussion ensued in which Messrs. *Money, Barbour, Egerton, Aitchison, Magrath* and others took part, generally supporting the views above enunciated on the general question, but supporting in some instances the rules proposed by the Managers. *Mr. Mackenzie* remarked in reply that the pledges offered by the Bengali Civilians were quite sufficient for the purposes of the Fund.

The amendment being put to the vote was not carried, the votes being 12 for and 12 against it.

The original motion was then put but was not carried, the votes being 10 for and 12 against it.

It was then proposed by *Mr. Egerton* and seconded by *Mr. Aitchison*, "that this Meeting" express their concurrence in the views recorded by the Secretary of State in the despatch No. 108, dated 30th November 1864, to the Bombay Government, and No. 46, dated 15th May 1872, to the Government of India, as to the inapplicability of the conditions of the Civil Fund to Native Covenanted Civilians and the expediency of expunging from their covenants the engagements relating to the Civil Fund."

Mr. Chapman said that he wished to propose an amendment.

He was anxious not to make it appear that any present who might think differently from himself were actuated by any abstract opposition to the admission to the Fund of members of the Covenanted Civil Service who were Natives of India; at the same time he thought that it was only proper that the Service should now affirm distinctly that it would recognise no distinction on account of race or colour. Mr. Chapman did not anticipate that in practice any of the difficulties that were suggested in the way of admitting Natives of India to the Fund would arise. It was not improbable that the Fund would rather benefit than otherwise by such admission, and he thought any fraud on the part of the families of Natives of India who were members of the Covenanted Civil Service in every respect as unlikely if not as impracticable as it would be in the case of Europeans. Then again as to polygamy; in practice it was highly unlikely that gentlemen, Natives of India, who became members of the Covenanted Civil Service, would ever contract polygamous marriages. But if the benefits to the family of a Native officer depended upon his abstaining from such a connection, it was easy to see that the penalty by which a rule against polygamy must be enforced would fall not upon the offender but often with much weight upon the innocent widow and children. All that it behoved the Service to consider was whether Natives of India could be admitted to the Fund without risk of injury thereto. It was not the duty of the Service to enforce its own views of social morality, however undeniably true they might be. Mr. Chapman therefore considered that the Service in disposing of this question should confine itself to the one point whether Natives of India could be enrolled as members of the Fund without endangering its stability. He had himself no doubt upon the point, but it would of course be proper that it should be settled deliberately and after professional investigation.

The following amendment was then proposed by *Mr. Chapman* and seconded by *Mr. Hogg*. "that this Meeting would affirm the principle that Natives of India, who are members of the Covenanted Civil Service, should be allowed to subscribe to the Civil Fund under any special rules or restriction that may be found necessary to protect the interest of the Fund."

Not carried, the votes being for 8 against 14.

The original proposition was then put and carried—the votes being for 14 against 8.

The accounts of the past year were approved.

The following gentlemen were elected Managers for the ensuing year, Hon'ble V. H. Schalch, James Monro, Esq., W. L. Heeley, Esq., W. M. Souttar, Esq., and H. Luttman Johnson, Esq.

A Vote of thanks was passed to the Chairman.

We, the undersigned, the Members of the select committee of the Council of the Lieutenant-Governor of Bengal for the purpose of making laws and regulations, to which the Bill to amend the law relating to embankments and water-courses was referred for the purpose of considering the amendments proposed by the Hon'ble V. H. Schalch in the Bill, as amended by the former committee and submitted with their report of the 5th August 1872, have the honor to report that we have considered the said proposed amendments; that we have adopted some of them as proposed; and that we have introduced some others with certain alterations.

We have provided for the payment of a portion of the expenses by a first or second class municipality which is benefited by the work executed.

We have preserved the system, which has existed for many years, for recovering the cost of maintaining the Gunduk embankments in the Sarun district.

We have provided for the assignment to a certain estate or tenure of lakhiraj lands which are not included within the local limits of any estate or tenure

We have given power to the Magistrate to remove an embankment or obstruction illegally constructed, if the person who constructed it fails to remove it within a fixed time.

We have provided for the extension by Government of the Hooghly and Burdwan Drainage Act to any scheme proposed for similar objects of which the Lieutenant-Governor may approve.

We have confined our attention to the amendments which were laid before the Council by the Hon'ble V. H. Schalch, and report upon them alone.

A Bill to Amend the law relating to Embankments and Water-courses.

WHEREAS it is expedient that provision should be made for the better construction, maintenance, and management of embankments and water-courses in the territories subject to the Lieutenant-Governor of Bengal; It is enacted as follows:—

PART I.

Preliminary.

1. This Act may be called "The Bengal Embankment Act, 1873."

It extends to the whole of the territories subject to the Lieutenant-Governor of Bengal, except the province of Orissa and the Soonderbuns as defined under the provisions of Clause 2, Section 13, Regulation III of 1828.

And it shall come into force on the day of the passing thereof.

Repeal of former Acts.

2. From such day Act No. XXXII of 1855 (*relating to embankments*) and Bengal Act No. VII of 1866 (*to make better provision for the acquisition of land for embankments and other matters relating thereto*) shall, except so far as relates to the province of Orissa and the said Soonderbuns, be repealed.

Interpretation.

3. The following words shall, for the purposes of this Act, have the meanings hereby declared, save where, from the context, a contrary intention appears:—

"Land." "Land" includes interests in land and benefits arising out of land and things attached to the earth or permanently fastened to anything attached to the earth.

PART II.

Powers of Engineers.

Power to take charge of embankments.

4. The Engineer may cause any embankment which connects public embankments, or forms, by junction with them, part of a line of embankments, or any embankment or water-course which is necessary for the protection or drainage of the neighbouring country, to be taken charge of and kept up by the officers of Government.

Power to remove embankments and obstructions.

5. The Engineer may cause to be removed or altered any permanent or temporary embankment which endangers the stability of a public embankment or any obstruction of any kind which interferes with the general drainage of any tract of land.

Power to change line of embankment.

6. The Engineer may, when necessary, change the line of or lengthen any public embankment; or make a new embankment in the place of or renew any public embankment; or make an embankment in any place in which he may deem such embankment required for the protection of any lands, or for the improvement of any watercourse; or make a sluice in any public embankment.

Power to improve drainage.

7. The Engineer may construct any sluice or watercourse, or effect any alteration in any public watercourse, when such construction or alteration may be required for the improvement of the health or for the protection of any village or cultivable land.

Applications for sluices to be made to Engineer.

8. If any landholder, farmer, or cultivator, be desirous of having a sluice made in any public embankment for the purpose of drainage or irrigation, he shall make an application in writing to the Engineer of the district in which such embankment is situate. The application shall contain such particulars of the land to be drained or irrigated as may enable the Engineer to judge of the advantage which may be derived from the work.

Power to alter roads and construct watercourses.

9. The Engineer may call upon the person in charge of any road which interferes with the drainage of any tract of land to alter such road, or to construct any watercourse under or through such road. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may forthwith cause the said road to be altered, or the said watercourse to be constructed. The expenses of such alteration or construction shall be borne by the person in charge of the said road.

Proceedings to obtain new embankment or drainage.

10. Whenever any person is desirous that any new embankment be erected, or that any new watercourse be made, or that any watercourse be obstructed or diverted, if such embankment or watercourse is likely to interfere with, counteract, or impede, any public embankment or any public watercourse, he shall apply to the Engineer, and at the time of making such application shall deposit with him a statement of the proposed works.

Power to make repairs.

11. The Engineer may make any repairs in, and may do all acts necessary and proper for the maintenance of any public embankment, public watercourse, or other work executed or taken charge of under the provisions of this Act, or of any of the Acts repealed by this Act.

Power to alter railroads and construct watercourses.

12. The Engineer may call upon the manager or other person in charge of any railroad which interferes with the drainage of any tract of land to alter such railroad or to construct any watercourse, under or through such railroad. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may thereupon, with the previous sanction of the Lieutenant-Governor, cause the said railroad to be altered, or the said watercourse to be constructed in such manner as the Lieutenant-Governor shall direct. The expenses of such alteration or construction shall be borne by the said manager or other person in charge of the said railroad.

Power to make temporary embankment and dams.

13. Whenever any person is desirous that a temporary watercourse should be made through, or that a temporary roadway should be made over, any public embankment, or that a temporary dam should be constructed in any embanked river, or public watercourse, he shall apply to the Executive Engineer of the district, who shall communicate the application to the Engineer, and the Engineer shall pass such orders thereon as he shall think fit. If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall deposit the amount estimated by the said Engineer to be necessary to defray the expenses of and incident to making such roadway, or of and incident to making and closing or removing such watercourse or dam. If such amount is found insufficient, the said Engineer shall recover the further amount required; and if it exceeds the said amount, such excess shall be returned to the person depositing the same.

Power to remove houses.

14. Whenever the Engineer shall be of opinion that the removal of any trees, houses, huts, or other buildings situated between a public embankment and the river is necessary, he shall make a report to that effect, accompanied by a detailed statement of the trees, houses, huts, or other buildings to be removed, to the Collector of the district in whose jurisdiction the land on which such trees, houses, huts, or other buildings stand, is situated, and the Collector shall report the same to the Lieutenant-Governor in order that proceedings may be taken, under the provisions of "The Land Acquisition Act, 1870," for obtaining possession of such trees, houses, huts, and buildings. Provided always that in case the Engineer be of opinion that the delay required by such proceedings is likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to cause such trees, houses, huts, or buildings to be removed, and in such case the compensation due therefor shall be ascertained and paid in the manner hereinafter provided.

Sluices to be opened under authority of the Engineer.

15. Sluices constructed in any public embankment shall be opened or shut only by or with the general or special permission of the officer in the immediate charge of the embankment, under such orders, either general or special, as he may receive from the Engineer.

Power to appropriate land or earth.

16. In any case where an embanked towpath has heretofore been maintained by Government alongside any canal, river, khal, or channel, the Engineer shall be entitled to appropriate without payment, as heretofore, land or earth for the maintenance, repair or re-construction of such embanked towpath. If in any case the Engineer shall consider it necessary for the purposes of towing to enlarge an existing towpath, or to construct a new towpath, proceedings shall be taken in accordance with the subsequent provisions of this Act relating thereto.

Power to enter and survey land, &c.

17. It shall be lawful for the Engineer, or any person whom he may authorize in that behalf, in order to carry out any of the purposes of this Act,—

to enter upon, and survey, and take levels of any land;

to dig or bore into the sub-soil;

Provided that no person shall enter into any building or upon any enclosed court or garden attached to a dwelling-house (unless with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

Payment for damage.

The officer so authorized shall at the time of such entry pay or tender payment for all necessary damage to be done as aforesaid; and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the decision of the Collector, and such decision shall be final.

PART III.

Reference to the Collector and procedure thereon.

Notice to the Collector.

18. Save as is by this Act otherwise provided, the Engineer, before causing any of the works mentioned in Sections 5 to 10 both inclusive, or any of them, to be executed, shall prepare and submit to the Collector of the district plans, specifications, and estimates of the proposed works, together with a map showing the boundaries of the various estates likely to be affected by the said works, and a notice in writing of his intention to execute such works, and shall not commence any of such works until final order made in respect thereto. Such notice shall be in the form and state the particulars mentioned in Schedule (A) to this Act annexed. Upon the receipt of such notice the Collector shall cause a proclamation to be issued, which shall be in the form and state the particulars mentioned in Schedule (B). The Collector shall append to such proclamation a list of the estates, villages, and municipalities, mentioned in the said notice, and such others as he may consider likely to be affected by the works proposed.

Publication of proclamation.

19. Every such proclamation shall be published by affixing the same at the cutcherry of the Collector, and in the manner provided in the third clause of Section 63.

Proclamation to be published for thirty days

20. Every such proclamation shall be published and served not less than thirty days before the day appointed for hearing the persons interested.

Powers on inquiry and appeal.

21. In any enquiry or appeal held under this Act, the Collector and the Commissioner shall respectively have the powers conferred on Courts by the Code of Civil Procedure for compelling the attendance of and for examining witnesses, and for the production of documents.

Hearing of objections to work.

22. The Collector shall, on the day appointed for the hearing, or on any subsequent day to which the hearing shall be adjourned, hear the objections of any persons who may appear, and, after recording any evidence which they may adduce, shall communicate the objections that may be made, together with his opinion thereon and on the proposed works, to the Engineer, who shall return the same with his opinion to the Collector. If the Engineer agree in opinion with the Collector, the Collector shall pass an order accordingly in regard to the execution of the aforesaid works, and notice of such order shall be served on the persons appearing in pursuance of the proclamation. If he differ from the Collector, the case shall be referred to the Commissioner of Revenue, who shall pass such orders thereon as he may deem fit.

PART IV.

Procedure in cases of imminent danger to life or property.

Proceedings in emergencies.

23. Whenever the Engineer shall be of opinion that the proceedings commenced by notice under Part III of this Act would cause delay in the exercise of any of the powers by Sections 5, 6, and 7 conferred upon him, likely to be attended with grave and imminent danger to life or property, he may forthwith commence to exercise such powers without reference to the Collector. Provided that he shall forthwith inform the Collector thereof and of the nature of the danger, and give notice of his intention to continue to exercise such powers. The Collector, in any case where he shall see fit, may direct the Engineer to suspend further action until after the completion of such proceedings and enquiries. The Engineer, as soon as he conveniently may, after giving such notice of his intention, shall give notice in writing to the Collector, together with plans, specifications, estimates, and maps, as provided in Section 18, appending thereto a statement that the work mentioned therein has already been commenced, and thereupon such proceedings and enquiries shall be had as in and by Part III of this Act are directed.

Notice to the Collector.

Power to take possession of land.

24. Whenever any land, or earth from any land the property of any person, is required for the purposes of any works commenced in pursuance of the provisions of the last preceding section, or for the purposes of Section 11 in cases where the Engineer shall be of opinion that proceedings for the acquisition of such land, according to the provisions contained in Section 28, would cause delay as aforesaid, the Engineer shall cause public notice in form in Schedule (C) to be given at convenient places in the locality in which such land is situated, and he may at the same time take possession of the same for the said purposes. Provided that he shall, so soon thereafter as he conveniently may, give notice thereof to the Collector.

Compensation for standing crops and trees.

25. The Engineer shall ascertain and record the nature and estimated value of the crops and trees (if any) standing on such land, and shall offer adequate compensation to the persons interested. If such offer is not accepted, he shall forward the record with a report to the Collector, and the value of such crops and trees shall be allowed for in awarding compensation for the land under the provisions of Section 32.

Power to Executive Engineer to act for Engineer.

26. Whenever the Engineer may be absent, the Executive Engineer of the district may, in case he shall be of opinion that delay for the purpose of obtaining the orders of the Engineer would be attended with grave and imminent danger to life or property, exercise the powers in and by the three last preceding sections conferred on the Engineer.

Power to restore embankments, &c.

27. Whenever, upon an enquiry had under the provisions of this Part, it has been determined in the final and conclusive order to be passed on such enquiry that anything done by the Engineer was unnecessary, the land or the embankments or drainage shall, so far as any alteration thereof shall appear to be unnecessary, be at the expense of the Government restored as nearly as possible to the state in which they were when the Engineer commenced to act under the provisions of this Part; and any person who shall have sustained loss, damage, or injury by the execution of such works, shall receive compensation from the Government to be assessed and imposed according to the provisions contained in Part V of this Act.

PART V.

Acquisition of lands.

Acquisition of land.

28. Whenever in the course of proceedings under this Act, save in those cases in which the Engineer has proceeded under the provisions of Part IV, it appears that land is required for any of the purposes thereof, such purpose shall be deemed to be a public purpose within the meaning of The Land Acquisition Act, 1870, and such proceedings shall be forthwith taken as are directed by the said Act or by any other law for the time being governing the acquisition of lands for public purposes.

When land taken, notice to be published.

29. Whenever any land shall have been taken or used under the provisions of Part IV, the Collector shall, unless he shall direct the Engineer to suspend further action, cause public notice in form in Schedule (D) to be given at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all incumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.

Contents of notice.

30. Such notice shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days, after the date of publication of the notice), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.

Further notice to be served on certain parties.

31. The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.

Proceedings after notice.

32. After service of such notices proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, and all the provisions contained in Sections 10 to 15, 18 to 34, 36, 37, 38, 42, 51, 55, 58 (as amended by Act IX of 1871), and 59 of the Land Acquisition Act, 1870, shall be applicable to such proceedings.

Compensation for consequential damage.

33. Whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by the due exercise of the powers or provisions of this Act, the person in whom such right is vested may prefer a claim by petition to the Collector for compensation.

Application to be made within a year.

34. No claim shall be entertained which shall be made later than one year next after the completion of the work by which such right is injuriously affected.

Procedure for such compensation.

35. Subject to the provisions of the next preceding section, the Collector shall proceed to enquire into each claim made, and to determine the amount of compensation, if any, which should be made, and the person to whom the same should be payable, and the Collector, on the receipt of such claim, shall fix a time and place for hearing such claim, and Sections 9 to 15, 18 to 23, 26 to 34, 36, 37, 38, 51, 54, 55, 58 (as amended by Act IX of 1871), and 59 of the said Land Acquisition Act, 1870, shall apply to enquiries into such rights as aforesaid, or the exercise of such rights as aforesaid, and to the awards of compensation for injuries to such rights as though they were rights in and awards of compensation for land needed for a public purpose.

Matters to be considered in determining compensation.

36. In determining the amount of compensation to be awarded in such cases, the Judge and Assessors shall take into consideration—

First, the market value of the property injuriously affected at the time of acquiring the land;

Secondly, the damage sustained by the claimant by reason of such acquisition injuriously affecting the property;

Thirdly, the consequent diminution of the market value of the property injuriously affected at the time of acquiring the land.

Matters not to be considered in determining compensation.

But the Judge or Assessors shall not take into consideration—

First, the degree of urgency which has led to the acquisition;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

Appeal from Judge's decision as to compensation.

37. If the Judge differs from both the Assessors as to the amount of compensation under the provisions contained in Section 32 or Section 35, he shall pronounce his decision, and the Collector or the person interested (as the case may be) may appeal therefrom to the Court of the District Judge.

Determination of proportions.

38. When the amount of compensation has been settled by the Court, under the provisions contained in Section 32 or Section 35, and there is any dispute as to the apportionment thereof, or when a reference to the Court has been made, the Judge sitting alone shall decide the proportions in which the persons interested are entitled to share in such amount.

Every appeal under the two last preceding sections shall be presented within the time and in manner provided by the Code of Civil Procedure for regular appeals in suits.

Payment of compensation to whom made.

39. Payment of the compensation shall be made by the Collector according to the award to the persons named therein, or in the case of an appeal according to the decision on such appeal. PART VI.

COST OF WORKS, PROCEEDINGS, &c.

1. *Ascertainment thereof.*

Embankments in schedule E.

41. The provisions in this Part contained shall not apply to any of the embankments mentioned in Schedule (E) to this Act annexed, save so far as any works or repairs are executed therein or in relation thereto under the provisions of Sections 10 and 13 of this Act respectively. All sums payable in respect of any works or repairs executed therein or in relation thereto, except under the provisions of the said sections respectively, shall be paid by the local Government.

Alteration of schedule.

If at any time after the passing of this Act the Collector, on enquiry made by him as far as possible in accordance with the provisions of Part III of this Act, shall find that it is unnecessary for the public interests to retain any embankment mentioned in Schedule (E), the Lieutenant-Governor may direct that the same shall be no longer included in the said schedule. Provided that the same shall be restored to the said schedule if on any subsequent enquiry similarly conducted it shall be found necessary so to do.

Estimate and specifications to be prepared.

42. Specifications of any works or repairs to be executed under the provisions of this Act, and estimates of the expenses to be incurred therein or relating thereto, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer as soon after the month of October in each year as may be practicable. And whenever it appears that the actual expenses to be incurred will exceed the amount mentioned in the said estimates by one-tenth, the Engineer shall forthwith prepare further estimates, and, if necessary, further specifications. Copies of all specifications and estimates shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs. Notice of the receipt of specifications and estimates shall be served for all estates chargeable for or likely to be affected by the said works or repairs; and should any objection in regard to the amount of such expenses be preferred by any such person within a period of one month from the date of such notice, the Collector shall communicate the objection, with his own opinion thereupon, to the Engineer, who shall pass such orders as may appear to him reasonable and proper. Such order shall be subject in any case to an appeal by the person making such objection, and to a reference by the Collector, to the Commissioner whose decision shall be final.

Preparation and settlement of accounts.

43. The accounts of the actual expense incurred in executing any works or repairs shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the true amount of all such expenses and the names of the estates chargeable for and of the estates and villages affected by the said works and repairs. Copies of the said accounts and certificates shall be forwarded to the office of the Collector, and may be there examined by any person interested. Notice of the receipt thereof shall be served for the said estates and villages and such others as in the opinion of the Collector are liable to contribute to the payment of the said amount; and if, within thirty days from the service of such notice, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates, the Collector shall enquire into such objection, and may pass any order thereon subject in any case to an appeal by the objector or to a reference

by the Engineer to the Commissioner of division whose decision shall be final.

Total sum payable.

44. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of compensation, costs and expenses under and incidental to any proceedings taken or directed to be taken under Parts III and V of this Act, including costs of all surveys and plans. He shall thereupon make an order specifying the total sum found payable, and in respect of works done under Sections 9, 12, and 13, the persons by whom, or in respect of other works the estates in respect of which, the same is payable to him. Provided that the Collector may, if he thinks fit, order that a portion of the total sum payable shall be paid by any municipality of the first or second class which is in his opinion benefited or protected by the works or repairs executed. If the order is made in respect of work done under Sections 9, 12, or 13, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next chapter contained. Interest may be charged upon any sum paid as compensation from the date of payment thereof at such rate, not exceeding 5 per cent per annum, as the Lieutenant-Governor may direct.

Parties liable to pay.

45. The said total sum, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed. Provided that where any specific sum has hitherto been annually demanded in respect of any embankment not included in Schedule E, and when the said embankment is at the time of this Act coming into operation being maintained by Government, then such special payments shall, after the passing of this Act, thenceforth cease and determine.

Every zemindar, who is liable under this rule for the payment of the whole or a portion of such total sum, shall be entitled to recover from the proprietor of every tenure which is declared to be a part of his estate, the sum apportioned to such tenure by the Collector, under the provisions of Section 50. ---

2. *Apportionment thereof.*

Notice to be given before apportionment.

46. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause a notice to be served for every one of the said estates and villages mentioned in Section 43. Every such notice shall specify the estates and villages aforesaid, and that an enquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and proprietors the said total sum, with interest and the costs of apportionment.

Whenever it has been ordered by the Collector that a municipality is liable for a portion of the said total sum, the notice shall contain a statement to that effect, and shall be served on the Chairman of the municipality.

Mode of enquiry as to the proportion chargeable to each estate.

47. On the day fixed in the said notice, which shall not be less than thirty days later than the date of any service of such notice, the Collector shall proceed to make the said enquiry. In making this enquiry he shall receive such evidence as may be tendered by, or on behalf of, the said zemindars and proprietors, and by, or on behalf of, any other persons who may claim to be interested therein.

Names of proprietors.

48. In any such enquiry the Collector shall take down in writing the names of all persons who may claim, or who may be alleged by any party interested, to be proprietors of tenures within any of the estates mentioned in such notice. In default of appearance of any such person, the Collector shall issue and serve a notice calling on him to appear at a date and place therein mentioned, and to show cause against being included in the order of apportionment to be made therein, and shall adjourn the enquiry till such date.

Apportionment amongst zemindars.

49. At such or any subsequently adjourned enquiry, the Collector, if there be only one estate liable, shall charge the zemindar thereof with the total amount payable; and if there be two or more estates, he shall apportion the same amongst the zemindars thereof, rateably in the proportion of the respective benefits derived by such estates from such works or repairs; or in proportion of the areas of the lands benefited or protected thereby, and comprised within such estates respectively; or with the sanction of the local Government in proportion to the amount of revenue respectively payable for such estates, if, before the passing of this Act such proportion has been usually adopted.

Provided that the said total amount payable in respect of the embankments on the right bank of the river Gunduk shall be chargeable, in accordance with the custom in force for such estates, to the zemindars of all the estates situated in the district of Saran, in proportion to the amount of revenue respectively payable for such estates.

Amongst proprietors.

50. The Collector shall, in like manner, apportion, except in respect of the said Gunduk embankments, the amount payable in respect of each estate amongst all the tenures therein, rateably in the proportion of benefit so received or area so benefited or protected, first deducting therefrom such sum as on the like principle of proportion is payable in respect of such portion of the estate as is not included within any tenure.

51. The Collector shall likewise determine the amount payable in respect of any municipality rateably in proportion to the benefit derived by it from the work or repair executed, and the remaining sum shall be apportioned as directed in the two last preceding sections. Provided that no rate-payer in such municipality shall be required to pay any portion of such remaining sum in respect of any tenure which is situated within the limits of such municipality.

52. All lands held without payment of rent, not being estates entered in the register of revenue-free tenures, shall, for the purposes of this Act, be deemed to form a part of the tenure within the local boundaries of which they are included; and, if they are not included within the local boundaries of any tenure, then to be a part of the estate within the local boundaries of which they are included; and, if they are not included within the local boundaries of any estate, then to be a part of such conterminous estate as the Collector, in whose district such conterminous estate is situated, shall, by an order under his seal and signature, declare.

Payable by instalments.

53. The amount apportioned to any estate, tenure, or municipality shall be payable in equal instalments on such days as the Lieutenant-Governor shall direct, provided that no instalment shall exceed four annas for every acre of land in respect of which the same is payable, and that not more than four instalments shall be payable in any one year. And provided also in the case of a municipality that the instalment payable in any one year shall not exceed ten rupees per centum of the total income of such municipality during the year last preceding.

Interest.

Interest shall be charged on the unpaid portion of the said amount from the date of the same becoming due until payment thereof at such rate, not exceeding five per cent. per annum, as the Lieutenant-Governor shall from time to time determine.

Final order of apportionment.

54. On the completion of the apportionment the Collector shall make an order specifying the estates and tenures, and the several sums payable in respect thereof, the instalments of such sums and the dates on which the same are payable.

3. *Recovery thereof.*

Orders for payment.

55. The Collector shall, within thirty days from the final order of apportionment, make and serve for every estate therein mentioned an order, stating the amount with interest due in respect thereof and that the same is payable to him, and the date or dates at which such amount or instalments thereof shall become payable to him.

Recovery from zemindars.

56. If such sum or any instalment thereof be not, pursuant to the said order, paid, the same with interest shall be recoverable as arrears of a demand under the provisions of Bengal Act VII of 1868 (*to make further provision for the recovery of arrears of land revenue and public demands recoverable as arrears of land revenue*).

From proprietors.

57. Every zemindar or proprietor to whom any sum or instalment thereof is payable under the said order, may recover the same with interest as aforesaid in the manner provided for the recovery of arrears of rent in respect of putnee tenures by the provisions of clauses 2 and 3 of Section 8, Sections 9, 10, 14, 15, and clauses 1, 2, and 3 of Section 17, of Regulation VIII of 1819, as amended by Bengal Act VIII of 1865; provided that the right or interest of any person holding from the proprietor of such tenure shall not be affected by any sale held under these provisions. A copy of the said order, certified under the name and seal of the Collector, shall be received in any suit for the recovery of the same as conclusive evidence that the amount was apportioned as therein mentioned, but shall not be evidence as to the existence of, or as to any right in the tenure to which the said amount has been apportioned.

It shall be lawful for the Commissioners of any municipality to pay to the Collector, on the dates fixed by the order passed under Section 54, the sum which is declared in such order to be payable in respect of such municipality; and for the purpose of realizing the amount so disbursed to increase the rate of any tax leviable therein.

107. If any employer shall refuse, or wilfully omit, duly to send in any such return, or shall knowingly send in an incorrect return, such employer shall, on conviction thereof before a magistrate, be liable to fine; and a certificate under the hand of the

108. Every inspector of laborers shall, once within each of such periods as may be fixed for such purpose by the Lieutenant-Governor, visit all lands within the limits of his authority on which there shall be employed any laborers, and inspect every hospital, tent, camp, or building in any way used by any such laborers, and investigate the condition of the laborers employed; and for such purpose the inspector may require that any laborer shall be produced before him with his contract, and may make such inquiries as may to him seem proper. Every such inspector shall keep books, in which, from time to time, shall be entered the number of laborers then under contract with each employer, the number who shall then be sick or missing, or who shall have complained of ill-treatment, the particulars of such complaints, and such other particulars regarding the laborers as the Lieutenant-Governor shall from time to time direct. The inspector shall at any time on the application of an employer summon a committee for the purpose of considering such schedule of daily tasks, if he declines to sanction such modification thereof as the employer desires. The committee shall consist of the inspector, of some employer to be nominated by him, and of some person to be nominated by the employer on whose application the committee is summoned. Such committee or the majority in number thereof shall have power to make any modification of the schedule which it may deem proper, and the schedule so modified shall be published in manner aforesaid, and every schedule published as aforesaid shall have effect as between the employer and laborers in substitution for any former schedule.

Any laborer, who is temporarily incapacitated for work by sickness not wilfully caused by himself or by pregnancy or other sufficient cause, shall be entitled to receive wages for the days during which he is so incapacitated at the rate of two-thirds of the rate of wages stipulated in his contract.

If such incapacity extends over 15 days.

If such incapacity extends over a period of fifteen days, the inspector of laborers, on the application of the employer, may determine the rate at which the wages of such laborer shall be paid, and may declare that the days during which such incapacity continues shall not be accounted as part of the period of the contract. Any order to that effect shall be endorsed on the contract.

Proof required in action for arrear of wages.

An authenticated copy of the order of the inspector under this section shall be accepted by any court as full evidence of the rate of wages to be paid to the laborer for the days to which such order relates.

In action for arrear of wages damages may be awarded.

113. In any action brought by a laborer against his employer for arrears of wages, if it appears to the magistrate that the defendant has refused to pay the wages of the complainant at the rate stipulated in the contract on the ground of incapacity for work, except under the rule contained in this section or in accordance with any condition of the contract, the magistrate may award to the complainant in addition to the amount decreed as arrears of wages such damages as he may consider just.

The inspector shall make a return of all such cases of determination of contract in his report under section 108. Every laborer whose contract shall have been determined as aforesaid, shall be entitled to receive from his employer such sum, not exceeding three months' wages, as the inspector may award, and such sum shall be recoverable before a magistrate in the manner hereinafter provided for the recovery of wages.

He shall also be bound to provide good rice, or such other food as the Lieutenant-Governor may direct, which the laborer will be entitled to purchase at fixed rates.

Sufficient house accommodation, water-supply, and sanitary arrangements to be provided.

117. Every employer shall be bound to provide for his laborers such sufficient hospital accommodation, and such medicines of such quality and description, and according to such scale, as shall from time to time be fixed by the Lieutenant-Governor; and if three hundred or more laborers shall be employed by any employer, it shall be the duty of such employer to place in medical charge of such laborers a medical officer holding a medical diploma as licentiate in medicine from some Indian or European collegiate institution authorized to grant diplomas, or an officer for the time being licensed by the local Government to act in such medical charge of laborers. Such medical officer shall ordinarily reside within ten miles from the lands on which the laborers are employed.

Hospital, medicines, &c., to be provided.

118. If from information or complaint or otherwise an inspector or assistant inspector has reason to suspect that any employer has omitted to provide properly and sufficiently for his laborers in accordance with the rules prescribed by the Lieutenant-Governor, he may proceed to investigate the facts and circumstances of the case at any place within his jurisdiction not more than ten miles from the lands of such employer; and, if he is vested with any of the powers of a magistrate, may take cognizance of the offence and dispose of the case without any complaint. If he is not vested with any of the powers of a magistrate, he may prefer a complaint to any competent magistrate. All such cases shall be investigated and tried in accordance with the provisions of the Code of Criminal Procedure.

Any employer who voluntarily or negligently omits to provide properly and sufficiently for his laborers in accordance with the rules prescribed under sections 116 and 117, shall be punished by fine which may extend to five hundred rupees, and by an additional fine of one hundred rupees for every day during which such omission is continued.

Penalty for such failure.

Chapter 13.—*Localities unfit for the Residence of Laborers.*

120. If an inspector of laborers shall at any time have reason to believe that any estate or portion of an estate situated within the limits of his jurisdiction is in a condition so insalubrious, or in such a situation as to be unfit for the residence of laborers, he shall report his opinion in writing to the magistrate of the district. On the receipt of such information from the inspector of laborers, or from any other source which he may deem reliable, the magistrate shall forthwith summon a committee to inquire whether such estate or portion of estate is unfit for the residence of laborers. Such committee shall consist of the magistrate, the inspector of laborers, the medical officer of the district, and one or more employers of imported laborers, when such persons are available. If the magistrate is unable to procure the service on such committee of any employer of imported laborers, he may, with the sanction of the commissioner of the division, appoint one or more persons whom he may deem qualified.

Inspector to report.

Magistrate to summon committee.

Such committee shall proceed, with as little delay as possible, to enquire into the condition of the estate or portion of estate to which the order appointing the committee has reference, and shall hear such evidence on the subject as the owner of the estate or portion of estate or the employer or inspector may desire to place before it; and if such committee, or the major part in number thereof, is of opinion that such estate or portion of estate is in a condition so insalubrious, or in such a situation as to be unfit for the residence of laborers, it shall record a finding to that effect; and the contract of every laborer who shall have contracted to serve on such estate shall thereupon be void as regards such estate or portion of estate as may be found unfit for the evidence of laborers.

121. Provided also that it shall be lawful for the Lieutenant-Governor to declare any estate or portion of estate unfit for the residence of laborers without the appointment of any such committee, or notwithstanding the report of such committee, if the number of laborers who have died on such estate or portion of estate during the preceding twelve

Lieutenant-Governor may declare unfit if mortality in past year exceeds 7 per cent.,

months bears a larger proportion to the whole number of laborers employed thereon during such period than seven per centum; or if the average annual number of laborers who have died on such estate or portion of estate during the preceding three years bears a larger proportion to the whole number of laborers employed thereon during such period than five per centum.

or if the average of three years exceeds 5 per cent.,

with the same effect.

Any such order of the Lieutenant-Governor shall have the same effect as the finding of a committee as set forth in the last preceding section.

Penalty on employer permitting laborer to reside in locality declared to be unfit.

122. Every employer who shall cause or permit any laborer to reside upon any such estate or portion of an estate as under the provisions of one of the two last preceding sections may have been found to be unfit for human habitation, shall be liable to fine. Provided always that in case it shall appear to the inspector that any such estate, or portion of an estate, or any part of such portion, has become fit for human habitation, he shall, with the sanction of the magistrate of the district, give under his hand a certificate of such fitness, and no employer shall be liable to fine by reason of his causing or permitting laborers to reside in any place respecting which such certificate of fitness shall have been given.

Chapter 14.—*Offences committed by Laborers.*

Absenting himself, or neglecting, or refusing to labor.

123. Any laborer, who voluntarily and without reasonable cause absents himself from his labor or neglects or refuses to labor as required by his employer, the labor so required being reasonable and proper, may, on conviction, be sentenced to lose all claim to wages or allowances during the period of such absence, and also to forfeit to his employer a sum not exceeding four anas for each day during which such absence shall have continued; and in case such absence shall have exceeded seven days, or in case such laborer shall have been already convicted of the same offence within a period of three months, such laborer may be furthermore sentenced, at the request of the employer, to rigorous imprisonment for fourteen days.

Proviso in case of ill-treatment or breach of contract.

Provided that ill-treatment of such laborer by his employer, or the neglect of the employer to fulfil any condition of the contract, may be deemed a reasonable cause for such absence or such neglect or refusal to labor.

Deserting may be apprehended without warrant.

124. If any laborer deserts or attempts to desert from his employer's service, such employer or any other person acting in his behalf may, without first procuring a warrant, and without the assistance of any police officer (who, nevertheless, shall be bound to give such assistance if called upon to do so), apprehend such laborer wherever he may be found. Provided, nevertheless, that if such laborer be found in the service of another employer, he shall not be arrested without a warrant. Provided also that such employer or other person shall, within a reasonable time from the time of such apprehension, give the said laborer in charge at the nearest police station, and there enter the charge upon which he shall have apprehended such laborer.

To be taken to nearest magistrate.

Any laborer so given in charge shall be conveyed, without delay, to the nearest magistrate; and, if the place from which such laborer is charged with having deserted be within the jurisdiction of such magistrate, he shall himself adjudicate upon the charge; but if not, he shall forward the said laborer, under custody, to the magistrate within whose jurisdiction such place may be situated, who shall adjudicate upon such charge.

Punishment.

125. Every laborer who deserts from his employer's service shall be liable, upon conviction, to rigorous imprisonment, which may extend to one month, and every laborer, who, after having been convicted of desertion, shall again desert from his employer's service, shall be liable to rigorous imprisonment for a period which may extend to two months; and every laborer who, after having been twice convicted of desertion, shall again desert, shall be liable to imprisonment which may extend to three months. Such punishment may be imposed in addition to the forfeiture to which such laborer is liable under section 123.

Conviction not to operate as a release.

126. On the expiry of any sentence of imprisonment for any offence under this Act, save as is provided in section 126, it shall be the duty of the magistrate to make over such laborer to any person appointed on the part of his employer to receive charge of him; and no conviction under this Act, or imprisonment under such conviction, shall, save as aforesaid, be held to operate as a release to any laborer from the terms of his contract. Provided, nevertheless, that the period of imprisonment shall in no case be prolonged by reason of there being no person present on the part of the employer to take charge of the laborer at the expiry of his sentence; but such laborer shall, in that case, be sent to the principal place of business of such employer, and the expense of such conveyance shall be levied from the employer in the manner provided in section 102.

Contract may be cancelled for repeated desertion on the written request of the employer.

127. Whenever any laborer shall have actually suffered imprisonment amounting in the whole to six months for desertion from his employer's service, it shall be lawful for the inspector, and he is hereby required, at the written request of the employer, but not otherwise, to cancel the contract of such laborer; and every such cancellation shall be by the inspector certified on the back of the contract, and such laborer shall then be at liberty either to enter into a fresh contract with any employer or to return to the district from which he was recruited.

Portion of sentence may be cancelled on application of employer.

128. The employer, or any person authorized to act for the employer, of any laborer imprisoned for any offence under this Act, may apply to the magistrate, at any time previous to the expiry of such sentence, that such laborer be made over to him for the purpose of completing his contract; and the magistrate may, if he see good cause, make over or forward such laborer to his employer, and in that case the magistrate shall cancel the remainder of the sentence passed on him, and shall endorse on

the contract of such laborer a memorandum signed by him of such cancellation.

Expense of restoring deserting laborer to be paid by employer.

129. Every employer who obtains an order for the deportation of any laborer who has deserted, shall pay the expense incurred in such deportation, and shall, before the order is issued, deposit with the magistrate such sum as such magistrate may in his discretion deem to be sufficient for defraying the expense of such deportation.

Time of unlawful absence or imprisonment to be excluded from contract period.

130. The duration of every unlawful absence from labor, of which any laborer may be convicted, and every sentence of imprisonment for any offence under this Act, shall be endorsed on the contract, at the time of its being passed, by the officer passing it; and no such period of imprisonment or unlawful absence so endorsed shall be reckoned as part of the term for which the laborer is bound to serve, but such term shall extend to such further period as shall be equivalent to the aggregate amount of the imprisonment and unlawful absence so endorsed.

Other person enticing away, harbouring, or employing laborer under contract.

131. Any person who knowingly entices away, harbours, or employs, or attempts to entice from his employment, any laborer, before such laborer shall have been lawfully released from his contract, shall be liable to a fine, the whole or any portion of which may be awarded to the employer of such laborer.

Chapter 15.—*Complaints made by Laborers.*

Employer to give notice to inspector if laborer wishes to complain of personal ill-usage or breach of contract.

132. 133. Whenever any inspector of laborers receives such notice in writing as aforesaid, or whenever any complaint of personal ill-usage or breach of any provision of this Act as aforesaid, is made to him by any laborer against his employer or any person acting for such employer, or whenever the inspector has other reasonable grounds for believing that any such personal ill-usage or breach of any provision of this Act as aforesaid has been suffered by a laborer, such inspector shall forthwith, if the place in which such offence has been committed is not situated within the limits of his own authority, give notice thereof in writing to the inspector within the limits of whose authority such place is situated; and if such place be situated within the limits of his own authority, then such inspector shall, so soon as conveniently may be, proceed to some place not more than ten miles in a direct line from the principal place of business of such employer, and make full enquiry into the matter complained of.

or if he has reason to believe that there is ground for a complaint.

For the purposes of such enquiry the inspector may summon such laborer and any witnesses. If any employer, or other person acting for or under such employer, in any way wilfully obstructs the service of, or obedience to, such summons; or if the laborer or any witness summoned neglects to attend as required in such summons; he shall be punished as provided in chapter 10 of the Indian Penal Code.

If, upon such enquiry made on the complaint of a laborer, the inspector is of opinion that the complaint is untrue or frivolous, he shall enter in his book the particulars of such complaint, and a short statement of the grounds of his opinion respecting it, and shall dismiss the complaint; and in such case shall endorse on the employer's copy of the contract of such complainant the number of days during which such complainant has been absent from work in consequence of such enquiry, and such number of days shall be added to the period of the contract of such complainant; and every such endorsement shall be conclusive evidence that such laborer has absented himself from his labor without sufficient cause during the number of days which shall be so endorsed.

If complaint is untrue or frivolous.

If complaint is well founded.

135. If, upon enquiry as aforesaid, the inspector is of opinion that the complaint is well founded, he shall, if a magistrate, dispose of the case according to due course of law. If the inspector shall not be a magistrate, he shall without delay send the complainant and his witnesses to the nearest magistrate, and such magistrate shall thereupon dispose of the case in due course of law.

Recovery of arrears of wages.

136. If, upon the complaint of any laborer, it is proved to the satisfaction of the magistrate that the wages of such laborer are in arrear to an amount exceeding the rate of such laborer's wages for one month, such magistrate shall award to such laborer the amount which shall appear to be then due to him; and if it is proved that the wages of such laborer are in arrear to an amount exceeding the total of such laborer's wages for two months, the magistrate shall award also, by way of compensation, such further sum, not exceeding that amount, as shall appear to the magistrate to be just; and in case of default, the magistrate shall levy the entire sum by distress and sale of the movable property belonging to or under the charge of the employer.

Compensation may be given if arrear is for two months.

Contract may be declared cancelled, if employer is convicted of maltreatment by Session Court, or twice by magistrate;

If any employer, or any person placed in authority over any laborer by such employer, shall be convicted of any offence causing injury to the person or property of such laborer triable under the Code of Criminal Procedure by the Court of Session; or if any such employer, or other person as aforesaid, shall be twice convicted of any such offence against such laborer triable, under the said Code, by a magistrate; or if it shall be proved before a magistrate that the wages of such laborer are in arrear to an amount exceed-

or if gross ill-usage is proved.

Chapter 16.—*Determination of Contract.*

138. Every laborer who has completed the term of his contract, shall be forthwith entitled to appear before the inspector in order that the completion of his contract may be registered. If an employer detains such laborer after the completion of his contract, or fails to give notice of such completion to the inspector within one month after the date of such completion, such employer shall be liable to fine.

Laborer may appear before the inspector to register completion of contract.

Penalty if employer detains, or omits to report.

139. If any laborer is able and desirous to redeem the unexpired term of his contract of service by payment of a sum equivalent to the value thereof, such laborer may demand to be taken or allowed to go before the inspector of laborers within the local limits of whose authority he may be employed, and on his depositing such sum in the hands of such inspector, such inspector shall give notice to the employer that such laborer requires him within one week to show cause why the contract of such laborer should not be released; and, in case no sufficient cause should be shown, such inspector shall require the production of the contract of such laborer and endorse thereon a certificate of release by purchase, and shall hold the sum in deposit on account of the employer of such laborer. STATEMENT OF OBJECTS AND REASONS.

Experience has shown certain defects in the existing law which regulates the emigration of laborers to the tea-producing districts, Bengal Act II of 1870. The recruiters are not brought under sufficient control; the intention of the law is evaded by the removal of emigrants from the districts in which they are recruited without registration, and without the execution of any contract; the position of the time-expired laborer is obscurely defined; there is no provision which enables the Government to remove imported laborers from gardens in which the rate of mortality is very high; and the labor transport fund is unable to pay the cost of the establishment which is maintained for the supervision of emigration and the protection of imported laborers.

The rules affecting garden sirdars are inconveniently mixed up in the Act with those which relate to contractors' recruiters; and the arrangement of it in Parts and Chapters will materially aid all persons concerned in the application of its provisions. Neither Act II of 1870 nor any other enactment provides a general law for the regulation of contracts of labor and service. The object of the Bill is to remedy these defects. In other respects it does not propose to make any material alteration in the present law.

NOTIFICATION.

The 1st March 1873.—The attention of all officers subordinate to the Government of Bengal is drawn to the following rules, which have been approved by the Governor-General in Council, regarding the planting and cutting of trees, and the cutting of tree-branches which interfere with the telegraph wires.

Planting trees near telegraph wires.

In laying out a new line of telegraph, the telegraph officers charged with the erection of the line should take care that there is no unnecessary destruction of trees, especially those of old and fine growth; and should avoid, as much as possible, interference with existing avenues, groves, and plantations, and even single trees, whether public or private property; he should consult the civil authorities and others and satisfy them on this point; and, when a new line is to be constructed along a road, the telegraph officer should be careful not to place it so as to interfere with the future planting of avenues of trees.

Rules applicable more especially to new lines of telegraph.

2. Where, after such consultation, it is agreed that interference is unavoidable for the proper construction of the line, the telegraph officer will be careful further to consult the civil authorities and others concerned, and arrange with them that due compensation is paid to the owners in all cases where the trees are private property.

3. If the trees are the property of Government, they shall on no account be cut down or lopped without the permission of the officer in charge of the trees, and if this permission is refused and the telegraph officer is not satisfied, the matter must be referred to the next superior officer in the Telegraph Department, who may then consult the higher civil or public works authorities, or refer to the head of his own department.

4. When new lines are being constructed in native states, the Political Agent shall be referred to by the telegraph officers to make the necessary arrangements with the Native Durbar for cutting or removing trees, and for granting compensation.

5. Unless under special sanction or agreement with the local officers concerned, no line of telegraph shall be erected parallel to an avenue or side of a grove of trees within 25 feet of the edge thereof. Civil and public works officers are, however, requested to give all reasonable consideration to the requirements of the Telegraph Department as exemplified in the following extract from a letter, No. 321 of 6th November 1872, from the Officiating Director-General of Telegraphs:—

"In many parts of India, and in many instances the only portions of the country not under water in the rains are the main roads, along both sides of which avenues or groves of trees are not unfrequently planted for shade. To place the supports of a telegraph line at a distance not less than 25 feet outside of the boundary of the road, avenues of trees or groves, would necessitate the telegraph line being erected well into the fields or jungle, liable to inundation, at a distance so considerable as to preclude the possibility of inspection from the road, with, moreover, a deep ditch full of water between the road and the boundary thereof. I am therefore of opinion that this paragraph should be either cancelled or altered if future extensions of, or alterations to, telegraph lines are to be worked efficiently. If the avenues of trees are of any age and growth, the trees will be sufficiently high and thick to admit of the supports for the telegraph lines being planted within a few feet of their trunks, and of the wires being carried under their branches without many of the latter having to be cut off from the one side, the trees being disfigured, or their shade reduced. The telegraph lines in India were at first constructed across the fields and away from the sides of the roads, the result being that at certain times of the year inspection was most difficult and shirked, and involved injury to the growing and standing crops. This system was abandoned when the lines were being reconstructed."

6. When new lines of telegraph must be taken over avenues, they should be carried across as nearly at right angles as possible. Long slants are objectionable, as they interfere with many trees.

7. The civil or public works officers are desired to inform the officers of the Telegraph Department immediately on becoming aware of any cases in which telegraph lines are being constructed within 25 feet of any grove or avenue, or so as to prevent the convenient planting of a road avenue in future, or generally when any arrangement of a line of telegraph is likely to cause inconvenience or injury. In case of failure to arrange with the officer immediately concerned, the matter should be brought to the notice of the local head of the Telegraph Department, and also reported to higher authority in the civil or public works department.

Rules applicable more especially to existing lines of telegraph.

8. Where existing telegraph lines are within 25 feet of any avenue or grove of trees, the telegraph officer shall be primarily responsible that the wires are kept free of contact. To this end he may, without reference to the officers in charge, keep boughs up to 2 inches diameter clear for a distance of 3 feet from the line of telegraph wire. Likewise, twigs and small boughs easily moved by the wind may be cleared away for a distance of 6 feet from the telegraph line without reference to the officer in charge.

9. In cases where it is necessary that large boughs or tops of trees should be cut, permission to cut them should be asked in writing from the officer in whose charge they are; should no answer be received within ten days of the date of despatch of the letter to the office of the officer concerned, the telegraph officer may intimate his intention to proceed to cut the branches, and one week thereafter shall be at liberty to cut the branches without further reference.

10. Telegraph officers shall be held responsible that the cutting and lopping of trees is not more than is absolutely necessary for the proper working of the telegraph line.

11. Public works officers and other officers in charge of roads will be held responsible that trees are not planted in positions where they are likely to interfere with the telegraph wires, viz. within 25 feet of them as laid down in Rule 5.

12. The officers of the Telegraph Department are required immediately to make a courteous remonstrance in any case where trees are being

planted within 25 feet of, or so as to be likely to interfere with, a telegraph wire, and in case of their objection not being attended to, they should report at once to their immediate superiors. The Superintendent of the division or the superior officer should represent the case to the local authority in charge of the planting, and endeavour to get the trees removed, failing which, he should report to the head of his own department.

13. Wherever possible, trees that have been recently planted within the prescribed distance should be removed.

14. It may be necessary in some few cases to remove existing lines of telegraph which interfere seriously, or are likely so to interfere, with groves or avenues of trees; but on account of the expense, no such removal is to take place without a special report to the Government of India of all the circumstances of the case. Such report must distinctly show whether the avenue was first planted or the telegraph line first erected.

15. The foregoing rules are not applicable to lines of telegraph passing through forest and jungle tracts, but care should nevertheless be taken to avoid injury to large trees, which are in every situation to be considered as valuable.

LETTERS.

What articles treated as letters.

2. Any article, not coming under the condition prescribed for registered newspapers, proof sheets, or unregistered newspapers, which does not exceed ten tolas in weight, and which is not specially superscribed for transmission as a parcel or a packet, is treated as a letter, and any article, not coming under the conditions prescribed for registered newspapers or proof sheets, which exceeds ten tolas in weight, and which is superscribed for transmission by letter post, or is prepaid at the letter post rate, or is judged from outward appearance or other considerations to be intended for transmission by letter post, is also treated as a letter.

Unpaid or insufficiently paid letters.

3. The postage chargeable on a letter, if not prepaid, is double the amount which would have been chargeable if prepaid, and if the prepayment is insufficient, double the deficiency is charged.

REGISTERED NEWSPAPERS.

What articles treated as registered newspapers.

4. Periodical publications, published at intervals not exceeding 31 days, which have been registered for transmission by post in the office of the Post Master General (or officer exercising the powers of Post Master General) of the postal circle in which they are published, and which fulfil the undermentioned conditions, are treated as registered newspapers.

N. B.—The registration of a paper expires at the close of the calendar year following that in which the registration was effected, and must be renewed if a continuance of the privilege beyond that time is desired.

Each registered newspaper charged separately.

5. The postage rates given above are chargeable upon *each* registered newspaper; but an extra or supplement to any registered newspaper bearing the same date as the newspaper, and transmitted therewith under the same cover, is deemed part of the newspaper.

Prepayment of registered newspapers compulsory.

6 Registered newspapers can be forwarded by the letter post at the above-mentioned rate only if the postage be fully prepaid. A registered newspaper posted unpaid or insufficiently paid will be forwarded to the Dead Letter Office.

Conditions to be observed in respect of registered newspapers.

7. Registered newspapers can be forwarded by letter post at the above-mentioned rates only if the following conditions be observed, *viz.*:—

(1).—It shall be without a cover or in a short cover open at the ends.

(2).—There shall be no word printed on such newspaper after its publication, or upon the cover thereof, nor any writing or mark upon it, or upon the cover of it, except the name and address of the person to whom it is sent, and the name and address of the sender.

(3).—There shall be no paper or thing enclosed in or with any such newspaper.

(4).—The newspaper must bear in print immediately above the address the word "registered" followed by the registration number given by the Post Master General.

N. B.—The word "registered" followed by the number may be printed on the paper itself or on its cover, but must in all cases be *immediately above the address.*

(5).—The newspaper must be posted at the place of publication.

N. B.—It is immaterial whether the paper is posted by the publisher or by any one else, or whether it is posted on the day of publication or on a subsequent date. When a registered newspaper is re-directed, "forward" postage is charged at the lower rate, even though the re-direction may take place at an office other than that of the place of publication. Registered newspapers when re-posted are treated as if posted for the first time, and are entitled to transmission at the lower rate only if the conditions be fulfilled.

PROOF SHEETS

May be sent by letter post at registered newspaper rates under certificate.

8. Proof sheets, marked as such, may be sent by the letter post either without covers or in covers open at the ends at the rates prescribed for registered newspapers, provided that the contents be correctly certified on the cover by the signature in full of the sender.

UNREGISTERED NEWSPAPERS, &C.

What articles treated as unregistered newspapers.

9. Any cover not exceeding ten tolas in weight which is posted with the ends open (so as to admit of examination of contents) and prepaid with one anna postage, and which does not contain any letter or communication of the nature of a letter, unless the whole of such letter or communication be printed, is treated as an unregistered newspaper.

PARCELS AND PACKETS.

What articles treated as parcels or packets.

10. All articles committed to the post office, which are superscribed for transmission as parcels or packets or which do not fall to be treated as letters, registered newspapers, proof sheets, or unregistered newspapers under the preceding paragraphs, are transmitted by bangby post as parcels or packets.

Distinction between parcels and packets.

11. The distinction between parcels and packets is (1) that packets must be packed in open covers, while parcels may, at the option of the sender, be packed in closed covers; (2) that parcels are transmitted under a system of registration, while packets are not; and (3) that for parcels prepayment of postage is optional, while for packets full prepayment is compulsory. Any article of this class, which is posted fully prepaid at parcel rates, or superscribed by the sender for transmission as a parcel, or presented at the post office for that purpose, or which, owing to deficient prepayment or excess of size, or mode of packing, cannot be forwarded as a packet, is treated as a parcel, and all other articles of this class are treated as packets.

Contents of parcels and packets.

12. Not more than one letter, or communication of the nature of a letter, may be enclosed in any parcel, and no letter or communication of the nature of a letter may be enclosed in a packet, nor may a packet contain anything closed against inspection; but with these exceptions, and with the exception also of dangerous substances and other articles which cannot be sent by post in any form, there are no restrictions as to the contents of parcels and packets.

Unpaid and insufficiently paid parcels.

13. Unpaid parcels are charged on delivery at the same rates as would have been chargeable if the postage had been prepaid: insufficiently paid parcels are charged on delivery with the deficiency.

Receipts given for parcels when properly packed.

14. A person tendering a parcel at a post office within the prescribed hours is entitled to get a receipt for it, provided that the parcel so tendered is securely packed in cloth, wax-cloth, or tin; and if it is packed in cloth or wax-cloth, provided further that it bears seals with distinct impressions of some device (not that of a current coin) at intervals not exceeding five inches along the lines of sewing.

Receipts to be signed by addressee on delivery of parcels.

15. The addressees of parcels are required to sign receipts for them on delivery.

Limit of weight of parcels.

16. No parcel exceeding 25 seers (2,000 tolas) in weight can be received at any post office for despatch.

Parcels received by post from seaward, exceeding the above weight, are made over to the Collector of Customs for publication in his list of unclaimed packages.

Limit of size of packets.

17. No packet may exceed one foot and a half in length, or one foot in width or depth, and if any such packet be posted, it will be treated as a parcel and charged accordingly.

Parcels between places connected by railway.

18. Between places connected by railway, where the railway authorities may have intimated their readiness to undertake the conveyance and delivery of parcels, the post office does not convey parcels, except such as may be sent on the public service. Of course, if either the place of address or the place of despatch be not on the line of railway, the above rule does not apply.

No. 1446.—The Governor-General in Council is pleased to prescribe the following rules for the treatment of official correspondence which may be posted on or after the 1st April 1873.

The principal change is the withdrawal of the privilege under which certain public offices have been allowed to send and receive official correspondence through the post without payment of postage, the rates of postage chargeable on letters and parcels being at the same time reduced, and the postage charges regulated by a scale which, for all weights over half a tola, rises by limits of 10 tolas.

Note.—The following rule may facilitate the calculation of postage on letters exceeding 10 tolas:—Find the weight in tolas, take the next lower multiple of 10 and divide it by 2; the result will be the number of annas chargeable. Thus, for a cover weighing (say) 38 or 40 tolas, the next lower multiple of 10 will be 30, which, divided by 2, gives 15, being the number of annas chargeable.

Prepayment by means of service labels.

2. Official covers from Government offices should be prepaid by means of service postage stamps purchased at the Government Treasury or other local stamp depôt. These stamps, when used in payment of postage, must be superscribed on the cover "On Her Majesty's Service," under the full signature and official designation of the Government officer who sends the cover, or of the head clerk or superintendent of his office, or of other responsible officer, to whom the duty of despatching is confided. The particular officer who signs the cover must enter in full his own official designation, in order that his individual responsibility may be enforced in cases of doubt or fraud. The superscription and signature should be entered in the form marginally given. Service stamps affixed to a cover without the above superscription will not be recognised by the post office in payment of postage. Treasury officers are enjoined not to sell service stamps to any but Government officials.

3. Official Gazettes should be registered at the Post Master General's Office, and when so registered are eligible for transmission at the lower rates above given under the same rules and conditions as apply to ordinary registered newspapers.

Unpaid official covers.

4. Official letters and parcels properly superscribed under Rule (2), but without stamps, are charged with postage on delivery at prepaid rates.

In cases where it is not thought advisable to entrust postage stamps to a subordinate official, who has to correspond with, or send returns to, a superior, he may be allowed by his superior to address official covers to him under this rule, and the same course may be adopted in other cases, where it is found convenient or proper to make the postage charge fall on the receiving office.

Economy to be observed in the use of the post.

5. Government officials should be careful not to incur needlessly the higher charge on account of the transmission of heavy covers by letter post. Similarly, the transmission of heavy covers as parcels (which are conveyed by post under a system of registration) is more expensive than their conveyance as packets, and the parcel post should not therefore be needlessly used by Government officials.

Limits of weight and size.

6. No official cover exceeding 600 tolas in weight can be received by the Post Office, and no official cover exceeding the limit of size* prescribed for ordinary packets can be forwarded as a packet, though it may be forwarded as a parcel, if within the limit of weight above-mentioned.

* One foot and a half in length by one foot in width or depth.

Letters and parcels superscribed "Service Bearing" by Government Officers.

7. Letters and parcels sent by Government officers in their official capacity, which relate nevertheless to the private interests and concerns of the individuals addressed, may be endorsed according to the specimen form given on the margin, under the full signature and official designation of the person by whom they are sent. Letters and parcels so addressed are regarded by the Post Office as private covers, but are charged, on delivery, with bearing postage at "forward" (*i. e.*, prepaid) rates, and not at double rates as in the case of ordinary letters. Under this head come replies sent to communications of the kind noted in the margin, as well as any other communications of a like kind which Government Officers may make to individuals (whether private persons or Government officers) relating to the private interests of the addressees.

8. Letters and parcels sent by private persons to Government officials relating to the affairs of Government, and endorsed according to the specimen form given on the margin, under the full signature of the sender (the address, including the full official designation of the public office to which the cover is sent), are charged, on delivery, at the rate to which they would have been liable if prepaid by stamps, and not at double rates as in the case of ordinary letters. This rule is intended to provide for cases of zemindars reporting the occurrence of crime to a police officer, of employers of laborers sending returns required by the Protector, and of any similar reports or returns authorized to be so sent.

Official covers not liable to re-direction charge.

9. Official communications addressed to Government officers "On Her Majesty's Service" or "Service Bearing" under the prescribed superscription and signature, are not liable to additional postage on account of re-direction.

Postage due on official covers to be initialed in Post Office.

10. The amount of postage marked as due on covers delivered under the superscriptions of "Service Bearing" or "On Her Majesty's Service," will be initialed by the Post Master or Deputy Post Master of the office of delivery.

Government Officers bound to receive and pay for covers under official superscription.

11. Government officers are bound to receive and pay any postage which may be due on covers addressed to them under the superscription "On Her Majesty's Service."

Registration.

12. The rules and conditions for the registration of ordinary covers sent by letter post govern the registration of similar official covers, the service labels affixed to them being supported by the prescribed superscription and signature.

Post Telegrams.

13. Officers in charge of Telegraph Offices, when posting telegraph messages for onward transmission by post, are entitled to get receipts for them. Such receipts must be presented ready written in the form ordinarily used by the Telegraph Offices when delivering telegraph messages to the addressees. The Post Master will compare the receipt so presented with the address of the cover accompanying it, and, if correct, will affix the Post Office stamp in acknowledgment of receipt. All covers for which receipts are claimed under this rule must be superscribed with the word "Telegram" (in addition to the usual official superscription), and must be fully prepaid.

Government Officers on leave.

14. Government officers, when on leave, and those who have retired from the service of Government, can correspond only as private individuals.

Irregularities of address, &c.

15. Any irregularity or incompleteness of the address, superscription, or signature on a cover renders it liable to be treated as an ordinary unpaid cover, any service stamps which it may bear not being recognized.

Official correspondence with places abroad or between Indian Post Offices when conveyed by British or French Mail Packets.

16. The rules contained in the preceding paragraphs relate exclusively to official inland correspondence, *i. e.*, correspondence conveyed between one Indian Post Office and another by Her Majesty's Indian Post.

Official correspondence with places abroad, or between Indian Post Offices when conveyed by British or French Mail Packets (*e. g.*, between Bombay and Aden), is governed by the same rules as ordinary private correspondence, and must either be prepaid by service stamps (under the superscription and signature prescribed by Rule I), or, where prepayment is optional, be forwarded as unpaid, subject to the levy of postage on delivery.

The only exception to the above has reference to official letters (not newspapers or book or pattern packets) sent by British packet to or from the public functionaries or departments in London having special accounts for overland letter postage with the London Post Office. Official letters intended for such offices need not be prepaid if superscribed as "On Her Majesty's Service" under the full signature and official designation of the sender. The public functionaries or departments in London which have accounts with the London Post Office are—Adjutant-General's Office (Horse Guards), Admiralty (Somerset House and Whitehall), Audit and Exchequer Department (Somerset House), Board of Trade (Whitehall), Census Office (Craig's Court), Chancellor's Office (Downing Street), Charity Commission (York Street, St. James), Chelsea Hospital (Chelsea), Civil Service Commission (Cannon Row, Westminster), Colonial Office (Downing Street), Colonial Land and Emigration Office (Park Street, Westminster), Commander-in-Chief's Office (Horse Guards), Council of Military Education (Great George Street), Council Office (Downing Street), Court of Bankruptcy (Basinghall Street), Courts of Chancery (Lincoln's Inn Fields and Chancery Lane), Court of Probate (Doctors Commons), Crown Agents for the Colonies (Spring Gardens), Duchy of Cornwall (Buckingham Palace Gate), the Customs (Lower Thames Street), Ecclesiastical Department (Whitehall Place), Endowed Schools Commission (Victoria Street), Exhibition Commissioners, 1851 (Westminster), Foreign Office (Downing Street), Her Majesty's Home Office (Whitehall), House of Commons, India Office (Charles Street, Westminster), Irish Office (Great Queen Street, Westminster), Inland Revenue (Somerset House), Local Government Act Office (Richmond Terrace, Whitehall), Merchant Seamen's Office (Adelaide Place, London Bridge), Metropolitan Police Office (Whitehall Place), Pay Master General (Whitehall), Local Government Board (Gwyder House, Whitehall), Post Office, Prisons Office (Parliament Street), His Royal Highness the Prince of Wales, Quarter Master General's Office (Horse Guards), Registrar of Friendly Societies (Abingdon Street), Registrar General's Office (Somerset House), Royal Artillery, Royal Marines (New Street), Science and Art Department, Warden of Standards, Stationery Office (Prince's Street, Storey's Gate), Tithe Copyhold and Enclosure Commissioners (St. James's Square), Treasury Office (Whitehall, Tower, Veterinary Department of the Privy Council (Prince's Street, Westminster), War Office (Pall Mall), Woods, Forests, and Land Revenues Office (Whitehall Place), Works and Public Buildings Office (Whitehall Place).

THE EMBANKMENTS AND WATER-COURSES BILL.

THE following Report of the Select Committee appointed to consider amendments referred to them in the Bill to amend the law relating to Embankments and Water-courses, together with the Bill as amended by the Committee, is, by order of the President, published for general information:—

We, the undersigned, the Members of the select committee of the Council of the Lieutenant-Governor of Bengal for the purpose of making laws and regulations, to which the Bill to amend the law relating to embankments and water-courses was referred for the purpose of considering the amendments proposed by the Hon'ble V. H. Schalch in the Bill, as amended by the former committee and submitted with their report of the 5th August 1872, have the honor to report that we have considered the said proposed amendments; that we have adopted some of them as proposed; and that we have introduced some others with certain alterations.

We have provided for the payment of a portion of the expenses by a first or second class municipality which is benefited by the work executed.

We have preserved the system, which has existed for many years, for recovering the cost of maintaining the Gunduk embankments in the Sarun district.

We have provided for the assignment to a certain estate or tenure of lakhiraj lands which are not included within the local limits of any estate or tenure.

We have given power to the Magistrate to remove an embankment or obstruction illegally constructed, if the person who constructed it fails to remove it within a fixed time.

We have provided for the extension by Government of the Hooghly and Burdwan Drainage Act to any scheme proposed for similar objects of which the Lieutenant-Governor may approve.

We have confined our attention to the amendments which were laid before the Council by the Hon'ble V. H. Schalch, and report upon them alone.

AMENDED BILL.

A Bill to Amend the law relating to Embankments and Water-courses.

WHEREAS it is expedient that provision should be made for the better construction, maintenance, and management of embankments and water-courses in the territories subject to the Lieutenant-Governor of Bengal; It is enacted as follows:—

PART I.

Preliminary.

1. This Act may be called "The Bengal Embankment Act, 1873."

It extends to the whole of the territories subject to the Lieutenant-Governor of Bengal, except the province of Orissa and the Soonderbuns as defined under the provisions of Clause 2, Section 13, Regulation III of 1828.

And it shall come into force on the day of the passing thereof.

Repeal of former Acts.

2. From such day Act No. XXXII of 1855 (*relating to embankments*) and Bengal Act No. VII of 1866 (*to make better provision for the acquisition of land for embankments and other matters relating thereto*) shall, except so far as relates to the province of Orissa and the said Soonderbuns, be repealed.

Interpretation.

3. The following words shall, for the purposes of this Act, have the meanings hereby declared, save where, from the context, a contrary intention appears:—

"Estate." "Estate" means—(1) Any land or share in land subject to the payment to Government of an annual sum, in respect of which the name of a proprietor is entered on the register, known as the general register of all revenue-paying estates, or in respect of which a separate account may, in pursuance of Section 10 or Section 11 of Act XI of 1859, have been opened;

(2) Any land entered in the register of revenue-free tenures;

(3) Any land acquired under any rules issued by or under authority of Government for the sale, grant, or clearance of waste lands.

"Embankment." "Embankment" includes every bank, dam, wall, and dyke, made or used for excluding water from, or for retaining water upon, any land, and every sluice, spur, groyne, training wall, or other work annexed to or portion of any such embankment, and every bank, dam, dyke, wall, groyne or spur made or erected for the protection of any such embankment or of any land from erosion or overflow by or of rivers, tides, waves, or waters.

"Watercourse." "Watercourse" includes a line of drainage, weir, culvert, pipe, or other channel for the passage of water, whether natural or artificial.

"Zemindar." "Zemindar" means all or any of the holders of an estate; and where two or more zemindars are jointly holders thereof, they shall be jointly and severally liable under this Act.

"Tenure." "Tenure" includes all interests in land other than estates as above defined, held permanently at a fixed rental or held lakhiraj.

"Proprietor." "Proprietor" means the holder of a tenure.

"Public Embankment." "Public Embankment" means an embankment maintained by the officers of Government.

"Public watercourse." "Public watercourse" means any watercourse under the charge of the officers of Government.

"The Engineer." "The Engineer" means the Superintending Engineer of the Circle in which any embankment is situate.

"Collector." "Collector" means any Collector, Deputy Collector, or other Revenue Officer in independent charge of any district or portion of a district, or specially appointed by the Lieutenant-Governor of Bengal to perform the functions of a Collector under this Act.

"District." "District" means the portion of territory throughout which any person vested with the powers of a Collector is authorized to exercise such powers.

"Land." "Land" includes interests in land and benefits arising out of land and things attached to the earth or permanently fastened to anything attached to the earth.

PART II.

Powers of Engineers.

Power to take charge of embankments.

4. The Engineer may cause any embankment which connects public embankments, or forms, by junction with them, part of a line of embankments, or any embankment or water-course which is necessary for the protection or drainage of the neighbouring country, to be taken charge of and kept up by the officers of Government.

Power to remove embankments and obstructions.

5. The Engineer may cause to be removed or altered any permanent or temporary embankment which endangers the stability of a public embankment or any obstruction of any kind which interferes with the general drainage of any tract of land.

Power to change line of embankment.

6. The Engineer may, when necessary, change the line of or lengthen any public embankment; or make a new embankment in the place of or renew any public embankment; or make an embankment in any place in which he may deem such embankment required for the protection of any lands, or for the improvement of any watercourse; or make a sluice in any public embankment.

7. The Engineer may construct any sluice or watercourse, or effect any alteration in any public watercourse, when such construction or alteration may be required for the improvement of the health or for the protection of any village or cultivable land.

Power to improve drainage.

8. If any landholder, farmer, or cultivator, be desirous of having a sluice made in any public embankment for the purpose of drainage or irrigation, he shall make an application in writing to the Engineer of the district in which such embankment is situate. The application shall contain such particulars of the land to be drained or irrigated as may enable the Engineer to judge of the advantage which may be derived from the work.

Applications for sluices to be made to Engineer.

9. The Engineer may call upon the person in charge of any road which interferes with the drainage of any tract of land to alter such road, or to construct any watercourse under or through such road. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may forthwith cause the said road to be altered, or the said watercourse to be constructed. The expenses of such alteration or construction shall be borne by the person in charge of the said road.

Power to alter roads and construct watercourses.

10. Whenever any person is desirous that any new embankment be erected, or that any new watercourse be made, or that any watercourse be obstructed or diverted, if such embankment or watercourse is likely to interfere with, counteract, or impede, any public embankment or any public watercourse, he shall apply to the Engineer, and at the time of making such application shall deposit with him a statement of the proposed works.

Proceedings to obtain new embankment or drainage.

11. The Engineer may make any repairs in, and may do all acts necessary and proper for the maintenance of any public embankment, public watercourse, or other work executed or taken charge of under the provisions of this Act, or of any of the Acts repealed by this Act.

Power to make repairs.

12. The Engineer may call upon the manager or other person in charge of any railroad which interferes with the drainage of any tract of land to alter such railroad or to construct any watercourse, under or through such railroad. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may thereupon, with the previous sanction of the Lieutenant-Governor, cause the said railroad to be altered, or the said watercourse to be constructed in such manner as the Lieutenant-Governor shall direct. The expenses of such alteration or construction shall be borne by the said manager or other person in charge of the said railroad.

Power to alter railroads and construct watercourses.

13. Whenever any person is desirous that a temporary watercourse should be made through, or that a temporary roadway should be made over, any public embankment, or that a temporary dam should be constructed in any embanked river, or public watercourse, he shall apply to the Executive Engineer of the district, who shall communicate the application to the Engineer, and the Engineer shall pass such orders thereon as he shall think fit. If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall deposit the amount estimated by the said Engineer to be necessary to defray the expenses of and incident to making such roadway, or of and incident to making and closing or removing such watercourse or dam. If such amount is found insufficient, the said Engineer shall recover the further amount required; and if it exceeds the said amount, such excess shall be returned to the person depositing the same.

Power to make temporary embankment and dams.

14. Whenever the Engineer shall be of opinion that the removal of any trees, houses, huts, or other buildings situated between a public embankment and the river is necessary, he shall make a report to that effect, accompanied by a detailed statement of the trees, houses, huts, or other buildings to be removed, to the Collector of the district in whose jurisdiction the land on which such trees, houses, huts, or other buildings stand, is situated, and the Collector shall report the same to the Lieutenant-Governor in order that proceedings may be taken, under the provisions of "The Land Acquisition Act, 1870," for obtaining possession of such trees, houses, huts, and buildings. Provided always that in case the Engineer be of opinion that the delay required by such proceedings is likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to cause such trees, houses, huts, or buildings to be removed, and in such case the compensation due therefor shall be ascertained and paid in the manner hereinafter provided.

Power to remove houses.

15. Sluices constructed in any public embankment shall be opened or shut only by or with the general or special permission of the officer in the immediate charge of the embankment, under such orders, either general or special, as he may receive from the Engineer.

Sluices to be opened under authority of the Engineer.

16. In any case where an embanked towpath has heretofore been maintained by Government alongside any canal, river, khal, or channel, the Engineer shall be entitled to appropriate without payment, as heretofore, land or earth for the maintenance, repair or re-construction of such embanked towpath. If in any case the Engineer shall consider it necessary for the purposes of towing to enlarge an existing towpath, or to construct a new towpath, proceedings shall be taken in accordance with the subsequent provisions of this Act relating thereto.

Power to appropriate land or earth.

17. It shall be lawful for the Engineer, or any person whom he may authorize in that behalf, in order to carry out any of the purposes of this Act,—

Power to enter and survey land, &c.

to enter upon, and survey, and take levels of any land;

to dig or bore into the sub-soil;

to do all other acts necessary to ascertain whether the land is adapted to the purpose projected by such Engineer;

Power to mark out line.

to set out the boundaries of the land proposed to be taken, and the intended line of the work proposed to be made thereon;

to mark such levels, boundaries, and line, by placing marks and cutting trenches;

Power to clear land.

and, where otherwise the survey cannot be completed or the levels taken, to cut down and clear away any part of any standing crop, fence, or jungle:

Previous notice of entry.

Provided that no person shall enter into any building or upon any enclosed court or garden attached to a dwelling-house (unless with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

Payment for damage.

The officer so authorized shall at the time of such entry pay or tender payment for all necessary damage to be done as aforesaid; and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the decision of the Collector, and such decision shall be final.

PART III.

Reference to the Collector and procedure thereon.

Notice to the Collector.

18. Save as is by this Act otherwise provided, the Engineer, before causing any of the works mentioned in Sections 5 to 10 both inclusive, or any of them, to be executed, shall prepare and submit to the Collector of the district plans, specifications, and estimates of the proposed works, together with a map showing the boundaries of the various estates likely to be affected by the said works, and a notice in writing of his intention to execute such works, and shall not commence any of such works until final order made in respect thereto. Such notice shall be in the form and state the particulars mentioned in Schedule (A) to this Act annexed. Upon the receipt of such notice the Collector shall cause a proclamation to be issued, which shall be in the form and state the particulars mentioned in Schedule (B). The Collector shall append to such proclamation a list of the estates, villages, and municipalities, mentioned in the said notice, and such others as he may consider likely to be affected by the works proposed.

Publication of proclamation.

19. Every such proclamation shall be published by affixing the same at the cutcherry of the Collector, and in the manner provided in the third clause of Section 63.

Proclamation to be published for thirty days.

20. Every such proclamation shall be published and served not less than thirty days before the day appointed for hearing the persons interested.

Powers on inquiry and appeal.

21. In any enquiry or appeal held under this Act, the Collector and the Commissioner shall respectively have the powers conferred on Courts by the Code of Civil Procedure for compelling the attendance of and for examining witnesses, and for the production of documents.

Hearing of objections to work.

22. The Collector shall, on the day appointed for the hearing, or on any subsequent day to which the hearing shall be adjourned, hear the objections of any persons who may appear, and, after recording any evidence which they may adduce, shall communicate the objections that may be made, together with his opinion thereon and on the proposed works, to the Engineer, who shall return the same with his opinion to the Collector. If the Engineer agree in opinion with the Collector, the Collector shall pass an order accordingly in regard to the execution of the aforesaid works, and notice of such order shall be served on the persons appearing in pursuance of the proclamation. If he differ from the Collector, the case shall be referred to the Commissioner of Revenue, who shall pass such orders thereon as he may deem fit.

PART IV.

Procedure in cases of imminent danger to life or property.

Proceedings in emergencies.

23. Whenever the Engineer shall be of opinion that the proceedings commenced by notice under Part III of this Act would cause delay in the exercise of any of the powers by Sections 5, 6, and 7 conferred upon him, likely to be attended with grave and imminent danger to life or property, he may forthwith commence to exercise such powers without reference to the Collector. Provided that he shall forthwith inform the Collector thereof and of the nature of the danger, and give notice of his intention to continue to exercise such powers. The Collector, in any case where he shall see fit, may direct the Engineer to suspend further action until after the completion of such proceedings and enquiries. The Engineer, as soon as he conveniently may, after giving such notice of his intention, shall give notice in writing to the Collector, together with plans, specifications, estimates, and maps, as provided in Section 18, appending thereto a statement that the work mentioned therein has already been commenced, and thereupon such proceedings and enquiries shall be had as in and by Part III of this Act are directed.

Notice to the Collector.

Power to take possession of land.

24. Whenever any land, or earth from any land the property of any person, is required for the purposes of any works commenced in pursuance of the provisions of the last preceding section, or for the purposes of Section 11 in cases where the Engineer shall be of opinion that proceedings for the acquisition of such land, according to the provisions contained in Section 28, would cause delay as aforesaid, the Engineer shall cause public notice in form in Schedule (C) to be given at convenient places in the locality in which such land is situated, and he may at the same time take possession of the same for the said purposes. Provided that he shall, so soon thereafter as he conveniently may, give notice thereof to the Collector.

Compensation for standing crops and trees.

25. The Engineer shall ascertain and record the nature and estimated value of the crops and trees (if any) standing on such land, and shall offer adequate compensation to the persons interested. If such offer is not accepted, he shall forward the record with a report to the Collector, and the value of such crops and trees shall be allowed for in awarding compensation for the land under the provisions of Section 32.

Power to Executive Engineer to act for Engineer.

26. Whenever the Engineer may be absent, the Executive Engineer of the district may, in case he shall be of opinion that delay for the purpose of obtaining the orders of the Engineer would be attended with grave and imminent danger to life or property, exercise the powers in and by the three last preceding sections conferred on the Engineer.

Power to restore embankments, &c.

27. Whenever, upon an enquiry had under the provisions of this Part, it has been determined in the final and conclusive order to be passed on such enquiry that anything done by the Engineer was unnecessary, the land or the embankments or drainage shall, so far as any alteration thereof shall appear to be unnecessary, be at the expense of the Government restored as nearly as possible to the state in which they were when the Engineer commenced to act under the provisions of this Part; and any person who shall have sustained loss, damage, or injury by the execution of such works, shall receive compensation from the Government to be assessed and imposed according to the provisions contained in Part V of this Act.

PART V.

Acquisition of lands.

Acquisition of land.

28. Whenever in the course of proceedings under this Act, save in those cases in which the Engineer has proceeded under the provisions of Part IV, it appears that land is required for any of the purposes thereof, such purpose shall be deemed to be a public purpose within the meaning of The Land Acquisition Act, 1870, and such proceedings shall be forthwith taken as are directed by the said Act or by any other law for the time being governing the acquisition of lands for public purposes.

When land taken, notice to be published.

29. Whenever any land shall have been taken or used under the provisions of Part IV, the Collector shall, unless he shall direct the Engineer to suspend further action, cause public notice in form in Schedule (D) to be given at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all incumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.

Contents of notice.

30. Such notice shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days, after the date of publication of the notice), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.

Further notice to be served on certain parties.

31. The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.

Proceedings after notice.

32. After service of such notices proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, and all the provisions contained in Sections 10 to 15, 18 to 34, 36, 37, 38, 42, 51, 55, 58 (as amended by Act IX of 1871), and 59 of the Land Acquisition Act, 1870, shall be applicable to such proceedings.

Compensation for consequential damage.

33. Whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by the due exercise of the powers or provisions of this Act, the person in whom such right is vested may prefer a claim by petition to the Collector for compensation.

Application to be made within a year.

34. No claim shall be entertained which shall be made later than one year next after the completion of the work by which such right is injuriously affected.

Procedure for such compensation.

35. Subject to the provisions of the next preceding section, the Collector shall proceed to enquire into each claim made, and to determine the amount of compensation, if any, which should be made, and the person to whom the same should be payable, and the Collector, on the receipt of such claim, shall fix a time and place for hearing such claim, and Sections 9 to 15, 18 to 23, 26 to 34, 36, 37, 38, 51, 54, 55, 58 (as amended by Act IX of 1871), and 59 of the said Land Acquisition Act, 1870, shall apply to enquiries into such rights as aforesaid, or the exercise of such rights as aforesaid, and to the awards of compensation for injuries to such rights as though they were rights in and awards of compensation for land needed for a public purpose.

Matters to be considered in determining compensation.

36. In determining the amount of compensation to be awarded in such cases, the Judge and Assessors shall take into consideration—

First, the market value of the property injuriously affected at the time of acquiring the land;

Secondly, the damage sustained by the claimant by reason of such acquisition injuriously affecting the property;

Thirdly, the consequent diminution of the market value of the property injuriously affected at the time of acquiring the land.

But the Judge or Assessors shall not take into consideration—

Matters not to be considered in determining compensation.

First, the degree of urgency which has led to the acquisition;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

Appeal from Judge's decision as to compensation.

37. If the Judge differs from both the Assessors as to the amount of compensation under the provisions contained in Section 32 or Section 35, he shall pronounce his decision, and the Collector or the person interested (as the case may be) may appeal therefrom to the Court of the District Judge.

Determination of proportions.

38. When the amount of compensation has been settled by the Court, under the provisions contained in Section 32 or Section 35, and there is any dispute as to the apportionment thereof, or when a reference to the Court has been made, the Judge sitting alone shall decide the proportions in which the persons interested are entitled to share in such amount.

Every appeal under the two last preceding sections shall be presented within the time and in manner provided by the Code of Civil Procedure for regular appeals in suits.

Payment of compensation to whom made.

39. Payment of the compensation shall be made by the Collector according to the award to the persons named therein, or in the case of an appeal according to the decision on such appeal. Provided that nothing herein contained shall affect the liability of any person who may receive the whole or any part of any compensation awarded under this Act, to pay the same to the person lawfully entitled thereto.

Land, &c., taken possession of to vest in Secretary of State.

40. All land, earth, pathways, sluices, gates, bermes, hedges, belonging to or forming part of any embankment or watercourse, of which charge has been or may hereafter be taken by the officers of Government, shall vest in the Secretary of State for India, and shall be held by him on behalf of the Government in respect of the embankments mentioned in Schedule E annexed to this Act, and in respect of other works on behalf of the persons interested in the lands to be protected or benefited by such embankment or watercourse, subject to the provisions of Section 69; and all monies received on account of such lands shall be payable to the Engineer and credited to the cost of the construction and maintenance of such works respectively.

PART VI.

COST OF WORKS, PROCEEDINGS, &c.

1. *Ascertainment thereof.*

Embankments in schedule E.

41. The provisions in this Part contained shall not apply to any of the embankments mentioned in Schedule (E) to this Act annexed, save so far as any works or repairs are executed therein or in relation thereto under the provisions of Sections 10 and 13 of this Act respectively. All sums payable in respect of any works or repairs executed therein or in relation thereto, except under the provisions of the said sections respectively, shall be paid by the local Government. If at any time after the passing of this Act the Collector, on enquiry made by him as far as possible in accordance with the provisions of Part III of this Act, shall find that it is unnecessary for the public interests to retain any embankment mentioned in Schedule (E), the Lieutenant-Governor may direct that the same shall be no longer included in the said schedule. Provided that the same shall be restored to the said schedule if on any subsequent enquiry similarly conducted it shall be found necessary so to do.

Alteration of schedule.

Estimate and specifications to be prepared.

42. Specifications of any works or repairs to be executed under the provisions of this Act, and estimates of the expenses to be incurred therein or relating thereto, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer as soon after the month of October in each year as may be practicable. And whenever it appears that the actual expenses to be incurred will exceed the amount mentioned in the said estimates by one-tenth, the Engineer shall forthwith prepare further estimates, and, if necessary, further specifications. Copies of all specifications and estimates shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs. Notice of the receipt of specifications and estimates shall be served for all estates chargeable for or likely to be affected by the said works or repairs; and should any objection in regard to the amount of such expenses be preferred by any such person within a period of one month from the date of such notice, the Collector shall communicate the objection, with his own opinion thereupon, to the Engineer, who shall pass such orders as may appear to him reasonable and proper. Such order shall be subject in any case to an appeal by the person making such objection, and to a reference by the Collector, to the Commissioner whose decision shall be final.

Preparation and settlement of accounts.

43. The accounts of the actual expense incurred in executing any works or repairs shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the true amount of all such expenses and the names of the estates chargeable for and of the estates and villages affected by the said works and repairs. Copies of the said accounts and certificates shall be forwarded to the office of the Collector, and may be there examined by any person interested. Notice of the receipt thereof shall be served for the said estates and villages and such others as in the opinion of the Collector are liable to contribute to the payment of the said amount; and if, within thirty days from the service of such notice, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates, the Collector shall enquire into such objection, and may pass any order thereon subject in any case to an appeal by the objector or to a reference

by the Engineer to the Commissioner of division whose decision shall be final.

Total sum payable.

44. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of compensation, costs and expenses under and incidental to any proceedings taken or directed to be taken under Parts III and V of this Act, including costs of all surveys and plans. He shall thereupon make an order specifying the total sum found payable, and in respect of works done under Sections 9, 12, and 13, the persons by whom, or in respect of other works the estates in respect of which, the same is payable to him. Provided that the Collector may, if he thinks fit, order that a portion of the total sum payable shall be paid by any municipality of the first or second class which is in his opinion benefited or protected by the works or repairs executed. If the order is made in respect of work done under Sections 9, 12, or 13, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next chapter contained. Interest may be charged upon any sum paid as compensation from the date of payment thereof at such rate, not exceeding 5 per cent. per annum, as the Lieutenant-Governor may direct.

Parties liable to pay.

45. The said total sum, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed. Provided that where any specific sum has hitherto been annually demanded in respect of any embankment not included in Schedule E, and when the said embankment is at the time of this Act coming into operation being maintained by Government, then such special payments shall, after the passing of this Act, thenceforth cease and determine.

Every zemindar, who is liable under this rule for the payment of the whole or a portion of such total sum, shall be entitled to recover from the proprietor of every tenure which is declared to be a part of his estate, the sum apportioned to such tenure by the Collector, under the provisions of Section 50. And similarly, every proprietor shall be entitled to recover from the proprietor of any subordinate tenure, which is declared to be a part of his tenure, the sum apportioned to such subordinate tenure by the Collector, under the said provisions.

---

2. *Apportionment thereof.*

Notice to be given before apportionment.

46. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause a notice to be served for every one of the said estates and villages mentioned in Section 43. Every such notice shall specify the estates and villages aforesaid, and that an enquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and proprietors the said total sum, with interest and the costs of apportionment.

Provided that no rate-payer in such municipality shall be required to pay any portion of such remaining sum in respect of any tenure which is situated within the limits of such municipality.

52. All lands held without payment of rent, not being estates entered in the register of revenue-free tenures, shall, for the purposes of this Act, be deemed to form a part of the tenure within the local boundaries of which they are included; and, if they are not included within the local boundaries of any tenure, then to be a part of the estate within the local boundaries of which they are included; and, if they are not included within the local boundaries of any estate, then to be a part of such conterminous estate as the Collector, in whose district such conterminous estate is situated, shall, by an order under his seal and signature, declare.

The magistrate shall give to the person so appointed a certificate under his signature stating that he has been appointed for the journey to the depôt.

Recruiter must accompany emigrants to depôt, or depute person approved by magistrate.

57. Every recruiter, by whom any emigrant is forwarded or accompanied to a depôt, shall, throughout the journey, provide such emigrant with proper and sufficient food and lodging. Chapter 6.—Depôt.

58. 59. The copy of the registration and the medical certificate of every emigrant received by the superintendent as above provided shall be shown to the medical inspector; and all emigrants shall be inspected by the medical inspector as soon as may be after their arrival at the depôt. If he be satisfied of the fitness of an emigrant to journey to and labor in a labor district, he shall countersign the copy of the registration; if he be not satisfied thereof, he shall give a certificate to that effect to the superintendent.

Emigrants to be inspected by medical inspector immediately on arrival.

The medical inspector shall examine any emigrant in regard to whom a medical certificate is not forthcoming, and shall certify whether such emigrant is in his opinion in a fit state of health and able in point of physical condition to journey to and work for hire in a labor district; and if satisfied of his fitness he shall countersign the copy of the registration.

60. If the medical inspector shall certify that any emigrant so examined is in such a state of health that his journey to any labor district would be dangerous to himself or to others, or that he is unfit for labor in a labor district, the superintendent may order the contractor, or the garden sirdar, if such emigrant has been brought to the depôt by a garden-sirdar, to pay to such emigrant such sum as shall to the superintendent seem necessary to enable him to return to the place at which he was registered. Provided that any such emigrant, who from his state of health is, in the opinion of the medical inspector, unfit to undertake the journey back to the place where he was registered, shall, in addition to his being conveyed back at the expense of the contractor or garden-sirdar, be entitled to be fed, clothed, lodged, and attended to by and at the expense of such contractor, or of the employer of such garden-sirdar, until he is reported by the medical inspector fit to undertake such journey. 61. If, upon the arrival of any emigrant at a depôt, it shall appear to the superintendent of emigration, after personal communication with such emigrant, that such emigrant has suffered any serious ill-treatment, or that the recruiter has failed to provide such emigrant with proper and sufficient food and lodging, during transit, the superintendent may cause him to be removed from the depôt, and may order the contractor or garden-sirdar, for or by whom such emigrant shall have been taken to such depôt, to pay him such sum of money as to the superintendent shall seem reasonable by way of compensation, or such sum as to the superintendent shall seem necessary in order to enable such native inhabitant to return to the place where he was registered. In the latter case the native inhabitant shall not be bound to enter into a contract.

Emigrant ill-treated during journey may obtain compensation

62. Every emigrant, who is passed by the medical inspector as in a fit state of health and able to journey to and labor in a labor district, shall be required to execute a contract before he is forwarded from the depôt. The contract shall be executed in duplicate in the presence of the superintendent of emigration by the emigrant and by the employer to whom he is engaged or his agent, and shall be attested by the superintendent, and one copy thereof shall be given to the emigrant, and the other copy thereof to the employer or his agent. The contract may be written or printed, or partly written and partly printed, and shall be on substantial paper.

A certificate signed by the superintendent, that reasonable cause for refusing to execute the contract has not been shown, shall be admissible as *primâ facie* evidence in any proceeding taken under this section. Every fine levied under the provisions of this section shall be paid to the contractor or garden-sirdar by whom or on whose behalf the person from whom such fine shall have been levied was originally registered.

65. If within thirty days after the arrival of any emigrant at a depôt, the contractor, by whom or on whose behalf such emigrant shall have been registered, does not tender to him for execution such contract as under the provisions of the preceding sections, he would be bound to execute, or if such contractor or the employer of the garden-sirdar, without the consent of the superintendent, refuses to be bound by the agreement made by the recruiter or garden-sirdar with the emigrant, the superintendent may order the contractor or garden-sirdar to pay to such emigrant such sum of money as to the superintendent shall seem necessary to enable such emigrant to return to the place where he was registered, and in such case such emigrant shall not be bound to execute any contract.

The superintendent may, in any case in which it seems to him proper to do so, institute a suit on behalf of the emigrant against the contractor or the employer of the garden-sirdar for the recovery of damages for any breach of contract. In every such suit the contract entered into by the recruiter shall be deemed to have been entered into by, and to be binding on, the contractor or the employer of the garden-sirdar as the case may be.

67. If any contractor or garden-sirdar who may be ordered, under the provisions of sections 60, 61, and 65, to pay any sum of money, shall for twenty-four hours omit to comply with such order, it shall be lawful for the superintendent to advance the amount so ordered to be paid to the person named in such order, and to recover from such contractor or garden-sirdar or his employer the sum so advanced, with interest at the rate of twelve per cent. per annum from the date of such advance; and no further proof shall be required by any court in any suit for the recovery of money so advanced than that the superintendent made such order as aforesaid and advanced the money as aforesaid.

The superintendent of emigration may punish with fine not exceeding fifty rupees any contractor or recruiter who is guilty of a breach or neglect of any rule contained in this Act, relating to contractors or recruiters, or of any rule prescribed by the Lieutenant-Governor under section 5 for the management and regulation of contractors, depôts, and of hospital depôts. Such fines if unpaid shall be recovered on the requisition of the superintendent of emigration by any competent magistrate in the manner prescribed in section 307 of the Code of Criminal Procedure.

Provided always that this section shall not be deemed to prevent the master of any vessel from permitting emigrants to disembark at any place or places on the voyage so long as such disembarkation is not intended or known to be likely to be final; nor to prevent the final disembarkation of any emigrants in case of accident or other unavoidable necessity, if such accident or necessity be forthwith reported to the embarkation agent by whom the license of such vessel was granted, and to the nearest magistrate in the district within which such accident may occur or necessity arise.

Each inspector shall annually make a written report to the Lieutenant-Governor through the Commissioner of the division of the aforesaid particulars; and every such report, as regards the laborers under any particular employer, shall, at all reasonable times, be open to the inspection of such employer or any person by him appointed in writing in that behalf, and the person so inspecting shall be entitled to take a copy of the report so far as it relates to such laborers.

Magistrate may at any time inspect laborers' buildings used by them, &c.

If any employer, or other person acting for or under such employer, wilfully obstructs or impedes any entry, inspection, or enquiry, made under this or the last preceding section, he shall be punished as provided in chapter 10 of the Indian Penal Code.

Chapter 10.—*Regulation of Labor.*

Daily tasks to be fixed.

110. Every employer shall from time to time, with the sanction of the inspector previously obtained, fix the daily tasks to be executed by the laborers employed by such employer, and shall frame a schedule of such daily tasks, and publish the same by posting a copy thereof in the Bengali language upon the door of each place of payment of the laborers employed by such employer, and by sending a copy thereof in the English language to the inspector.

Maximum of labor.

Provided that no laborer shall be required to work more than six days in one week, or more than six consecutive hours, or more than nine hours a day.

Rest for one day in the week without loss of pay.

No deduction shall be made from the wages of a laborer on account of the rest for one day in each week.

The obligation to provide on holidays for the care of animals and the necessities of daily life shall not be considered as work.

Schedule of tasks may be revised by committee on application of employer.

111. The inspector shall at any time on the application of an employer summon a committee for the purpose of considering such schedule of daily tasks, if he declines to sanction such modification thereof as the employer desires. The committee shall consist of the inspector, of some employer to be nominated by him, and of some person to be nominated by the employer on whose application the committee is summoned. Such committee or the majority in number thereof shall have power to make any modification of the schedule which it may deem proper, and the schedule so modified shall be published in manner aforesaid, and every schedule published as aforesaid shall have effect as between the employer and laborers in substitution for any former schedule.

Chapter 11.—*Incapacity for Labor.*

Allowance payable to laborers temporarily incapacitated.

112. Any laborer, who is temporarily incapacitated for work by sickness not wilfully caused by himself or by pregnancy or other sufficient cause, shall be entitled to receive wages for the days during which he is so incapacitated at the rate of two-thirds of the rate of wages stipulated in his contract.

If such incapacity extends over 15 days.

If such incapacity extends over a period of fifteen days, the inspector of laborers, on the application of the employer, may determine the rate at which the wages of such laborer shall be paid, and may declare that the days during which such incapacity continues shall not be accounted as part of the period of the contract. Any order to that effect shall be endorsed on the contract.

Proof required in action for arrear of wages.

An authenticated copy of the order of the inspector under this section shall be accepted by any court as full evidence of the rate of wages to be paid to the laborer for the days to which such order relates.

In action for arrear of wages damages may be awarded.

113. In any action brought by a laborer against his employer for arrears of wages, if it appears to the magistrate that the defendant has refused to pay the wages of the complainant at the rate stipulated in the contract on the ground of incapacity for work, except under the rule contained in this section or in accordance with any condition of the contract, the magistrate may award to the complainant in addition to the amount decreed as arrears of wages such damages as he may consider just.

114. If it shall be found that any laborer has been compelled to perform any species of labor for which he was at the time unfit, the employer by whom he was so employed shall be liable to fine.

115. If, in the opinion of the inspector of laborers, any laborer shall be permanently incapacitated for the performance of his contract or any material part thereof, the inspector shall certify to that effect in writing, and deliver such certificate to the employer of such laborer or some one on his behalf, and from the date of such certificate the contract of such laborer shall wholly cease and determine. The inspector shall make a return of all such cases of determination of contract in his report under section 108. Every laborer whose contract shall have been determined as aforesaid, shall be entitled to receive from his employer such sum, not exceeding three months' wages, as the inspector may award, and such sum shall be recoverable before a magistrate in the manner hereinafter provided for the recovery of wages.

Chapter 12.—*Necessary Provision for Laborers.*

116. Whenever any laborers shall be employed in any labor district, the employer of such laborers shall be bound to provide for them sufficient and proper house accommodation, water-supply, and sanitary arrangements. He shall also be bound to provide good rice, or such other food as the Lieutenant-Governor may direct, which the laborer will be entitled to purchase at fixed rates.

Sufficient house accommodation, water-supply, and sanitary arrangements to be provided.

117. Every employer shall be bound to provide for his laborers such sufficient hospital accommodation, and such medicines of such quality and description, and according to such scale, as shall from time to time be fixed by the Lieutenant-Governor; and if three hundred or more laborers shall be employed by any employer, it shall be the duty of such employer to place in medical charge of such laborers a medical officer holding a medical diploma as licentiate in medicine from some Indian or European collegiate institution authorized to grant diplomas, or an officer for the time being licensed by the local Government to act in such medical charge of laborers. Such medical officer shall ordinarily reside within ten miles from the lands on which the laborers are employed.

Hospital, medicines, &c., to be provided.

118. If from information or complaint or otherwise an inspector or assistant inspector has reason to suspect that any employer has omitted to provide properly and sufficiently for his laborers in accordance with the rules prescribed by the Lieutenant-Governor, he may proceed to investigate the facts and circumstances of the case at any place within his jurisdiction not more than ten miles from the lands of such employer; and, if he is vested with any of the powers of a magistrate, may take cognizance of the offence and dispose of the case without any complaint. If he is not vested with any of the powers of a magistrate, he may prefer a complaint to any competent magistrate. All such cases shall be investigated and tried in accordance with the provisions of the Code of Criminal Procedure.

119. Any employer who voluntarily or negligently omits to provide properly and sufficiently for his laborers in accordance with the rules prescribed under sections 116 and 117, shall be punished by fine which may extend to five hundred rupees, and by an additional fine of one hundred rupees for every day during which such omission is continued.

Penalty for such failure.

Chapter 13.—*Localities unfit for the Residence of Laborers.*

120. If an inspector of laborers shall at any time have reason to believe that any estate or portion of an estate situated within the limits of his jurisdiction is in a condition so insalubrious, or in such a situation as to be unfit for the residence of laborers, he shall report his opinion in writing to the magistrate of the district. On the receipt of such information from the inspector of laborers, or from any other source which he may deem reliable, the magistrate shall forthwith summon a committee to inquire whether such estate or portion of estate is unfit for the residence of laborers. Such committee shall consist of the magistrate, the inspector of laborers, the medical officer of the district, and one or more employers of imported laborers, when such persons are available. If the magistrate is unable to procure the service on such committee of any employer of imported laborers, he may, with the sanction of the commissioner of the division, appoint one or more persons whom he may deem qualified.

Inspector to report.

Magistrate to summon committee.

Such committee shall proceed, with as little delay as possible, to enquire into the condition of the estate or portion of estate to which the order appointing the committee has reference, and shall hear such evidence on the subject as the owner of the estate or portion of estate or the employer or inspector may desire to place before it; and if such committee, or the major part in number thereof, is of opinion that such estate or portion of estate is in a condition so insalubrious, or in such a situation as to be unfit for the residence of laborers, it shall record a finding to that effect; and the contract of every laborer who shall have contracted to serve on such estate shall thereupon be void as regards such estate or portion of estate as may be found unfit for the evidence of laborers.

Proceedings of committee.

If committee finds unfit, contract to be void as regards such locality.

Provided that every such contract shall continue valid with regard to any other portion of such estate or to any other estate belonging to the same employer.

Proviso as regards other localities.

121. Provided also that it shall be lawful for the Lieutenant-Governor to declare any estate or portion of estate unfit for the residence of laborers without the appointment of any such committee, or notwithstanding the report of such committee, if the number of laborers who have died on such estate or portion of estate during the preceding twelve

months bears a larger proportion to the whole number of laborers employed thereon during such period than seven per centum; or if the average annual number of laborers who have died on such estate or portion of estate during the preceding three years bears a larger proportion to the whole number of laborers employed thereon during such period than five per centum.

or if the average of three years exceeds 5 per cent.,

Any such order of the Lieutenant-Governor shall have the same effect as the finding of a committee as set forth in the last preceding section.

with the same effect.

122. Every employer who shall cause or permit any laborer to reside upon any such estate or portion of an estate as under the provisions of one of the two last preceding sections may have been found to be unfit for human habitation, shall be liable to fine. Provided always that in case it shall appear to the inspector that any such estate, or portion of an estate, or any part of such portion, has become fit for human habitation, he shall, with the sanction of the magistrate of the district, give under his hand a certificate of such fitness, and no employer shall be liable to fine by reason of his causing or permitting laborers to reside in any place respecting which such certificate of fitness shall have been given.

Penalty on employer permitting laborer to reside in locality declared to be unfit.

Chapter 14.—Offences committed by Laborers.

123. Any laborer, who voluntarily and without reasonable cause absents himself from his labor or neglects or refuses to labor as required by his employer, the labor so required being reasonable and proper, may, on conviction, be sentenced to lose all claim to wages or allowances during the period of such absence, and also to forfeit to his employer a sum not exceeding four anas for each day during which such absence shall have continued; and in case such absence shall have exceeded seven days, or in case such laborer shall have been already convicted of the same offence within a period of three months, such laborer may be furthermore sentenced, at the request of the employer, to rigorous imprisonment for fourteen days.

Absenting himself, or neglecting, or refusing to labor.

Provided that ill-treatment of such laborer by his employer, or the neglect of the employer to fulfil any condition of the contract, may be deemed a reasonable cause for such absence or such neglect or refusal to labor.

Proviso in case of ill-treatment or breach of contract.

124. If any laborer deserts or attempts to desert from his employer's service, such employer or any other person acting in his behalf may, without first procuring a warrant, and without the assistance of any police officer (who, nevertheless, shall be bound to give such assistance if called upon to do so), apprehend such laborer wherever he may be found. Provided, nevertheless, that if such laborer be found in the service of another employer, he shall not be arrested without a warrant. Provided also that such employer or other person shall, within a reasonable time from the time of such apprehension, give the said laborer in charge at the nearest police station, and there enter the charge upon which he shall have apprehended such laborer.

Deserting may be apprehended without warrant.

Any laborer so given in charge shall be conveyed, without delay, to the nearest magistrate; and, if the place from which such laborer is charged with having deserted be within the jurisdiction of such magistrate, he shall himself adjudicate upon the charge; but if not, he shall forward the said laborer, under custody, to the magistrate within whose jurisdiction such place may be situated, who shall adjudicate upon such charge.

To be taken to nearest magistrate.

125. Every laborer who deserts from his employer's service shall be liable, upon conviction, to rigorous imprisonment, which may extend to one month, and every laborer, who, after having been convicted of desertion, shall again desert from his employer's service, shall be liable to rigorous imprisonment for a period which may extend to two months; and every laborer who, after having been twice convicted of desertion, shall again desert, shall be liable to imprisonment which may extend to three months. Such punishment may be imposed in addition to the forfeiture to which such laborer is liable under section 123.

Punishment.

126. On the expiry of any sentence of imprisonment for any offence under this Act, save as is provided in section 126, it shall be the duty of the magistrate to make over such laborer to any person appointed on the part of his employer to receive charge of him; and no conviction under this Act, or imprisonment under such conviction, shall, save as aforesaid, be held to operate as a release to any laborer from the terms of his contract. Provided, nevertheless, that the period of imprisonment shall in no case be prolonged by reason of there being no person present on the part of the employer to take charge of the laborer at the expiry of his sentence; but such laborer shall, in that case, be sent to the principal place of business of such employer, and the expense of such conveyance shall be levied from the employer in the manner provided in section 102.

Conviction not to operate as a release.

127. Whenever any laborer shall have actually suffered imprisonment amounting in the whole to six months for desertion from his employer's service, it shall be lawful for the inspector, and he is hereby required, at the written request of the employer, but not otherwise, to cancel the contract of such laborer; and every such cancellation shall be by the inspector certified on the back of the contract, and such laborer shall then be at liberty either to enter into a fresh contract with any employer or to return to the district from which he was recruited.

Contract may be cancelled for repeated desertion on the written request of the employer.

128. The employer, or any person authorized to act for the employer, of any laborer imprisoned for any offence under this Act, may apply to the magistrate, at any time previous to the expiry of such sentence, that such laborer be made over to him for the purpose of completing his contract; and the magistrate may, if he see good cause, make over or forward such laborer to his employer, and in that case the magistrate shall cancel the remainder of the sentence passed on him, and shall endorse on

Portion of sentence may be cancelled on application of employer

the contract of such laborer a memorandum signed by him of such cancellation.

Expense of restoring deserting laborer to be paid by employer.

129. Every employer who obtains an order for the deportation of any laborer who has deserted, shall pay the expense incurred in such deportation, and shall, before the order is issued, deposit with the magistrate such sum as such magistrate may in his discretion deem to be sufficient for defraying the expense of such deportation.

Time of unlawful absence or imprisonment to be excluded from contract period.

130. The duration of every unlawful absence from labor, of which any laborer may be convicted, and every sentence of imprisonment for any offence under this Act, shall be endorsed on the contract, at the time of its being passed, by the officer passing it; and no such period of imprisonment or unlawful absence so endorsed shall be reckoned as part of the term for which the laborer is bound to serve, but such term shall extend to such further period as shall be equivalent to the aggregate amount of the imprisonment and unlawful absence so endorsed.

Other person enticing away, harbouring, or employing laborer under contract.

131. Any person who knowingly entices away, harbours, or employs, or attempts to entice from his employment, any laborer, before such laborer shall have been lawfully released from his contract, shall be liable to a fine, the whole or any portion of which may be awarded to the employer of such laborer.

Chapter 15.—*Complaints made by Laborers.*

Employer to give notice to inspector if laborer wishes to complain of personal ill-usage or breach of contract.

132. If any laborer states to his employer, or to any person acting for such employer, that he desires to make a complaint to the inspector of laborers of personal ill-usage or breach of any provision of this Act on the part of such employer or other person, the person to whom such statement is made shall, within forty-eight hours, send notice thereof in writing to the inspector, and in default of so doing, such person shall be liable to fine.

Inspector how to proceed on receipt of notice, or if complaint is made to him,

or if he has reason to believe that there is ground for a complaint.

133. Whenever any inspector of laborers receives such notice in writing as aforesaid, or whenever any complaint of personal ill-usage or breach of any provision of this Act as aforesaid, is made to him by any laborer against his employer or any person acting for such employer, or whenever the inspector has other reasonable grounds for believing that any such personal ill-usage or breach of any provision of this Act as aforesaid has been suffered by a laborer, such inspector shall forthwith, if the place in which such offence has been committed is not situated within the limits of his own authority, give notice thereof in writing to the inspector within the limits of whose authority such place is situated; and if such place be situated within the limits of his own authority, then such inspector shall, so soon as conveniently may be, proceed to some place not more than ten miles in a direct line from the principal place of business of such employer, and make full enquiry into the matter complained of.

Procedure.

Penalty for obstructing service of, or disobedience to, summons.

For the purposes of such enquiry the inspector may summon such laborer and any witnesses. If any employer, or other person acting for or under such employer, in any way wilfully obstructs the service of, or obedience to, such summons; or if the laborer or any witness summoned neglects to attend as required in such summons; he shall be punished as provided in chapter 10 of the Indian Penal Code.

If complaint is untrue or frivolous.

134. If, upon such enquiry made on the complaint of a laborer, the inspector is of opinion that the complaint is untrue or frivolous, he shall enter in his book the particulars of such complaint, and a short statement of the grounds of his opinion respecting it, and shall dismiss the complaint, and in such case shall endorse on the employer's copy of the contract of such complainant the number of days during which such complainant has been absent from work in consequence of such enquiry, and such number of days shall be added to the period of the contract of such complainant; and every such endorsement shall be conclusive evidence that such laborer has absented himself from his labor without sufficient cause during the number of days which shall be so endorsed.

If complaint is well founded.

135. If, upon enquiry as aforesaid, the inspector is of opinion that the complaint is well-founded, he shall, if a magistrate, dispose of the case according to due course of law. If the inspector shall not be a magistrate, he shall without delay send the complainant and his witnesses to the nearest magistrate, and such magistrate shall thereupon dispose of the case in due course of law.

Recovery of arrears of wages.

136. If, upon the complaint of any laborer, it is proved to the satisfaction of the magistrate that the wages of such laborer are in arrear to an amount exceeding the rate of such laborer's wages for one month, such magistrate shall award to such laborer the amount which shall appear to be then due to him; and if it is proved that the wages of such laborer are in arrear to an amount exceeding the total of such laborer's wages for two months, the magistrate shall award also, by way of compensation, such further sum, not exceeding that amount, as shall appear to the magistrate to be just; and in case of default, the magistrate shall levy the entire sum by distress and sale of the movable property belonging to or under the charge of the employer.

Compensation may be given if arrear is for two months.

Contract may be declared cancelled, if employer is convicted of maltreatment by Session Court, or twice by magistrate;

or if wages are in arrear for four months;

137. If any employer, or any person placed in authority over any laborer by such employer, shall be convicted of any offence causing injury to the person or property of such laborer triable under the Code of Criminal Procedure by the Court of Session; or if any such employer, or other person as aforesaid, shall be twice convicted of any such offence against such laborer triable, under the said Code, by a magistrate; or if it shall be proved before a magistrate that the wages of such laborer are in arrear to an amount exceed-

ing the total of such laborer's wages for four months; or if a magistrate shall, on the report of the inspector and after due enquiry, upon oath, in the presence of the parties, be satisfied that any laborer has been compelled to perform any labor while he was unfit for it, or has been subjected to gross ill-usage by such employer or any other person placed in authority over the laborer by such employer; it shall be lawful for the magistrate, if he think fit, on the application of the laborer, in each of such cases, to cancel the contract of such laborer, and to award to him compensation not exceeding thirty rupees, and every such cancelment shall be certified by the magistrate on the back of such contract.

or if gross ill-usage is proved.

Chapter 16.—*Determination of Contract.*

138. Every laborer who has completed the term of his contract shall be forthwith entitled to appear before the inspector in order that the completion of his contract may be registered. If an employer detains such laborer after the completion of his contract, or fails to give notice of such completion to the inspector within one month after the date of such completion, such employer shall be liable to fine.

Laborer may appear before the inspector to register completion of contract.

Penalty if employer detains, or omits to report.

139. If any laborer is able and desirous to redeem the unexpired term of his contract of service by payment of a sum equivalent to the value thereof, such laborer may demand to be taken or allowed to go before the inspector of laborers within the local limits of whose authority he may be employed, and on his depositing such sum in the hands of such inspector, such inspector shall give notice to the employer that such laborer requires him within one week to show cause why the contract of such laborer should not be released; and, in case no sufficient cause should be shown, such inspector shall require the production of the contract of such laborer and endorse thereon a certificate of release by purchase, and shall hold the sum in deposit on account of the employer of such laborer. If any employer, or other person authorized to act for the employer, shall neglect to comply with such demand as aforesaid, such employer, or other person as aforesaid, shall be liable to fine.

Power to redeem contract.

The value of the unexpired term of contract shall be deemed to be the aggregate amount of one rupee for every month of the unexpired portion of the first year, of three rupees for every such month of the second year, and of five rupees for every such month of the third year, of the original term of the laborer's engagement.

Value of unexpired term of contract.

140. Every laborer, the period of whose contract has expired, or who has redeemed his contract by purchase, or whose contract has been rescinded by the mutual assent of the parties thereto, shall be entitled to receive forthwith from the inspector a certificate of release in such form as may from time to time be prescribed by the Lieutenant-Governor.

Certificate to be given of determination of contract.

141. Every laborer, the term of whose contract has expired, or who has been legally released from his contract, whether such expiry or release has been certified as above required or not, shall be deemed to be wholly exempted from the provisions of this Part.

Laborer, whose contract period has expired, or who has been otherwise released, exempted from operation of this Part.

PART IV.—CONTRACTS MADE IN LABOR DISTRICT.

Chapter 17.—*Contracts made by time-expired Laborers and locally-engaged Servants.*

142. Any laborer whose contract has been so determined, or any other person in a labor district, may make a contract for labor with any employer, either in writing or orally. But no such contract shall be deemed valid for a longer period than three years; and no such contract, the period of which extends to six months, shall be deemed valid unless it has been registered before a magistrate in the manner prescribed in section 62 within three months from the date of its execution.

STATEMENT OF OBJECTS AND REASONS.

Experience has shown certain defects in the existing law which regulates the emigration of laborers to the tea-producing districts, Bengal Act II of 1870. The recruiters are not brought under sufficient control; the intention of the law is evaded by the removal of emigrants from the districts in which they are recruited without registration, and without the execution of any contract; the position of the time-expired laborer is obscurely defined; there is no provision which enables the Government to remove imported laborers from gardens in which the rate of mortality is very high; and the labor transport fund is unable to pay the cost of the establishment which is maintained for the supervision of emigration and the protection of imported laborers.

The rules affecting garden sirdars are inconveniently mixed up in the Act with those which relate to contractors' recruiters; and the arrangement of it in Parts and Chapters will materially aid all persons concerned in the application of its provisions. Neither Act II of 1870 nor any other enactment provides a general law for the regulation of contracts of labor and service. The object of the Bill is to remedy these defects. In other respects it does not propose to make any material alteration in the present law.

The average price of a chest was estimated originally at Rs. 1,200. It must now be Rs. 1,212, if the whole estimate is to be made good. NOTIFICATION.

The 1st March 1873.—The attention of all officers subordinate to the Government of Bengal is drawn to the following rules, which have been approved by the Governor-General in Council, regarding the planting and cutting of trees, and the cutting of tree-branches which interfere with the telegraph wires.

Planting trees near telegraph wires.

In laying out a new line of telegraph, the telegraph officers charged with the erection of the line should take care that there is no unnecessary destruction of trees, especially those of old and fine growth; and should avoid, as much as possible, interference with existing avenues, groves, and plantations, and even single trees, whether public or private property; he should consult the civil authorities and others and satisfy them on this point; and, when a new line is to be constructed along a road, the telegraph officer should be careful not to place it so as to interfere with the future planting of avenues of trees.

Rules applicable more especially to new lines of telegraph.

2. Where, after such consultation, it is agreed that interference is unavoidable for the proper construction of the line, the telegraph officer will be careful further to consult the civil authorities and others concerned, and arrange with them that due compensation is paid to the owners in all cases where the trees are private property.

3. If the trees are the property of Government, they shall on no account be cut down or lopped without the permission of the officer in charge of the trees, and if this permission is refused, and the telegraph officer is not satisfied, the matter must be referred to the next superior officer in the Telegraph Department, who may then consult the higher civil or public works authorities, or refer to the head of his own department.

4. When new lines are being constructed in native states, the Political Agent shall be referred to by the telegraph officers to make the necessary arrangements with the Native Durbar for cutting or removing trees, and for granting compensation.

5. Unless under special sanction or agreement with the local officers concerned, no line of telegraph shall be erected parallel to an avenue or side of a grove of trees within 25 feet of the edge thereof. Civil and public works officers are however requested to give all reasonable consideration to the requirements of the Telegraph Department as exemplified in the following extract from a letter, No. 321 of 6th November 1872, from the Officiating Director-General of Telegraphs :—

> In many parts of India, and in many instances, the only portions of the country not under water in the rains are the main roads, along both sides of which avenues or groves of trees are not unfrequently planted for shade. To place the supports of a telegraph line at a distance not less than 25 feet outside of the boundary of the road, avenues of trees or groves would necessitate the telegraph line being erected well into the fields or jungle, liable to inundation, at a distance so considerable as to preclude the possibility of inspection from the road, with, moreover, a deep ditch full of water between the road and the boundary thereof. I am therefore of opinion that this paragraph should be either cancelled or altered if future extensions of, or alterations to, telegraph lines are to be worked efficiently. If the avenues of trees are of any age and growth, the trees will be sufficiently high and thick to admit of the supports for the telegraph lines being planted within a few feet of their trunks, and of the wires being carried under their branches without many of the latter having to be cut off from the one side, the trees being disfigured, or their shade reduced. The telegraph lines in India were at first constructed across the fields, and away from the sides of the roads, the result being that at certain times of the year inspection was most difficult and shirked, and involved injury to the growing and standing crops. This system was abandoned when the lines were being reconstructed.

6. When new lines of telegraph must be taken over avenues, they should be carried across as nearly at right angles as possible. Long slants are objectionable, as they interfere with many trees.

7. The civil or public works officers are desired to inform the officers of the Telegraph Department immediately on becoming aware of any cases in which telegraph lines are being constructed within 25 feet of any grove or avenue, or so as to prevent the convenient planting of a road avenue in future, or generally when any arrangement of a line of telegraph is likely to cause inconvenience or injury. In case of failure to arrange with the officer immediately concerned, the matter should be brought to the notice of the local head of the Telegraph Department, and also reported to higher authority in the civil or public works department.

Rules applicable more especially to existing lines of telegraph.

8. Where existing telegraph lines are within 25 feet of any avenue or grove of trees, the telegraph officer shall be primarily responsible that the wires are kept free of contact. To this end he may, without reference to the officers in charge, keep boughs up to 2 inches diameter clear for a distance of 3 feet from the line of telegraph wire. Likewise, twigs and small boughs easily moved by the wind may be cleared away for a distance of 6 feet from the telegraph line without reference to the officer in charge.

9. In cases where it is necessary that large boughs or tops of trees should be cut, permission to cut them should be asked in writing from the officer in whose charge they are; should no answer be received within ten days of the date of despatch of the letter to the office of the officer concerned, the telegraph officer may intimate his intention to proceed to cut the branches, and one week thereafter shall be at liberty to cut the branches without further reference.

10. Telegraph officers shall be held responsible that the cutting and lopping of trees is not more than is absolutely necessary for the proper working of the telegraph line

11. Public works officers and other officers in charge of roads will be held responsible that trees are not planted in positions where they are likely to interfere with the telegraph wire, viz. within 25 feet of them as laid down in Rule 5.

12. The officers of the Telegraph Department are required immediately to make a courteous remonstrance in any case where trees are being planted within 25 feet of, or so as to be likely to interfere with, a telegraph wire, and in case of their objection not being attended to, they should report at once to their immediate superiors. The Superintendent of the division or the superior officer should represent the case to the local authority in charge of the planting, and endeavour to get the trees removed, failing which,

he should report to the head of his own department.

13. Wherever possible, trees that have been recently planted within the prescribed distance should be removed.

14. It may be necessary in some few cases to remove existing lines of telegraph which interfere seriously, or are likely so to interfere, with groves or avenues of trees; but on account of expense, no such removal is to take place without a special report to the Government of India of all the circumstances of the case. Such report must distinctly show whether the avenue was first planted or the telegraph line first erected.

15. The foregoing rules are not applicable to lines of telegraph passing through forest and jungle tracts, but care should nevertheless be taken to avoid injury to large trees, which are in every situation to be considered as valuable.

We, the undersigned, the Members of the select committee of the Council of the Lieutenant-Governor of Bengal for the purpose of making laws and regulations, to which the Bill to amend the law relating to embankments and water-courses was referred for the purpose of considering the amendments proposed by the Hon'ble V. H. Schalch in the Bill, as amended by the former committee and submitted with their report of the 5th August 1872, have the honor to report that we have considered the said proposed amendments; that we have adopted some of them as proposed; and that we have introduced some others with certain alterations.

We have provided for the payment of a portion of the expenses by a first or second class municipality which is benefited by the work executed.

We have preserved the system, which has existed for many years, for recovering the cost of maintaining the Gunduk embankments in the Sarun district.

We have provided for the assignment to a certain estate or tenure of lakhiraj lands which are not included within the local limits of any estate or tenure.

We have given power to the Magistrate to remove an embankment or obstruction illegally constructed, if the person who constructed it fails to remove it within a fixed time.

We have provided for the extension by Government of the Hooghly and Burdwan Drainage Act to any scheme proposed for similar objects of which the Lieutenant-Governor may approve.

We have confined our attention to the amendments which were laid before the Council by the Hon'ble V. H. Schalch, and report upon them alone.

PART II.

Powers of Engineers.

Power to take charge of embankments.

4. The Engineer may cause any embankment which connects public embankments, or forms, by junction with them, part of a line of embankments, or any embankment or watercourse which is necessary for the protection or drainage of the neighbouring country, to be taken charge of and kept up by the officers of Government.

Power to remove embankments and obstructions.

5. The Engineer may cause to be removed or altered any permanent or temporary embankment which endangers the stability of a public embankment or any obstruction of any kind which interferes with the general drainage of any tract of land.

Power to change line of embankment.

6. The Engineer may, when necessary, change the line of or lengthen any public embankment; or make a new embankment in the place of or renew any public embankment; or make an embankment in any place in which he may deem such embankment required for the protection of any lands, or for the improvement of any watercourse; or make a sluice in any public embankment.

Power to improve drainage.

7. The Engineer may construct any sluice or watercourse, or effect any alteration in any public watercourse, when such construction or alteration may be required for the improvement of the health or for the protection of any village or cultivable land.

Applications for sluices to be made to Engineer.

8. If any landholder, farmer, or cultivator, be desirous of having a sluice made in any public embankment for the purpose of drainage or irrigation, he shall make an application in writing to the Engineer of the district in which such embankment is situate. The application shall contain such particulars of the land to be drained or irrigated as may enable the Engineer to judge of the advantage which may be derived from the work.

Power to alter roads and construct watercourses.

9. The Engineer may call upon the person in charge of any road which interferes with the drainage of any tract of land to alter such road, or to construct any watercourse under or through such road. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may forthwith cause the said road to be altered, or the said watercourse to be constructed. The expenses of such alteration or construction shall be borne by the person in charge of the said road.

Proceedings to obtain new embankment or drainage.

10. Whenever any person is desirous that any new embankment be erected, or that any new watercourse be made, or that any watercourse be obstructed or diverted, if such embankment or watercourse is likely to interfere with, counteract, or impede, any public embankment or any public watercourse, he shall apply to the Engineer, and at the time of making such application shall deposit with him a statement of the proposed works.

Power to make repairs.

11. The Engineer may make any repairs in, and may do all acts necessary and proper for the maintenance of any public embankment, public watercourse, or other work executed or taken charge of under the provisions of this Act, or of any of the Acts repealed by this Act.

Power to alter railroads and construct watercourses.

12. The Engineer may call upon the manager or other person in charge of any railroad which interferes with the drainage of any tract of land to alter such railroad or to construct any watercourse, under or through such railroad. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may thereupon, with the previous sanction of the Lieutenant-Governor, cause the said railroad to be altered, or the said watercourse to be constructed in such manner as the Lieutenant-Governor shall direct. The expenses of such alteration or construction shall be borne by the said manager or other person in charge of the said railroad.

Power to make temporary embankment and dams.

13. Whenever any person is desirous that a temporary watercourse should be made through, or that a temporary roadway should be made over, any public embankment, or that a temporary dam should be constructed in any embanked river, or public watercourse, he shall apply to the Executive Engineer of the district, who shall communicate the application to the Engineer, and the Engineer shall pass such orders thereon as he shall think fit. If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall deposit the amount estimated by the said Engineer to be necessary to defray the expenses of and incident to making such roadway, or of and incident to making and closing or removing such watercourse or dam. If such amount is found insufficient, the said Engineer shall recover the further amount required; and if it exceeds the said amount, such excess shall be returned to the person depositing the same.

Power to remove houses.

14. Whenever the Engineer shall be of opinion that the removal of any trees, houses, huts, or other buildings situated between a public embankment and the river is necessary, he shall make a report to that effect, accompanied by a detailed statement of the trees, houses, huts, or other buildings to be removed, to the Collector of the district in whose jurisdiction the land on which such trees, houses, huts, or other buildings stand, is situated, and the Collector shall report the same to the Lieutenant-Governor in order that proceedings may be taken, under the provisions of "The Land Acquisition Act, 1870," for obtaining possession of such trees, houses, huts, and buildings. Provided always that in case the Engineer be of opinion that the delay required by such proceedings is likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to cause such trees, houses, huts, or buildings to be removed, and in such case the compensation due therefor shall be ascertained and paid in the manner hereinafter provided.

Sluices to be opened under authority of the Engineer.

15. Sluices constructed in any public embankment shall be opened or shut only by or with the general or special permission of the officer in the immediate charge of the embankment, under such orders, either general or special, as he may receive from the Engineer.

Power to appropriate land or earth.

16. In any case where an embanked towpath has heretofore been maintained by Government alongside any canal, river, khal, or channel, the Engineer shall be entitled to appropriate without payment, as heretofore, land or earth for the maintenance, repair or re-construction of such embanked towpath. If in any case the Engineer shall consider it necessary for the purposes of towing to enlarge an existing towpath, or to construct a new towpath, proceedings shall be taken in accordance with the subsequent provisions of this Act relating thereto.

Power to enter and survey land, &c.

17. It shall be lawful for the Engineer, or any person whom he may authorize in that behalf, in order to carry out any of the purposes of this Act,—

Payment for damage.

The officer so authorized shall at the time of such entry pay or tender payment for all necessary damage to be done as aforesaid; and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the decision of the Collector, and such decision shall be final.

PART III.

Reference to the Collector and procedure thereon.

Notice to the Collector.

18. Save as is by this Act otherwise provided, the Engineer, before causing any of the works mentioned in Sections 5 to 10 both inclusive, or any of them, to be executed, shall prepare and submit to the Collector of the district plans, specifications, and estimates of the proposed works, together with a map showing the boundaries of the various estates likely to be affected by the said works, and a notice in writing of his intention to execute such works, and shall not commence any of such works until final order made in respect thereto. Such notice shall be in the form and state the particulars mentioned in Schedule (A) to this Act annexed. Upon the receipt of such notice the Collector shall cause a proclamation to be issued, which shall be in the form and state the particulars mentioned in Schedule (B). The Collector shall append to such proclamation a list of the estates, villages, and municipalities, mentioned in the said notice, and such others as he may consider likely to be affected by the works proposed.

Publication of proclamation.

19. Every such proclamation shall be published by affixing the same at the cutcherry of the Collector, and in the manner provided in the third clause of Section 63.

Proclamation to be published for thirty days.

20. Every such proclamation shall be published and served not less than thirty days before the day appointed for hearing the persons interested.

22. The Collector shall, on the day appointed for the hearing, or on any subsequent day to which the hearing shall be adjourned, hear the objections of any persons who may appear, and, after recording any evidence which they may adduce, shall communicate the objections that may be made, together with his opinion thereon and on the proposed works, to the Engineer, who shall return the same with his opinion to the Collector. If the Engineer agree in opinion with the Collector, the Collector shall pass an order accordingly in regard to the execution of the aforesaid works, and notice of such order shall be served on the persons appearing in pursuance of the proclamation. If he differ from the Collector, the case shall be referred to the Commissioner of Revenue, who shall pass such orders thereon as he may deem fit.

PART IV.

Procedure in cases of imminent danger to life or property.

Proceedings in emergencies.

23. Whenever the Engineer shall be of opinion that the proceedings commenced by notice under Part III of this Act would cause delay in the exercise of any of the powers by Sections 5, 6, and 7 conferred upon him, likely to be attended with grave and imminent danger to life or property, he may forthwith commence to exercise such powers without reference to the Collector. Provided that he shall forthwith inform the Collector thereof and of the nature of the danger, and give notice of his intention to continue to exercise such powers. The Collector, in any case where he shall see fit, may direct the Engineer to suspend further action until after the completion of such proceedings and enquiries. The Engineer, as soon as he conveniently may, after giving such notice of his intention, shall

Notice to the Collector.

give notice in writing to the Collector, together with plans, specifications, estimates, and maps, as provided in Section 18, appending thereto a statement that the work mentioned therein has already been commenced, and thereupon such proceedings and enquiries shall be had as in and by Part III of this Act are directed.

Power to take possession of land.

24. Whenever any land, or earth from any land the property of any person, is required for the purposes of any works commenced in pursuance of the provisions of the last preceding section, or for the purposes of Section 11 in cases where the Engineer shall be of opinion that proceedings for the acquisition of such land, according to the provisions contained in Section 28, would cause delay as aforesaid, the Engineer shall cause public notice in form in Schedule (C) to be given at convenient places in the locality in which such land is situated, and he may at the same time take possession of the same for the said purposes. Provided that he shall, so soon thereafter as he conveniently may, give notice thereof to the Collector.

Compensation for standing crops and trees.

25. The Engineer shall ascertain and record the nature and estimated value of the crops and trees (if any) standing on such land, and shall offer adequate compensation to the persons interested. If such offer is not accepted, he shall forward the record with a report to the Collector, and the value of such crops and trees shall be allowed for in awarding compensation for the land under the provisions of Section 32.

Power to Executive Engineer to act for Engineer.

26. Whenever the Engineer may be absent, the Executive Engineer of the district may, in case he shall be of opinion that delay for the purpose of obtaining the orders of the Engineer would be attended with grave and imminent danger to life or property, exercise the powers in and by the three last preceding sections conferred on the Engineer.

Power to restore embankments, &c.

27. Whenever, upon an enquiry had under the provisions of this Part, it has been determined in the final and conclusive order to be passed on such enquiry that anything done by the Engineer was unnecessary, the land or the embankments or drainage shall, so far as any alteration thereof shall appear to be unnecessary, be at the expense of the Government restored as nearly as possible to the state in which they were when the Engineer commenced to act under the provisions of this Part; and any person who shall have sustained loss, damage, or injury by the execution of such works, shall receive compensation from the Government to be assessed and imposed according to the provisions contained in Part V of this Act.

PART V.

Acquisition of lands.

Acquisition of land.

28. Whenever in the course of proceedings under this Act, save in those cases in which the Engineer has proceeded under the provisions of Part IV, it appears that land is required for any of the purposes thereof, such purpose shall be deemed to be a public purpose within the meaning of The Land Acquisition Act, 1870, and such proceedings shall be forthwith taken as are directed by the said Act or by any other law for the time being governing the acquisition of lands for public purposes.

When land taken, notice to be published.

29. Whenever any land shall have been taken or used under the provisions of Part IV, the Collector shall, unless he shall direct the Engineer to suspend further action, cause public notice in form in Schedule (D) to be given at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all incumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.

Contents of notice.

30. Such notice shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days, after the date of publication of the notice), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.

Further notice to be served on certain parties.

31. The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.

Proceedings after notice.

32. After service of such notices proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, and all the provisions contained in Sections 10 to 15, 18 to 34, 36, 37, 38, 42, 51, 55, 58 (as amended by Act IX of 1871), and 59 of the Land Acquisition Act, 1870, shall be applicable to such proceedings.

Compensation for consequential damage.

33. Whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by the due exercise of the powers or provisions of this Act, the person in whom such right is vested may prefer a claim by petition to the Collector for compensation.

Application to be made within a year.

34. No claim shall be entertained which shall be made later than one year next after the completion of the work by which such right is injuriously affected.

Procedure for such compensation.

35. Subject to the provisions of the next preceding section, the Collector shall proceed to enquire into each claim made, and to determine the amount of compensation, if any, which should be made, and the person to whom the same should be payable, and the Collector, on the receipt of such claim, shall fix a time and place for hearing such claim, and Sections 9 to 15, 18 to 23, 26 to 34, 36, 37, 38, 51, 54, 55, 58 (as amended by Act IX of 1871), and 59 of the said Land Acquisition Act, 1870, shall apply to enquiries into such rights as aforesaid, or the exercise of such rights as aforesaid, and to the awards of compensation for injuries to such rights as though they were rights in and awards of compensation for land needed for a public purpose.

Matters to be considered in determining compensation.

36. In determining the amount of compensation to be awarded in such cases, the Judge and Assessors shall take into consideration—

First, the market value of the property injuriously affected at the time of acquiring the land;

Secondly, the damage sustained by the claimant by reason of such acquisition injuriously affecting the property;

Thirdly, the consequent diminution of the market value of the property injuriously affected at the time of acquiring the land.

But the Judge or Assessors shall not take into consideration—

Matters not to be considered in determining compensation.

First, the degree of urgency which has led to the acquisition;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

Appeal from Judge's decision as to compensation.

37. If the Judge differs from both the Assessors as to the amount of compensation under the provisions contained in Section 32 or Section 35, he shall pronounce his decision, and the Collector or the person interested (as the case may be) may appeal therefrom to the Court of the District Judge.

Determination of proportions.

38. When the amount of compensation has been settled by the Court, under the provisions contained in Section 32 or Section 35, and there is any dispute as to the apportionment thereof, or when a reference to the Court has been made, the Judge sitting alone shall decide the proportions in which the persons interested are entitled to share in such amount.

Every appeal under the two last preceding sections shall be presented within the time and in manner provided by the Code of Civil Procedure for regular appeals in suits.

Payment of compensation to whom made.

39. Payment of the compensation shall be made by the Collector according to the award to the persons named therein, or in the case of an appeal according to the decision on such appeal. Provided that nothing herein contained shall affect the liability of any person who may receive the whole or any part of any compensation awarded under this Act, to pay the same to the person lawfully entitled thereto.

Land, &c., taken possession of to vest in Secretary of State.

40. All land, earth, pathways, sluices, gates, bermes, hedges, belonging to or forming part of any embankment or watercourse, of which charge has been or may hereafter be taken by the officers of Government, shall vest in the Secretary of State for India, and shall be held by him on behalf of the Government in respect of the embankments mentioned in Schedule E annexed to this Act, and in respect of other works on behalf of the persons interested in the lands to be protected or benefited by such embankment or watercourse, subject to the provisions of Section 69; and all monies received on account of such lands shall be payable to the Engineer and credited to the cost of the construction and maintenance of such works respectively.

PART VI.

COST OF WORKS, PROCEEDINGS, &c.

1. *Ascertainment thereof.*

Embankments in schedule E

41. The provisions in this Part contained shall not apply to any of the embankments mentioned in Schedule (E) to this Act annexed, save so far as any works or repairs are executed therein or in relation thereto under the provisions of Sections 10 and 13 of this Act respectively. All sums payable in respect of any works or repairs executed therein or in relation thereto, except under the provisions of the said sections respectively, shall be paid by the local Government. If at any time after the passing of this Act the Collector, on enquiry made by him as far as possible in accordance with the provisions of Part III of this Act, shall find that it is unnecessary for the public interests to retain any embankment mentioned in Schedule (E), the Lieutenant-Governor may direct that the same shall be no longer included in the said schedule. Provided that the same shall be restored to the said schedule if on any subsequent enquiry similarly conducted it shall be found necessary so to do.

Alteration of schedule.

Estimate and specifications to be prepared.

42. Specifications of any works or repairs to be executed under the provisions of this Act, and estimates of the expenses to be incurred therein or relating thereto, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer as soon after the month of October in each year as may be practicable. And whenever it appears that the actual expenses to be incurred will exceed the amount mentioned in the said estimates by one-tenth, the Engineer shall forthwith prepare further estimates, and, if necessary, further specifications. Copies of all specifications and estimates shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs. Notice of the receipt of specifications and estimates shall be served for all estates chargeable for or likely to be affected by the said works or repairs; and should any objection in regard to the amount of such expenses be preferred by any such person within a period of one month from the date of such notice, the Collector shall communicate the objection, with his own opinion thereupon, to the Engineer, who shall pass such orders as may appear to him reasonable and proper. Such order shall be subject in any case to an appeal by the person making such objection, and to a reference by the Collector, to the Commissioner whose decision shall be final.

Preparation and settlement of accounts.

43. The accounts of the actual expense incurred in executing any works or repairs shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the true amount of all such expenses and the names of the estates chargeable for and of the estates and villages affected by the said works and repairs. Copies of the said accounts and certificates shall be forwarded to the office of the Collector, and may be there examined by any person interested. Notice of the receipt thereof shall be served for the said estates and villages and such others as in the opinion of the Collector are liable to contribute to the payment of the said amount; and if, within thirty days from the service of such notice, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates, the Collector shall enquire into such objection, and may pass any order thereon subject in any case to an appeal by the objector or to a reference

by the Engineer to the Commissioner of division whose decision shall be final.

Total sum payable.

44. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of compensation, costs and expenses under and incidental to any proceedings taken or directed to be taken under Parts III and V of this Act, including costs of all surveys and plans. He shall thereupon make an order specifying the total sum found payable, and in respect of works done under Sections 9, 12, and 13, the persons by whom, or in respect of other works the estates in respect of which, the same is payable to him. Provided that the Collector may, if he thinks fit, order that a portion of the total sum payable shall be paid by any municipality of the first or second class which is in his opinion benefited or protected by the works or repairs executed. If the order is made in respect of work done under Sections 9, 12, or 13, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next chapter contained. Interest may be charged upon any sum paid as compensation from the date of payment thereof at such rate, not exceeding 5 per cent per annum, as the Lieutenant-Governor may direct.

Parties liable to pay.

45. The said total sum, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed. Provided that where any specific sum has hitherto been annually demanded in respect of any embankment not included in Schedule E, and when the said embankment is at the time of this Act coming into operation being maintained by Government, then such special payments shall, after the passing of this Act, thenceforth cease and determine.

Every zemindar, who is liable under this rule for the payment of the whole or a portion of such total sum, shall be entitled to recover from the proprietor of every tenure which is declared to be a part of his estate, the sum apportioned to such tenure by the Collector, under the provisions of Section 50. And similarly, every proprietor shall be entitled to recover from the proprietor of any subordinate tenure, which is declared to be a part of his tenure, the sum apportioned to such subordinate tenure by the Collector, under the said provisions.

---

2. *Apportionment thereof.*

Notice to be given before apportionment

46. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause a notice to be served for every one of the said estates and villages mentioned in Section 43. Every such notice shall specify the estates and villages aforesaid, and that an enquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and proprietors the said total sum, with interest and the costs of apportionment.

Whenever it has been ordered by the Collector that a municipality is liable for a portion of the said total sum, the notice shall contain a statement to that effect, and shall be served on the Chairman of the municipality.

Mode of enquiry as to the proportion chargeable to each estate.

47. On the day fixed in the said notice, which shall not be less than thirty days later than the date of any service of such notice, the Collector shall proceed to make the said enquiry. In making this enquiry he shall receive such evidence as may be tendered by, or on behalf of, the said zemindars and proprietors, and by, or on behalf of, any other persons who may claim to be interested therein.

Names of proprietors.

48. In any such enquiry the Collector shall take down in writing the names of all persons who may claim, or who may be alleged by any party interested, to be proprietors of tenures within any of the estates mentioned in such notice. In default of appearance of any such person, the Collector shall issue and serve a notice calling on him to appear at a date and place therein mentioned, and to show cause against being included in the order of apportionment to be made therein, and shall adjourn the enquiry till such date.

Apportionment amongst zemindars.

49. 61. If, upon the arrival of any emigrant at a depôt, it shall appear to the superintendent of emigration, after personal communication with such emigrant, that such emigrant has suffered any serious ill-treatment, or that the recruiter has failed to provide such emigrant with proper and sufficient food and lodging, during transit, the superintendent may cause him to be removed from the depôt, and may order the contractor or garden-sirdar, for or by whom such emigrant shall have been taken to such depôt, to pay him such sum of money as to the superintendent shall seem reasonable by way of compensation, or such sum as to the superintendent shall seem necessary in order to enable such native inhabitant to return to the place where he was registered. The contract shall be executed in duplicate in the presence of the superintendent of emigration by the emigrant and by the employer to whom he is engaged or his agent, and shall be attested by the superintendent, and one copy thereof shall be given to the emigrant, and the other copy thereof to the employer or his agent. 65. If within thirty days after the arrival of any emigrant at a depôt, the contractor, by whom or on whose behalf such emigrant shall have been registered, does not tender to him for execution such contract as under the provisions of the preceding sections, he would be bound to execute, or if such contractor or the employer of the garden-sirdar, without the consent of the superintendent, refuses to be bound by the agreement made by the recruiter or garden-sirdar with the emigrant, the superintendent may order the contractor or garden-sirdar to pay to such emigrant such sum of money as to the superintendent shall seem necessary to enable such emigrant to return to the place where he was registered, and in such case such emigrant shall not be bound to execute any contract.

Provided always that this section shall not be deemed to prevent the master of any vessel from permitting emigrants to disembark at any place or places on the voyage so long as such disembarkation is not intended or known to be likely to be final; nor to prevent the final disembarkation of any emigrants in case of accident or other unavoidable necessity, if such accident or necessity be forthwith reported to the embarkation agent by whom the license of such vessel was granted, and to the nearest magistrate in the district within which such accident may occur or necessity arise.

Daily tasks to be fixed.

110. Every employer shall from time to time, with the sanction of the inspector previously obtained, fix the daily tasks to be executed by the laborers employed by such employer, and shall frame a schedule of such daily tasks, and publish the same by posting a copy thereof in the Bengali language upon the door of each place of payment of the laborers employed by such employer, and by sending a copy thereof in the English language to the inspector.

Maximum of labor.

Provided that no laborer shall be required to work more than six days in one week, or more than six consecutive hours, or more than nine hours a day.

Rest for one day in the week without loss of pay.

No deduction shall be made from the wages of a laborer on account of the rest for one day in each week.

The obligation to provide on holidays for the care of animals and the necessities of daily life shall not be considered as work.

Schedule of tasks may be revised by committee on application of employer.

111. The inspector shall at any time on the application of an employer summon a committee for the purpose of considering such schedule of daily tasks, if he declines to sanction such modification thereof as the employer desires. The committee shall consist of the inspector, of some employer to be nominated by him, and of some person to be nominated by the employer on whose application the committee is summoned. Such committee or the majority in number thereof shall have power to make any modification of the schedule which it may deem proper, and the schedule so modified shall be published in manner aforesaid, and every schedule published as aforesaid shall have effect as between the employer and laborers in substitution for any former schedule.

Chapter 11.—*Incapacity for Labor.*

Allowance payable to laborers temporarily incapacitated.

112. Any laborer, who is temporarily incapacitated for work by sickness not wilfully caused by himself or by pregnancy or other sufficient cause, shall be entitled to receive wages for the days during which he is so incapacitated at the rate of two-thirds of the rate of wages stipulated in his contract.

If such incapacity extends over 15 days.

If such incapacity extends over a period of fifteen days, the inspector of laborers, on the application of the employer, may determine the rate at which the wages of such laborer shall be paid, and may declare that the days during which such incapacity continues shall not be accounted as part of the period of the contract. Any order to that effect shall be endorsed on the contract.

Proof required in action for arrear of wages.

An authenticated copy of the order of the inspector under this section shall be accepted by any court as full evidence of the rate of wages to be paid to the laborer for the days to which such order relates.

In action for arrear of wages damages may be awarded.

113. In any action brought by a laborer against his employer for arrears of wages, if it appears to the magistrate that the defendant has refused to pay the wages of the complainant at the rate stipulated in the contract on the ground of incapacity for work, except under the rule contained in this section or in accordance with any condition of the contract, the magistrate may award to the complainant in addition to the amount decreed as arrears of wages such damages as he may consider just.

114. If it shall be found that any laborer has been compelled to perform any species of labor for which he was at the time unfit, the employer by whom he was so employed shall be liable to fine.

Penalty for compelling laborer to perform work for which he is unfit

115. If, in the opinion of the inspector of laborers, any laborer shall be permanently incapacitated for the performance of his contract or any material part thereof, the inspector shall certify to that effect in writing, and deliver such certificate to the employer of such laborer or some one on his behalf, and from the date of such certificate the contract of such laborer shall wholly cease and determine. The inspector shall make a return of all such cases of determination of contract in his report under section 108. Every laborer whose contract shall have been determined as aforesaid, shall be entitled to receive from his employer such sum, not exceeding three months' wages, as the inspector may award, and such sum shall be recoverable before a magistrate in the manner hereinafter provided for the recovery of wages.

Chapter 12.—*Necessary Provision for Laborers.*

116. Whenever any laborers shall be employed in any labor district, the employer of such laborers shall be bound to provide for them sufficient and proper house accommodation, water-supply, and sanitary arrangements. He shall also be bound to provide good rice, or such other food as the Lieutenant-Governor may direct, which the laborer will be entitled to purchase at fixed rates.

Sufficient house accommodation, water-supply, and sanitary arrangements to be provided.

117. Every employer shall be bound to provide for his laborers such sufficient hospital accommodation, and such medicines of such quality and description, and according to such scale, as shall from time to time be fixed by the Lieutenant-Governor; and if three hundred or more laborers shall be employed by any employer, it shall be the duty of such employer to place in medical charge of such laborers a medical officer holding a medical diploma as licentiate in medicine from some Indian or European collegiate institution authorized to grant diplomas, or an officer for the time being licensed by the local Government to act in such medical charge of laborers. Such medical officer shall ordinarily reside within ten miles from the lands on which the laborers are employed.

Hospital, medicines, &c., to be provided.

118. If from information or complaint or otherwise an inspector or assistant inspector has reason to suspect that any employer has omitted to provide properly and sufficiently for his laborers in accordance with the rules prescribed by the Lieutenant-Governor, he may proceed to investigate the facts and circumstances of the case at any place within his jurisdiction not more than ten miles from the lands of such employer; and, if he is vested with any of the powers of a magistrate, may take cognizance of the offence and dispose of the case without any complaint. If he is not vested with any of the powers of a magistrate, he may prefer a complaint to any competent magistrate. All such cases shall be investigated and tried in accordance with the provisions of the Code of Criminal Procedure

Enquiry if reason to suspect that employer has failed to provide as required by the rules.

119. Any employer who voluntarily or negligently omits to provide properly and sufficiently for his laborers in accordance with the rules prescribed under sections 116 and 117, shall be punished by fine which may extend to five hundred rupees, and by an additional fine of one hundred rupees for every day during which such omission is continued.

Penalty for such failure.

Chapter 13.—*Localities unfit for the Residence of Laborers.*

120. If an inspector of laborers shall at any time have reason to believe that any estate or portion of an estate situated within the limits of his jurisdiction is in a condition so insalubrious, or in such a situation as to be unfit for the residence of laborers, he shall report his opinion in writing to the magistrate of the district. On the receipt of such information from the inspector of laborers, or from any other source which he may deem reliable, the magistrate shall forthwith summon a committee to inquire whether such estate or portion of estate is unfit for the residence of laborers. Such committee shall consist of the magistrate, the inspector of laborers, the medical officer of the district, and one or more employers of imported laborers, when such persons are available. If the magistrate is unable to procure the service on such committee of any employer of imported laborers, he may, with the sanction of the commissioner of the division, appoint one or more persons whom he may deem qualified.

Inspector to report.

Magistrate to summon committee.

Such committee shall proceed, with as little delay as possible, to enquire into the condition of the estate or portion of estate to which the order appointing the committee has reference, and shall hear such evidence on the subject as the owner of the estate or portion of estate or the employer or inspector may desire to place before it; and if such committee, or the major part in number thereof, is of opinion that such estate or portion of estate is in a condition so insalubrious, or in such a situation as to be unfit for the residence of laborers, it shall record a finding to that effect; and the contract of every laborer who shall have contracted to serve on such estate shall thereupon be void as regards such estate or portion of estate as may be found unfit for the evidence of laborers.

Proceedings of committee.

If committee finds unfit, contract to be void as regards such locality.

Provided that every such contract shall continue valid with regard to any other portion of such estate or to any other estate belonging to the same employer.

Proviso as regards other localities.

121. Provided also that it shall be lawful for the Lieutenant-Governor to declare any estate or portion of estate unfit for the residence of laborers without the appointment of any such committee, or notwithstanding the report of such committee, if the number of laborers who have died on such estate or portion of estate during the preceding twelve

Lieutenant-Governor may declare unfit if mortality in past year exceeds 7 per cent.

months bears a larger proportion to the whole number of laborers employed thereon during such period than seven per centum; or if the average annual number of laborers who have died on such estate or portion of estate during the preceding three years bears a larger proportion to the whole number of laborers employed thereon during such period than five per centum.

or if the average of three years exceeds 5 per cent.

Any such order of the Lieutenant-Governor shall have the same effect as the finding of a committee as set forth in the last preceding section.

with the same effect.

122. Every employer who shall cause or permit any laborer to reside upon any such estate or portion of an estate as under the provisions of one of the two last preceding sections may have been found to be unfit for human habitation, shall be liable to fine. Provided always that in case it shall appear to the inspector that any such estate, or portion of an estate, or any part of such portion, has become fit for human habitation, he shall, with the sanction of the magistrate of the district, give under his hand a certificate of such fitness, and no employer shall be liable to fine by reason of his causing or permitting laborers to reside in any place respecting which such certificate of fitness shall have been given.

Penalty on employer permitting laborer to reside in locality declared to be unfit.

Chapter 14.—*Offences committed by Laborers.*

123. Any laborer, who voluntarily and without reasonable cause absents himself from his labor or neglects or refuses to labor as required by his employer, the labor so required being reasonable and proper, may, on conviction, be sentenced to lose all claim to wages or allowances during the period of such absence, and also to forfeit to his employer a sum not exceeding four annas for each day during which such absence shall have continued; and in case such absence shall have exceeded seven days, or in case such laborer shall have been already convicted of the same offence within a period of three months, such laborer may be furthermore sentenced, at the request of the employer, to rigorous imprisonment for fourteen days.

Absenting himself, or neglecting, or refusing to labor.

Provided that ill-treatment of such laborer by his employer, or the neglect of the employer to fulfil any condition of the contract, may be deemed a reasonable cause for such absence or such neglect or refusal to labor.

Proviso in case of ill-treatment or breach of contract.

124. If any laborer deserts or attempts to desert from his employer's service, such employer or any other person acting in his behalf may, without first procuring a warrant, and without the assistance of any police officer (who, nevertheless, shall be bound to give such assistance if called upon to do so), apprehend such laborer wherever he may be found. Provided, nevertheless, that if such laborer be found in the service of another employer, he shall not be arrested without a warrant. Provided also that such employer or other person shall, within a reasonable time from the time of such apprehension, give the said laborer in charge at the nearest police station, and there enter the charge upon which he shall have apprehended such laborer.

Deserting may be apprehended without warrant.

Any laborer so given in charge shall be conveyed, without delay, to the nearest magistrate; and, if the place from which such laborer is charged with having deserted be within the jurisdiction of such magistrate, he shall himself adjudicate upon the charge; but if not, he shall forward the said laborer, under custody, to the magistrate within whose jurisdiction such place may be situated, who shall adjudicate upon such charge.

To be taken to nearest magistrate.

125. Every laborer who deserts from his employer's service shall be liable, upon conviction, to rigorous imprisonment, which may extend to one month, and every laborer, who, after having been convicted of desertion, shall again desert from his employer's service, shall be liable to rigorous imprisonment for a period which may extend to two months; and every laborer who, after having been twice convicted of desertion, shall again desert, shall be liable to imprisonment which may extend to three months. Such punishment may be imposed in addition to the forfeiture to which such laborer is liable under section 123

Punishment.

126. On the expiry of any sentence of imprisonment for any offence under this Act, save as is provided in section 126,, it shall be the duty of the magistrate to make over such laborer to any person appointed on the part of his employer to receive charge of him; and no conviction under this Act, or imprisonment under such conviction, shall, save as aforesaid, be held to operate as a release to any laborer from the terms of his contract. Provided, nevertheless, that the period of imprisonment shall in no case be prolonged by reason of there being no person present on the part of the employer to take charge of the laborer at the expiry of his sentence; but such laborer shall, in that case, be sent to the principal place of business of such employer, and the expense of such conveyance shall be levied from the employer in the manner provided in section 102.

Conviction not to operate as a release.

127. Whenever any laborer shall have actually suffered imprisonment amounting in the whole to six months for desertion from his employer's service, it shall be lawful for the inspector, and he is hereby required, at the written request of the employer, but not otherwise, to cancel the contract of such laborer; and every such cancellation shall be by the inspector certified on the back of the contract, and such laborer shall then be at liberty either to enter into a fresh contract with any employer or to return to the district from which he was recruited.

Contract may be cancelled for repeated desertion on the written request of the employer

128. The employer, or any person authorized to act for the employer, of any laborer imprisoned for any offence under this Act, may apply to the magistrate, at any time previous to the expiry of such sentence, that such laborer be made over to him for the purpose of completing his contract; and the magistrate may, if he see good cause, make over or forward such laborer to his employer, and in that case the magistrate shall cancel the remainder of the sentence passed on him, and shall endorse on

Portion of sentence may be cancelled on application of employer

the contract of such laborer a memorandum signed by him of such cancellation.

Expense of restoring deserting laborer to be paid by employer.

129. Every employer who obtains an order for the deportation of any laborer who has deserted, shall pay the expense incurred in such deportation, and shall, before the order is issued, deposit with the magistrate such sum as such magistrate may in his discretion deem to be sufficient for defraying the expense of such deportation.

Time of unlawful absence or imprisonment to be excluded from contract period.

130. The duration of every unlawful absence from labor, of which any laborer may be convicted, and every sentence of imprisonment for any offence under this Act, shall be endorsed on the contract, at the time of its being passed, by the officer passing it; and no such period of imprisonment or unlawful absence so endorsed shall be reckoned as part of the term for which the laborer is bound to serve, but such term shall extend to such further period as shall be equivalent to the aggregate amount of the imprisonment and unlawful absence so endorsed.

Other person enticing away, harbouring, or employing laborer under contract.

131. Any person who knowingly entices away, harbours, or employs, or attempts to entice from his employment, any laborer, before such laborer shall have been lawfully released from his contract, shall be liable to a fine, the whole or any portion of which may be awarded to the employer of such laborer.

Chapter 15.—*Complaints made by Laborers.*

Employer to give notice to inspector if laborer wishes to complain of personal ill-usage or breach of contract.

132. If any laborer states to his employer, or to any person acting for such employer, that he desires to make a complaint to the inspector of laborers of personal ill-usage or breach of any provision of this Act on the part of such employer or other person, the person to whom such statement is made shall, within forty-eight hours, send notice thereof in writing to the inspector, and in default of so doing, such person shall be liable to fine.

Inspector how to proceed on receipt of notice, or if complaint is made to him,

or if he has reason to believe that there is ground for a complaint.

133. Whenever any inspector of laborers receives such notice in writing as aforesaid, or whenever any complaint of personal ill-usage or breach of any provision of this Act as aforesaid, is made to him by any laborer against his employer or any person acting for such employer, or whenever the inspector has other reasonable grounds for believing that any such personal ill-usage or breach of any provision of this Act as aforesaid has been suffered by a laborer, such inspector shall forthwith, if the place in which such offence has been committed is not situated within the limits of his own authority, give notice thereof in writing to the inspector within the limits of whose authority such place is situated; and if such place be situated within the limits of his own authority, then such inspector shall, so soon as conveniently may be, proceed to some place not more than ten miles in a direct line from the principal place of business of such employer, and make full enquiry into the matter complained of.

Procedure.

Penalty for obstructing service of, or disobedience to, summons.

For the purposes of such enquiry the inspector may summon such laborer and any witnesses. If any employer, or other person acting for or under such employer, in any way wilfully obstructs the service of, or obedience to, such summons; or if the laborer or any witness summoned neglects to attend as required in such summons; he shall be punished as provided in chapter 10 of the Indian Penal Code.

If complaint is untrue or frivolous.

134. If, upon such enquiry made on the complaint of a laborer, the inspector is of opinion that the complaint is untrue or frivolous, he shall enter in his book the particulars of such complaint, and a short statement of the grounds of his opinion respecting it, and shall dismiss the complaint, and in such case shall endorse on the employer's copy of the contract of such complainant the number of days during which such complainant has been absent from work in consequence of such enquiry, and such number of days shall be added to the period of the contract of such complainant; and every such endorsement shall be conclusive evidence that such laborer has absented himself from his labor without sufficient cause during the number of days which shall be so endorsed.

If complaint is well founded.

135. If, upon enquiry as aforesaid, the inspector is of opinion that the complaint is well founded, he shall, if a magistrate, dispose of the case according to due course of law. If the inspector shall not be a magistrate, he shall without delay send the complainant and his witnesses to the nearest magistrate, and such magistrate shall thereupon dispose of the case in due course of law.

Recovery of arrears of wages.

136. If, upon the complaint of any laborer, it is proved to the satisfaction of the magistrate that the wages of such laborer are in arrear to an amount exceeding the rate of such laborer's wages for one month, such magistrate shall award to such laborer the amount which shall appear to be then due to him; and if it is proved that the wages of such laborer are in arrear to an amount exceeding the total of such laborer's wages for two months, the magistrate shall award also, by way of compensation, such further sum, not exceeding that amount, as shall appear to the magistrate to be just; and in case of default, the magistrate shall levy the entire sum by distress and sale of the movable property belonging to or under the charge of the employer.

Compensation may be given if arrear is for two months.

Contract may be declared cancelled, if employer is convicted of maltreatment by Session Court, or twice by magistrate;

or if wages are in arrear for four months;

137. If any employer, or any person placed in authority over any laborer by such employer, shall be convicted of any offence causing injury to the person or property of such laborer triable under the Code of Criminal Procedure by the Court of Session; or if any such employer, or other person as aforesaid, shall be twice convicted of any such offence against such laborer triable, under the said Code, by a magistrate; or if it shall be proved before a magistrate that the wages of such laborer are in arrear to an amount exceed-

ing the total of such laborer's wages for four months; or if a magistrate shall, on the report of the inspector and after due enquiry, upon oath, in the presence of the parties, be satisfied that any laborer has been compelled to perform any labor while he was unfit for it, or has been subjected to gross ill-usage by such employer or any other person placed in authority over the laborer by such employer; it shall be lawful for the magistrate, if he think fit, on the application of the laborer, in each of such cases, to cancel the contract of such laborer, and to award to him compensation not exceeding thirty rupees, and every such cancelment shall be certified by the magistrate on the back of such contract.

or if gross ill-usage is proved.

Chapter 16.—*Determination of Contract.*

138. Every laborer who has completed the term of his contract, shall be forthwith entitled to appear before the inspector in order that the completion of his contract may be registered. If an employer detains such laborer after the completion of his contract, or fails to give notice of such completion to the inspector within one month after the date of such completion, such employer shall be liable to fine.

Laborer may appear before the inspector to register completion of contract.

Penalty if employer detains, or omits to report.

139. If any laborer is able and desirous to redeem the unexpired term of his contract of service by payment of a sum equivalent to the value thereof, such laborer may demand to be taken or allowed to go before the inspector of laborers within the local limits of whose authority he may be employed, and on his depositing such sum in the hands of such inspector, such inspector shall give notice to the employer that such laborer requires him within one week to show cause why the contract of such laborer should not be released; and, in case no sufficient cause should be shown, such inspector shall require the production of the contract of such laborer and endorse thereon a certificate of release by purchase, and shall hold the sum in deposit on account of the employer of such laborer. If any employer, or other person authorized to act for the employer, shall neglect to comply with such demand as aforesaid, such employer, or other person as aforesaid, shall be liable to fine.

Power to redeem contract

The value of the unexpired term of contract shall be deemed to be the aggregate amount of one rupee for every month of the unexpired portion of the first year, of three rupees for every such month of the second year, and of five rupees for every such month of the third year, of the original term of the laborer's engagement.

Value of unexpired term of contract.

140. Every laborer, the period of whose contract has expired, or who has redeemed his contract by purchase, or whose contract has been rescinded by the mutual assent of the parties thereto, shall be entitled to receive forthwith from the inspector a certificate of release in such form as may from time to time be prescribed by the Lieutenant-Governor.

Certificate to be given of determination of contract.

141. Every laborer, the term of whose contract has expired, or who has been legally released from his contract, whether such expiry or release has been certified as above required or not, shall be deemed to be wholly exempted from the provisions of this Part.

Laborer, whose contract period has expired, or who has been otherwise released, exempted from operation of this Part.

STATEMENT OF OBJECTS AND REASONS.

Experience has shown certain defects in the existing law which regulates the emigration of laborers to the tea-producing districts, Bengal Act II of 1870. The recruiters are not brought under sufficient control; the intention of the law is evaded by the removal of emigrants from the districts in which they are recruited without registration, and without the execution of any contract; the position of the time-expired laborer is obscurely defined; there is no provision which enables the Government to remove imported laborers from gardens in which the rate of mortality is very high; and the labor transport fund is unable to pay the cost of the establishment which is maintained for the supervision of emigration and the protection of imported laborers.

The rules affecting garden sirdars are inconveniently mixed up in the Act with those which relate to contractors' recruiters; and the arrangement of it in Parts and Chapters will materially aid all persons concerned in the application of its provisions. Neither Act II of 1870 nor any other enactment provides a general law for the regulation of contracts of labor and service. The object of the Bill is to remedy these defects. In other respects it does not propose to make any material alteration in the present law.

The 15th February 1873.

L. A. GOODEVE,
Offg. Asst. Secy. to the Govt. of Bengal,
Judicial and Legislative Departments.

[Fourth Publication.]

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal, for the purpose of making Laws and Regulations on the 15th February 1873, and was referred to a Select Committee who are to report thereon within a fortnight:—

A Bill to amend the District Municipal Improvement Act and the District Towns Act.

WHEREAS it is expedient to provide for the election of Municipal Commissioners in places to which the operation of the District Municipal Improvement Act, being Bengal Act III of 1864, has been or may be extended;

And to provide that the municipal commissioners appointed in any place, to which the operation of the said District Municipal Improvement Act has been or may be extended, may elect their vice-chairman;

And to provide that municipal bodies constituted under the provisions of the said District Municipal Improvement Act and the District Towns Act, being Bengal Act VI of 1868, shall be enabled to apply part of the funds under their charge to purposes which are not contemplated by those Acts:

It is hereby enacted as follows:—

Municipal commissioners may be elected in places to which the District Municipal Improvement Act is extended

1. If at any time it shall appear to the Lieutenant-Governor advisable that the whole or any number of the municipal commissioners, whom he is empowered to appoint by section 6 of the said District Municipal Improvement Act, shall be elected by the tax-payers, it shall be competent to him to direct such election, subject to such rules in regard to qualification and election as he may think fit. All the provisions of the said section shall apply to Commissioners so elected.

Municipal Commissioners in places, to which the District Municipal Improvement Act is extended, may be authorized to elect their vice-chairman

2. The Lieutenant-Governor may delegate to the municipal commissioners appointed under the said District Municipal Improvement Act the power to elect one of themselves to be their vice-chairman, subject to the approval of the Lieutenant-Governor. Such vice-chairman shall hold office for one year, and shall be eligible for re-election at the end of each year. THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations on the 8th March 1873, and was referred to a Select Committee who are to report thereon within a fortnight:—

A Bill to amend Section 9, Act XI of 1849, and Section 27, Act XXI of 1856.

WHEREAS it is expedient to amend Act XI of 1849 (*for securing the abkari revenue of Calcutta*), and Act XXI of 1856 (*to consolidate and amend the law relating to the abkari revenue in the Presidency of Fort William in Bengal*);

It is hereby enacted as follows:—

1. For section nine of the said Act XI of 1849 the following section shall be substituted:—

"9. Whenever a license shall be granted under this Act, the Collector shall be authorized to demand, in consideration of the privilege granted, such fee, tax, or duty as may from time to time be fixed with the sanction of the Board of Revenue; or a fee, tax, or duty adjusted or regulated in such manner and in accordance with such rules as the Board of Revenue may prescribe; and such fee, tax, or duty shall be specified in the license, and shall be payable in advance or at such periods as the said Board may direct."

Fee, tax, or duty payable for license.

2. For section twenty-seven of the said Act XXI of 1856 the following section shall be substituted:—

"27. Persons taking out licenses for the retail sale of spirituous and fermented liquors as aforesaid shall pay for every such license such fee, tax, or duty as may from time to time be fixed with the sanction of the Lieutenant-Governor; or a fee, tax, or duty adjusted or regulated in such manner and in accordance with such rules as the Lieutenant-Governor may prescribe; and such fee, tax, or duty shall be specified in the license, and shall be payable in advance or at such periods as the said Board may direct. Any sale of spirituous or fermented liquors as aforesaid in less quantity than two imperial gallons or one dozen of quart bottles shall be held to be a retail sale."

Fee, tax, or duty payable for retail license.

STATEMENT OF OBJECTS AND REASONS.

IN order to restrict the use of spirituous liquors, it is expedient to limit the number of licenses granted for the retail sale thereof, and to increase the fees; and with that view the Board of Revenue, who is entrusted with the supervision of the excise, has determined to put up such licenses to sale. The words of the present law, however, require the Board to fix the amount of fee or duty payable, in all cases in Calcutta, and in the mofussil whenever a license is taken for the retail sale of spirituous liquors made in the English method, fermented liquors manufactured at a licensed brewery, and spirituous and fermented liquors imported either by land or sea, and in such cases the system, of which the Government approves, cannot be introduced. Inregard to spirits made by the native process of distillation, and to other fermented liquors, the law permits the Board to exercise a wider discretion; and the object of the Bill is to assimilate the provisions in all cases.

[First Publication.]

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations on the 8th March 1873, and was referred to a Select Committee who are to report thereon within a fortnight:—

A Bill to amend Act XI of 1849, Act XXI of 1856, and Act XXIII of 1860.

WHEREAS it is expedient to amend Act XI of 1849 (*for securing the abkari revenue of Calcutta*), Act XXI of 1856 (*to consolidate and amend the law relating to the abkari revenue in the Presidency of Fort William in Bengal*), and Act XXIII of 1860 (*to amend Act XXI of* 1856);

It is hereby enacted as follows:—

1. For section 33 of the said Act XXI of 1856 the following section shall be substituted:—

"33. The Board of Revenue may, with the sanction of the Lieutenant-Governor, from time to time prescribe rules, consistent with this Act,

Board may prescribe rules to regulate the supply of fermented liquors to licensed vendors; and the cultivation, preparation, storing, possession, purchase, and transport of intoxicating drugs.

for regulating the mode, and the quantities, in which taree or puchwye or other fermented liquor shall be sold or supplied to licensed vendors of the same;

for restricting and supervising the cultivation of plants producing intoxicating drugs other than opium, and the preparation of the said drugs;

and for granting licenses or passes to persons cultivating, preparing, storing, possessing, purchasing, or transporting the said drugs.

All such rules shall be published in the *Calcutta Gazette*, and shall have effect as if they were contained in this Act.

Effect of rules.

Ever person who wilfully or negligently refuses or neglects to obey, or contravenes any rule made by the Board of Revenue under the provisions of this section, shall be punished with fine which may extend to two hundred rupees."

Penalty.

2. For section fifty of the said Act XXI of 1856 the following section shall be substituted :—

"50. The provisions of the two last preceding sections, so far as they relate to the sale and possession of fermented liquors, shall not be held applicable to the sale and possession of taree, the produce of the date-tree, when supplied or used for the manufacture of goor or molasses ;

Provisions of the two last preceding sections not to apply to sale or possession of taree used in making sugar ; nor to the sale or possession of intoxicating drugs by persons licensed to cultivate, prepare, transport, store, or possess them

and the provisions of the said sections relating to the sale and possession of intoxicating drugs shall not be held applicable to the sale or possession of gunjah or bhang or other intoxicating drug by any person, who is authorized under the rules made by the Board of Revenue to cultivate the plants which produce those drugs respectively, or to prepare, transport, store, or possess the same.

Nevertheless, whoever having cultivated any such plant sells or parts with it, or any preparation made therefrom, to any person other than a licensed vendor, or a person duly authorized to purchase the same by pass or license from the Collector, or fails to account for any quantity of such plant or of any preparation thereof which shall have been stored in his possession, shall be punished with fine which may extend to five hundred rupees."

Penalty for sale or transfer to unlicensed persons.

3. For section three of the said Act XXIII of 1860 the following section shall be substituted :—

"3. When any person is sentenced to pay any fine or forfeiture under the said Act XXI of 1856, the Magistrate shall be guided by the provisions of sections 67, 68, and 69 of the Indian Penal Code in awarding a period of imprisonment in default of payment thereof Any sum so ordered to be paid shall be recoverable in the same manner as fines may be recovered under section 307 of the Code of Criminal Procedure, if the offence shall have been committed outside the limits of the town of Calcutta ; and, if the offence shall have been committed within those limits, in the manner prescribed by any Act regulating the police of the town of Calcutta in force for the time being."

Imprisonment in default of payment of fine.

Recovery of fine.

4. All the provisions of the said Act XXI of 1856, which relate to puchwye, shall be deemed to relate also to any fermented liquor other than those referred to in section twenty-three of the said Act.

Provisions relating to puchwye relate to other fermented liquors.

5. The provisions of section four of the said Act XI of 1849 shall be deemed applicable to the manufacture and wholesale sale of spirituous and fermented liquors and intoxicating drugs.

Manufacture and wholesale sale of spirituous and fermented liquors.

6 For section seventy-four of the said Act XXI of 1856 the following section shall be substituted :—

"74. Every person who shall be imprisoned under the last preceding section, or on account of the non-payment of any sum forfeited under this Act, if the offence, of which he has been convicted, be one with respect to which the information of the Collector or an abkari officer is required by section 71, may be confined in the civil or in the criminal jail."

Imprisonment may be in the civil or criminal jail.

STATEMENT OF OBJECTS AND REASONS.

THE rules contained in Act XXI of 1856 are not sufficient to enable the Board of Revenue to restrict the cultivation of plants producing intoxicating drugs, or to regulate the use of such drugs. Section 33 empowers the Board to place the cultivation, preparation, and store of such drugs under supervision, but it does not provide any penalty for the infraction of rules which the Board may make with that object. By section 50 the cultivators of plants producing ganjah or bhang are expressly permitted, without a license, to sell those drugs to a licensed vendor, and to hold any quantity of them. If the cultivator stores the plant, or prepares and stores the drug, with the full knowledge of the excise officers, there is nothing in the law which prevents his disposal of it to other persons by gift or by ostensible gift ; and he cannot be called to account or punished, if he alleges the next day that the whole of the plant or drug has been destroyed by insects or has disappeared. The object of the first two sections of the Bill is to empower the Board to exercise a more efficient supervision in such matters, and to provide a penalty for the surreptitious disposal of such drugs.

Act XXI of 1856, as amended by Act XXIII of 1860, does not provide for the enforcement of fines and forfeitures otherwise than by imprisonment. The object of section 3 of the Bill is to provide for the recovery of such penalties in the same manner in which similar penalties for other offences are levied by the Magistrate.

It has been found that the manufacture of various kinds of fermented liquors, such as "Sharbat Bahar," which is made from molasses and spices, and a wine made from the fruit of the jaman tree, is increasing. The Bill proposes to bring them under the same rules and restrictions as tari, pachwai, and other fermented liquors.

Under the present law a wholesale dealer in spirituous and fermented liquors and intoxicating drugs is not compelled to take out a license in Calcutta. Such a license is required in the whole of the North-Western and Central Provinces, in the Punjab, in Oudh, and in all parts of the Lower Provinces except Calcutta. There appears to be no reason for this distinction, and the principle which underlies the requisition in one place is everywhere equally applicable. Section 5 of the Bill therefore proposes to prohibit the wholesale sale of such articles in Calcutta without a license.

Experience has shown that the imprisonment in the civil jail of offenders against excise laws is not sufficiently deterrent. In Calcutta all such offenders are imprisoned in the criminal jail, but the law of the mofussil authorizes imprisonment in the civil jail only. It may be admitted that it would be unjust in some cases to confine the offender among criminal convicts ; but in other cases his detention in idleness in the company of insolvent debtors would alone be ineffectual. Section 6 of the Bill proposes to give to the Magistrate a discretion to confine the offender in the civil or criminal jail as the object of imprisonment in each case may seem to require.

NOTIFICATION.

The 1st March 1873.—The attention of all officers subordinate to the Government of Bengal is drawn to the following rules, which have been approved by the Governor-General in Council, regarding the planting and cutting of trees, and the cutting of tree-branches which interfere with the telegraph wires.

* Planting trees near telegraph wires

In laying out a new line of telegraph, the telegraph officers charged with the erection of the line should take care that there is no unnecessary destruction of trees, especially those of old and fine growth, and should avoid, as much as possible, interference with existing avenues, groves, and plantations, and even single trees, whether public or private property; he should consult the civil authorities and others and satisfy them on this point; and, when a new line is to be constructed along a road, the telegraph officer should be careful not to place it so as to interfere with the future planting of avenues of trees.

Rules applicable more especially to new lines of telegraph.

2. Where, after such consultation, it is agreed that interference is unavoidable for the proper construction of the line, the telegraph officer will be careful further to consult the civil authorities and others concerned, and arrange with them that due compensation is paid to the owners in all cases where the trees are private property.

3. If the trees are the property of Government, they shall on no account be cut down or lopped without the permission of the officer in charge of the trees, and if this permission is refused and the telegraph officer is not satisfied, the matter must be referred to the next superior officer in the Telegraph Department, who may then consult the higher Civil or Public Works Authorities, or refer to the head of his own department.

4. When new lines are being constructed in native states, the Political Agent shall be referred to by the telegraph officers to make the necessary arrangements with the Native Durbar for cutting or removing trees, and for granting compensation.

5. Unless under special sanction or agreement with the local officers concerned, no line of telegraph shall be erected parallel to an avenue or side of a grove of trees within 25 feet of the edge thereof. Civil and Public Works Officers are however requested to give all reasonable consideration to the requirements of the Telegraph Department as exemplified in the following extract from a letter, No. 321 of 6th November 1872, from the Officiating Director-General of Telegraphs :—

In many parts of India, and in many instances, the only portions of the country not under water in the rains are the main roads, along both sides of which avenues or groves of trees are not unfrequently planted for shade. To place the supports of a telegraph line at a distance not less than 25 feet outside of the boundary of the road, avenues of trees or groves would necessitate the telegraph line being erected well into the fields or jungle, liable to inundation, at a distance so considerable as to preclude the possibility of inspection from the road, with, moreover, a deep ditch full of water between the road and the boundary thereof. I am therefore of opinion that this paragraph should be either cancelled or altered if future extensions of, or alterations to, telegraph lines are to be worked efficiently. If the avenues of trees are of any age and growth, the trees will be sufficiently high and thick to admit of the supports for the telegraph lines being planted within a few feet of their trunks, and of the wires being carried under their branches without many of the latter having to be cut off from the one side, the trees being disfigured, or their shade reduced. The telegraph lines in India were at first constructed across the fields, and away from the sides of the roads, the result being that at certain times of the year inspection was most difficult and shirked, and involved injury to the growing and standing crops. This system was abandoned when the lines were being reconstructed.

6. When new lines of telegraph must be taken over avenues, they should be carried across as nearly at right angles as possible. Long slants are objectionable, as they interfere with many trees.

7. The Civil or Public Works Officers are desired to inform the officers of the Telegraph Department immediately on becoming aware of any cases in which telegraph lines are being constructed within 25 feet of any grove or avenue, or so as to prevent the convenient planting of a road avenue in future, or generally when any arrangement of a line of telegraph is likely to cause inconvenience or injury. In case of failure to arrange with the officer immediately concerned, the matter should be brought to the notice of the local head of the Telegraph Department, and also reported to higher authority in the Civil or Public Works Department.

Rules applicable more especially to existing lines of telegraph.

8. Where existing telegraph lines are within 25 feet of any avenue or grove of trees, the telegraph officer shall be primarily responsible that the wires are kept free of contact. To this end he may, without reference to the officers in charge, keep boughs up to 2 inches diameter clear for a distance of 3 feet from the line of telegraph wire. Likewise, twigs and small boughs easily moved by the wind may be cleared away for a distance of 6 feet from the telegraph line without reference to the officer in charge.

9. In cases where it is necessary that large boughs or tops of trees should be cut, permission to cut them should be asked in writing from the officer in whose charge they are; should no answer be received within ten days of the date of despatch of the letter to the office of the officer concerned, the telegraph officer may intimate his intention to proceed to cut the branches, and one week thereafter shall be at liberty to cut the branches without further reference.

10. Telegraph officers shall be held responsible that the cutting and lopping of trees is not more than is absolutely necessary for the proper working of the telegraph line

11. Public Works Officers and other officers in charge of roads will be held responsible that trees are not planted in positions where they are likely to interfere with the telegraph wire, viz. within 25 feet of them as laid down in Rule 5.

12 The Officers of the Telegraph Department are required immediately to make a courteous remonstrance in any case where trees are being planted within 25 feet of, or so as to be likely to interfere with, a telegraph wire, and in case of their objection not being attended to, they should report at once to their immediate superiors. The Superintendent of the division or the superior officer should represent the case to the local authority in charge of the planting, and endeavour to get the trees removed, failing which, he should report to the head of his own department.

13. Wherever possible, trees that have been recently planted within the prescribed distance should be removed.

14. It may be necessary in some few cases to remove existing lines of telegraph which interfere seriously, or are likely so to interfere, with groves or avenues of trees; but on account of expense, no such removal is to take place without a special report to the Government of India of all the circumstances of the case. Such report must distinctly show whether the avenue was first planted or the telegraph line first erected.

15. The foregoing rules are not applicable to lines of telegraph passing through forest and jungle tracts, but care should nevertheless be taken to avoid injury to large trees, which are in every situation to be considered as valuable.

We, the undersigned, the Members of the select committee of the Council of the Lieutenant-Governor of Bengal for the purpose of making laws and regulations, to which the Bill to amend the law relating to embankments and water-courses was referred for the purpose of considering the amendments proposed by the Hon'ble V. We have provided for the payment of a portion of the expenses by a first or second class municipality which is benefited by the work executed.

We have preserved the system, which has existed for many years, for recovering the cost of maintaining the Gunduk embankments in the Sarun district.

We have provided for the assignment to a certain estate or tenure of lakhiraj lands which are not included within the local limits of any estate or tenure.

We have given power to the Magistrate to remove an embankment or obstruction illegally constructed, if the person who constructed it fails to remove it within a fixed time.

We have provided for the extension by Government of the Hooghly and Burdwan Drainage Act to any scheme proposed for similar objects of which the Lieutenant-Governor may approve.

We have confined our attention to the amendments which were laid before the Council by the Hon'ble V. H. Schalch, and report upon them alone.

PART II.

Powers of Engineers.

Power to take charge of embankments.

4. The Engineer may cause any embankment which connects public embankments, or forms, by junction with them, part of a line of embankments, or any embankment or water-course which is necessary for the protection or drainage of the neighbouring country, to be taken charge of and kept up by the officers of Government.

Power to remove embankments and obstructions.

5. The Engineer may cause to be removed or altered any permanent or temporary embankment which endangers the stability of a public embankment or any obstruction of any kind which interferes with the general drainage of any tract of land.

Power to change line of embankment.

6. The Engineer may, when necessary, change the line of or lengthen any public embankment; or make a new embankment in the place of or renew any public embankment; or make an embankment in any place in which he may deem such embankment required for the protection of any lands, or for the improvement of any watercourse; or make a sluice in any public embankment.

Power to improve drainage.

7. The Engineer may construct any sluice or watercourse, or effect any alteration in any public watercourse, when such construction or alteration may be required for the improvement of the health or for the protection of any village or cultivable land.

Applications for sluices to be made to Engineer.

8. If any landholder, farmer, or cultivator, be desirous of having a sluice made in any public embankment for the purpose of drainage or irrigation, he shall make an application in writing to the Engineer of the district in which such embankment is situate. The application shall contain such particulars of the land to be drained or irrigated as may enable the Engineer to judge of the advantage which may be derived from the work.

Power to alter roads and construct watercourses.

9. The Engineer may call upon the person in charge of any road which interferes with the drainage of any tract of land to alter such road, or to construct any watercourse under or through such road. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may forthwith cause the said road to be altered, or the said watercourse to be constructed. The expenses of such alteration or construction shall be borne by the person in charge of the said road.

Proceedings to obtain new embankment or drainage.

10. Whenever any person is desirous that any new embankment be erected, or that any new watercourse be made, or that any watercourse be obstructed or diverted, if such embankment or watercourse is likely to interfere with, counteract, or impede, any public embankment or any public watercourse, he shall apply to the Engineer, and at the time of making such application shall deposit with him a statement of the proposed works.

Power to make repairs.

11. The Engineer may make any repairs in, and may do all acts necessary and proper for the maintenance of any public embankment, public watercourse, or other work executed or taken charge of under the provisions of this Act, or of any of the Acts repealed by this Act.

Power to alter railroads and construct watercourses.

12. The Engineer may call upon the manager or other person in charge of any railroad which interferes with the drainage of any tract of land to alter such railroad or to construct any watercourse, under or through such railroad. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may thereupon, with the previous sanction of the Lieutenant-Governor, cause the said railroad to be altered, or the said watercourse to be constructed in such manner as the Lieutenant-Governor shall direct. The expenses of such alteration or construction shall be borne by the said manager or other person in charge of the said railroad.

Power to make temporary embankment and dams.

13. Whenever any person is desirous that a temporary watercourse should be made through, or that a temporary roadway should be made over, any public embankment, or that a temporary dam should be constructed in any embanked river, or public watercourse, he shall apply to the Executive Engineer of the district, who shall communicate the application to the Engineer, and the Engineer shall pass such orders thereon as he shall think fit. If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall deposit the amount estimated by the said Engineer to be necessary to defray the expenses of and incident to making such roadway, or of and incident to making and closing or removing such watercourse or dam. If such amount is found insufficient, the said Engineer shall recover the further amount required; and if it exceeds the said amount, such excess shall be returned to the person depositing the same.

Power to remove houses.

14. Whenever the Engineer shall be of opinion that the removal of any trees, houses, huts, or other buildings situated between a public embankment and the river is necessary, he shall make a report to that effect, accompanied by a detailed statement of the trees, houses, huts, or other buildings to be removed, to the Collector of the district in whose jurisdiction the land on which such trees, houses, huts, or other buildings stand, is situated, and the Collector shall report the same to the Lieutenant-Governor in order that proceedings may be taken, under the provisions of "The Land Acquisition Act, 1870," for obtaining possession of such trees, houses, huts, and buildings. Provided always that in case the Engineer be of opinion that the delay required by such proceedings is likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to cause such trees, houses, huts, or buildings to be removed, and in such case the compensation due therefor shall be ascertained and paid in the manner hereinafter provided.

Sluices to be opened under authority of the Engineer.

15. Sluices constructed in any public embankment shall be opened or shut only by or with the general or special permission of the officer in the immediate charge of the embankment, under such orders, either general or special, as he may receive from the Engineer.

Power to appropriate land or earth.

16. In any case where an embanked towpath has heretofore been maintained by Government alongside any canal, river, khal, or channel, the Engineer shall be entitled to appropriate without payment, as heretofore, land or earth for the maintenance, repair or re-construction of such embanked towpath. If in any case the Engineer shall consider it necessary for the purposes of towing to enlarge an existing towpath, or to construct a new towpath, proceedings shall be taken in accordance with the subsequent provisions of this Act relating thereto.

18. Save as is by this Act otherwise provided, the Engineer, before causing any of the works mentioned in Sections 5 to 10 both inclusive, or any of them, to be executed, shall prepare and submit to the Collector of the district plans, specifications, and estimates of the proposed works, together with a map showing the boundaries of the various estates likely to be affected by the said works, and a notice in writing of his intention to execute such works, and shall not commence any of such works until final order made in respect thereto. Such notice shall be in the form and state the particulars mentioned in Schedule (A) to this Act annexed. If the Engineer agree in opinion with the Collector, the Collector shall pass an order accordingly in regard to the execution of the aforesaid works, and notice of such order shall be served on the persons appearing in pursuance of the proclamation. If he differ from the Collector, the case shall be referred to the Commissioner of Revenue, who shall pass such orders thereon as he may deem fit.

Hearing of objections to work.

PART IV.

Procedure in cases of imminent danger to life or property.

23. Whenever the Engineer shall be of opinion that the proceedings commenced by notice under Part III of this Act would cause delay in the exercise of any of the powers by Sections 5, 6, and 7 conferred upon him, likely to be attended with grave and imminent danger to life or property, he may forthwith commence to exercise such powers without reference to the Collector. Provided that he shall forthwith inform the Collector thereof and of the nature of the danger, and give notice of his intention to continue to exercise such powers. The Collector, in any case where he shall see fit, may direct the Engineer to suspend further action until after the completion of such proceedings and enquiries. The Engineer, as soon as he conveniently may, after giving such notice of his intention, shall give notice in writing to the Collector, together with plans, specifications, estimates, and maps, as provided in Section 18, appending thereto a statement that the work mentioned therein has already been commenced, and thereupon such proceedings and enquiries shall be had as in and by Part III of this Act are directed.

Notice to the Collector.

24. Whenever any land, or earth from any land the property of any person, is required for the purposes of any works commenced in pursuance of the provisions of the last preceding section, or for the purposes of Section 11 in cases where the Engineer shall be of opinion that proceedings for the acquisition of such land, according to the provisions contained in Section 28, would cause delay as aforesaid, the Engineer shall cause public notice in form in Schedule (C) to be given at convenient places in the locality in which such land is situated and he may at the same time take possession of the same for the said purposes. Provided that he shall, so soon thereafter as he conveniently may, give notice thereof to the Collector.

Power to take possession of land.

25. The Engineer shall ascertain and record the nature and estimated value of the crops and trees (if any) standing on such land, and shall offer adequate compensation to the persons interested. If such offer is not accepted, he shall forward the record with a report to the Collector, and the value of such crops and trees shall be allowed for in awarding compensation for the land under the provisions of Section 32.

Compensation for standing crops and trees

26. Whenever the Engineer may be absent, the Executive Engineer of the district may, in case he shall be of opinion that delay for the purpose of obtaining the orders of the Engineer would be attended with grave and imminent danger to life or property, exercise the powers in and by the three last preceding sections conferred on the Engineer.

Power to Executive Engineer to act for Engineer.

27. Whenever, upon an enquiry had under the provisions of this Part, it has been determined in the final and conclusive order to be passed on such enquiry that anything done by the Engineer was unnecessary, the land or the embankments or drainage shall, so far as any alteration thereof shall appear to be unnecessary, be at the expense of the Government restored as nearly as possible to the state in which they were when the Engineer commenced to act under the provisions of this Part; and any person who shall have sustained loss, damage, or injury by the execution of such works, shall receive compensation from the Government to be assessed and imposed according to the provisions contained in Part V of this Act.

Power to restore embankments, &c.

PART V.

Acquisition of lands.

28. Whenever in the course of proceedings under this Act, save in those cases in which the Engineer has proceeded under the provisions of Part IV, it appears that land is required for any of the purposes thereof, such purpose shall be deemed to be a public purpose within the meaning of The Land Acquisition Act, 1870, and such proceedings shall be forthwith taken as are directed by the said Act or by any other law for the time being governing the acquisition of lands for public purposes.

Acquisition of land

29. Whenever any land shall have been taken or used under the provisions of Part IV, the Collector shall, unless he shall direct the Engineer to suspend further action, cause public notice in form in Schedule (D) to be given at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all incumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.

When land taken, notice to be published.

30. Such notice shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days, after the date of publication of the notice), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.

Contents of notice

31. The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.

Further notice to be served on certain parties.

32. After service of such notices proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, and all the provisions contained in Sections 10 to 15, 18 to 34, 36, 37, 38, 42, 51, 55, 58 (as amended by Act IX of 1871), and 59 of the Land Acquisition Act, 1870, shall be applicable to such proceedings.

Proceedings after notice.

33. Whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by the due exercise of the powers or provisions of this Act, the person in whom such right is vested may prefer a claim by petition to the Collector for compensation.

Compensation for consequential damage

34. No claim shall be entertained which shall be made later than one year next after the completion of the work by which such right is injuriously affected.

Application to be made within a year.

35. Subject to the provisions of the next preceding section, the Collector shall proceed to enquire into each claim made, and to determine the amount of compensation, if any, which should be made, and the person to whom the same should be payable, and the Collector, on the receipt of such claim, shall fix a time and place for hearing such claim, and Sections 9 to 15, 18 to 23, 26 to 34, 36, 37, 38, 51, 54, 55, 58 (as amended by Act IX of 1871), and 59 of the said Land Acquisition Act, 1870, shall apply to enquiries into such rights as aforesaid, or the exercise of such rights as aforesaid, and to the awards of compensation for injuries to such rights as though they were rights in and awards of compensation for land needed for a public purpose.

Procedure for such compensation

36. In determining the amount of compensation to be awarded in such cases, the Judge and Assessors shall take into consideration—

Matters to be considered in determining compensation.

First, the market value of the property injuriously affected at the time of acquiring the land;

Secondly, the damage sustained by the claimant by reason of such acquisition injuriously affecting the property,

Thirdly, the consequent diminution of the market value of the property injuriously affected at the time of acquiring the land.

But the Judge or Assessors shall not take into consideration—

Matters not to be considered in determining compensation.

First, the degree of urgency which has led to the acquisition;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

Appeal from Judge's decision as to compensation.

37. If the Judge differs from both the Assessors as to the amount of compensation under the provisions contained in Section 32 or Section 35, he shall pronounce his decision, and the Collector or the person interested (as the case may be) may appeal therefrom to the Court of the District Judge.

Determination of proportions.

38. When the amount of compensation has been settled by the Court, under the provisions contained in Section 32 or Section 35, and there is any dispute as to the apportionment thereof, or when a reference to the Court has been made, the Judge sitting alone shall decide the proportions in which the persons interested are entitled to share in such amount.

Every appeal under the two last preceding sections shall be presented within the time and in manner provided by the Code of Civil Procedure for regular appeals in suits.

Payment of compensation to whom made.

39. Payment of the compensation shall be made by the Collector according to the award to the persons named therein, or in the case of an appeal according to the decision on such appeal. Provided that nothing herein contained shall affect the liability of any person who may receive the whole or any part of any compensation awarded under this Act, to pay the same to the person lawfully entitled thereto.

Land, &c., taken possession of to vest in Secretary of State.

40. All land, earth, pathways, sluices, gates, bermes, hedges, belonging to or forming part of any embankment or watercourse, of which charge has been or may hereafter be taken by the officers of Government, shall vest in the Secretary of State for India, and shall be held by him on behalf of the Government in respect of the embankments mentioned in Schedule E annexed to this Act, and in respect of other works on behalf of the persons interested in the lands to be protected or benefited by such embankment or watercourse, subject to the provisions of Section 69; and all monies received on account of such lands shall be payable to the Engineer and credited to the cost of the construction and maintenance of such works respectively.

PART VI.

COST OF WORKS, PROCEEDINGS, &c.

1. *Ascertainment thereof.*

Embankment in schedule E.

41. The provisions in this Part contained shall not apply to any of the embankments mentioned in Schedule (E) to this Act annexed, save so far as any works or repairs are executed therein or in relation thereto under the provisions of Sections 10 and 13 of this Act respectively. All sums payable in respect of any works or repairs executed therein or in relation thereto, except under the provisions of the said sections respectively, shall be paid by the local Government. If at any time after the passing of this Act the Collector, on enquiry made by him as far as possible in accordance with the provisions of Part II of this Act, shall find that it is unnecessary for the public interests to retain any embankment mentioned in Schedule (E), the Lieutenant-Governor may direct that the same shall be no longer included in the said schedule. Provided that the same shall be restored to the said schedule if on any subsequent enquiry similarly conducted it shall be found necessary so to do.

Alteration of schedule.

Estimate and specifications to be prepared.

42. Specifications of any works or repairs to be executed under the provisions of this Act, and estimates of the expenses to be incurred therein or relating thereto, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer as soon after the month of October in each year as may be practicable. And whenever it appears that the actual expenses to be incurred will exceed the amount mentioned in the said estimates by one-tenth, the Engineer shall forthwith prepare further estimates, and, if necessary, further specifications. Copies of all specifications and estimates shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs. Notice of the receipt of specifications and estimates shall be served for all estates chargeable for or likely to be affected by the said works or repairs; and should any objection in regard to the amount of such expenses be preferred by any such person within a period of one month from the date of such notice, the Collector shall communicate the objection, with his own opinion thereupon, to the Engineer, who shall pass such orders as may appear to him reasonable and proper. Such order shall be subject in any case to an appeal by the person making such objection, and to a reference by the Collector, to the Commissioner whose decision shall be final.

Preparation and settlement of accounts.

43. The accounts of the actual expense incurred in executing any works or repairs shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the true amount of all such expenses and the names of the estates chargeable for and of the estates and villages affected by the said works and repairs. Copies of the said accounts and certificates shall be forwarded to the office of the Collector, and may be there examined by any person interested. Notice of the receipt thereof shall be served for the said estates and villages and such others as in the opinion of the Collector are liable to contribute to the payment of the said amount; and if, within thirty days from the service of such notice, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates, the Collector shall enquire into such objection, and may pass any order thereon subject in any case to an appeal by the objector or to a reference

by the Engineer to the Commissioner of division whose decision shall be final.

Total sum payable.

44. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of compensation, costs and expenses under and incidental to any proceedings taken or directed to be taken under Parts III and V of this Act, including costs of all surveys and plans. He shall thereupon make an order specifying the total sum found payable, and in respect of works done under Sections 9, 12, and 13, the persons by whom, or in respect of other works the estates in respect of which, the same is payable to him. Provided that the Collector may, if he thinks fit, order that a portion of the total sum payable shall be paid by any municipality of the first or second class which is in his opinion benefited or protected by the works or repairs executed. If the order is made in respect of work done under Sections 9, 12, or 13, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next chapter contained. Interest may be charged upon any sum paid as compensation from the date of payment thereof at such rate, not exceeding 5 per cent per annum, as the Lieutenant-Governor may direct.

Parties liable to pay.

45. The said total sum, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed. Provided that where any specific sum has hitherto been annually demanded in respect of any embankment not included in Schedule E, and when the said embankment is at the time of this Act coming into operation being maintained by Government, then such special payments shall, after the passing of this Act, thenceforth cease and determine.

Every zemindar, who is liable under this rule for the payment of the whole or a portion of such total sum, shall be entitled to recover from the proprietor of every tenure which is declared to be a part of his estate, the sum apportioned to such tenure by the Collector, under the provisions of Section 50. And similarly, every proprietor shall be entitled to recover from the proprietor of any subordinate tenure, which is declared to be a part of his tenure, the sum apportioned to such subordinate tenure by the Collector, under the said provisions.

---

2. *Apportionment thereof.*

Notice to be given before apportionment

46. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause a notice to be served for every one of the said estates and villages mentioned in Section 43. Every such notice shall specify the estates and villages aforesaid, and that an enquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and proprietors the said total sum, with interest and the costs of apportionment.

Whenever it has been ordered by the Collector that a municipality is liable for a portion of the said total sum, the notice shall contain a statement to that effect, and shall be served on the Chairman of the municipality.

Mode of enquiry as to the proportion chargeable to each estate.

56. All emigrants proceeding to a depôt shall be accompanied throughout the journey by the recruiter himself, or by a competent person appointed by him with the approval of the magistrate, by whom such emigrants have been registered. The magistrate shall give to the person so appointed a certificate under his signature stating that he has been appointed for the journey to the depôt.

Recruiter must accompany emigrants to depôt, or depute person approved by magistrate.

57. Every recruiter, by whom any emigrant is forwarded or accompanied to a depôt, shall, throughout the journey, provide such emigrant with proper and sufficient food and lodging. If any such emigrant is not so provided with lodging or food, he may complain to a magistrate of any class at any place where the recruiter fails to make such provision and such recruiter shall be punished by any such magistrate with fine which may extend to fifty rupees. The whole or any portion of such fine may be awarded to such emigrant as compensation. If the fine be not paid within twenty-four hours, the recruiter shall be punished with imprisonment which may extend to one month, and such magistrate may cancel the engagement.

Recruiter must provide food and lodging for emigrants on journey.

Chapter 6.—Depôt.

58. Within twenty-four hours after the arrival at any depôt of any emigrant, the contractor by whom such depôt is maintained shall give to the superintendent of emigration a notice in writing of such arrival, which notice shall be in such form and shall contain such particulars as the superintendent shall prescribe.

Contractor to report arrival of emigrants.

59. The copy of the registration and the medical certificate of every emigrant received by the superintendent as above provided shall be shown to the medical inspector; and all emigrants shall be inspected by the medical inspector as soon as may be after their arrival at the depôt. If he be satisfied of the fitness of an emigrant to journey to and labor in a labor district, he shall countersign the copy of the registration; if he be not satisfied thereof, he shall give a certificate to that effect to the superintendent.

Emigrants to be inspected by medical inspector immediately on arrival.

The medical inspector shall examine any emigrant in regard to whom a medical certificate is not forthcoming, and shall certify whether such emigrant is in his opinion in a fit state of health and able in point of physical condition to journey to and work for hire in a labor district; and if satisfied of his fitness he shall countersign the copy of the registration.

Medical inspector to examine emigrant if medical certificate not given.

60. If the medical inspector shall certify that any emigrant so examined is in such a state of health that his journey to any labor district would be dangerous to himself or to others, or that he is unfit for labor in a labor district, the superintendent may order the contractor, or the garden-sirdar, if such emigrant has been brought to the depôt by a garden-sirdar, to pay to such emigrant such sum as shall to the superintendent seem necessary to enable him to return to the place at which he was registered. Provided that any such emigrant, who from his state of health is, in the opinion of the medical inspector, unfit to undertake the journey back to the place where he was registered, shall, in addition to his being conveyed back at the expense of the contractor or garden-sirdar, be entitled to be fed, clothed, lodged, and attended to by and at the expense of such contractor, or of the employer of such garden-sirdar, until he is reported by the medical inspector fit to undertake such journey. If such contractor or garden-sirdar negligently or wilfully omits so to feed, clothe, lodge, and attend to the emigrant, the superintendent may order him to pay to such emigrant such sum of money by way of compensation as may appear reasonable.

Emigrant rejected by medical inspector to be sent back to district of registry.

61. If, upon the arrival of any emigrant at a depôt, it shall appear to the superintendent of emigration, after personal communication with such emigrant, that such emigrant has suffered any serious ill treatment, or that the recruiter has failed to provide such emigrant with proper and sufficient food and lodging during transit, the superintendent may cause him to be removed from the depôt, and may order the contractor or garden-sirdar, for or by whom such emigrant shall have been taken to such depôt, to pay him such sum of money as to the superintendent shall seem reasonable by way of compensation, or such sum as to the superintendent shall seem necessary in order to enable such native inhabitant to return to the place where he was registered. In the latter case the native inhabitant shall not be bound to enter into a contract.

Emigrant ill-treated during journey may obtain compensation.

62. Every emigrant, who is passed by the medical inspector as in a fit state of health and able to journey to and labor in a labor district, shall be required to execute a contract before he is forwarded from the depôt. The contract shall be executed in duplicate in the presence of the superintendent of emigration by the emigrant and by the employer to whom he is engaged or his agent, and shall be attested by the superintendent, and one copy thereof shall be given to the emigrant, and the other copy thereof to the employer or his agent. The contract may be written or printed, or partly written and partly printed, and shall be on substantial paper.

If emigrant is passed by medical inspector, contract to be executed,

63. Either copy of the contract, or the authenticated abstract forwarded by the superintendent, shall be deemed to be primary evidence in any court of the contents of the contract.

Proof of contract.

64. Any emigrant who, without reasonable cause, refuses to execute such contract, shall, if the terms of it correspond with those entered in the register of the magistrate of the district in which he was engaged, be punished with a fine equal in amount to the entire cost incurred by, or on behalf of, the contractor, or the garden-sirdar, as the case may be, in engaging, registering, and conveying him to the depôt, and in default of payment of such fine, with imprisonment, with or without hard labor, which may extend to two months, and such emigrant shall forthwith be discharged from such depôt. A certificate signed by the superintendent, that reasonable cause for refusing to execute the contract has not been shown, shall be admissible as *primâ facie* evidence in any proceeding taken under this section. Every fine levied under the provisions of this section, shall be paid to the contractor or garden-sirdar by whom or on whose behalf the person from whom such fine shall have been levied was originally registered.

Penalty on emigrant refusing to execute contract.

65. If within thirty days after the arrival of any emigrant at a depôt, the contractor, by whom or on whose behalf such emigrant shall have been registered, does not tender to him for execution such contract as under the provisions of the preceding sections, he would be bound to execute, or if such contractor or the employer of the garden-sirdar, without the consent of the superintendent, refuses to be bound by the agreement made by the recruiter or garden-sirdar with the emigrant, the superintendent may order the contractor or garden-sirdar to pay to such emigrant such sum of money as to the superintendent shall seem necessary to enable such emigrant to return to the place where he was registered, and in such case such emigrant shall not be bound to execute any contract.

Penalty on contractor failing to provide contract.

66. The superintendent may, in any case in which it seems to him proper to do so, institute a suit on behalf of the emigrant against the contractor or the employer of the garden-sirdar for the recovery of damages for any breach of contract. In every such suit the contract entered into by the recruiter shall be deemed to have been entered into by, and to be binding on, the contractor or the employer of the garden-sirdar as the case may be.

Superintendent may file action on behalf of emigrant for any breach of contract.

67. If any contractor or garden-sirdar who may be ordered, under the provisions of sections 60, 61, and 65, to pay any sum of money, shall for twenty-four hours omit to comply with such order, it shall be lawful for the superintendent to advance the amount so ordered to be paid to the person named in such order, and to recover from such contractor or garden-sirdar or his employer the sum so advanced, with interest at the rate of twelve per cent. per annum from the date of such advance; and no further proof shall be required by any court in any suit for the recovery of money so advanced than that the superintendent made such order as aforesaid and advanced the money as aforesaid.

Recovery of sums ordered to be paid by superintendent.

68. The superintendent of emigration may punish with fine not exceeding fifty rupees any contractor or recruiter who is guilty of a breach or neglect of any rule contained in this Act, relating to contractors or recruiters, or of any rule prescribed by the Lieutenant-Governor under section 5 for the management and regulation of contractors, depôts, and of hospital depôts. Such fines if unpaid shall be recovered on the requisition of the superintendent of emigration by any competent magistrate in the manner prescribed in section 307 of the Code of Criminal Procedure.

Superintendent may fine a contractor or recruiter.

When the contract of any emigrant has been duly executed, he may, with the permission of the superintendent of emigration, be forwarded to the labor district, in which he has engaged to labor, by the contractor in whose depôt he is residing, or by the employer with whom he has made the contract. Every such emigrant or batch of emigrants shall be furnished with a pass in the form set forth in schedule C annexed to this Act, signed by the contractor or garden-sirdar, and countersigned by the superintendent of emigration and by the embarkation agent at the place at which the laborer embarks, specifying his name and age, the name of his father, the place of his destination, and the name of his employer. 73. The master of any vessel licensed to carry emigrants, who receives on board his vessel a greater number of emigrants, or of other persons, than the number specified in his license, shall be liable to a fine for every emigrant and other person so received in excess of the licensed number. Provided always that this section shall not be deemed to prevent the master of any vessel from permitting emigrants to disembark at any place or places on the voyage so long as such disembarkation is not intended or known to be likely to be final; nor to prevent the final disembarkation of any emigrants in case of accident or other unavoidable necessity, if such accident or necessity be forthwith reported to the embarkation agent by whom the license of such vessel was granted, and to the nearest magistrate in the district within which such accident may occur or necessity arise.

If he is satisfied that such reasonable provision has been made, he shall make over the emigrants without delay to the employer or his agent for disembarkation, and for conveyance to the place at which they have contracted to labor. But if such reasonable provision has not been made, or if neither the employer nor his agent be present, the magistrate shall order such arrangements to be made, and incur such expenses, as under the circumstances may seem to him necessary; and the amount of expenses so incurred by him in the disembarkation, or in respect of the food, lodging, medicines, hospital attendance, or clothing of the laborers, shall, with interest at the rate of twelve per centum per annum, be recoverable by the magistrate from the respective employers with whom such laborers have contracted to serve.

If any employer, or other person acting for or under such employer, wilfully obstructs or impedes any entry, inspection, or inquiry, made under this or the last preceding section, he shall be punished as provided in chapter 10 of the Indian Penal Code.

Chapter 10.—*Regulation of Labor.*

Daily tasks to be fixed.

110. Every employer shall from time to time, with the sanction of the inspector previously obtained, fix the daily tasks to be executed by the laborers employed by such employer, and shall frame a schedule of such daily tasks, and publish the same by posting a copy thereof in the Bengali language upon the door of each place of payment of the laborers employed by such employer, and by sending a copy thereof in the English language to the inspector.

Provided that no laborer shall be required to

Schedule of tasks may be revised by committee on application of employer.

111. The inspector shall at any time on the application of an employer summon a committee for the purpose of considering such schedule of daily tasks, if he declines to sanction such modification thereof as the employer desires. The committee shall consist of the inspector, of some employer to be nominated by him, and of some person to be nominated by the employer on whose application the committee is summoned. Such committee or the majority in number thereof shall have power to make any modification of the schedule which it may deem proper, and the schedule so modified shall be published in manner aforesaid, and every schedule published as aforesaid shall have effect as between the employer and laborers in substitution for any former schedule.

Chapter 11.—*Incapacity for Labor.*

Allowance payable to laborers temporarily incapacitated.

112. Any laborer, who is temporarily incapacitated for work by sickness not wilfully caused by himself or by pregnancy or other sufficient cause, shall be entitled to receive wages for the days during which he is so incapacitated at the rate of two-thirds of the rate of wages stipulated in his contract.

If such incapacity extends over 15 days.

If such incapacity extends over a period of fifteen days, the inspector of laborers, on the application of the employer, may determine the rate at which the wages of such laborer shall be paid, and may declare that the days during which such incapacity continues shall not be accounted as part of the period of the contract. Any order to that effect shall be endorsed on the contract.

Proof required in action for arrear of wages.

An authenticated copy of the order of the inspector under this section shall be accepted by any court as full evidence of the rate of wages to be paid to the laborer for the days to which such order relates.

In action for arrear of wages damages may be awarded.

113. In any action brought by a laborer against his employer for arrears of wages, if it appears to the magistrate that the defendant has refused to pay the wages of the complainant at the rate stipulated in the contract on the ground of incapacity for work, except under the rule contained in this section or in accordance with any condition of the contract, the magistrate may award to the complainant in addition to the amount decreed as arrears of wages such damages as he may consider just.

114. If it shall be found that any laborer has been compelled to perform any species of labor for which he was at the time unfit, the employer by whom he was so employed shall be liable to fine.

115. If, in the opinion of the inspector of laborers, any laborer shall be permanently incapacitated for the performance of his contract or any material part thereof, the inspector shall certify to that effect in writing, and deliver such certificate to the employer of such laborer or some one on his behalf, and from the date of such certificate the contract of such laborer shall wholly cease and determine. The inspector shall make a return of all such cases of determination of contract in his report under section 108. Every laborer whose contract shall have been determined as aforesaid, shall be entitled to receive from his employer such sum, not exceeding three months' wages, as the inspector may award, and such sum shall be recoverable before a magistrate in the manner hereinafter provided for the recovery of wages.

Discharge of laborers permanently incapacitated.

Chapter 12.—*Necessary Provision for Laborers.*

116. Whenever any laborers shall be employed in any labor district, the employer of such laborers shall be bound to provide for them sufficient and proper house accommodation, water-supply, and sanitary arrangements. He shall also be bound to provide good rice or such other food as the Lieutenant-Governor may direct, which the laborer will be entitled to purchase at fixed rates.

Sufficient house accommodation, water-supply, and sanitary arrangements to be provided.

117. Every employer shall be bound to provide for his laborers such sufficient hospital accommodation, and such medicines of such quality and description, and according to such scale, as shall from time to time be fixed by the Lieutenant-Governor; and if three hundred or more laborers shall be employed by any employer, it shall be the duty of such employer to place in medical charge of such laborers a medical officer holding a medical diploma as licentiate in medicine from some Indian or European collegiate institution authorized to grant diplomas, or an officer for the time being licensed by the local Government to act in such medical charge of laborers. Such medical officer shall ordinarily reside within ten miles from the lands on which the laborers are employed.

Hospital, medicines, &c., to be provided.

118. If from information or complaint or otherwise an inspector or assistant inspector has reason to suspect that any employer has omitted to provide properly and sufficiently for his laborers in accordance with the rules prescribed by the Lieutenant-Governor, he may proceed to investigate the facts and circumstances of the case at any place within his jurisdiction not more than ten miles from the lands of such employer; and, if he is vested with any of the powers of a magistrate, may take cognizance of the offence and dispose of the case without any complaint. If he is not vested with any of the powers of a magistrate, he may prefer a complaint to any competent magistrate. All such cases shall be investigated and tried in accordance with the provisions of the Code of Criminal Procedure.

119. Any employer who voluntarily or negligently omits to provide properly and sufficiently for his laborers in accordance with the rules prescribed under sections 116 and 117, shall be punished by fine which may extend to five hundred rupees and by an additional fine of one hundred rupees for every day during which such omission is continued.

Penalty for such failure.

Chapter 13.—*Localities unfit for the residence of Laborers.*

120. If an inspector of laborers shall at any time have reason to believe that any estate or portion of an estate situated within the limits of his jurisdiction is in a condition so insalubrious, or in such a situation as to be unfit for the residence of laborers, he shall report his opinion in writing to the magistrate of the district. On the receipt of such information from the inspector of laborers, or from any other source which he may deem reliable, the magistrate shall forthwith summon a committee to inquire whether such estate or portion of estate is unfit for the residence of laborers. Such committee shall consist of the magistrate, the inspector of laborers, the medical officer of the district, and one or more employers of imported laborers, when such persons are available. If the magistrate is unable to procure the service on such committee of any employer of imported laborers, he may, with the sanction of the commissioner of the division, appoint one or more persons whom he may deem qualified.

Inspector to report.

Magistrate to summon committee.

Such committee shall proceed, with as little delay as possible, to enquire into the condition of the estate or portion of estate to which the order appointing the committee has reference, and shall hear such evidence on the subject as the owner of the estate or portion of estate or the employer or inspector may desire to place before it; and if such committee, or the major part in number thereof, is of opinion that such estate or portion of estate is in a condition so insalubrious, or in such a situation as to be unfit for the residence of laborers, it shall record a finding to that effect; and the contract of every laborer who shall have contracted to serve on such estate shall thereupon be void as regards such estate or portion of estate as may be found unfit for the residence of laborers.

If committee finds unfit, contract to be void as regards such locality.

Provided that every such contract shall continue valid with regard to any other portion of such estate or to any other estate belonging to the same employer.

Proviso as regards other localities.

121. Provided also that it shall be lawful for the Lieutenant-Governor to declare any estate or portion of estate unfit for the residence of laborers without the appointment of any such committee, or notwithstanding the report of such committee, if the number of laborers who have died on such estate or portion of estate during the preceding twelve

or if the average of three years exceeds 5 per cent.,

Any such order of the Lieutenant-Governor shall have the same effect as the finding of a committee as set forth in the last preceding section.

with the same effect.

122. Every employer who shall cause or permit any laborer to reside upon any such estate or portion of an estate as under the provisions of one of the two last preceding sections may have been found to be unfit for human habitation, shall be liable to fine. Provided always that in case it shall appear to the inspector that any such estate, or portion of an estate, or any part of such portion, has become fit for human habitation, he shall, with the sanction of the magistrate of the district, give under his hand a certificate of such fitness, and no employer shall be liable to fine by reason of his causing or permitting laborers to reside in any place respecting which such certificate of fitness shall have been given.

Penalty on employer permitting laborer to reside in locality declared to be unfit.

Chapter 14.—*Offences committed by Laborers.*

123. Any laborer, who voluntarily and without reasonable cause absents himself from his labor or neglects or refuses to labor as required by his employer, the labor so required being reasonable and proper may on conviction be sentenced to lose all claim to wages or allowances during the period of such absence, and also to forfeit to his employer a sum not exceeding four anas for each day during which such absence shall have continued; and in case such absence shall have exceeded seven days, or in case such laborer shall have been already convicted of the same offence within a period of three months, such laborer may be furthermore sentenced, at the request of the employer, to rigorous imprisonment for fourteen days.

Absenting himself, or neglecting, or refusing to labor.

Provided that ill-treatment of such laborer by his employer, or the neglect of the employer to fulfil any condition of the contract, may be deemed a reasonable cause for such absence or such neglect or refusal to labor.

Proviso in case of ill-treatment or breach of contract.

124. If any laborer deserts or attempts to desert from his employer's service, such employer or any other person acting in his behalf may, without first procuring a warrant, and without the assistance of any police officer (who, nevertheless, shall be bound to give such assistance if called upon to do so), apprehend such laborer wherever he may be found. Provided, nevertheless, that if such laborer be found in the service of another employer, he shall not be arrested without a warrant. Provided also that such employer or other person shall, within a reasonable time from the time of such apprehension, give the said laborer in charge at the nearest police station, and there enter the charge upon which he shall have apprehended such laborer.

Deserting may be apprehended without warrant.

Any laborer so given in charge shall be conveyed, without delay, to the nearest magistrate; and, if the place from which such laborer is charged with having deserted be within the jurisdiction of such magistrate, he shall himself adjudicate upon the charge; but if not, he shall forward the said laborer, under custody, to the magistrate within whose jurisdiction such place may be situated, who shall adjudicate upon such charge.

To be taken to nearest magistrate.

125. Every laborer who deserts from his employer's service shall be liable upon conviction to rigorous imprisonment which may extend to one month, and every laborer, who, after having been convicted of desertion, shall again desert from his employer's service, shall be liable to rigorous imprisonment for a period which may extend to two months; and every laborer who, after having been twice convicted of desertion, shall again desert, shall be liable to imprisonment which may extend to three months. Such punishment may be imposed in addition to the forfeiture to which such laborer is liable under section 123.

Punishment.

126. On the expiry of any sentence of imprisonment for any offence under this Act, save as is provided in section 126, it shall be the duty of the magistrate to make over such laborer to any person appointed on the part of his employer to receive charge of him; and no conviction under this Act, or imprisonment under such conviction, shall, save as aforesaid, be held to operate as a release to any laborer from the terms of his contract. Provided, nevertheless, that the period of imprisonment shall in no case be prolonged by reason of there being no person present on the part of the employer to take charge of the laborer at the expiry of his sentence; but such laborer shall in that case be sent to the principal place of business of such employer, and the expense of such conveyance shall be levied from the employer in the manner provided in section 102.

Conviction not to operate as a release.

127. Whenever any laborer shall have actually suffered imprisonment amounting in the whole to six months for desertion from his employer's service, it shall be lawful for the inspector, and he is hereby required, at the written request of the employer, but not otherwise, to cancel the contract of such laborer; and every such cancellation shall be by the inspector certified on the back of the contract, and such laborer shall then be at liberty either to enter into a fresh contract with any employer or to return to the district from which he was recruited.

Contract may be cancelled for repeated desertion on the written request of the employer.

128. The employer, or any person authorized to act for the employer, of any laborer imprisoned for any offence under this Act, may apply to the magistrate, at any time previous to the expiry of such sentence, that such laborer be made over to him for the purpose of completing his contract; and the magistrate may, if he see good cause, make over or forward such laborer to his employer, and in that case the magistrate shall cancel the remainder of the sentence passed on him, and shall endorse on

Portion of sentence may be cancelled on application of employer

Expense of restoring deserting laborer to be paid by employer.

129. Every employer who obtains an order for the deportation of any laborer who has deserted, shall pay the expense incurred in such deportation, and shall, before the order is issued, deposit with the magistrate such sum as such magistrate may in his discretion deem to be sufficient for defraying the expense of such deportation.

Time of unlawful absence or imprisonment to be excluded from contract period.

130. The duration of every unlawful absence from labor, of which any laborer may be convicted, and every sentence of imprisonment for any offence under this Act, shall be endorsed on the contract, at the time of its being passed, by the officer passing it; and no such period of imprisonment or unlawful absence so endorsed shall be reckoned as part of the term for which the laborer is bound to serve, but such term shall extend to such further period as shall be equivalent to the aggregate amount of the imprisonment and unlawful absence so endorsed.

Other person enticing away, harbouring, or employing laborer under contract.

131. Any person who knowingly entices away, harbours, or employs, or attempts to entice from his employment, any laborer, before such laborer shall have been lawfully released from his contract, shall be liable to a fine, the whole or any portion of which may be awarded to the employer of such laborer.

Chapter 15.—*Complaints made by Laborers.*

Employer to give notice to inspector if laborer wishes to complain of personal ill-usage or breach of contract.

132. If any laborer states to his employer, or to any person acting for such employer, that he desires to make a complaint to the inspector of laborers of personal ill-usage or breach of any provision of this Act on the part of such employer or other person, the person to whom such statement is made shall, within forty-eight hours, send notice thereof in writing to the inspector, and in default of so doing, such person shall be liable to fine.

Inspector how to proceed on receipt of notice, or if complaint is made to him,

133. Whenever any inspector of laborers receives such notice in writing as aforesaid, or whenever any complaint of personal ill-usage or breach of any provision of this Act as aforesaid, is made to him by any laborer against his employer or any person acting for such employer, or whenever the inspector has other reasonable grounds for believing that any such personal ill-usage or breach of any provision of this Act as aforesaid has been suffered by a laborer, such inspector shall forthwith, if the place in which such offence has been committed is not situated within the limits of his own authority, give notice thereof in writing to the inspector within the limits of whose authority such place is situated; and if such place be situated within the limits of his own authority, then such inspector shall, so soon as conveniently may be, proceed to some place not more than ten miles in a direct line from the principal place of business of such employer, and make full enquiry into the matter complained of.

or if he has reason to believe that there is ground for a complaint.

Procedure. Penalty for obstructing service of, or disobedience to, summons.

For the purposes of such enquiry the inspector may summon such laborer and any witnesses. If any employer, or other person acting for or under such employer, in any way wilfully obstructs the service of, or obedience to, such summons; or if the laborer or any witness summoned neglects to attend as required in such summons; he shall be punished as provided in chapter 10 of the Indian Penal Code.

If complaint is untrue or frivolous.

134. If, upon such enquiry made on the complaint of a laborer, the inspector is of opinion that the complaint is untrue or frivolous, he shall enter in his book the particulars of such complaint, and a short statement of the grounds of his opinion respecting it, and shall dismiss the complaint, and in such case shall endorse on the employer's copy of the contract of such complainant the number of days during which such complainant has been absent from work in consequence of such enquiry, and such number of days shall be added to the period of the contract of such complainant; and every such endorsement shall be conclusive evidence that such laborer has absented himself from his labor without sufficient cause during the number of days which shall be so endorsed.

If complaint is well founded.

135. If, upon enquiry as aforesaid, the inspector is of opinion that the complaint is well founded, he shall, if a magistrate, dispose of the case according to due course of law. If the inspector shall not be a magistrate, he shall without delay send the complainant and his witnesses to the nearest magistrate, and such magistrate shall thereupon dispose of the case in due course of law.

Recovery of arrears of wages.

136. If, upon the complaint of any laborer, it is proved to the satisfaction of the magistrate that the wages of such laborer are in arrear to an amount exceeding the rate of such laborer's wages for one month, such magistrate shall award to such laborer the amount which shall appear to be then due to him; and if it is proved that the wages of such laborer are in arrear to an amount exceeding the total of such laborer's wages for two months, the magistrate shall award also, by way of compensation, such further sum, not exceeding that amount, as shall appear to the magistrate to be just; and in case of default, the magistrate shall levy the entire sum by distress and sale of the movable property belonging to or under the charge of the employer.

Compensation may be given if arrear is for two months.

Contract may be declared cancelled, if employer is convicted of maltreatment by Session Court, or twice by magistrate;

137. If any employer, or any person placed in authority over any laborer by such employer, shall be convicted of any offence causing injury to the person or property of such laborer triable under the Code of Criminal Procedure by the Court of Session; or if any such employer, or other person as aforesaid, shall be twice convicted of any such offence against such laborer triable, under the said Code, by a magistrate; or if it shall be proved before a magistrate that the wages of such laborer are in arrear to an amount exceed-

or if wages are in arrear for four months;

or if gross ill-usage is proved

Chapter 16.—*Determination of Contract.*

138. Every laborer who has completed the term of his contract shall be forthwith entitled to appear before the inspector in order that the completion of his contract may be registered. Laborer may appear before the inspector to register completion of contract.

Penalty if employer detains, or omits to report.

139. If any laborer is able and desirous to redeem the unexpired term of his contract of service by payment of a sum equivalent to the value thereof, such laborer may demand to be taken or allowed to go before the inspector of laborers within the local limits of whose authority he may be employed, and on his depositing such sum in the hands of such inspector, such inspector shall give notice to the employer that such laborer requires him within one week to show cause why the contract of such laborer should not be released; and, in case no sufficient cause should be shown, such inspector shall require the production of the contract of such laborer, and endorse thereon a certificate of release by purchase, and shall hold the sum in deposit on account of the employer of such laborer. If any employer, or other person authorized to act for the employer, shall neglect to comply with such demand as aforesaid, such employer, or other person as aforesaid, shall be liable to fine.

Certificate to be given of determination of contract.

STATEMENT OF OBJECTS AND REASONS.

Experience has shown certain defects in the existing law which regulates the emigration of laborers to the tea-producing districts, Bengal Act II of 1870, The recruiters are not brought under sufficient control; the intention of the law is evaded by the removal of emigrants from the districts in which they are recruited without registration, and without the execution of any contract; the position of the time-expired laborer is obscurely defined; there is no provision which enables the Government to remove imported laborers from gardens in which the rate of mortality is very high; and the labor transport fund is unable to pay the cost of the establishment which is maintained for the supervision of emigration and the protection of imported laborers.

The rules affecting garden-sirdars are inconveniently mixed up in the Act with those which relate to contractors' recruiters; and the arrangement of it in Parts and Chapters will materially aid all persons concerned in the application of its provisions. Neither Act II of 1870 nor any other enactment provides a general law for the regulation of contracts of labor and service. The object of the Bill is to remedy these defects. In other respects it does not propose to make any material alteration in the present law.

And to provide that the municipal commissioners appointed in any place, to which the operation of the said District Municipal Improvement Act has been or may be extended, may elect their vice-chairman;

And to provide that municipal bodies constituted under the provisions of the said District Municipal Improvement Act and the District Towns Act, being Bengal Act VI of 1868, shall be enabled to apply part of the funds under their charge to purposes which are not contemplated by those Acts:

It is hereby enacted as follows:—

Municipal commissioners may be elected in places to which the District Municipal Improvement Act is extended.

1. If at any time it shall appear to the Lieutenant-Governor advisable that the whole or any number of the municipal commissioners, whom he is empowered to appoint by section 6 of the said District Municipal Improvement Act, shall be elected by the tax-payers, it shall be competent to him to direct such election, subject to such rules in regard to qualification and election as he may think fit. All the provisions of the said section shall apply to Commissioners so elected.

Municipal Commissioners in places, to which the District Municipal Improvement Act is extended, may be authorized to elect their vice-chairman.

2. The Lieutenant-Governor may delegate to the municipal commissioners appointed under the said District Municipal Improvement Act the power to elect one of themselves to be their vice-chairman, subject to the approval of the Lieutenant-Governor. Such vice-chairman shall hold office for one year, and shall be eligible for re-election at the end of each year. Provided that it shall be lawful for the Lieutenant-Governor to sanction the election permanently or for a term of years of a salaried vice-chairman if proposed by the commissioners.

The municipal fund may be applied to the establishment and maintenance of schools, hospitals, and dispensaries, and to promote vaccination.

3. In addition to the purposes to which the municipal fund may be applied under the provisions of section 16 of the said District Municipal Improvement Act, the said fund may be applied by the municipal commissioners, subject to the provisions of the said section, to the following purposes, viz. the establishment and maintenance of schools, the establishment and maintenance of hospitals and dispensaries, and the promotion of vaccination.

4. In addition to the purposes to which the town fund may be applied under the provisions of section 13 of the said District Towns Act, the said fund may be applied, subject to the provisions of the said Act, to the establishment and maintenance of schools. Provided that the magistrate shall not include in any statement, to be prepared under section 15 of the said Act, an estimate of any expenditure to be incurred for the establishment and maintenance of schools without the consent of a majority of the members of the town committee present at a meeting.

The town fund may be applied to the establishment and maintenance of schools with the consent of a majority of the town committee.

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations on the 8th March 1873, and was referred to a Select Committee who are to report thereon within a fortnight:—

A Bill to amend Section 9, Act XI of 1849, and Section 27, Act XXI of 1856.

WHEREAS it is expedient to amend Act XI of 1849 (*for securing the abkari revenue of Calcutta*), and Act XXI of 1856 (*to consolidate and amend the law relating to the abkari revenue in the Presidency of Fort William in Bengal*);

It is hereby enacted as follows:—

1. For section nine of the said Act XI of 1849 the following section shall be substituted:—

"9. Whenever a license shall be granted under this Act, the Collector shall be authorized to demand, in consideration of the privilege granted, such fee, tax, or duty as may from time to time be fixed with the sanction of the Board of Revenue; or a fee, tax, or duty adjusted or regulated in such manner and in accordance with such rules as the Board of Revenue may prescribe; and such fee, tax, or duty shall be specified in the license, and shall be payable in advance or at such periods as the said Board may direct."

Fee, tax, or duty payable for license.

2. For section twenty-seven of the said Act XXI of 1856 the following section shall be substituted:—

"27. Persons taking out licenses for the retail sale of spirituous and fermented liquors as aforesaid shall pay for every such license such fee, tax, or duty as may from time to time be fixed with the sanction of the Lieutenant-Governor; or a fee, tax, or duty adjusted or regulated in such manner and in accordance with such rules as the Lieutenant-Governor may prescribe; and such fee, tax, or duty shall be specified in the license, and shall be payable in advance or at such periods as the said Board may direct. Any sale of spirituous or fermented liquors as aforesaid in less quantity than two imperial gallons or one dozen of quart bottles shall be held to be a retail sale."

Fee, tax, or duty payable for retail license.

STATEMENT OF OBJECTS AND REASONS

IN order to restrict the use of spirituous liquors, it is expedient to limit the number of licenses granted for the retail sale thereof, and to increase the fees; and with that view the Board of Revenue, who is entrusted with the supervision of the excise, has determined to put up such licenses to sale. The words of the present law, however, require the Board to fix the amount of fee or duty payable in all cases in Calcutta, and in the mofussil, whenever a license is taken for the retail sale of spirituous liquors made in the English method, fermented liquors manufactured at a licensed brewery, and spirituous and fermented liquors imported either by land or sea, and in such cases the system, of which the Government approves, cannot be introduced. In regard to spirits made by the native process of distillation, and to other fermented liquors, the law permits the Board to exercise a wider discretion; and the object of the Bill is to assimilate the provisions in all cases.

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations on the 8th March 1873, and was referred to a Select Committee who are to report thereon within a fortnight:—

A Bill to amend Act XI of 1849, Act XXI of 1856, and Act XXIII of 1860.

WHEREAS it is expedient to amend Act XI of 1849 (*for securing the abkari revenue of Calcutta*), Act XXI of 1856 (*to consolidate and amend the law relating to the abkari revenue in the Presidency of Fort William in Bengal*), and Act XXIII of 1860 (*to amend Act XXI of* 1856);

It is hereby enacted as follows:—

1. For section 33 of the said Act XXI of 1856 the following section shall be substituted:—

"33. The Board of Revenue may, with the sanction of the Lieutenant-Governor, from time to time prescribe rules, consistent with this Act,

for regulating the mode, and the quantities, in which taree or puchwye or other fermented liquor shall be sold or supplied to licensed vendors of the same;

for restricting and supervising the cultivation of plants producing intoxicating drugs other than opium, and the preparation of the said drugs;

and for granting licenses or passes to persons cultivating, preparing, storing, possessing, purchasing, or transporting the said drugs.

All such rules shall be published in the *Calcutta Gazette*, and shall have effect as if they were contained in this Act.

Every person who wilfully or negligently refuses or neglects to obey, or contravenes any rule made by the Board of Revenue under the provisions of this section, shall be punished with fine which may extend to two hundred rupees."

Board may prescribe rules to regulate the supply of fermented liquors to licensed vendors; and the cultivation, preparation, storing, possession, purchase, and transport of intoxicating drugs.

Effect of rules.

Penalty.

2. For section fifty of the said Act XXI of 1856 the following section shall be substituted:—

"50. The provisions of the two last preceding sections, so far as they relate to the sale and possession of fermented liquors, shall not be held applicable to the sale and possession of taree, the produce of the date-tree, when supplied or used for the manufacture of goor or molasses;

Provisions of the two last preceding sections not to apply to sale or possession of taree used in making sugar; nor to the sale or possession of intoxicating drugs by persons licensed to cultivate, prepare, transport, store, or possess them.

and the provisions of the said sections relating to the sale and possession of intoxicating drugs shall not be held applicable to the sale or possession of gunjah or bhang or other intoxicating drug by any person, who is authorized under the rules made by the Board of Revenue to cultivate the plants which produce those drugs respectively, or to prepare, transport, store, or possess the same.

Nevertheless, whoever having cultivated any such plant sells or parts with it, or any preparation made therefrom, to any person other than a licensed vendor, or a person duly authorized to purchase the same by pass or license from the Collector, or fails to account for any quantity of such plant or of any preparation thereof which shall have been stored in his possession, shall be punished with fine which may extend to five hundred rupees."

Penalty for sale or transfer to unlicensed persons.

3. For section three of the said Act XXIII of 1860 the following section shall be substituted:—

"3. When any person is sentenced to pay any fine or forfeiture under the said Act XXI of 1856, the Magistrate shall be guided by the provisions of sections 67, 68, and 69 of the Indian Penal Code in awarding a period of imprisonment in default of payment thereof. Any sum so ordered to be paid shall be recoverable in the same manner as fines may be recovered under section 307 of the Code of Criminal Procedure, if the offence shall have been committed outside the limits of the town of Calcutta; and, if the offence shall have been committed within those limits, in the manner prescribed by any Act regulating the police of the town of Calcutta in force for the time being."

Imprisonment in default of payment of fine.

Recovery of fine.

4. All the provisions of the said Act XXI of 1856, which relate to puchwye, shall be deemed to relate also to any fermented liquor other than those referred to in section twenty-three of the said Act.

Provisions relating to puchwye relate to other fermented liquors.

5. The provisions of section four of the said Act XI of 1849 shall be deemed applicable to the manufacture and wholesale sale of spirituous and fermented liquors and intoxicating drugs.

Manufacture and wholesale sale of spirituous and fermented liquors.

6. For section seventy-four of the said Act XXI of 1856 the following section shall be substituted:—

"74. Every person who shall be imprisoned under the last preceding section, or on account of the non-payment of any sum forfeited under this Act, if the offence, of which he has been convicted, be one with respect to which the information of the Collector or an abkari officer is required by section 71, may be confined in the civil or in the criminal jail."

Imprisonment may be in the civil or criminal jail.

STATEMENT OF OBJECTS AND REASONS.

The rules contained in Act XXI of 1856 are not sufficient to enable the Board of Revenue to restrict the cultivation of plants producing intoxicating drugs, or to regulate the use of such drugs. Section 33 empowers the Board to place the cultivation, preparation, and store of such drugs under supervision, but it does not provide any penalty for the infraction of rules which the Board may make with that object. By section 50 the cultivators of plants producing ganjah or bhang are expressly permitted, without a license, to sell those drugs to a licensed vendor, and to hold any quantity of them. If the cultivator stores the plant, or prepares and stores the drug, with the full knowledge of the excise officers, there is nothing in the law which prevents his disposal of it to other persons by gift or by ostensible gift; and he cannot be called to account or punished, if he alleges the next day that the whole of the plant or drug has been destroyed by insects or has disappeared. The object of the first two sections of the Bill is to empower the Board to exercise a more efficient supervision in such matters, and to provide a penalty for the surreptitious disposal of such drugs.

Act XXI of 1856, as amended by Act XXIII of 1860, does not provide for the enforcement of fines and forfeitures otherwise than by imprisonment. The object of section 3 of the Bill is to provide for the recovery of such penalties in the same manner in which similar penalties for other offences are levied by the Magistrate.

It has been found that the manufacture of various kinds of fermented liquors, such as "Sharbat Bahar," which is made from molasses and spices, and a wine made from the fruit of the jaman tree, is increasing. The Bill proposes to bring them under the same rules and restrictions as tari pachwye, and other fermented liquors.

Under the present law a wholesale dealer in spirituous and fermented liquors and intoxicating drugs is not compelled to take out a license in Calcutta. Such a license is required in the whole of the North-Western and Central Provinces, in the Punjab, in Oudh, and in all parts of the Lower Provinces except Calcutta. There appears to be no reason for this distinction, and the principle which underlies the requisition in one place is every where equally applicable. Section 5 of the Bill therefore proposes to prohibit the wholesale sale of such articles in Calcutta without a license.

Experience has shown that the imprisonment in the civil jail, of offenders against excise laws, is not sufficiently deterrent. In Calcutta all such offenders are imprisoned in the criminal jail, but the law of the mofussil authorizes imprisonment in the civil jail only. It may be admitted that it would be unjust in some cases to confine the offender among criminal convicts, but in other cases his detention in idleness in the company of insolvent debtors would alone be ineffectual. Section 6 of the Bill proposes to give to the Magistrate a discretion to confine the offender in the civil or criminal jail as the object of imprisonment in each case may seem to require.

RESOLUTION.—The Governor-General in Council has read these papers with the interest and attention due to the importance of the subjects discussed.

2. His Excellency in Council cordially acknowledges the intelligence, ability, and moderation with which the several Governments, and the officers consulted by them, have answered the questions asked by the Supreme Government. In respect to the policy and effect of particular measures there is, as might be expected, much difference of opinion ; but an anxious desire for the prosperity of India and the well-being of the people is evinced by all those whose opinions have been recorded.

3. It is not the object of the Governor-General in Council to declare, in this Resolution, the policy of the Government of India upon questions of imperial taxation or general finance. For the present, His Excellency in Council will only say that the evidence contained in these papers as to the feelings of the people of India upon those subjects has been carefully considered. It is only with questions relating to local taxation, and with those essentially of local interest and importance, that His Excellency in Council now proposes to deal.

4. The recent policy of the Government of India with respect to provincial services and local taxation is based upon the Financial Resolution No. 3334, dated the 14th December 1870.

That Resolution was one of great importance. It initiated a policy which was adopted after mature deliberation, in the well-grounded belief that practical effect would be given to a course of action which, to use the words of the late Earl of Mayo, had been contemplated for a lengthened period by some of the "wisest and most experienced of Indian Statesmen."

5. One of the main objects of the Resolution was to enlarge the powers and responsibility of the Local Governments in respect to certain branches of expenditure, and so to prevent friction between the Supreme and Local Governments, and give to the latter a direct interest in economy.

A remarkable unanimity of opinion is expressed in the papers which are now under consideration that, in this respect, the measures which were then adopted have proved successful. Various suggestions have been made by the several Local Governments upon the subject of the assignments made from imperial revenues for provincial services. For the present, the Governor-General in Council is unable to say more than that the Government of India will give due consideration to the argument that, in order completely to develope the policy of 1870, it is desirable to give the Local Governments a substantial interest in some of the sources of revenue which are under their administration.

6. The Resolution of 1870 also contemplated that the expenditure upon the services entrusted to the control of the Local Governments should, if it could not be met out of the provincial assignments, be provided by local taxation. The views of the Government of India were thus expressed:—

"It would have been satisfactory had His Excellency in Council been able to propose the enlargement of the power and responsibility of Local Governments without charging upon local resources any part of the existing imperial expenditure. This cannot be done. But it has been determined to make as small a demand on these resources as possible."

7. Several measures for the levy of local rates and taxes have passed into law during the last two years; some immediately consequent upon the Resolution and others which had been initiated before the Resolution was issued. The remarks and criticisms upon these measures which are contained in the papers now under consideration may be classed under two heads, namely, *first*, the general principles involved in the policy of the Government; *secondly*, the manner in which that policy has been carried into effect in different parts of India.

8. The only objection that has been raised to the general principles of this policy is contained in the opinion which some officers have expressed either that the Government is, or that it is thought by the people to be, chargeable with a breach of faith, if it imposes local rates or cesses upon the land during the currency of a settlement, whether permanent or temporary. The allegation is prominently made by several of the officers connected with the administration of Oudh in respect to the operation of the Oudh Local Rates Act (XVII of 1871).

9. This objection to the operation of the law and to the policy of the Government is based upon the assumption that a settlement of the land revenue exempts the proprietor or farmer from any taxation of the profits that he may derive from the land. It is obvious that this assumption, if correct, would render impracticable any scheme of local rating. The questions, *first*, whether the objection is just in itself, and, *second*, whether, even though arising from misapprehension, it ought nevertheless to be respected, have repeatedly occupied the anxious attention of the Government of India and of Her Majesty's Government in England, and the decision of Her Majesty's Government was eventually given in the following words:—

Despatch No. 5 of 12th May 1870, para 17.

"Her Majesty's Government have now to intimate to your Excellency the conclusion to which they have come, after a careful consideration of a controversy which has now been going on for a long course of years. This conclusion is, that rating for local expenditure is to be regarded, as it has hitherto been regarded in all the provinces of the Empire, as taxation separate and distinct from the ordinary land revenue; that the levying of such rates upon the holders of land, irrespective of the amount of their land assessment, involves no breach of faith on the part of the Government, whether as regards holders of permanent or of temporary tenures; and that where such rates are levied at all, they ought, as far as may be possible, to be levied equally, without distinction and without exemption, upon all the holders of property accessible to the rate."

10. This decision was the result of the most careful consideration of all the arguments which could be urged upon either side; and His Excellency in Council wishes it to be distinctly understood that there is no intention on the part of the Government of India to depart from the principle which has thus been so recently and so deliberately enunciated.

Notwithstanding any discontent which may for the present exist in some districts with reference to the levy of local rates, His Excellency believes that the results of the policy of meeting local wants from local resources, which was affirmed by the Financial Resolution of 1870, cannot fail to be in the end beneficial to the people of India.

11. The Governor-General in Council therefore confidently expects that the civil officers will use all proper efforts to remove any impression which may be found to prevail in any part of India, to the effect that the Government has proceeded without due remembrance of its obligations, or adopted any measure that can justly be construed as a breach of faith. The endeavours of all officers should be exerted to enlist the services of the people in carrying out the necessary local improvements for which local rates have been imposed, and the Governor-General in Council does not doubt that the people will acquiesce with loyalty and intelligence.

Whilst, however, the Governor-General in Council is resolved to carry out the general policy which is above recited, His Excellency is glad of the opportunity which has been afforded him of declaring that no further increase of local taxation is now required.

12. It remains to consider the objections which have been raised to the manner in which the policy has been carried into effect in the several Provinces of India, and to make some observations upon the questions of local interest and importance upon which opinions have been expressed. Each Province will be dealt with separately.

13. BRITISH BURMAH.—The reports of the local officers are very creditable, especially the report of Major Duncan, Inspector-General of Police, who has brought much experience and intelligence to bear upon the subject. The Statistical Returns, however, are incomplete and in some respects inaccurate, and must be returned for revision.

The Government has been able to make a special addition of £45,000 to the imperial assignment of 1872-73 for provincial services in British Burmah. This will enable the Chief Commissioner to carry out some of the improvements most urgently needed.

The Government of India observes that the Chief Commissioner rightly challenged the remarks made by the Deputy Commissioner of Shwegyeen, upon the subject of the effect of the excise duty on spirits and drugs. So far as the Government of India is informed, the remarks of the Deputy Commissioner are not applicable to the present administration of the excise department. The Chief Commissioner is well aware that it is by no means the desire of the Government of India to promote the use of spirits and drugs among the people of Burmah, or that the department should be administered exclusively, or chiefly, in the supposed interests of the revenue.

14. BENGAL.—Thanks are due to the Hon'ble the Lieutenant-Governor for the able and comprehensive manner in which he has discussed the questions which were referred for his opinion. The accounts and returns appear to be well and carefully prepared.

The Bengal Municipalities Bill not having become law, the Governor-General in Council considers it unnecessary to comment upon the remarks made by the officers consulted by the Government of Bengal regarding the feelings of the people in anticipation of the introduction of that measure.

His Excellency in Council is not prepared to accept the conclusions drawn from certain statistics quoted in the fourth paragraph of the letter from the Government of Bengal, as to the comparative incidence of municipal taxation in Bengal and in other parts of India. Apart from the Presidency town, the urban population of Bengal forms a smaller proportion of the whole population than elsewhere, and it remains to be proved that those who pay municipal taxes are less heavily taxed in Bengal than in other Provinces.

In regard to the Road Cess Act, the Governor-General in Council desires to repeat that this measure has been deliberately adopted, after prolonged and careful consideration, with the full approval of Her Majesty's Government. It is important that all concerned should understand that the decision of the Government to levy this cess is final.

The Government of India is still in communication with the Government of Bengal regarding the practical working of the measure. The Governor-General in Council will carefully watch its operation, in communication with the Hon'ble the Lieutenant-Governor, whose anxious desire it is to protect the cultivating ryots from all undue or illegal exactions in connection with the cess, and to ensure the expenditure of the proceeds of the cess on local objects, so that the purposes of the cess and the results of the expenditure may be brought within the immediate cognizance of the tax-payers. If the local character of the cess be carefully preserved, the Governor-General in Council joins with the Lieutenant-Governor in the hope that, although its first imposition may be unpopular, the road cess will, before long, "settle down into one of the recognized institutions of the country."

15. NORTH-WESTERN PROVINCES.—The Governor-General in Council acknowledges the care and intelligence manifested in the reports of the local officers. Due attention is given by the Government of India to the statement that, "as soon as financial considerations will admit, the Lieutenant-Governor would be glad to see the export duty on sugar crossing the frontier line taken off."

16. THE PUNJAB.—The questions addressed to the officers consulted were well calculated to elicit their opinions in a systematic and practical form. But the statistical returns are incomplete and, in some respects, inaccurate; they must be returned for revision. In respect to municipal taxation, and especially the municipal house-tax, the Government of India await the submission of the rules which the Lieutenant-Governor proposes to make under the Punjab Municipalities Act (IV of 1873).

It is obvious that great care is required in watching the incidence of the octroi levied for municipal purposes, in order to prevent its becoming a transit duty.

17. OUDH.—The Governor-General in Council has already adverted to the alleged dissatisfaction of some of the landholders at the imposition of the cess under the Oudh Local Rates Act. The local officers have done their duty in bringing the allegation to notice on this occasion. General Barrow enjoyed the entire confidence of the Oudh talookdars, and it is believed that those who assented to the proposals made through him did so unreservedly. The policy of the Government having been once more fully set forth, the Governor-General in Council trusts that the Chief Commissioner and the officers of the Oudh Commission will take every means to explain the advantages of the measure, and that they will encourage no expectation that this slight and necessary addition to the taxation of the Province will be remitted

18. CENTRAL PROVINCES.—The Governor-General in Council desires especially to acknowledge the ability manifested in the elaborate despatch of the Chief Commissioner, Mr. M'orris, and in the reports of the three Commissioners, Messrs. W. G. Pedder, W. B. Jones, and C. Grant.

The Government of India desires to know whether the Chief Commissioner would recommend a modification of the Pándhari tax by exempting some of the lower classes of the tax-payers, and if so, what change he would propose, and what the financial effect would be

The Government of India bears in mind the expediency of abridging the extent of the inland customs line so far as may be possible. But this can only be done upon a consideration of the whole policy of the Government in regard to the salt tax, with which the Governor-General in Council is not dealing in this Resolution.

19. MADRAS.—In the papers submitted by the Government of Madras, the Governor-General in Council observes the general expression of opinion against the house-tax imposed by Act IV of 1871 (M. C.), and would inquire what course the Government of Madras intends to take respecting the levy of this tax, and whether there is any intention of modifying the Act.

20. BOMBAY.—The minute by His Excellency the Governor of Bombay, dated the 3rd November, sums up succinctly the general result of the opinions collected by the Government of Bombay, and shows a careful appreciation of the circumstances of that Presidency.

The Governor General in Council desires to acknowledge the decision shown by the Government of Bombay in suspending the levy of the non-agricultural cess as soon as it was found that this resource could be spared. The Governor-General in Council has subsequently learnt with much satisfaction, from a letter from the Chief Secretary to the Government of Bombay, No. 816-35F, dated 22nd February, that it is not the intention of the Government of Bombay to levy the cess during the coming financial year, and that Act No. I of 1871 (Bo. C.) is also to be held in abeyance.

In thus relieving the people from burdens no longer necessary, the Government of Bombay will receive the entire support of the Supreme Government. The Governor-General in Council agrees with His Excellency the Governor in thinking that the Act for the levy of the non-agricultural cess should now be repealed.

The Governor-General in Council also concurs with His Excellency in the opinion that it is of the utmost importance that local funds should be expended in, and for the benefit of, the localities in which they are raised. The Government of Bombay may expect the cordial approval of the Government of India in carrying this policy into effect, and the Governor-General in Council awaits with interest the report of whatever action may be taken for this end.

The Governor-General in Council has noticed the very high incidence of the octroi duty in the towns of Surat, Broach, and Kurrachee, and would wish for some explanation. There seems some reason to fear that the duty may be imposed in these towns upon articles not consumed within their limits.

21. It is observed that the receipts of some of the Local Governments in 1871-72 greatly exceeded their expenditure. The Governor-General in Council believes that this may have been mainly due to the uncertainty attending the introduction of the new system, and that the funds at the disposal of these Governments may not be found in future to be in excess of their normal requirements. But His Excellency in Council desires to direct attention to the following instructions contained in the despatch of the Secretary of State (No. 59, dated 23rd February 1871, paragraphs 10 and 11), by which the approval of Her Majesty's Government was given to the system of fixed assignments for provincial services.

"The great objects to be kept in view are to secure the greatest degree of economy consistent with efficiency; to provide for the growing demands arising out of improved administration without materially increasing the burdens of the people; and, as far as possible, to secure the general concurrence of the local communities in the measures taken on their behalf.

"When devising measures of improvement, it should be the earnest endeavour of each Local Government to provide the funds required for them by the exercise of strict economy in the general expenditure, and additional taxation should only be resorted to in cases of undoubted necessity, and when the income otherwise available is clearly insufficient."

22. Lastly, the Governor-General in Council is obliged to express disappointment that in these papers so few suggestions are made which are likely to lead to reduction of expenditure. His Excellency in Council is confident that this is not owing to any want of willingness on the part of the officers of the Government to promote economy in the administration wherever possible; and the subject is commended afresh to the anxious consideration of every Local Government and every influential public officer.

ORDERED, that a copy of the reports, together with a copy of this Resolution, be communicated to each Local Government; also that copies be forwarded to the Legislative Department, in order that a copy may be circulated to each Member of the Legislative Council of the Governor-General; also that the Resolution be published in the *Gazette of India*.

NOTIFICATION.

The 20th March 1873.—The Lieutenant-Governor has been informed that in recent Notifications appointing district committees, gentlemen have been gazetted without their academic titles. It would be a matter of much regret that the Government should be supposed to undervalue these titles, or that the gentlemen bearing these honorable distinctions should not exercise the full weight and influence which should attend their possession. The Lieutenant-Governor therefore requests that the Chairmen of district committees and other committees will examine the names of the committee men as published in the Quarterly Civil Lists, and will notify any error or omission in such Lists for correction in future editions of the List.

PART II.

Powers of Engineers.

Power to take charge of embankments.

4. The Engineer may cause any embankment which connects public embankments, or forms, by junction with them, part of a line of embankments, or any embankment or water-course which is necessary for the protection or drainage of the neighbouring country, to be taken charge of and kept up by the officers of Government.

Power to remove embankments and obstructions.

5. The Engineer may cause to be removed or altered any permanent or temporary embankment which endangers the stability of a public embankment or any obstruction of any kind which interferes with the general drainage of any tract of land.

Power to change line of embankment.

6. The Engineer may, when necessary, change the line of or lengthen any public embankment; or make a new embankment in the place of or renew any public embankment; or make an embankment in any place in which he may deem such embankment required for the protection of any lands, or for the improvement of any watercourse; or make a sluice in any public embankment.

Power to improve drainage.

7. The Engineer may construct any sluice or watercourse, or effect any alteration in any public watercourse, when such construction or alteration may be required for the improvement of the health or for the protection of any village or cultivable land.

Applications for sluices to be made to Engineer.

8. If any landholder, farmer, or cultivator, be desirous of having a sluice made in any public embankment for the purpose of drainage or irrigation, he shall make an application in writing to the Engineer of the district in which such embankment is situate. The application shall contain such particulars of the land to be drained or irrigated as may enable the Engineer to judge of the advantage which may be derived from the work.

Power to alter roads and construct watercourses.

9. The Engineer may call upon the person in charge of any road which interferes with the drainage of any tract of land to alter such road, or to construct any watercourse under or through such road. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may forthwith cause the said road to be altered, or the said watercourse to be constructed. The expenses of such alteration or construction shall be borne by the person in charge of the said road.

Proceedings to obtain new embankment or drainage.

10. Whenever any person is desirous that any new embankment be erected, or that any new watercourse be made, or that any watercourse be obstructed or diverted, if such embankment or watercourse is likely to interfere with, counteract, or impede, any public embankment or any public watercourse, he shall apply to the Engineer, and at the time of making such application shall deposit with him a statement of the proposed works.

Power to make repairs.

11. The Engineer may make any repairs in, and may do all acts necessary and proper for, the maintenance of any public embankment, public watercourse, or other work executed or taken charge of under the provisions of this Act, or of any of the Acts repealed by this Act.

Power to alter railroads and construct watercourses.

12. The Engineer may call upon the manager or other person in charge of any railroad which interferes with the drainage of any tract of land to alter such railroad or to construct any watercourse, under or through such railroad. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may thereupon, with the previous sanction of the Lieutenant-Governor, cause the said railroad to be altered, or the said watercourse to be constructed in such manner as the Lieutenant-Governor shall direct. The expenses of such alteration or construction shall be borne by the said manager or other person in charge of the said railroad.

Power to make temporary embankment and dams.

13. Whenever any person is desirous that a temporary watercourse should be made through, or that a temporary roadway should be made over, any public embankment, or that a temporary dam should be constructed in any embanked river, or public watercourse, he shall apply to the Executive Engineer of the district, who shall communicate the application to the Engineer, and the Engineer shall pass such orders thereon as he shall think fit. If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall deposit the amount estimated by the said Engineer to be necessary to defray the expenses of and incident to making such roadway, or of and incident to making and closing or removing such watercourse or dam. If such amount is found insufficient, the said Engineer shall recover the further amount required; and if it exceeds the said amount, such excess shall be returned to the person depositing the same.

Power to remove houses.

14. Whenever the Engineer shall be of opinion that the removal of any trees, houses, huts, or other buildings situated between a public embankment and the river is necessary, he shall make a report to that effect, accompanied by a detailed statement of the trees, houses, huts, or other buildings to be removed, to the Collector of the district in whose jurisdiction the land on which such trees, houses, huts, or other buildings stand, is situated, and the Collector shall report the same to the Lieutenant-Governor in order that proceedings may be taken, under the provisions of "The Land Acquisition Act, 1870," for obtaining possession of such trees, houses, huts, and buildings. Provided always that in case the Engineer be of opinion that the delay required by such proceedings is likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to cause such trees, houses, huts, or buildings to be removed, and in such case the compensation due therefor shall be ascertained and paid in the manner hereinafter provided.

Sluices to be opened under authority of the Engineer.

15. Sluices constructed in any public embankment shall be opened or shut only by or with the general or special permission of the officer in the immediate charge of the embankment, under such orders, either general or special, as he may receive from the Engineer.

Power to appropriate land or earth.

16. The officer so authorized shall at the time of such entry pay or tender payment for all necessary damage to be done as aforesaid; and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the decision of the Collector, and such decision shall be final.

PART III.

18. Save as is by this Act otherwise provided, the Engineer, before causing any of the works mentioned in Sections 5 to 10 both inclusive, or any of them, to be executed, shall prepare and submit to the Collector of the district plans, specifications, and estimates of the proposed works, together with a map showing the boundaries of the various estates likely to be affected by the said works, and a notice in writing of his intention to execute such works, and shall not commence any of such works until final order made in respect thereto. Such notice shall be in the form and state the particulars mentioned in Schedule (A) to this Act annexed. If the Engineer agree in opinion with the Collector, the Collector shall pass an order accordingly in regard to the execution of the aforesaid works, and notice of such order shall be served on the persons appearing in pursuance of the proclamation. If he differ from the Collector, the case shall be referred to the Commissioner of Revenue, who shall pass such orders thereon as he may deem fit.

PART IV.

Procedure in cases of imminent danger to life or property.

Proceedings in emergencies.

23. Whenever the Engineer shall be of opinion that the proceedings commenced by notice under Part III of this Act would cause delay in the exercise of any of the powers by Sections 5, 6, and 7 conferred upon him, likely to be attended with grave and imminent danger to life or property, he may forthwith commence to exercise such powers without reference to the Collector. Provided that he shall forthwith inform the Collector thereof and of the nature of the danger, and give notice of his intention to continue to exercise such powers. The Collector, in any case where he shall see fit, may direct the Engineer to suspend further action until after the completion of such proceedings and enquiries. The Engineer, as soon as he conveniently may, after giving such notice of his intention, shall give notice in writing to the Collector, together with plans, specifications, estimates, and maps, as provided in Section 18, appending thereto a statement that the work mentioned therein has already been commenced, and thereupon such proceedings and enquiries shall be had as in and by Part III of this Act are directed.

24. Whenever any land, or earth, from any land the property of any person, is required for the purposes of any works commenced in pursuance of the provisions of the last preceding section, or for the purposes of Section 11 in cases where the Engineer shall be of opinion that proceedings for the acquisition of such land, according to the provisions contained in Section 28, would cause delay as aforesaid, the Engineer shall cause public notice in form in Schedule (C) to be given at convenient places in the locality in which such land is situated, and he may at the same time take possession of the same for the said purposes. Provided that he shall, so soon thereafter as he conveniently may, give notice thereof to the Collector.

25. The Engineer shall ascertain and record the nature and estimated value of the crops and trees (if any) standing on such land, and shall offer adequate compensation to the persons interested. If such offer is not accepted, he shall forward the record with a report to the Collector, and the value of such crops and trees shall be allowed for in awarding compensation for the land under the provisions of Section 32.

Compensation for standing crops and trees.

26. Whenever the Engineer may be absent, the Executive Engineer of the district may, in case he shall be of opinion that delay for the purpose of obtaining the orders of the Engineer would be attended with grave and imminent danger to life or property, exercise the powers in and by the three last preceding sections conferred on the Engineer.

Power to Executive Engineer to act for Engineer.

27. Whenever, upon an enquiry had under the provisions of this Part, it has been determined in the final and conclusive order to be passed on such enquiry that anything done by the Engineer was unnecessary, the land or the embankments or drainage shall, so far as any alteration thereof shall appear to be unnecessary, be at the expense of the Government restored as nearly as possible to the state in which they were when the Engineer commenced to act under the provisions of this Part; and any person who shall have sustained loss, damage, or injury by the execution of such works, shall receive compensation from the Government to be assessed and imposed according to the provisions contained in Part V of this Act.

Power to restore embankments, &c.

PART V.

Acquisition of lands.

28. Whenever in the course of proceedings under this Act, save in those cases in which the Engineer has proceeded under the provisions of Part IV, it appears that land is required for any of the purposes thereof, such purpose shall be deemed to be a public purpose within the meaning of The Land Acquisition Act, 1870, and such proceedings shall be forthwith taken as are directed by the said Act or by any other law for the time being governing the acquisition of lands for public purposes.

Acquisition of land.

29. Whenever any land shall have been taken or used under the provisions of Part IV, the Collector shall, unless he shall direct the Engineer to suspend further action, cause public notice in form in Schedule (D) to be given at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all incumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.

When land taken, notice to be published.

30. Such notice shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days, after the date of publication of the notice), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.

Contents of notice.

31. The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.

Further notice to be served on certain parties.

32. After service of such notices proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, and all the provisions contained in Sections 10 to 15, 18 to 34, 36, 37, 38, 42, 51, 55, 58 (as amended by Act IX of 1871), and 59 of the Land Acquisition Act, 1870, shall be applicable to such proceedings.

Proceedings after notice.

33. Whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by the due exercise of the powers or provisions of this Act, the person in whom such right is vested may prefer a claim by petition to the Collector for compensation.

Compensation for consequential damage.

34. No claim shall be entertained which shall be made later than one year next after the completion of the work by which such right is injuriously affected.

Application to be made within a year.

35. Subject to the provisions of the next preceding section, the Collector shall proceed to enquire into each claim made, and to determine the amount of compensation, if any, which should be made, and the person to whom the same should be payable, and the Collector, on the receipt of such claim, shall fix a time and place for hearing such claim, and Sections 9 to 15, 18 to 23, 26 to 34, 36, 37, 38, 51, 54, 55, 58 (as amended by Act IX of 1871), and 59 of the said Land Acquisition Act, 1870, shall apply to enquiries into such rights as aforesaid, or the exercise of such rights as aforesaid, and to the awards of compensation for injuries to such rights as though they were rights in and awards of compensation for land needed for a public purpose.

Procedure for such compensation.

36. In determining the amount of compensation to be awarded in such cases, the Judge and Assessors shall take into consideration—

Matters to be considered in determining compensation.

First, the market value of the property injuriously affected at the time of acquiring the land;

Secondly, the damage sustained by the claimant by reason of such acquisition injuriously affecting the property;

Thirdly, the consequent diminution of the market value of the property injuriously affected at the time of acquiring the land.

But the Judge or Assessors shall not take into consideration—

Matters not to be considered in determining compensation.

First, the degree of urgency which has led to the acquisition;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

Appeal from Judge's decision as to compensation.

37. If the Judge differs from both the Assessors as to the amount of compensation under the provisions contained in Section 32 or Section 35, he shall pronounce his decision, and the Collector or the person interested (as the case may be) may appeal therefrom to the Court of the District Judge.

Determination of proportions.

38. When the amount of compensation has been settled by the Court, under the provisions contained in Section 32 or Section 35, and there is any dispute as to the apportionment thereof, or when a reference to the Court has been made, the Judge sitting alone shall decide the proportions in which the persons interested are entitled to share in such amount.

Every appeal under the two last preceding sections shall be presented within the time and in manner provided by the Code of Civil Procedure for regular appeals in suits.

Payment of compensation to whom made.

39. Payment of the compensation shall be made by the Collector according to the award to the persons named therein, or in the case of an appeal according to the decision on such appeal. Provided that nothing herein contained shall affect the liability of any person who may receive the whole or any part of any compensation awarded under this Act, to pay the same to the person lawfully entitled thereto.

Land, &c., taken possession of to vest in Secretary of State.

40. All land, earth, pathways, sluices, gates, bermes, hedges, belonging to or forming part of any embankment or watercourse, of which charge has been or may hereafter be taken by the officers of Government, shall vest in the Secretary of State for India, and shall be held by him on behalf of the Government in respect of the embankments mentioned in Schedule E annexed to this Act, and in respect of other works on behalf of the persons interested in the lands to be protected or benefited by such embankment or watercourse, subject to the provisions of Section 69; and all monies received on account of such lands shall be payable to the Engineer and credited to the cost of the construction and maintenance of such works respectively.

PART VI.

COST OF WORKS, PROCEEDINGS, &c.

1. *Ascertainment thereof.*

Embankments in schedule E.

41. The provisions in this Part contained shall not apply to any of the embankments mentioned in Schedule (E) to this Act annexed, save so far as any works or repairs are executed therein or in relation thereto under the provisions of Sections 10 and 13 of this Act respectively. All sums payable in respect of any works or repairs executed therein or in relation thereto, except under the provisions of the said sections respectively, shall be paid by the local Government. If at any time after the passing of this Act the Collector, on enquiry made by him as far as possible in accordance with the provisions of Part III of this Act, shall find that it is unnecessary for the public interests to retain any embankment mentioned in Schedule (E), the Lieutenant-Governor may direct that the same shall be no longer included in the said schedule. Provided that the same shall be restored to the said schedule if on any subsequent enquiry similarly conducted it shall be found necessary so to do.

Alteration of schedule.

Estimate and specifications to be prepared.

42. Specifications of any works or repairs to be executed under the provisions of this Act, and estimates of the expenses to be incurred therein or relating thereto, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer as soon after the month of October in each year as may be practicable. And whenever it appears that the actual expenses to be incurred will exceed the amount mentioned in the said estimates by one-tenth, the Engineer shall forthwith prepare further estimates, and, if necessary, further specifications. Copies of all specifications and estimates shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs. Notice of the receipt of specifications and estimates shall be served for all estates chargeable for or likely to be affected by the said works or repairs; and should any objection in regard to the amount of such expenses be preferred by any such person within a period of one month from the date of such notice, the Collector shall communicate the objection, with his own opinion thereupon, to the Engineer, who shall pass such orders as may appear to him reasonable and proper. Such order shall be subject in any case to an appeal by the person making such objection, and to a reference by the Collector, to the Commissioner whose decision shall be final.

Preparation and settlement of accounts.

43. The accounts of the actual expense incurred in executing any works or repairs shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the true amount of all such expenses and the names of the estates chargeable for and of the estates and villages affected by the said works and repairs. Copies of the said accounts and certificates shall be forwarded to the office of the Collector, and may be there examined by any person interested. Notice of the receipt thereof shall be served for the said estates and villages and such others as in the opinion of the Collector are liable to contribute to the payment of the said amount; and if, within thirty days from the service of such notice, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates, the Collector shall enquire into such objection, and may pass any order thereon subject in any case to an appeal by the objector or to a reference

by the Engineer to the Commissioner of division whose decision shall be final.

Total sum payable.

44. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of compensation, costs and expenses under and incidental to any proceedings taken or directed to be taken under Parts III and V of this Act, including costs of all surveys and plans. He shall thereupon make an order specifying the total sum found payable, and in respect of works done under Sections 9, 12, and 13, the persons by whom, or in respect of other works the estates in respect of which, the same is payable to him. Provided that the Collector may, if he thinks fit, order that a portion of the total sum payable shall be paid by any municipality of the first or second class which is in his opinion benefited or protected by the works or repairs executed. If the order is made in respect of work done under Sections 9, 12, or 13, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next chapter contained. Interest may be charged upon any sum paid as compensation from the date of payment thereof at such rate, not exceeding 5 per cent per annum, as the Lieutenant-Governor may direct.

Parties liable to pay.

45. The said total sum, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed, Provided that where any specific sum has hitherto been annually demanded in respect of any embankment not included in Schedule E, and when the said embankment is at the time of this Act coming into operation being maintained by Government, then such special payments shall, after the passing of this Act, thenceforth cease and determine.

Every zemindar, who is liable under this rule for the payment of the whole or a portion of such total sum, shall be entitled to recover from the proprietor of every tenure which is declared to be a part of his estate, the sum apportioned to such tenure by the Collector, under the provisions of Section 50. And similarly, every proprietor shall be entitled to recover from the proprietor of any subordinate tenure, which is declared to be a part of his tenure, the sum apportioned to such subordinate tenure by the Collector, under the said provisions.

2. *Apportionment thereof.*

Notice to be given before apportionment.

46. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause a notice to be served for every one of the said estates and villages mentioned in Section 43. Every such notice shall specify the estates and villages aforesaid, and that an enquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and proprietors the said total sum, with interest and the costs of apportionment.

Whenever it has been ordered by the Collector that a municipality is liable for a portion of the said total sum, the notice shall contain a statement to that effect, and shall be served on the Chairman of the municipality.

Mode of enquiry as to the proportion chargeable to each estate.

47. On the day fixed in the said notice, which shall not be less than thirty days later than the date of any service of such notice, the Collector shall proceed to make the said enquiry. In making this enquiry he shall receive such evidence as may be tendered by, or on behalf of, the said zemindars and proprietors, and by, or on behalf of, any other persons who may claim to be interested therein.

Names of proprietors.

48. In any such enquiry the Collector shall take down in writing the names of all persons who may claim, or who may be alleged by any party interested, to be proprietors of tenures within any of the estates mentioned in such notice. In default of appearance of any such person, the Collector shall issue and serve a notice calling on him to appear at a date and place therein mentioned, and to show cause against being included in the order of apportionment to be made therein, and shall adjourn the enquiry till such date.

Apportionment amongst zemindars.

49. At such or any subsequently adjourned enquiry, the Collector, if there be only one estate liable, shall charge the zemindar thereof with the total amount payable; and if there be two or more estates, he shall apportion the same amongst the zemindars thereof, rateably in the proportion of the respective benefits derived by such estates from such works or repairs; or in proportion of the areas of the lands benefited or protected thereby, and comprised within such estates respectively; or with the sanction of the local Government in proportion to the amount of revenue respectively payable for such estates, if, before the passing of this Act such proportion has been usually adopted.

Provided that the said total amount payable in respect of the embankments on the right bank of the river Gunduk shall be chargeable, in accordance with the custom in force for such estates, to the zemindars of all the estates situated in the district of Sarun, in proportion to the amount of revenue respectively payable for such estates.

Amongst proprietors.

50. The Collector shall, in like manner, apportion, except in respect of the said Gunduk embankments, the amount payable in respect of each estate amongst all the tenures therein, rateably in the proportion of benefit so received or area so benefited or protected, first deducting therefrom such sum as on the like principle of proportion is payable in respect of such portion of the estate as is not included within any tenure.

51. The Collector shall likewise determine the amount payable in respect of any municipality rateably in proportion to the benefit derived by it from the work or repair executed, and the remaining sum shall be apportioned as directed in the two last preceding sections. Provided that no rate-payer in such municipality shall be required to pay any portion of such remaining sum in respect of any tenure which is situated within the limits of such municipality.

52. All lands held without payment of rent, not being estates entered in the register of revenue-free tenures, shall, for the purposes of this Act, be deemed to form a part of the tenure within the local boundaries of which they are included; and, if they are not included within the local boundaries of any tenure, then to be a part of the estate within the local boundaries of which they are included; and, if they are not included within the local boundaries of any estate, then to be a part of such conterminous estate as the Collector, in whose district such conterminous estate is situated, shall, by an order under his seal and signature, declare.

Payable by instalments.

53. The amount apportioned to any estate, tenure, or municipality shall be payable in equal instalments on such days as the Lieutenant-Governor shall direct, provided that no instalment shall exceed four annas for every acre of land in respect of which the same is payable, and that not more than four instalments shall be payable in any one year. And provided also in the case of a municipality that the instalment payable in any one year shall not exceed ten rupees per centum of the total income of such municipality during the year last preceding.

Interest.

Interest shall be charged on the unpaid portion of the said amount from the date of the same becoming due until payment thereof at such rate, not exceeding five per cent. per annum, as the Lieutenant-Governor shall from time to time determine.

Final order of apportionment.

54. On the completion of the apportionment the Collector shall make an order specifying the estates and tenures, and the several sums payable in respect thereof, the instalments of such sums and the dates on which the same are payable.

3. *Recovery thereof.*

Orders for payment.

55. The Collector shall, within thirty days from the final order of apportionment, make and serve for every estate therein mentioned an order, stating the amount with interest due in respect thereof and that the same is payable to him, and the date or dates at which such amount or instalments thereof shall become payable to him.

Recovery from zemindars.

56. If such sum or any instalment thereof be not, pursuant to the said order, paid, the same with interest shall be recoverable as arrears of a demand under the provisions of Bengal Act VII of 1868 (*to make further provision for the recovery of arrears of land revenue and public demands recoverable as arrears of land revenue*).

From proprietors.

57. Every zemindar or proprietor to whom any sum or instalment thereof is payable under the said order, may recover the same with interest as aforesaid in the manner provided for the recovery of arrears of rent in respect of putnee tenures by the provisions of clauses 2 and 3 of Section 8, Sections 9, 10, 14, 15, and clauses 1, 2, and 3 of Section 17, of Regulation VIII of 1819, as amended by Bengal Act VIII of 1865; provided that the right or interest of any person holding from the proprietor of such tenure shall not be affected by any sale held under these provisions. A copy of the said order, certified under the name and seal of the Collector, shall be received in any suit for the recovery of the same as conclusive evidence that the amount was apportioned as therein mentioned, but shall not be evidence as to the existence of, or as to any right in the tenure to which the said amount has been apportioned.

It shall be lawful for the Commissioners of any municipality to pay to the Collector, on the dates fixed by the order passed under Section 54, the sum which is declared in such order to be payable in respect of such municipality; and for the purpose of realizing the amount so disbursed to increase the rate of any tax leviable therein.

PART VII.

58. Whoever wilfully obstructs any person duly authorized under this Act in removing or levelling any embankment, house, hut, or other building, or in the lawful exercise of any of the powers in this Act conferred, shall, in case such obstruction shall not amount to an offence within the provisions of the Indian Penal Code, be liable to imprisonment of either description for any period not exceeding six months, at the discretion of the Magistrate, or to fine not exceeding two hundred rupees, commutable, if not paid, to a period of imprisonment not exceeding six months, or to both.

Service.

63. Every proclamation, notice or order in and by this Act required to be served may, unless when otherwise provided, be served—

(1) by delivering a copy of the same to the person to whom it is directed, or on failure of such service by posting the said copy on some conspicuous part of the house in which the said person resides, or by delivering the said copy to any agent authorized to appear generally for the person to whom such proclamation, notice or order is directed; or

No proceedings to be impeached for want of form.

64. No proceedings under this Act shall be impeached or affected by reason of any mistake in the name of any person thereby rendered liable to pay any sum of money, or in the description of any estate or tenure or land in respect of which he is rendered liable to pay; provided the directions of this Act be in substance and effect complied with; and no proceedings under this Act shall for want of form be quashed or set aside in any Court of Justice.

65. All the powers and authorities vested in the Engineer by any of the sections of this Act, may be exercised by any officer of the Department of Public Works subordinate to him, not being of a grade lower than an Executive Engineer, in cases referred to him by the Engineer. Provided always that it shall be lawful for the Engineer to recall any case so referred and to proceed thereon, either adopting or not adopting any of the proceedings theretofore had thereon, as to him shall seem fit. Provided further, that all reports by such delegated officer shall be submitted to the Engineer before they shall be forwarded to the Collector or any other authority.

69. Whenever the maintenance of any public embankment, or the retention of any land appropriated to the purposes thereof, may no longer be required, and the permanent relinquishment of the same may be deemed expedient by the Engineer, such land shall be conveyed by the Collector to the proprietor of the land, within the limits of which it may be situated, on payment of the compensation, if any, which was paid for such land when the same was taken for the purpose of the embankment. If the proprietor of such lands refuse or neglect to pay such price within a reasonable time after demand, the same shall be sold by the Collector for such price as he can obtain for the same. Such medical officer shall ordinarily reside within ten miles from the lands on which the laborers are employed.

Hospital, medicines, &c., to be provided.

118. If from information or complaint or otherwise an inspector or assistant inspector has reason to suspect that any employer has omitted to provide properly and sufficiently for his laborers in accordance with the rules prescribed by the Lieutenant-Governor, he may proceed to investigate the facts and circumstances of the case at any place within his jurisdiction not more than ten miles from the lands of such employer; and, if he is vested with any of the powers of a magistrate, may take cognizance of the offence and dispose of the case without any complaint. On the receipt of such information from the inspector of laborers, or from any other source which he may deem reliable, the magistrate shall forthwith summon a committee to inquire whether such estate or portion of estate is unfit for the residence of laborers. Such committee shall consist of the magistrate, the inspector of laborers, the medical officer of the district, and one or more employers of imported laborers, when such persons are available. If the magistrate is unable to procure the service on such committee of any employer of imported laborers, he may, with the sanction of the commissioner of the division, appoint one or more persons whom he may deem qualified.

Magistrate to summon committee.

Such committee shall proceed, with as little delay as possible, to enquire into the condition of the estate or portion of estate to which the order appointing the committee has reference, and shall hear such evidence on the subject as the owner of the estate or portion of estate or the employer or inspector may desire to place before it; and if such committee, or the major part in number thereof, is of opinion that such estate or portion of estate is in a condition so insalubrious, or in such a situation as to be unfit for the residence of laborers, it shall record a finding to that effect; and the contract of every laborer who shall have contracted to serve on such estate shall thereupon be void as regards such estate or portion of estate as may be found unfit for the residence of laborers.

Any such order of the Lieutenant-Governor shall have the same effect as the finding of a committee as set forth in the last preceding section.

or if the average of three years exceeds 5 per cent.

Every employer who shall cause or permit any laborer to reside upon any such estate or portion of an estate as under the provisions of one of the two last preceding sections may have been found to be unfit for human habitation, shall be liable to fine. Provided always that in case it shall appear to the inspector that any such estate, or portion of an estate, or any part of such portion, has become fit for human habitation, he shall, with the sanction of the magistrate of the district, give under his hand a certificate of such fitness, and no employer shall be liable to fine by reason of his causing or permitting laborers to reside in any place respecting which such certificate of fitness shall have been given.

Penalty on employer permitting laborer to reside in locality declared to be unfit.

Chapter 14.—Offences committed by Laborers.

123. Any laborer, who voluntarily and without reasonable cause absents himself from his labor or neglects or refuses to labor as required by his employer, the labor so required being reasonable and proper may on conviction be sentenced to lose all claim to wages or allowances during the period of such absence, and also to forfeit to his employer a sum not exceeding four anas for each day during which such absence shall have continued; and in case such absence shall have exceeded seven days, or in case such laborer shall have been already convicted of the same offence within a period of three months, such laborer may be furthermore sentenced, at the request of the employer, to rigorous imprisonment for fourteen days.

Absenting himself, or neglecting, or refusing to labor.

Provided that ill-treatment of such laborer by his employer, or the neglect of the employer to fulfil any condition of the contract, may be deemed a reasonable cause for such absence or such neglect or refusal to labor.

Proviso in case of ill-treatment or breach of contract.

124. If any laborer deserts or attempts to desert from his employer's service, such employer or any other person acting in his behalf may, without first procuring a warrant, and without the assistance of any police officer (who, nevertheless, shall be bound to give such assistance if called upon to do so), apprehend such laborer wherever he may be found. Provided, nevertheless, that if such laborer be found in the service of another employer, he shall not be arrested without a warrant. Provided also that such employer or other person shall, within a reasonable time from the time of such apprehension, give the said laborer in charge at the nearest police station, and there enter the charge upon which he shall have apprehended such laborer.

Deserting may be apprehended without warrant.

Any laborer so given in charge shall be conveyed, without delay, to the nearest magistrate; and, if the place from which such laborer is charged with having deserted be within the jurisdiction of such magistrate, he shall himself adjudicate upon the charge; but if not, he shall forward the said laborer, under custody, to the magistrate within whose jurisdiction such place may be situated, who shall adjudicate upon such charge.

To be taken to nearest magistrate.

125. Every laborer who deserts from his employer's service shall be liable upon conviction to rigorous imprisonment which may extend to one month, and every laborer, who, after having been convicted of desertion, shall again desert from his employer's service, shall be liable to rigorous imprisonment for a period which may extend to two months; and every laborer who, after having been twice convicted of desertion, shall again desert, shall be liable to imprisonment which may extend to three months. Punishment.

126. On the expiry of any sentence of imprisonment for any offence under this Act, save as is provided in section 126, it shall be the duty of the magistrate to make over such laborer to any person appointed on the part of his employer to receive charge of him; and no conviction under this Act, or imprisonment under such conviction, shall, save as aforesaid, be held to operate as a release to any laborer from the terms of his contract. Provided, nevertheless, that the period of imprisonment shall in no case be prolonged by reason of there being no person present on the part of the employer to take charge of the laborer at the expiry of his sentence; but such laborer shall in that case be sent to the principal place of business of such employer, and the expense of such conveyance shall be levied from the employer in the manner provided in section 102.

Conviction not to operate as a release.

127. Whenever any laborer shall have actually suffered imprisonment amounting in the whole to six months for desertion from his employer's service, it shall be lawful for the inspector, and he is hereby required, at the written request of the employer, but not otherwise, to cancel the contract of such laborer; and every such cancellation shall be by the inspector certified on the back of the contract, and such laborer shall then be at liberty either to enter into a fresh contract with any employer or to return to the district from which he was recruited.

Contract may be cancelled for repeated desertion on the written request of the employer.

128. The employer, or any person authorized to act for the employer, of any laborer imprisoned for any offence under this Act, may apply to the magistrate, at any time previous to the expiry of such sentence, that such laborer be made over to him for the purpose of completing his contract; and the magistrate may, if he see good cause, make over or forward such laborer to his employer, and in that case the magistrate shall cancel the remainder of the sentence passed on him, and shall endorse on

Portion of sentence may be cancelled on application of employer.

the contract of such laborer a memorandum signed by him of such cancellation.

Expense of restoring deserting laborer to be paid by employer

129. Every employer who obtains an order for the deportation of any laborer who has deserted, shall pay the expense incurred in such deportation, and shall, before the order is issued, deposit with the magistrate such sum as such magistrate may in his discretion deem to be sufficient for defraying the expense of such deportation.

Time of unlawful absence or imprisonment to be excluded from contract period.

130. The duration of every unlawful absence from labor, of which any laborer may be convicted, and every sentence of imprisonment for any offence under this Act, shall be endorsed on the contract, at the time of its being passed, by the officer passing it; and no such period of imprisonment or unlawful absence so endorsed shall be reckoned as part of the term for which the laborer is bound to serve, but such term shall extend to such further period as shall be equivalent to the aggregate amount of the imprisonment and unlawful absence so endorsed.

Other person enticing away, harbouring, or employing laborer under contract.

131. Any person who knowingly entices away, harbours, or employs, or attempts to entice from his employment, any laborer, before such laborer shall have been lawfully released from his contract, shall be liable to a fine, the whole or any portion of which may be awarded to the employer of such laborer.

Chapter 15.—*Complaints made by Laborers.*

Employer to give notice to inspector if laborer wishes to complain of personal ill-usage or breach of contract.

132. If any laborer states to his employer, or to any person acting for such employer, that he desires to make a complaint to the inspector of laborers of personal ill-usage or breach of any provision of this Act on the part of such employer or other person, the person to whom such statement is made shall, within forty-eight hours, send notice thereof in writing to the inspector, and in default of so doing, such person shall be liable to fine.

Inspector how to proceed on receipt of notice, or if complaint is made to him,

or if he has reason to believe that there is ground for complaint.

133. Whenever any inspector of laborers receives such notice in writing as aforesaid, or whenever any complaint of personal ill-usage or breach of any provision of this Act as aforesaid, is made to him by any laborer against his employer or any person acting for such employer, or whenever the inspector has other reasonable grounds for believing that any such personal ill-usage or breach of any provision of this Act as aforesaid has been suffered by a laborer, such inspector shall forthwith, if the place in which such offence has been committed is not situated within the limits of his own authority, give notice thereof in writing to the inspector within the limits of whose authority such place is situated; and if such place be situated within the limits of his own authority, then such inspector shall, so soon as conveniently may be, proceed to some place not more than ten miles in a direct line from the principal place of business of such employer, and make full enquiry into the matter complained of.

Procedure.

Penalty for obstructing service of, or disobedience to, summons.

For the purposes of such enquiry the inspector may summon such laborer and any witnesses. If any employer, or other person acting for or under such employer, in any way wilfully obstructs the service of, or obedience to, such summons; or if the laborer or any witness summoned neglects to attend as required in such summons; he shall be punished as provided in chapter 10 of the Indian Penal Code.

If complaint is untrue or frivolous.

134. If, upon such enquiry made on the complaint of a laborer, the inspector is of opinion that the complaint is untrue or frivolous, he shall enter in his book the particulars of such complaint, and a short statement of the grounds of his opinion respecting it, and shall dismiss the complaint, and in such case shall endorse on the employer's copy of the contract of such complainant the number of days during which such complainant has been absent from work in consequence of such enquiry, and such number of days shall be added to the period of the contract of such complainant; and every such endorsement shall be conclusive evidence that such laborer has absented himself from his labor without sufficient cause during the number of days which shall be so endorsed.

If complaint is well founded.

135. If, upon enquiry as aforesaid, the inspector is of opinion that the complaint is well founded, he shall, if a magistrate, dispose of the case according to due course of law. If the inspector shall not be a magistrate, he shall without delay send the complainant and his witnesses to the nearest magistrate, and such magistrate shall thereupon dispose of the case in due course of law.

Recovery of arrears of wages.

Compensation may be given if arrear is for two months.

136. If, upon the complaint of any laborer, it is proved to the satisfaction of the magistrate that the wages of such laborer are in arrear to an amount exceeding the rate of such laborer's wages for one month, such magistrate shall award to such laborer the amount which shall appear to be then due to him; and if it is proved that the wages of such laborer are in arrear to an amount exceeding the total of such laborer's wages for two months, the magistrate shall award also, by way of compensation, such further sum, not exceeding that amount, as shall appear to the magistrate to be just; and in case of default, the magistrate shall levy the entire sum by distress and sale of the movable property belonging to or under the charge of the employer.

Contract may be declared cancelled, if employer is convicted of maltreatment by Session Court, or twice by magistrate;

or if wages are in arrear for four months;

137. If any employer, or any person placed in authority over any laborer by such employer, shall be convicted of any offence causing injury to the person or property of such laborer triable under the Code of Criminal Procedure by the Court of Session; or if any such employer, or other person as aforesaid, shall be twice convicted of any such offence against such laborer triable, under the said Code, by a magistrate; or if it shall be proved before a magistrate that the wages of such laborer are in arrear to an amount exceed-

ing the total of such laborer's wages for four months; or if a magistrate shall, on the report of the inspector and after due enquiry, upon oath, in the presence of the parties, be satisfied that any laborer has been compelled to perform any labor while he was unfit for it; or has been subjected to gross ill-usage by such employer, or any other person placed in authority over the laborer by such employer; it shall be lawful for the magistrate, if he think fit, on the application of the laborer, in each of such cases, to cancel the contract of such laborer, and to award to him compensation not exceeding thirty rupees, and every such cancelment shall be certified by the magistrate on the back of such contract.

or if gross ill-usage is proved.

Chapter 16.—*Determination of Contract.*

138. Every laborer who has completed the term of his contract, shall be forthwith entitled to appear before the inspector in order that the completion of his contract may be registered. If an employer detains such laborer after the completion of his contract, or fails to give notice of such completion to the inspector within one month after the date of such completion, such employer shall be liable to fine.

Laborer may appear before the inspector to register completion of contract.

Penalty if employer detains, or omits to report.

139. If any laborer is able and desirous to redeem the unexpired term of his contract of service by payment of a sum equivalent to the value thereof, such laborer may demand to be taken or allowed to go before the inspector of laborers within the local limits of whose authority he may be employed, and on his depositing such sum in the hands of such inspector, such inspector shall give notice to the employer that such laborer requires him within one week to show cause why the contract of such laborer should not be released; and, in case no sufficient cause should be shown, such inspector shall require the production of the contract of such laborer, and endorse thereon a certificate of release by purchase, and shall hold the sum in deposit on account of the employer of such laborer. If any employer, or other person authorized to act for the employer, shall neglect to comply with such demand as aforesaid, such employer, or other person as aforesaid, shall be liable to fine.

Power to redeem contract.

The value of the unexpired term of contract shall be deemed to be the aggregate amount of one rupee for every month of the unexpired portion of the first year, of three rupees for every such month of the second year, and of five rupees for every such month of the third year, of the original term of the laborer's engagement.

Value of unexpired term of contract.

140. Every laborer, the period of whose contract has expired, or who has redeemed his contract by purchase, or whose contract has been rescinded by the mutual assent of the parties thereto, shall be entitled to receive forthwith from the inspector a certificate of release in such form as may from time to time be prescribed by the Lieutenant-Governor.

Certificate to be given of determination of contract.

141. Every laborer, the term of whose contract has expired, or who has been legally released from his contract, whether such expiry or release has been certified as above required or not, shall be deemed to be wholly exempted from the provisions of this Part.

Laborer, whose contract period has expired, or who has been otherwise released, exempted from operation of this Part.

PART IV.—CONTRACTS MADE IN LABOR DISTRICT.

Chapter 17.—*Contracts made by time-expired Laborers and locally-engaged Servants.*

142. Any laborer whose contract has been so determined, or any other person in a labor district, may make a contract for labor with any employer, either in writing or orally. But no such contract shall be deemed valid for a longer period than three years; and no such contract, the period of which extends to six months, shall be deemed valid unless it has been registered before a magistrate in the manner prescribed in section 62 within three months from the date of its execution.

A fee not exceeding one rupee shall be payable for each such registration.

Any person in labor district may make contract for labor not exceeding three years.

Every contract for six months or more must be registered.

Chapter 18.—*Neglect of Work and Arrears of Wages.*

146. Any person, not being a laborer as defined in this Act, who has contracted with an employer to serve him for any period as a servant in husbandry, or a workman, or in any other manner, who voluntarily and without reasonable cause absents himself from his work during the continuance of his contract, or neglects or refuses to perform the service which he has contracted to perform, such service being reasonable and proper service, shall be punished with imprisonment of either description which may extend to a term not exceeding three months, or with fine which may extend to

All sums decreed under this section may be recovered in the same manner as fines may be recovered under section 307 of the Code of Criminal Procedure.

STATEMENT OF OBJECTS AND REASONS.

Experience has shown certain defects in the existing law which regulates the emigration of laborers to the tea-producing districts, Bengal Act II of 1870, The recruiters are not brought under sufficient control; the intention of the law is evaded by the removal of emigrants from the districts in which they are recruited without registration, and without the execution of any contract; the position of the time-expired laborer is obscurely defined; there is no provision which enables the Government to remove imported laborers from gardens in which the rate of mortality is very high; and the labor transport fund is unable to pay the cost of the establishment which is maintained for the supervision of emigration and the protection of imported laborers.

The rules affecting garden-sirdars are inconveniently mixed up in the Act with those which relate to contractors' recruiters; and the arrangement of it in Parts and Chapters will materially aid all persons concerned in the application of its provisions. Neither Act II of 1870 nor any other enactment provides a general law for the regulation of contracts of labor and service. The object of the Bill is to remedy these defects. In other respects it does not propose to make any material alteration in the present law.

All the provisions of the said section shall apply to Commissioners so elected.

Municipal Commissioners in places, to which the District Municipal Improvement Act is extended, may be authorized to elect their vice-chairman

2. The Lieutenant-Governor may delegate to the municipal commissioners appointed under the said District Municipal Improvement Act the power to elect one of themselves to be their vice-chairman, subject to the approval of the Lieutenant-Governor. THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations on the 8th March 1873, and was referred to a Select Committee who are to report thereon within a fortnight:—

A Bill to amend Section 9, *Act XI of* 1849, *and Section* 27, *Act XXI of* 1856.

WHEREAS it is expedient to amend Act XI of 1849 (*for securing the abkari revenue of Calcutta*), and Act XXI of 1856 (*to consolidate and amend the law relating to the abkari revenue in the Presidency of Fort William in Bengal*);

It is hereby enacted as follows:—

1. For section nine of the said Act XI of 1849 the following section shall be substituted:—

"9. Whenever a license shall be granted under this Act, the Collector shall be authorized to demand, in consideration of the privilege granted, such fee, tax, or duty as may from time to time be fixed with the sanction of the Board of Revenue; or a fee, tax, or duty adjusted or regulated in such manner and in accordance with such rules as the Board of Revenue may prescribe; and such fee, tax, or duty shall be specified in the license, and shall be payable in advance or at such periods as the said Board may direct."

Fee, tax, or duty payable for license.

2. For section twenty-seven of the said Act XXI of 1856 the following section shall be substituted:—

"27. Persons taking out licenses for the retail sale of spirituous and fermented liquors as aforesaid shall pay for every such license such fee, tax, or duty as may from time to time be fixed with the sanction of the Lieutenant-Governor; or a fee, tax, or duty adjusted or regulated in such manner and in accordance with such rules as the Lieutenant-Governor may prescribe; and such fee, tax, or duty shall be specified in the license, and shall be payable in advance or at such periods as the said Board may direct. Any sale of spirituous or fermented liquors as aforesaid in less quantity than two imperial gallons or one dozen of quart bottles shall be held to be a retail sale."

Fee, tax, or duty payable for retail license.

STATEMENT OF OBJECTS AND REASONS.

IN order to restrict the use of spirituous liquors, it is expedient to limit the number of licenses granted for the retail sale thereof, and to increase the fees; and with that view the Board of Revenue, who is entrusted with the supervision of the excise, has determined to put up such licenses to sale. The words of the present law, however, require the Board to fix the amount of fee or duty payable in all cases in Calcutta, and in the mofussil, whenever a license is taken for the retail sale of spirituous liquors made in the English method, fermented liquors manufactured at a licensed brewery, and spirituous and fermented liquors imported either by land or sea, and in such cases the system, of which the Government approves, cannot be introduced. In regard to spirits made by the native process of distillation, and to other fermented liquors, the law permits the Board to exercise a wider discretion; and the object of the Bill is to assimilate the provisions in all cases.

The 8th March 1873.

L. A. GOODEVE,

Offg. Asst. Secy to the Govt. of Bengal, Judicial and Legislative Departments.

[Third Publication.]

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations on the 8th March 1873, and was referred to a Select Committee who are to report thereon within a fortnight:—

A Bill to amend Act XI of 1849, *Act XXI of* 1856, *and Act XXIII of* 1860.

WHEREAS it is expedient to amend Act XI of 1849 (*for securing the abkari revenue of Calcutta*), Act XXI of 1856 (*to consolidate and amend the law relating to the abkari revenue in the Presidency of Fort William in Bengal*), and Act XXIII of 1860 (*to amend Act XXI of* 1856);

It is hereby enacted as follows:—

1. For section 33 of the said Act XXI of 1856 the following section shall be substituted:—

"33. The Board of Revenue may, with the sanction of the Lieutenant-Governor, from time to time prescribe rules, consistent with this Act,

Board may prescribe rules to regulate the supply of fermented liquors to licensed vendors; and the cultivation, preparation, storing, possession, purchase, and transport of intoxicating drugs.

for regulating the mode, and the quantities, in which tarce or puchwye or other fermented liquor shall be sold or supplied to licensed vendors of the same;

for restricting and supervising the cultivation of plants producing intoxicating drugs other than opium, and the preparation of the said drugs;

and for granting licenses or passes to persons cultivating, preparing, storing, possessing, purchasing, or transporting the said drugs.

All such rules shall be published in the *Calcutta Gazette*, and shall have effect as if they were contained in this Act.

Effect of rules.

Every person who wilfully or negligently refuses or neglects to obey, or contravenes any rule made by the Board of Revenue under the provisions of this section, shall be punished with fine which may extend to two hundred rupees"

Penalty.

2. For section fifty of the said Act XXI of 1856 the following section shall be substituted:—

"50. The provisions of the two last preceding sections, so far as they relate to the sale and possession of fermented liquors, shall not be held applicable to the sale and possession of taree, the produce of the date-tree, when supplied or used for the manufacture of goor or molasses;

Provisions of the two last preceding sections not to apply to sale or possession of taree used in making sugar; nor to the sale or possession of intoxicating drugs by persons licensed to cultivate, prepare, transport, store, or possess them.

and the provisions of the said sections relating to the sale and possession of intoxicating drugs shall not be held applicable to the sale or possession of ganjah or bhang or other intoxicating drug by any person, who is authorized under the rules made by the Board of Revenue to cultivate the plants which produce those drugs respectively, or to prepare, transport, store, or possess the same.

Nevertheless, whoever having cultivated any such plant sells or parts with it, or any preparation made therefrom, to any person other than a licensed vendor or a person duly authorized to purchase the same by pass or license from the Collector, or fails to account for any quantity of such plant or of any preparation thereof which shall have been stored in his possession, shall be punished with fine which may extend to five hundred rupees."

Penalty for sale or transfer to unlicensed persons.

3. For section three of the said Act XXIII of 1860 the following section shall be sub-tituted:—

"3. When any person is sentenced to pay any fine or forfeiture under the said Act XXI of 1856, the Magistrate shall be guided by the provisions of sections 67, 68, and 69 of the Indian Penal Code in awarding a period of imprisonment in default of payment thereof. Any sum so ordered to be paid shall be recoverable in the same manner as fines may be recovered under section 307 of the Code of Criminal Procedure, if the offence shall have been committed outside the limits of the town of Calcutta; and, if the offence shall have been committed within those limits, in the manner prescribed by any Act regulating the police of the town of Calcutta in force for the time being."

Imprisonment in default of payment of fine.

Recovery of fine.

4. All the provisions of the said Act XXI of 1856, which relate to puchwye, shall be deemed to relate also to any fermented liquor other than those referred to in section twenty-three of the said Act.

Provisions relating to puchwye relate to other fermented liquors.

5. The provisions of section four of the said Act XI of 1849 shall be deemed applicable to the manufacture and wholesale sale of spirituous and fermented liquors and intoxicating drugs.

Manufacture and wholesale sale of spirituous and fermented liquors.

6. For section seventy-four of the said Act XXI of 1856 the following section shall be substituted:—

"74. Every person who shall be imprisoned under the last preceding section, or on account of the non-payment of any sum forfeited under this Act, if the offence, of which he has been convicted, be one with respect to which the information of the Collector or an abkari officer is required by section 71, may be confined in the civil or in the criminal jail."

Imprisonment may be in the civil or criminal jail.

STATEMENT OF OBJECTS AND REASONS.

THE rules contained in Act XXI of 1856 are not sufficient to enable the Board of Revenue to restrict the cultivation of plants producing intoxicating drugs, or to regulate the use of such drugs. Section 33 empowers the Board to place the cultivation, preparation, and store of such drugs under supervision, but it does not provide any penalty for the infraction of rules which the Board may make with that object. By section 50 the cultivators of plants producing ganjah or bhang are expressly permitted, without a license, to sell those drugs to a licensed vendor, and to hold any quantity of them. If the cultivator stores the plant, or prepares and stores the drug, with the full knowledge of the excise officers, there is nothing in the law which prevents his disposal of it to other persons by gift or by ostensible gift; and he cannot be called to account or punished, if he alleges the next day that the whole of the plant or drug has been destroyed by insects or has disappeared. The object of the first two sections of the Bill is to empower the Board to exercise a more efficient supervision in such matters, and to provide a penalty for the surreptitious disposal of such drugs.

Act XXI of 1856, as amended by Act XXIII of 1860, does not provide for the enforcement of fines and forfeitures otherwise than by imprisonment. The object of section 3 of the Bill is to provide for the recovery of such penalties in the same manner in which similar penalties for other offences are levied by the Magistrate.

It has been found that the manufacture of various kinds of fermented liquors, such as "Sharbat Bahar," which is made from molasses and spices, and a wine made from the fruit of the jaman tree, is increasing. The Bill proposes to bring them under the same rules and restrictions as tari puchwye, and other fermented liquors.

Under the present law a wholesale dealer in spirituous and fermented liquors and intoxicating drugs is not compelled to take out a license in Calcutta. Such a license is required in the whole of the North-Western and Central Provinces, in the Punjab, in Oudh, and in all parts of the Lower Provinces except Calcutta. There appears to be no reason for this distinction, and the principle which underlies the requisition in other place is every where equally applicable. Section 5 of the Bill therefore proposes to prohibit the wholesale sale of such articles in Calcutta without a license.

Experience has shown that the imprisonment in the civil jail, of offenders against excise laws, is not sufficiently deterrent. In Calcutta all such offenders are imprisoned in the criminal jail, but the law of the mofussil authorizes imprisonment in the civil jail only. It may be admitted that it would be unjust in some cases to confine the offender among criminal convicts, but in other cases his detention in idleness in the company of insolvent debtors would alone be ineffectual. Section 6 of the Bill proposes to give to the Magistrate a discretion to confine the offender in the civil or criminal jail as the object of imprisonment in each case may seem to require.

F. L. BEAUFORT.

THE following Bill, leave for the introduction of which was given on the 22nd March 1873, is, by order of the President, published for general information :—

A Bill to provide for the Levy of a Lighting-rate in Howrah.

WHEREAS it is desirable to provide funds for lighting the town of Howrah with gas by levying a rate on those persons who benefit thereby ;

It is hereby enacted as follows :—

1. The expression "the town of Howrah" in this Act shall be taken to mean the area of the Howrah Municipality, as defined by the Lieutenant-Governor under the provisions of section 3 of the District Municipal Improvement Act.

Limits of the town of Howrah.

2. To provide for the lighting of the highways of the town of Howrah with gas, it shall be lawful for the municipal commissioners to assess upon the occupiers of all houses, buildings, and lands within the said town an annual lighting-rate not exceeding two per centum upon the annual value thereof. Such rate shall be payable quarterly in advance.

Lighting-rate not exceeding two per cent. may be assessed on occupiers of houses, buildings, and lands.

Payable quarterly in advance.

Provided that the said town shall be divided into such and so many districts, as the municipal commissioners shall think fit; and that the lighting rate shall be levied for each quarter in those districts only the highways of which are lighted by gas during any portion of such quarter.

Town to be divided into districts.

Rate to be levied in those districts only which are lighted by gas.

3. The annual value of such houses, buildings, and lands shall be the value fixed by the municipal commissioners year by year under the provisions of section 27 of the District Municipal Improvement Act. And all the provisions of the said Act relating to the assessement and levy of the rate on houses, buildings, and lands, shall be applicable to the assessment and levy of the lighting rate.

Annual valuation how to be made.

Assessment and levy.

4. The municipal commissioners shall cause the principal highways to be sufficiently lighted; and the sum applied annually to the current expenses of lighting the said highways shall not be less than the gross proceeds of the said lighting-rate; and the commissioners may expend out of the municipal fund such further sums as may from time to time be requisite for the current expenses of lighting, and for the purchase, setting up, and maintaining of lamps, lamp-posts, pipes, and other necessary apparatus.

Sum applied to lighting to be not less than the gross proceeds of the lighting-rate.

5. If any house, building, or land shall be occupied by more than one tenant holding in severalty, or shall be of less annual value than one hundred rupees, it shall be lawful for the municipal commissioners to assess the owner of such house, building, or land, and to recover from such owner the lighting-rate.

If more than one tenant holding in severalty, owner may be assessed.

Whenever any rate shall be recovered from, or paid by, any owner of any house, building, or land under the provisions of this section, it shall be lawful for such owner, if there shall be but one occupying tenant of such house, building, or land, to recover from such tenant the entire amount of the rate which shall have been so paid by such owner; and if there shall be more than one occupying tenant of such house, building, or land, to recover from each of such tenants such sum as shall bear to the entire amount of rate which may have been so paid by such owner the same proportion as the value of the portion of such house, building, or land in the occupation of such tenant bears to the entire value of such house, building, or land.

Owner may recover from the occupier,

(1) from several occupiers in proportion.

Every owner, who under the provisions of this section may be entitled to recover any sum from any occupying tenant of any house, building, or land, or of any portion thereof, shall have for the recovery of such sum all such and the same remedies, powers, rights, and authorities, as if such sum were rent payable to such owner by such tenant in respect of so much of such house, building, or land, as may be in the occupation of such tenant.

Owner may recover such amounts as rent.

6. Every occupier shall be liable to the lighting-rate for the time of his occupation. When any person shall have been an occupier for a part only of any quarter, the municipal commissioners shall charge him with only so much of the rate for that quarter as may be proportionate to the number of days during which he shall have continued to be an occupier. If the rate shall have been paid in advance, the proportionate amount paid in excess of the sum due under this section shall be refunded.

Occupier to be liable for time of occupation only.

Excess paid in advance to be refunded.

No such rate shall be chargeable to any person on account of any unoccupied house, building, or land, for the time during which it may remain unoccupied. Provided always that, when any person ceases to be the occupier of any house, building, or land, he shall give the commissioners notice thereof within seven days from the date of the cessation of his occupancy; or, if he fail to give such notice within such period, he shall be liable to the rate assessed on such house, building, or land for the whole quarter, although it may have been occupied for a part only of such quarter.

No rate to be charged during vacancy.

Notice of cessation of occupancy to be given in seven days;

otherwise liability will continue.

7. When the name of the owner or occupier of any house, building, or land, is not known, it shall be sufficient to designate him in any notice served or proceeding held under this Act as the owner or the occupier of the house, building, or land, on which the rate is assessed, and without further description.

Unknown owner or occupier how to be designated.

Situation of gas-pipe or other gas-work to be altered at the expense of the commissioners.

8. If the municipal commissioners deem it necessary for the purposes of this Act, to raise, sink, or otherwise alter, the situation of any gas-pipe, or other gas-work, laid in any of the highways, they may, from time to time, by notice in writing, require the person to whom any such pipe or work belongs, or under whose control it may be, to cause forthwith, or as soon as conveniently may be, any such pipe or work to be raised, sunk, or otherwise altered in position, in such manner as the commissioners may direct; provided that such alteration be not such as permanently to injure such works, or to prevent the gas from flowing as freely and conveniently as before, and all expenses attending such raising, sinking, or altering, and full compensation for the damage done thereby, shall be paid by the commissioners as well to the persons to whom such pipe or work belongs as to all other persons. And if any dispute shall arise touching the amount or apportionment of such compensation, the same shall be ascertained and determined by a Judge of the Court of Small Causes.

Construction.

Commencement of Act.

9. This Act shall be read with, and as part of, the District Municipal Improvement Act. It shall be deemed to have come into force on the first day of April 1873.

STATEMENT OF OBJECTS AND REASONS.

A portion of the town of Howrah is now lighted with gas, and the municipal commissioners desire to extend the benefit of it to the whole town. Under the District Municipal Improvement Act the commissioners are empowered to expend municipal money in lighting streets; but the rate leviable on real property cannot be raised above seven and a half per centum of its annual value, and it has been found that the proceeds of local taxation are not more than the amount required for drainage, roads, and conservancy. These objects must not be neglected for the sake of light; and the commissioners therefore desire to impose the same additional rate for lighting which is levied in Calcutta. The object of the Bill is to apply to Howrah the provisions of law which are now in force in Calcutta; but at the same time it provides that the additional rate shall be levied only in those sections of the town into which the gas shall have been introduced.

PART VI.

Bills of the Legislative Council of India.

Government of India.

LEGISLATIVE DEPARTMENT.

[First Publication.]

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 18th March 1873, and was referred to a Select Committee with instructions to make their report thereon in a week:—

No. 8 OF 1873.

A Bill to amend the law relating to Cargo-boats plying for hire within the Port of Calcutta.

Preamble.

WHEREAS, under the Consolidated Customs Act, [illegible] No. VI of 1863, section one hundred and sixty-two, the Chief Officer of Customs at the port of Calcutta is empowered to issue licenses for, and to make registration of, cargo-boats plying within the limits of such port, under the rules, and on payment of the fees, therein referred to: And whereas it is expedient to transfer such power from the said Chief Officer to the Conservator of the said port; It is hereby enacted as follows:—

Transfer of power to license and register cargo-boats.

1. The power hereinbefore recited shall henceforward be exercised by the Conservator of the Port of Calcutta in lieu of the Chief Officer of Customs of the said Port.

STATEMENT OF OBJECTS AND REASONS.

When the Government of Bengal proposed that three-fourths of the charge of the River Police should be paid out of port revenues, the Port Commissioners agreed on certain conditions, one being that the net proceeds realized from the registration of cargo and passenger-boats should be made over to them.

To this condition the Government of Bengal, with the concurrence of the Government of India, so far as the condition referred to cargo-boats, assented charges of registration being also transferred. At present the law requires that cargo-boats shall be registered by the Collector of Customs, and passenger-boats by the Commissioner of Police; but it is considered advisable to amalgamate the establishments employed upon these duties, and to place them under the Port Commissioners as Conservators of the Port of Calcutta. The object of the present Bill is simply to remove the legal difficulty in the way of the proposed amalgamation.
